Risk Factors relating to the Issuer and the Guarantor:

- The Group is reliant on the RBSG Group.
- The Group's businesses and performance can be negatively affected by actual or perceived global economic and financial market conditions.
- The Group has significant exposure to the continuing economic crisis in Europe.
- The Group operates in markets that are highly competitive and its business and results of operations may be adversely affected.
- The Group is subject to other global risks. By virtue of the Group's global presence, the Group is exposed to risks arising out of geopolitical events, such as the existence of trade barriers, the implementation of exchange controls and other measures taken by sovereign governments that can hinder economic or financial activity levels. Furthermore, unfavourable political, military or diplomatic events, armed conflict, pandemics and terrorist acts and threats, and the response to them by governments could also adversely affect levels of economic activity and have an adverse effect upon the Group's business, financial condition and results of operations.
- The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions.
- The financial performance of the Group has been, and continues to be, materially affected by deteriorations in borrower and counterparty credit quality and further deteriorations could arise due to prevailing economic and market conditions, and legal and regulatory developments.
- Changes in interest rates, foreign exchange rates, credit spreads, bond, equity and commodity prices,

basis, volatility and correlation risks and other market factors have significantly affected and will continue to affect the Group's business and results of operations.

- The Group's ability to meet its obligations including its funding commitments depends on the Group's ability to access sources of liquidity and funding.
- The Group's business performance could be adversely affected if its capital is not managed effectively or as a result of changes to capital adequacy and liquidity requirements.
- The Group's borrowing costs, its access to the debt capital markets and its liquidity depend significantly on its credit ratings.
- The regulatory capital treatment of certain deferred tax assets recognised by the Group depends on there being no adverse changes to regulatory requirements.
- An extensive restructuring and balance sheet reduction programme of the RBSG Group is ongoing and may adversely affect the Group's business, results of operations, financial condition, capital ratio and liquidity.
- The execution and/or any delay in the execution (or non-completion) of the approved transfers of a substantial part of the business activities of the Issuer to RBS may have a material adverse effect on the Group.
- As a condition to the RBSG Group receiving HM Treasury support, the Group was prohibited from making discretionary coupon payments on, and exercising call options in relation to, certain of its existing hybrid capital instruments. If the Group becomes subject to such restrictions again in the future, this may impair the Group's ability to raise new capital through the issuance of securities.
- Each of the Group's businesses is subject to substantial regulation and oversight. Significant regulatory developments and changes in the approach

of the Group's key regulators could have a material adverse effect on how the Group conducts its business and on its results of operations and financial condition.

- The Group is subject to a number of legal and regulatory actions and investigations. Unfavourable outcomes in such actions and investigations could have a material adverse effect on the Group's operating results or reputation.
- The value of certain financial instruments recorded at fair value is determined using financial models incorporating assumptions, judgements and estimates that may change over time or may ultimately not turn out to be accurate.
- The recoverability of certain deferred tax assets recognised by the Group depends on the Group's ability to generate sufficient future taxable profits and there being no adverse changes to tax legislation or accounting standards.
- Operational risks are inherent in the Group's businesses.
- The Group's operations are highly dependent on its information technology systems.
- The Group may suffer losses due to employee misconduct.
- The Group's operations have inherent reputational risk.
- The Group could fail to attract or retain senior management, which may include members of the Group's Supervisory Board and Managing Board, or other key employees, and it may suffer losses if it does not maintain good employee relations.
- The legal demerger of ABN AMRO Bank N.V. (as it was then named) has resulted in a cross liability that changes the legal recourse available to investors.

Since the Group is reliant on the RBSG Group, risk factors which relate to RBSG or the RBSG Group will also be of relevance to prospective investors:

- The RBSG Group's businesses and performance can be negatively affected by actual or perceived global economic and financial market conditions.
- The RBSG Group has significant exposure to the continuing economic crisis in Europe.
- The RBSG Group operates in markets that are highly competitive and its business and results of operations may be adversely affected.
- The RBSG Group is subject to political risks. Although the effect of either a potential Scottish independence from the United Kingdom or any referendum on the United Kingdom's EU membership, if either were to occur, is not possible to predict fully, it could have a material adverse effect on the RBSG Group's business, financial condition, results of operations and prospects.
- The RBSG Group and its UK bank subsidiaries may face the risk of full nationalisation.
- Her Majesty's Treasury ("**HM Treasury**") (or UK Financial Investments Limited (UKFI) on its behalf) may be able to exercise a significant degree of influence over the RBSG Group and any proposed offer or sale of its interests may affect the price of securities issued by the RBSG Group.
- The RBSG Group is subject to other global risks. By virtue of the RBSG Group's global presence, the Group is exposed to risks arising out of geopolitical events, such as the existence of trade barriers, the implementation of exchange controls and other measures taken by sovereign governments that can hinder economic or financial activity levels. Furthermore, unfavourable political, military or diplomatic events, armed conflict, pandemics and terrorist acts and threats, and the response to them by governments could also adversely affect levels of economic activity and have an adverse effect upon the RBSG Group's business, financial condition and

results of operations.

- The RBSG Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions.
- The financial performance of the RBSG Group has been, and continues to be, materially affected by deteriorations in borrower and counterparty credit quality and further deteriorations could arise due to prevailing economic and market conditions and legal and regulatory developments.
- The value or effectiveness of any credit protection that the RBSG Group has purchased depends on the value of the underlying assets and the financial condition of the insurers and counterparties.
- Changes in interest rates, foreign exchange rates, credit spreads, bond, equity and commodity prices, basis, volatility and correlation risks and other market factors have significantly affected and will continue to affect the RBSG Group's business and results of operations.
- In the UK and in other jurisdictions, the RBSG Group is responsible for contributing to compensation schemes in respect of banks and other authorised financial services firms that are unable to meet their obligations to customers.
- The RBSG Group may be required to make further contributions to its pension schemes if the value of pension fund assets is not sufficient to cover potential obligations.
- The RBSG Group's ability to meet its obligations including its funding commitments depends on the RBSG Group's ability to access sources of liquidity and funding.
- The RBSG Group's business performance could be adversely affected if its capital is not managed

effectively or as a result of changes to capital adequacy and liquidity requirements.

- The RBSG Group's borrowing costs, its access to the debt capital markets and its liquidity depend significantly on its and the UK Government's credit ratings.
- If the RBSG Group is unable to issue the contingent B shares to HM Treasury, it may have a material adverse impact on the RBSG Group's capital position, liquidity, operating results and future prospects.
- The regulatory capital treatment of certain deferred tax assets recognised by the RBSG Group depends on there being no adverse changes to regulatory requirements.
- The RBSG Group's ability to implement its strategic plan depends on the success of the RBSG Group's refocus on its core strengths and its balance sheet reduction programme.
- The RBSG Group is subject to a variety of risks as a result of implementing the state aid restructuring plan.
- Each of the RBSG Group's businesses is subject to substantial regulation and oversight. Significant regulatory developments and changes in the approach of the RBSG Group's key regulators could have a material adverse effect on how the RBSG Group conducts its business and on its results of operations and financial condition.
- The RBSG Group is subject to resolution procedures under current and proposed resolution and recovery schemes which may result in various actions being taken in relation to any securities of the RBSG Group, including the write off, write-down or conversion of the RBSG Group's securities.
- The RBSG Group is subject to a number of regulatory initiatives which may adversely affect its business. The Independent Commission on Banking's final report on competition and possible structural reforms in the UK

banking industry has been adopted by the UK Government which intends to implement the recommendations substantially as proposed. In addition, other proposals to ring fence certain business activities and the US Federal Reserve's proposal for applying US capital, liquidity and enhanced prudential standards to certain of the RBSG Group's US operations together with the UK reforms could require structural changes to the RBSG Group's business. Any of these changes could have a material adverse effect on the RBSG Group.

- The RBSG Group is subject to a number of legal and regulatory actions and investigations. Unfavourable outcomes in such actions and investigations could have a material adverse effect on the RBSG Group's operating results or reputation.
- The value of certain financial instruments recorded at fair value is determined using financial models incorporating assumptions, judgements and estimates that may change over time or may ultimately not turn out to be accurate.
- The RBSG Group's results could be adversely affected in the event of goodwill impairment.
- The recoverability of certain deferred tax assets recognised by the RBSG Group depends on the RBSG Group's ability to generate sufficient future taxable profits.
- Operational risks are inherent in the RBSG Group's businesses.
- The RBSG Group's operations are highly dependent on its information technology systems.
- The RBSG Group may suffer losses due to employee misconduct.
- The RBSG Group's operations have inherent reputational risk.
- The RBSG Group could fail to attract or retain senior

management, which may include members of the Board, or other key employees, and it may suffer if it does not maintain good employee relations.

Risk Factors relating to RBS:

RBS is a principal operating subsidiary of RBSG and accounts for a substantial proportion of the consolidated assets, liabilities and operating profits of RBSG. Accordingly, risk factors below which relate to RBSG and the RBSG Group will also be of relevance to RBS and the RBS Group.

- The RBSG Group has significant exposure to the continuing economic crisis in Europe.
- The RBSG Group operates in markets that are highly competitive and its business and results of operations may be adversely affected.
- The RBSG Group is subject to political risks. Although the effect of either a potential Scottish independence from the United Kingdom or any referendum on the United Kingdom's EU membership, if either were to occur, is not possible to predict fully, it could have a material adverse effect on the RBSG Group's business, financial condition, results of operations and prospects.
- The RBSG Group and its United Kingdom bank subsidiaries may face the risk of full nationalisation.
- Her Majesty's Treasury ("**HM Treasury**") (or UK Financial Investments Limited (UKFI) on its behalf) may be able to exercise a significant degree of influence over the RBSG Group and any proposed offer or sale of its interests may affect the price of securities issued by the RBSG Group.
- The RBSG Group is subject to other global risks. By virtue of the RBSG Group's global presence, the Group is exposed to risks arising out of geopolitical events, such as the existence of trade barriers, the implementation of exchange controls and other

measures taken by sovereign governments that can hinder economic or financial activity levels. Furthermore, unfavourable political, military or diplomatic events, armed conflict, pandemics and terrorist acts and threats, and the response to them by governments could also adversely affect levels of economic activity and have an adverse effect upon the RBSG Group's business, financial condition and results of operations.

- The RBSG Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions.
- The financial performance of the RBSG Group has been, and continues to be, materially affected by deteriorations in borrower and counterparty credit quality and further deteriorations could arise due to prevailing economic and market conditions, and legal and regulatory developments.
- The value or effectiveness of any credit protection that the RBSG Group has purchased depends on the value of the underlying assets and the financial condition of the insurers and counterparties.
- Changes in interest rates, foreign exchange rates, credit spreads, bond, equity and commodity prices, basis, volatility and correlation risks and other market factors have significantly affected and will continue to affect the RBSG Group's business and results of operations.
- In the United Kingdom and in other jurisdictions, the RBSG Group is responsible for contributing to compensation schemes in respect of banks and other authorised financial services firms that are unable to meet their obligations to customers.
- The RBSG Group may be required to make further contributions to its pension schemes if the value of pension fund assets is not sufficient to cover potential

obligations.

- The RBSG Group's ability to meet its obligations including its funding commitments depends on the RBSG Group's ability to access sources of liquidity and funding.
- The RBSG Group's business performance could be adversely affected if its capital is not managed effectively or as a result of changes to capital adequacy and liquidity requirements.
- The RBSG Group's borrowing costs, its access to the debt capital markets and its liquidity depend significantly on its and the United Kingdom Government's credit ratings.
- If the RBSG Group is unable to issue the contingent B shares to HM Treasury, it may have a material adverse impact on the RBSG Group's capital position, liquidity, operating results and future prospects.
- The regulatory capital treatment of certain deferred tax assets recognised by the RBSG Group depends on there being no adverse changes to regulatory requirements.
- The RBSG Group's ability to implement its strategic plan depends on the success of the RBSG Group's refocus on its core strengths and its balance sheet reduction programme.
- The RBSG Group is subject to a variety of risks as a result of implementing the state aid restructuring plan.
- Each of the RBSG Group's businesses is subject to substantial regulation and oversight. Significant regulatory developments and changes in the RBSG Group's key regulators could have a material adverse effect on how the RBSG Group conducts its business and on its results of operations and financial condition.
- The RBSG Group is subject to resolution procedures under current and proposed resolution and recovery schemes which may result in various actions being

taken in relation to any securities of the RBSG Group, including the write off, write-down or conversion of the RBSG Groups' securities.

- The RBSG Group is subject to a number of regulatory initiatives which may adversely affect its business. The Independent Commission on Banking's final report on competition and possible structural reforms in the UK banking industry has been adopted by the UK Government which intends to implement the recommendations substantially as proposed. In addition, other proposals to ring fence certain business activities and the US Federal Reserve's proposal for applying US capital, liquidity and enhanced prudential standards to certain of the RBSG Group's US operations together with the UK reforms could require structural changes to the RBSG Group's business. Any of these changes could have a material adverse effect on the RBSG Group.
- The RBSG Group is subject to a number of legal and regulatory actions and investigations. Unfavourable outcomes in such actions and investigations could have a material adverse effect on the RBSG Group's operating results or reputation.

- The recoverability of certain deferred tax assets recognised by the RBSG Group depends on the RBSG Group's ability to generate sufficient future taxable profits.
- Operational risks are inherent in the RBSG Group's businesses.
- The RBSG Group's operations are highly dependent

on its information technology systems.

- The RBSG Group may suffer losses due to employee misconduct.

Risikofaktoren in Bezug auf die Emittentin und die Garantin:

- Die Gruppe ist abhängig von der RBSG Gruppe.
- Die Geschäfte und die Entwicklung der Gruppe können durch die tatsächlichen oder vermuteten weltweiten wirtschaftlichen und finanziellen Marktbedingungen beeinträchtigt werden.
- Die Gruppe ist in wesentlichem Maße Risiken aus der anhaltenden Wirtschaftskrise in Europa ausgesetzt.
- Die Gruppe ist in sehr wettbewerbsintensiven Märkten tätig, und ihr Geschäft sowie ihr Betriebsergebnis können beeinträchtigt werden.
- Die Gruppe unterliegt weiteren globalen Risiken. Durch die weltweite Präsenz der Gruppe ist sie Risiken aus geopolitischen Ereignissen ausgesetzt, wie z.B. bestehenden Handelsbeschränkungen, der Einrichtung von Devisenkontrollen sowie weiteren Maßnahmen souveräner Staaten, die Wirtschafts- oder Finanzaktivitäten behindern können. Darüber hinaus können nachteilige politische, militärische oder diplomatische Ereignisse, bewaffnete Konflikte, übergreifende Epidemien sowie terroristische Handlungen und Bedrohungen und die daraus resultierenden staatlichen Maßnahmen Wirtschaftsaktivitäten beeinträchtigen und nachteilige Auswirkungen auf das Geschäft, die Finanzlage und das Betriebsergebnis der Gruppe haben.
- Die Ertrags- und Finanzlage der Gruppe wurde durch die sich aus dem schwachen Marktumfeld ergebende niedrige Vermögensbewertung erheblich beeinträchtigt und kann dadurch weiter erheblich beeinträchtigt werden.
- Die finanzielle Entwicklung der Gruppe wurde und wird weiter durch die Verschlechterung der Kreditwürdigkeit von Schuldern und Geschäftspartnern erheblich

beeinträchtigt, und weitere Verschlechterungen könnten durch die vorherrschenden Wirtschafts- und Marktverhältnisse sowie rechtliche und regulatorische Entwicklungen eintreten.

- Änderungen von Zinssätzen, Wechselkursen, Credit Spreads, Anleihe-, Aktien- und Rohstoffpreisen, Basis-, Volatilitäts- und Korrelationsrisiken und weitere Marktfaktoren haben das Geschäft sowie das Betriebsergebnis der Gruppe wesentlich beeinträchtigt und werden sie weiter beeinträchtigen.
- Die Fähigkeit der Gruppe, ihre Verpflichtungen, einschließlich ihrer Refinanzierungsanforderungen, zu erfüllen, hängt von der Fähigkeit der Gruppe ab, Zugang zu Liquidität und Refinanzierungsmöglichkeiten zu erhalten.
- Die Geschäftsentwicklung der Gruppe kann beeinträchtigt werden, wenn ihr Kapital nicht effizient verwaltet wird oder wenn Kapitaladäquanz- und Liquiditätsanforderungen geändert werden.
- Die Fremdfinanzierungskosten der Gruppe, ihr Zugang zu den Anleihekapitalmärkten sowie ihre Liquidität hängen entscheidend von dem Kreditrating der Gruppe ab.
- Die aufsichtsrechtliche Eigenmittelbehandlung bestimmter von der Gruppe berücksichtigter latenter Steueransprüche hängt davon ab, dass sich aufsichtsrechtliche Anforderungen nicht in nachteiliger Weise ändern.
- Ein umfangreiches Restrukturierungsprogramm und eine Reduzierung der Bilanz der RBSG Gruppe ist noch nicht abgeschlossen und kann sich negativ auf die Geschäftsentwicklung der Gruppe, die Finanz- und Ertragslage, die finanziellen Verhältnisse, die Eigenkapitalquote und die Liquidität auswirken.
- Die Ausführung und/oder jegliche Verzögerung in der Ausführung (oder Nicht-Fertigstellung) der genehmigten Übertragung eines wesentlichen Teils der

Geschäftstätigkeit der Emittentin auf die RBS kann eine wesentliche nachteilige Auswirkung auf die Gruppe haben.

- Um die Unterstützung des britischen Schatzamts (HM Treasury) für die RBSG Gruppe zu erhalten, war es der Gruppe untersagt, in ihrem Ermessen stehende Zahlungen auf Coupons zu leisten und Ankaufsoptionen in Bezug auf bestimmte bestehende hybride Kapitalinstrumente der Gruppe auszuüben. Falls der Gruppe zukünftig erneut solche Beschränkungen auferlegt werden, kann dies die Fähigkeit der Gruppe zur Aufnahme neuen Kapitals durch die Ausgabe von Wertpapieren beeinträchtigen.
- Alle Geschäftsbereiche der Gruppe sind starkem Maße reguliert und beaufsichtigt. - Das britische Schatzamt (*HM Treasury*) (bzw. die UK Financial Investments Limited (UKFI) als Vertreter) kann einen wesentlichen Einfluss auf die RBSG Gruppe ausüben, und ein eventuelles Angebot bzw. eine eventuelle Veräußerung seiner Beteiligung kann den Preis der Wertpapiere der RBSG Gruppe beeinträchtigen.
- Die RBSG Gruppe unterliegt weiteren globalen Risiken. Durch die weltweite Präsenz der RBSG Gruppe ist sie Risiken aus geopolitischen Ereignissen ausgesetzt, wie z.B. bestehenden Handelsbeschränkungen, der Einrichtung von Devisenkontrollen sowie weiteren Maßnahmen souveräner Staaten, die Wirtschafts- oder Finanzaktivitäten behindern können. Verschlechterungen könnten durch die vorherrschenden Wirtschafts- und Marktverhältnisse sowie rechtliche und regulatorische Entwicklungen eintreten.

- Der Wert und die Wirksamkeit von Kreditabsicherungen, die die RBSG Gruppe gekauft hat, hängt von dem Wert der zugrunde liegenden Vermögenswerte sowie von der Finanzlage der Versicherer und Geschäftspartner ab.

- Die Geschäftsentwicklung der RBSG Gruppe kann beeinträchtigt werden, wenn ihr Kapital nicht effizient verwaltet wird oder wenn Kapitaladäquanz- und Liquiditätsanforderungen geändert werden.
- Die Fremdfinanzierungskosten der RBSG Gruppe, ihr Zugang zu den Anleihekapitalmärkten sowie ihre

Liquidität hängen entscheidend von dem Kreditrating der RBSG Gruppe sowie von dem Kreditrating des britischen Staates ab.

- Falls die RBSG Gruppe keine bedingten B-Aktien an das britische Schatzamt ausgeben kann, kann dies die Kapitalsituation, die Liquidität, das Betriebsergebnis und die zukünftigen Aussichten der RBSG Gruppe beeinträchtigen.
- Die aufsichtsrechtliche Eigenmittelbehandlung bestimmter von der RBSG Gruppe berücksichtigter latenter Steueransprüche hängt davon ab, dass sich aufsichtsrechtliche Anforderungen nicht in nachteiliger Weise ändern.

Die Regierung beabsichtigt, die darin enthaltenen Empfehlungen im Wesentlichen umzusetzen. Daneben könnten weitere Initiativen, bestimmte Geschäftsaktivitäten abzuschirmen sowie das Vorhaben der US-amerikanischen Zentralbank (*Federal Reserve*), auf Teile der US-amerikanischen Geschäftsaktivitäten der RBSG Gruppe die US-Anforderungen im Hinblick auf Kapitalausstattung, Liquidität und erweiterte Aufsicht anzuwenden, zusammen mit den Reformen im Vereinigten Königreich strukturelle Veränderungen im Geschäft der RBSG Gruppe erforderlich machen. Solche Veränderungen könnten wesentliche nachteilige Auswirkungen auf die RBSG Gruppe haben.
- Die RBSG Gruppe ist verschiedenen Klagen, aufsichtsrechtlichen Verfahren und Untersuchungen ausgesetzt. Nachteilige Entscheidungen im Rahmen dieser Klagen, Verfahren und Untersuchungen können die operativen Ergebnisse und die Reputation der RBSG Gruppe wesentlich beeinträchtigen.

- Die RBSG Gruppe unterliegt weiteren globalen Risiken. Durch die weltweite Präsenz der RBSG Gruppe ist sie Risiken aus geopolitischen Ereignissen ausgesetzt, wie z.B. bestehenden Handelsbeschränkungen, der Einrichtung von Devisenkontrollen sowie weiteren Maßnahmen souveräner Staaten, die Wirtschafts- oder Finanzaktivitäten behindern können. Darüber hinaus können nachteilige politische, militärische oder diplomatische Ereignisse, bewaffnete Konflikte, übergreifende Epidemien sowie terroristische Handlungen und Bedrohungen und die daraus resultierenden staatlichen Maßnahmen Wirtschaftsaktivitäten beeinträchtigen und nachteilige Auswirkungen auf das Geschäft, die Finanzlage und das Betriebsergebnis der RBSG Gruppe haben.
- Die Ertrags- und Finanzlage der RBSG Gruppe wurde durch die sich aus dem schwachen Marktumfeld ergebende niedrige Vermögensbewertung erheblich beeinträchtigt und kann dadurch weiter erheblich beeinträchtigt werden.
- Die finanzielle Entwicklung der RBSG Gruppe wurde und wird weiter durch die Verschlechterung der Kreditwürdigkeit von Schuldnern und Geschäftspartnern erheblich beeinträchtigt, und weitere Verschlechterungen könnten durch die

vorherrschenden Wirtschafts- und Marktverhältnisse sowie rechtliche und regulatorische Entwicklungen eintreten.

- Der Wert und die Wirksamkeit von Kreditabsicherungen, die die RBSG Gruppe gekauft hat, hängt von dem Wert der zugrunde liegenden Vermögenswerte sowie von der Finanzlage der Versicherer und Geschäftspartner ab.
- Änderungen von Zinssätzen, Wechselkursen, Credit Spreads, Anleihe-, Aktien- und Rohstoffpreisen, Basis-, Volatilitäts- und Korrelationsrisiken und weitere Marktfaktoren haben das Geschäft sowie das Betriebsergebnis der RBSG Gruppe wesentlich beeinträchtigt und werden sie weiter beeinträchtigen.
- Die RBSG Gruppe muss im Vereinigten Königreich und in anderen Rechtsordnungen Beiträge zu dem Entschädigungssystem für Banken und andere zugelassene Finanzdienstleistungsunternehmen leisten, die ihre Verbindlichkeiten gegenüber ihren Kunden nicht erfüllen können.
- Es kann sein, dass die RBSG Gruppe weitere Beiträge für ihr Pensionssystem aufbringen muss, wenn der Wert der Vermögenswerte in den Pensionsfonds nicht ausreichend ist, um potenzielle Verbindlichkeiten zu decken.

der RBSG Gruppe sowie von dem Kreditrating des britischen Staates ab.

- Falls die RBSG Gruppe keine bedingten B-Aktien an das britische Schatzamt ausgeben kann, kann dies die Kapitalsituation, die Liquidität, das Betriebsergebnis und die zukünftigen Aussichten der RBSG Gruppe beeinträchtigen.
- Die aufsichtsrechtliche Eigenmittelbehandlung bestimmter von der RBSG Gruppe berücksichtigter latenter Steueransprüche hängt davon ab, dass sich aufsichtsrechtliche Anforderungen nicht in nachteiliger Weise ändern.
- Die Fähigkeit der RBSG Gruppe, ihren Strategieplan umzusetzen, hängt von dem Erfolg der RBSG Gruppe ab, sich wieder auf ihre Kernstärken und ihr Programm zur Verkürzung ihrer Bilanz zu konzentrieren.
- Die RBSG Gruppe unterliegt einer Vielzahl von Risiken, die sich aus der Umsetzung des Restrukturierungsplans im Zusammenhang mit der Staatshilfe ergeben.
- Alle Geschäftsbereiche der RBSG Gruppe sind starkem Maße reguliert und beaufsichtigt. Wesentliche aufsichtsrechtliche Veränderungen und Veränderungen bei den wichtigsten Aufsichtsbehörden für die RBSG Gruppe könnten sich nachteilig auf die Geschäftstätigkeit sowie das Betriebsergebnis und die Finanzlage der RBSG Gruppe auswirken.
- Die RBSG Gruppe unterliegt sowohl nach den derzeitigen als auch den für die zukünftige Umsetzung vorgesehenen Abwicklungs- und Verwertungsverfahren (*resolution and recovery schemes*) einem Abwicklungsverfahren, das verschiedene Maßnahmen im Hinblick auf Wertpapiere der RBSG Gruppe zu Folge haben kann und unter anderem Abschreibungen oder Wertberichtigungen auf Wertpapiere der RBSG Gruppe und die Umwandlung von Wertpapieren der RBSG Gruppe beinhaltet.
- Die RBSG Gruppe unterliegt verschiedenen

regulatorischen Vorhaben, die das Geschäft der Gruppe beeinträchtigen können. Der Abschlussbericht zum Wettbewerb und zu möglichen Strukturreformen im Bankwesen des Vereinigten Königreichs der Unabhängigen Kommission zum Bankwesen (*Independent Commission on Banking*) wurde von der Regierung des Vereinigten Königreichs übernommen. Die Regierung beabsichtigt, die darin enthaltenen Empfehlungen im Wesentlichen umzusetzen. Daneben könnten weitere Initiativen, bestimmte Geschäftsaktivitäten abzuschirmen sowie das Vorhaben der US-amerikanischen Zentralbank (*Federal Reserve*), auf Teile der US-amerikanischen Geschäftsaktivitäten der RBSG Gruppe die US-Anforderungen im Hinblick auf Kapitalausstattung, Liquidität und erweiterte Aufsicht anzuwenden, zusammen mit den Reformen im Vereinigten Königreich strukturelle Veränderungen im Geschäft der RBSG Gruppe erforderlich machen. Solche Veränderungen könnten wesentliche nachteilige Auswirkungen auf die RBSG Gruppe haben.

- Die RBSG Gruppe ist verschiedenen Klagen, aufsichtsrechtlichen Verfahren und Untersuchungen ausgesetzt. Nachteilige Entscheidungen im Rahmen dieser Klagen, Verfahren und Untersuchungen können die operativen Ergebnisse und die Reputation der RBSG Gruppe wesentlich beeinträchtigen.
- Bestimmte Finanzinstrumente werden zum Marktwert angesetzt, der mithilfe von Finanzmodellen ermittelt wird, die Annahmen, Beurteilungen und Schätzungen beinhalten, die sich im Verlauf der Zeit ändern können oder die sich als nicht richtig herausstellen.
- Die Ergebnisse der RBSG Gruppe könnten durch eine Wertminderung des Goodwill beeinträchtigt werden.

Rating of the Issuer

As of 24 September 2013, the credit ratings¹ of the Issuer assigned by Moody's Investors Service Ltd., London, United Kingdom ("**Moody's Investors Service**"), Standard & Poor's Credit Market Services Europe Limited, London, United Kingdom ("**Standard & Poor's**"), and Fitch Ratings Limited, London, United Kingdom ("**Fitch Ratings**"), were as follows:

	Long term	Short term	Outlook
Moody's Investors Service	A3	P-2	Negative
Standard & Poor's	A	A-1	Negative
Fitch Ratings	A	F1	Stable

¹ The rating agencies set forth in this section are registered in accordance with Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (the "**Regulation**") as published on the website of the European Securities and Markets Authority pursuant to Article 18(3) of the Regulation.

Moody's Investors Service definitions

Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging from "Aaa" (describing obligations judged to be of the highest quality, with minimal credit risk), "Aa", "A", "Baa", "Ba", "B", "Caa" and "Ca" to "C", the lowest category representing long-term obligations that are typically in default, with little prospect for recovery of principal or interest. In addition, Moody's Investors Service appends numerical modifiers ("1", "2", and "3") to each generic rating classification from "Aa" through "Caa". The modifier "1" indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier "2" indicates a mid-range ranking, and the modifier "3" indicates a ranking in the lower end of that generic rating category.

Issuers rated "P-2" have a strong ability to repay short-term debt obligations.

The rating system used by Moody's Investors Service for short-term obligations has various subcategories ranging from "P 1", "P-2" and "P-3" to "NP", the lowest category representing issuers that do not fall within any of the "Prime" rating categories.

A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: "Positive", "Negative", "Stable", and "Developing" (contingent upon an event).

Standard and Poor's definitions

An obligor rated "A" by Standard & Poor's has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor's for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus ("+") or minus ("-") signs following ratings from the "AA" to "CCC" categories show the relative standing within the major rating categories.

An obligor rated "A-1" by Standard & Poor's has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor's.

The rating system used by Standard & Poor's for short-term issuer credit ratings has various subcategories ranging from "A-1" (which is the highest quality rating), "A-2", "A-3", "B", "C", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

If Standard & Poor's anticipates that a credit rating may change in the coming 6 to 24 months, it may issue an updated ratings outlook indicating whether the possible change is likely to be "positive", "negative", "stable" or "developing" (meaning it's uncertain whether a rating might go up or down).

Fitch Ratings definitions

"A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C", "RD" to "D", the lowest category indicating that the issuer in Fitch Ratings' opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers "+" or "-" may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the "AAA" rating category or to the categories below "B".

An "F1" rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from "F1" (which is the highest quality rating), "F2", "F3", "B", "C" and "RD" to "D", the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody's Investors Service (www.moody.com), Standard & Poor's (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively. They have been accurately reproduced and that as far as the Issuer is aware and is able to ascertain from information published by Moody's Investors Service, Standard & Poor's, and Fitch Ratings, respectively, no facts have been omitted which would render the reproduced information inaccurate or misleading.

	Long term	Short term	Outlook
Moody's Investors Service	A3	P-2	Negative
Standard & Poor's	A	A-1	Negative
Fitch Ratings	A	F1	Stable

¹ The rating agencies set forth in this section are registered in accordance with Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (the "**Regulation**") as published on the website of the European Securities and Markets Authority pursuant to Article 18(3) of the Regulation.

Moody's Investors Service definitions

Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging from "Aaa" (describing obligations judged to be of the highest quality, with minimal credit risk), "Aa", "A", "Baa", "Ba", "B", "Caa" and "Ca" to "C", the lowest category representing long-term obligations that are typically in default, with little prospect for recovery of principal or interest. In addition, Moody's Investors Service appends numerical modifiers ("1", "2", and "3") to each generic rating classification from "Aa" through "Caa". The modifier "1" indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier "2" indicates a mid-range ranking, and the modifier "3" indicates a ranking in the lower end of that generic rating category.

Issuers rated "P-2" have a strong ability to repay short-term debt obligations.

The rating system used by Moody's Investors Service for short-term obligations has various subcategories ranging from "P 1", "P-2" and "P-3" to "NP", the lowest category representing issuers that do not fall within any of the "Prime" rating categories.

A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: "Positive", "Negative", "Stable", and "Developing" (contingent upon an event).

Standard and Poor's definitions

An obligor rated "A" by Standard & Poor's has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor's for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus ("+") or minus ("-") signs following ratings from the "AA" to "CCC" categories show the relative standing within the major rating categories.

An obligor rated "A-1" by Standard & Poor's has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor's.

The rating system used by Standard & Poor's for short-term issuer credit ratings has various subcategories ranging from "A-1" (which is the highest quality rating), "A-2", "A-3", "B", "C", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

If Standard & Poor's anticipates that a credit rating may change in the coming 6 to 24 months, it may issue an updated ratings outlook indicating whether the possible change is likely to be "positive", "negative", "stable" or "developing" (meaning it's uncertain whether a rating might go up or down).

Fitch Ratings definitions

"A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C", "RD" to "D", the lowest category indicating that the issuer in Fitch Ratings' opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers "+" or "-" may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the "AAA" rating category or to the categories below "B".

An "F1" rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from "F1" (which is the highest quality rating), "F2", "F3", "B", "C" and "RD" to "D", the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody's Investors Service (www.moody.com), Standard & Poor's (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively. They have been accurately reproduced and that as far as the Issuer is aware and is able to ascertain from information published by Moody's Investors Service, Standard & Poor's, and Fitch Ratings, respectively, no facts have been omitted which would render the reproduced information inaccurate or misleading.

Recent developments

Direct Line Group – further share sale

On 13 March 2013, the RBSG Group announced a further sale of Direct Line Group ("**DLG**") ordinary shares held by the RBSG Group, reducing the RBSG Group's ownership of DLG below the 50 per cent. level. As a result, DLG has ceased to be a principal subsidiary undertaking of RBSG.

Replacement of the FSA

On 1 April 2013, the UK Financial Services Authority (FSA) was replaced by the Prudential Regulation Authority and the Financial Conduct Authority. With effect from this date, RBS (which was previously supervised by the FSA) is authorised by the Prudential Regulation Authority ("**PRA**") and regulated by the Financial Conduct Authority ("**FCA**") and the Prudential Regulation Authority.

Large exposure regime

RBS is subject to the PRA's large exposure regime and specific application to intra-group exposures. Following the grant of a direction by the PRA, RBS is no longer in breach of current rules relevant to intra-group exposures and no longer operating within the scope of a PRA-agreed remediation plan.

Planned management changes

On 9 May 2013, RBSG announced planned changes to its management team and Board. Bruce Van Saun (currently Group Finance Director) is to become Chairman and Chief Executive of RBS Citizens Financial Group ("**Citizens**"), replacing Ellen Alemany who will retire from Citizens after more than 5 years service. Nathan Bostock (currently Chief Risk Officer) will become Group Finance Director. Nathan Bostock will be replaced by David Stephen (currently Deputy Group Chief Risk Officer) as Chief Risk Officer. The appointments will take effect on 1 October 2013 at which point Nathan Bostock will replace Bruce Van Saun as an Executive Director of RBSG. All will be members of the Group Executive Committee.

Stephen Hester to leave the Group

The Board of Directors of RBSG announced on 12 June 2013 that Stephen Hester will be stepping down as the Group's Chief Executive later in 2013. The Board believes that an orderly succession process will give a new CEO time to prepare the privatisation process and to lead the bank in the years that follow. Stephen was unable to make that open-ended commitment following five years in the job already. The search for a successor will commence immediately, led by Philip Hampton on behalf of the Board, and will consider both internal and external candidates. Stephen Hester will continue to lead the business until December 2013 to ensure a smooth handover, unless a successor is in post before then.

Refocusing of the Markets division of RBS

On 13 June 2013, RBS announced that it will be refocusing its Markets division to concentrate on its core wholesale fixed income product strengths across rates, currencies, asset-backed products and credit and debt capital markets. As part of this exercise, RBS plans to exit all structured retail investor

products (which includes new primary market issuance of Securities offered under this Base Prospectus), equity derivatives (other than liquid equity index products within its Dynamic Strategies and Hybrids businesses), as well as peripheral market-making activities. The businesses that RBS plans to exit will be transferred to a business unit of RBS managed in the Markets division where it is intended that they will be divested through a sales process or otherwise exited through a managed wind-down process. RBS intends to continue to provide secondary market liquidity for all relevant products where it is legally or contractually required to do so. The Exchange Traded Product business of RBS will, for the time being, continue to issue certain products during the sales process. Save for Exchange Traded Products, primary market transactions will only be executed on an exceptions basis. RBS remains committed to meeting its existing obligations to its customers.

Ross McEwan appointed as RBSG Chief Executive

On 2 August 2013, RBSG announced that Ross McEwan has been appointed as a Director and Group Chief Executive with effect from 1 October 2013.

INFORMATION ABOUT THE ROYAL BANK OF SCOTLAND PLC

RBS Registration Document

The required information about The Royal Bank of Scotland plc ("**RBS**") acting either through its principal office in Edinburgh, Scotland or through its London office or any other office, as specified in the Final Terms, as Issuer is contained in the registration document of The Royal Bank of Scotland plc dated 12 March 2013 (the "**RBS Registration Document**") which was approved by the competent authority in the United Kingdom (Financial Services Authority; the "**FSA**") and which is incorporated into this Base Prospectus by reference pursuant to Section 11(1) WpPG (excluding the subsection "Assets, owners' equity and capital ratios" on page 25 of the Registration Document, the subsection "Large exposure regime" on page 26 of the Registration Document, the subsection "No Significant Change and No Material Adverse Change" on page 59 of the Registration Document and items (a) to (f) in the section "Documents Incorporated by Reference" on pages 63 to 65 of the Registration Document) (see subsection "Documents Incorporated by Reference").

The information contained in the RBS Registration Document shall be updated by the following subsection "Assets, owners' equity and capital ratios" and "Recent developments".

Assets, owners' equity and capital ratios

The Royal Bank of Scotland Group plc ("**RBSG**") together with its subsidiaries consolidated in accordance with International Financial Reporting Standards (the "**RBSG Group**") had total assets of £1,312 billion and owners' equity of £68 billion as at 31 December 2012. The RBSG Group's capital ratios as at 31 December 2012 were a total capital ratio of 14.5 per cent, a Core Tier 1 capital ratio of 10.3 per cent and a Tier 1 capital ratio of 12.4 per cent.

Recent developments

Direct Line Group – further share sale

On 13 March 2013, the RBSG Group announced a further sale of Direct Line Group ("**DLG**") ordinary shares held by the RBSG Group, reducing the RBSG Group's ownership of DLG below the 50 per cent. level. As a result, DLG has ceased to be a principal subsidiary undertaking of RBSG.

Replacement of the FSA

On 1 April 2013, the UK Financial Services Authority (FSA) was replaced by the Prudential Regulation Authority and the Financial Conduct Authority. With effect from this date, RBS (which was previously supervised by the FSA) is authorised by the Prudential Regulation Authority ("**PRA**") and regulated by the Financial Conduct Authority ("**FCA**") and the Prudential Regulation Authority.

Large exposure regime

RBS is subject to the PRA's large exposure regime and specific application to intra-group exposures. Following the grant of a direction by the PRA, RBS is no longer in breach of current rules relevant to intra-group exposures and no longer operating within the scope of a PRA-agreed remediation plan.

Planned management changes

On 9 May 2013, RBSG announced planned changes to its management team and Board. Bruce Van Saun (currently Group Finance Director) is to become Chairman and Chief Executive of RBS Citizens Financial Group ("**Citizens**"), replacing Ellen Alemany who will retire from Citizens after more than 5 years service. Nathan Bostock (currently Chief Risk Officer) will become Group Finance Director. Nathan Bostock will be replaced by David Stephen (currently Deputy Group Chief Risk Officer) as Chief Risk Officer. The appointments will take effect on 1 October 2013 at which point Nathan Bostock will replace Bruce Van Saun as an Executive Director of RBSG. All will be members of the Group Executive Committee.

Stephen Hester to leave the Group

The Board of Directors of RBSG announced on 12 June 2013 that Stephen Hester will be stepping down as the Group's Chief Executive later in 2013. The Board believes that an orderly succession process will give a new CEO time to prepare the privatisation process and to lead the bank in the years that follow. Stephen was unable to make that open-ended commitment following five years in the job already. The search for a successor will commence immediately, led by Philip Hampton on behalf of the Board, and will consider both internal and external candidates. Stephen Hester will continue to lead the business until December 2013 to ensure a smooth handover, unless a successor is in post before then.

Refocusing of the Markets division of RBS

On 13 June 2013, RBS announced that it will be refocusing its Markets division to concentrate on its core wholesale fixed income product strengths across rates, currencies, asset-backed products and credit and debt capital markets. As part of this exercise, RBS plans to exit all structured retail investor products (which includes new primary market issuance of Securities offered under this Base Prospectus), equity derivatives (other than liquid equity index products within its Dynamic Strategies and Hybrids businesses), as well as peripheral market-making activities. The businesses that RBS plans to exit will be transferred to a business unit of RBS managed in the Markets division where it is intended that they will be divested through a sales process or otherwise exited through a managed wind-down process. RBS intends to continue to provide secondary market liquidity for all relevant products where it is legally or contractually required to do so. The Exchange Traded Product business of RBS will, for the time being, continue to issue certain products during the sales process. Save for

Exchange Traded Products, primary market transactions will only be executed on an exceptions basis. RBS remains committed to meeting its existing obligations to its customers.

1. In the Base Prospectuses, in the section "**INFORMATION ABOUT THE ROYAL BANK OF SCOTLAND PLC**", the subsection "**FSA agreement in relation to interest rate swap products for small and medium enterprises**" shall be replaced as follows:

FSA agreement in relation to interest rate swap products for small and medium enterprises

On 29 June 2012, RBS announced that it, in common with a number of other UK banks, had reached an agreement with the FSA on an approach to the mis-selling issues surrounding interest rate swap products for small and medium enterprises (SMEs). The agreement includes an independent review process which is intended to provide certainty for affected customers and other stakeholders. In respect of less sophisticated customers who entered into more complex swap products, RBS has agreed to provide direct and immediate redress.

In its Q2 2012 results, RBSG provided £50 million for the redress it expects to offer retail clients who were sold structured collar products. As a result of an announcement by the FSA dated 31 January 2013 relating to interest rate hedging products ("**IRHP**") RBSG will, in its 2012 Annual Results, meaningfully increase its provisions to meet the additional costs of redress across its broader SME IRHP portfolio (attributable primarily to products sold in the period 2001 to 2008 when interest rates were higher). This larger provision will be determined once RBSG has further engaged with the FSA on its position. RBSG expects that this provision will remain consistent with the achievement of its target capital ratios.

2. In the Base Prospectuses, in the section "**INFORMATION ABOUT THE ROYAL BANK OF SCOTLAND PLC**", the paragraph headed "*LIBOR*" in the subsection "**Investigations**" shall be replaced as follows:

LIBOR

On 6 February 2013, RBSG announced that the RBSG Group has reached a settlement with the FSA in the United Kingdom, the United States Commodity Futures Trading Commission ("**CFTC**") and the United States Department of Justice ("**DOJ**"), in relation to investigations into submissions, communications and procedures around the setting of the London Interbank Offered Rate ("**LIBOR**"). The RBSG Group has agreed to pay penalties of £87.5 million, USD 325 million and USD 150 million to the FSA, CFTC and DOJ respectively, to resolve the investigations. As part of the agreement with the DOJ, RBS has entered into a deferred prosecution agreement in relation to one count of wire fraud relating to Swiss Franc LIBOR and one count for an antitrust violation relating to Yen LIBOR. RBS Securities Japan Limited has also agreed to enter a plea of guilty to one count of wire fraud relating to Yen LIBOR. Among other things, the RBSG Group has dismissed a number of employees for misconduct as a result of its investigations into these matters.

The RBSG Group will continue to cooperate in the investigations by the FSA, CFTC and DOJ, as well as investigations by various other governmental, regulatory and competition authorities. The other authorities include the European Commission and the Japan Financial Services Agency.

1. In the Bonus Discount Base Prospectus 2009, Bonus Discount Base Prospectus 2010, Bonus Discount Base Prospectus 2011 and the ETN Fixed Maturity Base Prospectus 2010, in the section "**SUMMARY**", the paragraphs with the heading "**Proposed Transfer of Activities**" up to (and including) the paragraphs with the heading "**Risk Factors relating to RBS**" shall be replaced as follows:

Proposed Transfer of Activities:

On 19 April 2011, the Group announced that it had approved the proposed transfers of a substantial part of its business activities of RBS N.V. to RBS, (the "**Proposed Transfers**"). It is expected that the Proposed Transfers will be implemented on a phased basis over a period ending on 31 December 2013. A large part of the Proposed Transfers is expected to have taken place by the end of 2012. The Proposed Transfers include a proposal to change the issuer of a number of securities issued by RBS N.V. which will include some or all of the securities issued by RBS N.V. between 19 April 2011 and the date that the Proposed Transfers take effect.

On 17 October 2011, the Group completed the transfer of a substantial part of the UK activities of RBS N.V. to RBS pursuant to Part VII of UK Financial Services and Markets Act 2000.

On 26 March 2012, the Group announced that (1) RBS N.V. (as the demerging company) and RBS II B.V. (as the acquiring company) had that day filed a proposal with the Dutch Trade Register for a legal demerger and (2) following a preliminary hearing at the Court of Session in Scotland, RBS and RBS II B.V. had that day made filings with the Companies House in the UK and the Dutch Trade Register respectively for a proposed cross-border merger of RBS II B.V. into RBS (together with the proposal for the legal demerger, the "**Proposed Dutch Scheme**"). Upon implementation of the Proposed Dutch Scheme, a substantial part of the business conducted by RBS N.V. in the Netherlands as well as in certain branches of RBS N.V. located in a number of countries in Europe will be transferred to RBS (the "**Transferring Businesses**"). The Proposed Dutch Scheme will be implemented by the demerger of the transferring businesses into RBS II B.V. by way of a Dutch statutory demerger (the "**Demerger**"), followed by the merger of RBS II B.V. into RBS through a

cross-border merger (the "**Merger**"). RBS II B.V. is a Dutch company licensed as a bank in the Netherlands that has been established specifically for the purposes of the Proposed Dutch Scheme. Implementation of the Proposed Dutch Scheme is subject, amongst other matters, to regulatory and court approvals. If granted, the regulatory approvals will be granted on the basis that the Demerger will not proceed unless the Merger is to proceed thereafter. On 18 June 2012, the Court of Session in Scotland made an order, *inter alia*, approving the completion of the Merger for the purposes of Article 11 of Directive 2005/56/EC of the European Parliament and the Council of the European Union. On 4 July 2012, RBSG, RBS, RBS Holdings, RBS N.V. and RBS II B.V. decided that, as a result of technology issues which affected the RBSG Group in the UK and Ireland, it would be prudent to defer the implementation of the Proposed Dutch Scheme which was scheduled to take place on 9 July 2012. The FSA has been advised of the delay and has no objections. De Nederlandsche Bank is aware of the delay.

On 20 July 2012, RBSG, RBS, RBS Holdings, RBS N.V. and RBS II B.V. announced that the Proposed Dutch Scheme is now expected to be implemented on 10 September 2012, subject (among other matters) to regulatory approvals and the approval of the Court of Session in Scotland.

The Issuer will publish a supplement to the Base Prospectus if there is a change to this date.

As a result of the Proposed Dutch Scheme, RBS will become the issuer of certain securities originally issued by RBS N.V. Any liability of RBS Holdings under the Guarantee will, from the effective date of the Proposed Dutch Scheme, cease to apply in relation to any securities for which RBS will become the issuer.

On 23 March 2012, RBS N.V. and RBS published a list of securities of RBS N.V. for which it is possible that RBS will become the issuer of the Securities, accordingly, indicating whether or not RBS is expected to become the issuer of those securities pursuant to the Proposed Dutch

Scheme (subject to the relevant securities not having been exercised, redeemed or repurchased and cancelled prior to the implementation of the Proposed Dutch Scheme).

Financial Information relating to the Issuer:

- **Moody's Investors Service definitions**

Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging from "Aaa" (describing obligations judged to be of the highest quality, with minimal credit risk), "Aa", "A", "Baa", "Ba", "B", "Caa" and "Ca" to "C", the lowest category representing long-term obligations that are typically in default, with little prospect for recovery of principal or interest. In addition, Moody's Investors Service appends numerical modifiers ("1", "2", and "3") to each generic rating classification from "Aa" through "Caa". The modifier "1" indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier "2" indicates a mid-range ranking, and the modifier "3" indicates a ranking in the lower end of that generic rating category.

Issuers rated "P-2" have a strong ability to repay short-term debt obligations.

The rating system used by Moody's Investors Service for short-term obligations has various subcategories ranging from "P-1", "P-2" and "P-3" to "NP", the lowest category representing issuers that do not fall within any of the "Prime" rating categories.

A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: "Positive", "Negative", "Stable", and "Developing" (contingent upon

an event).

- ***Standard and Poor's definitions***

An obligor rated "A" by Standard & Poor's has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor's for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB"; "BB"; "B", "CCC", "CC", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus ("+") or minus ("-") signs following ratings from the "AA" to "CCC" categories show the relative standing within the major rating categories.

An obligor rated "A-1" by Standard & Poor's has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor's.

The rating system used by Standard & Poor's for short-term issuer credit ratings has various subcategories ranging from "A-1" (which is the highest quality rating), "A-2", "A-3", "B" "C", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

"Stable" means that a rating is not likely to change.

- ***Fitch Ratings definitions***

"A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C", "RD" to "D", the lowest category indicating that the issuer in Fitch Ratings' opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers "+" or "-" may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the "AAA" rating category or to the categories below "B".

An "F1" rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from "F1" (which is the highest quality rating), "F2", "F3", "B", "C" and "RD" to "D", the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody's Investors Service (www.moodys.com), Standard & Poor's (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively.

- As a condition to the RBSG Group receiving Her Majesty's Treasury ("**HM Treasury**") support, the Group is prohibited from making discretionary coupon payments on, and exercising call options in relation to, certain of its existing hybrid capital instruments, which may impair the Group's ability to raise new capital through the issuance of Securities.
- The financial performance of the Group has been, and continues to be, materially affected by deteriorations in borrower and counterparty credit quality and further

deteriorations, could arise due to prevailing economic and market conditions, and legal and regulatory developments.

- The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions.

an adverse effect on how the Group conducts its business and on its results of operations and financial condition.

- Operational risks are inherent in the Group's businesses.
- The Group's operations have inherent reputational risk.
- The recoverability and regulatory capital treatment of certain deferred tax assets recognised by the Group depends on the Group's ability to generate sufficient future taxable profits and there being no adverse changes to tax legislation, regulatory requirements or accounting standards.
- In addition to the risk factors described above, the Group is also subject to additional risks related to the entry by RBSG Group into the asset protection scheme and the two back to back contracts (the "**Contracts**") entered into by RBS in connection with certain assets and exposures of RBS N.V. and its wholly-owned subsidiaries.
- The extensive governance, asset management and information requirements under the conditions of the asset protection scheme, which the Group is required to comply with, or to ensure that RBS can comply with, pursuant to the Contracts may have an adverse impact on the Group. In addition, any changes or modifications to the conditions of the asset protection scheme may have a negative impact on the expected benefits of the Contracts and may have an adverse impact on the Group.
- Any changes to the expected regulatory capital treatment of the Contracts may have a material adverse impact on the Group.
- The legal demerger of ABN AMRO Bank N.V. (as it was then named) has resulted in a cross liability that changes the legal recourse available to investors.

Risk Factors relating to RBS:

The Final Report made a number of recommendations, including in relation to (i) the implementation of a ring-fence of retail banking operations, (ii) increased loss-absorbency (including bail-in, i.e. the ability to write down debt or convert it into an issuer's ordinary shares in certain circumstances) and (iii) promotion of competition. The UK Government has indicated that it supports and intends to implement the recommendations substantially as proposed, which could have a material adverse effect on the RBSG Group.
- The RBSG Group's ability to implement its strategic plan depends on the success of the RBSG Group's refocus on its core strengths and its balance sheet reduction programme.
- The occurrence of a delay in the implementation of (or any failure to implement) the approved proposed transfers of a substantial part of the business activities of The Royal Bank of Scotland N.V. ("**RBS N.V.**") to RBS may have a material adverse effect on the RBSG Group.

2. In the Bonus Discount Base Prospectus 2012, in the section "**SUMMARY**" the third paragraph under the heading "**Proposed Transfer of Activities of RBS N.V. to RBS**" shall be replaced as follows:

On 26 March 2012, the Group announced that (1) RBS N.V. as the demerging company) and RBS II B.V. (as the acquiring company) had that day filed a proposal with the Dutch Trade Register for a legal demerger and (2) following a preliminary hearing at the Court of Session in Scotland, RBS and RBS II B.V. had that day made filings with the Companies House in the UK and the Dutch Trade Register respectively for a proposed cross-border merger of RBS II B.V. into RBS (together with the proposal for the legal demerger, the "**Proposed Dutch Scheme**"). Upon implementation of the Proposed Dutch Scheme, a substantial part of the business conducted by RBS N.V. in the Netherlands as well as in certain branches of RBS N.V. located in a number of countries in Europe will be transferred to RBS (the "**Transferring Businesses**"). The Proposed Dutch Scheme will be implemented by the demerger of the transferring businesses into RBS II B.V. by way of a Dutch statutory demerger (the "**Demerger**"), followed by the merger of RBS II B.V. into RBS through a cross-border merger (the "**Merger**"). RBS II B.V. is a Dutch company licensed as a bank in the Netherlands that has been established specifically for the purposes of the Proposed Dutch Scheme. Implementation of the Proposed Dutch Scheme is subject, amongst other matters, to regulatory and court approvals. If granted, the regulatory approvals will be granted on the basis that the Demerger will not proceed unless the Merger is to proceed thereafter. On 18 June 2012, the Court of Session in Scotland made an order, *inter alia*, approving the completion of the Merger for the purposes of Article 11 of Directive 2005/56/EC of the European Parliament and the Council of the European Union. On 4 July 2012, RBSG, RBS, RBS Holdings, RBS N.V. and RBS II B.V. decided that, as a result of technology issues which affected the RBSG Group in the UK and Ireland, it would be prudent to defer the implementation of the Proposed Dutch Scheme which was scheduled to take place on 9 July 2012. The FSA has been advised of the delay and has no objections. De

Nederlandsche Bank is aware of the delay.

On 20 July 2012, RBSG, RBS, RBS Holdings, RBS N.V. and RBS II B.V. announced that the Proposed Dutch Scheme is now expected to be implemented on 10 September 2012, subject (among other matters) to regulatory approvals and the approval of the Court of Session in Scotland.

The Issuer will publish a supplement to the Base Prospectus if there is a change to this date.

3. In the Bonus Discount Base Prospectus 2009, Bonus Discount Base Prospectus 2010, Bonus Discount Base Prospectus 2011 and the ETN Fixed Maturity Base Prospectus 2010, in the section "**ZUSAMMENFASSUNG (GERMAN LANGUAGE VERSION OF THE SUMMARY)**", the paragraphs with the heading "**Geplante Übertragung von Aktivitäten**" up to (and including) the paragraphs with the heading "**Risikofaktoren in Bezug auf die RBS**" shall be replaced as follows:

**Geplante Übertragung von
Aktivitäten:**

Am 19. April 2011 hat die Gruppe mitgeteilt, dass sie einer geplanten Übertragung eines wesentlichen Teils ihrer Geschäftsaktivitäten von der RBS N.V. auf die RBS zugestimmt hat (die „**Geplanten Übertragungen**“). Es wird erwartet, dass die Geplanten Übertragungen in mehreren Stufen bis zum 31. Dezember 2013 durchgeführt werden. Ein großer Teil der Geplanten Übertragungen soll den Planungen zufolge bis Ende 2012 erfolgt sein. Die Geplanten Übertragungen beinhalten eine Ersetzung der Emittentin für eine Vielzahl der von der RBS N.V. begebenen Wertpapiere. Dies wird auch für einen Teil oder alle der von der RBS N.V. zwischen dem 19. April 2011 und dem Zeitpunkt des Wirksamwerdens der Geplanten Übertragungen begebenen Wertpapiere gelten.

Am 17. Oktober 2011 hat die Gruppe die Übertragung wesentlicher Teile der englischen Geschäftstätigkeiten der RBS N.V. auf die RBS nach Teil VII des britischen *Financial Services and Markets Act 2000* abgeschlossen.

Am 26. März 2012 teilte die Gruppe mit, dass (1) die RBS N.V. (als abspaltende Gesellschaft) und die RBS II B.V. (als übernehmende Gesellschaft) an diesem Tag bei dem niederländischen Handelsregister einen Abspaltungsantrag eingereicht haben und (2) die RBS und die RBS II B.V. an diesem Tag nach einer vorläufigen Anhörung vor dem schottischen Zivilgerichtshof (*Court of Session*) Anträge auf eine geplante grenzüberschreitende Verschmelzung der RBS II B.V. auf die RBS (zusammen mit dem Abspaltungsantrag das „**Geplante Niederländische Verfahren**“) bei dem Companies House im Vereinigten Königreich bzw. dem niederländischen Handelsregister eingereicht haben. Nach Umsetzung des Geplanten

Niederländischen Verfahrens wird ein wesentlicher Teil der Geschäftstätigkeit der RBS N.V. in den Niederlanden sowie in bestimmten Niederlassungen der RBS N.V. in einer Reihe von Staaten in Europa auf die RBS übertragen (die „**Übertragenen Geschäftsbereiche**“). Die Umsetzung des Geplanten Niederländischen Verfahrens erfolgt durch Abspaltung der Übertragenen Geschäftsbereiche in die RBS II B.V. im Wege eines gesetzlich vorgesehenen Abspaltungsverfahrens in den Niederlanden (die „**Abspaltung**“) mit anschließender Verschmelzung der RBS II B.V. auf die RBS im Wege einer grenzüberschreitenden Verschmelzung (die „**Verschmelzung**“). Die RBS II B.V. ist eine in den Niederlanden als Bank zugelassene Gesellschaft, die eigens für Zwecke des Geplanten Niederländischen Verfahrens gegründet wurde. Die Umsetzung des Geplanten Niederländischen Verfahrens ist u.a. abhängig von aufsichtsrechtlichen und gerichtlichen Genehmigungen. Im Falle einer Gestattung werden die aufsichtsrechtlichen Genehmigungen unter dem Vorbehalt gewährt, dass die Abspaltung nicht vorgenommen wird, sofern nicht danach auch die Verschmelzung erfolgt. Am 18. Juni 2012 hat der schottische Zivilgerichtshof unter anderem die Durchführung der Verschmelzung nach Art. 11 der Richtlinie 2005/56/EG des Europäischen Parlaments und des Rates der Europäischen Union genehmigt.

Am 4. Juli 2012 haben die RBSG, RBS, RBS Holdings, RBS N.V. und RBS II B.V. beschlossen, die Umsetzung des Geplanten Niederländischen Verfahrens, die ursprünglich am 9. Juli 2012 erfolgen sollte, im Hinblick auf technische Probleme der RBSG-Gruppe im Vereinigten Königreich und in Irland vorsorglich zu verschieben. Die britische Finanzmarktaufsichtsbehörde (*Financial Services Authority*) wurde über die Verschiebung unterrichtet und hat keine Einwände. Die niederländische Zentralbank (*De Nederlandsche Bank*) wurde über die Verschiebung unterrichtet.

Am 20. Juli 2012 haben die RBSG, RBS, RBS Holdings, RBS N.V. und RBS II B.V. mitgeteilt, dass die Umsetzung des Geplanten Niederländischen Verfahrens voraussichtlich am 10. September 2012 stattfinden wird. Die Umsetzung zu diesem Datum ist unter anderem von aufsichtsbehördlichen Genehmigungen sowie der Genehmigung des Court of Session in Schottland abhängig.

Im Falle einer Änderung dieses Datums wird die Emittentin einen Nachtrag zu dem Basisprospekt veröffentlichen.

Als Folge des Geplanten Niederländischen Verfahrens wird die RBS für bestimmte, ursprünglich von der RBS N.V. begebene Wertpapiere als Emittentin an die Stelle der RBS N.V. treten. Für den Fall einer wirksamen Umsetzung des Geplanten Niederländischen Verfahrens enden sämtliche Verpflichtungen der RBS Holdings gemäß der Garantie in Bezug auf die Wertpapiere, die auf die RBS als neue Emittentin übergehen.

Entsprechend haben die RBS N.V. und die RBS am 23. März 2012 eine Liste mit bereits von der RBS N.V. begebenen Wertpapieren veröffentlicht, für die die Möglichkeit besteht, dass die RBS nach dem Geplanten Niederländischen Verfahren nachträglich zur Emittentin der Wertpapiere wird. Diese Liste bezeichnet die Wertpapiere, bei denen davon ausgegangen wird, dass die RBS nachträglich zur Emittentin für diese Wertpapiere wird (soweit diese Wertpapiere vor dem Geplanten Niederländischen Verfahren weder ausgeübt, noch gekündigt oder zurückgekauft und eingezogen wurden).

Finanzangaben der Emittentin:

Nach den verkürzten Finanzinformationen 2011 (*Abbreviated Financial Statements 2011*) der Emittentin verzeichnete die Emittentin für 2011 einen Verlust in Höhe von EUR 656 Mio. Ihre Gesamtvermögenswerte betragen EUR 165 Mrd. zum 31. Dezember 2011.

- **Moody's Investors Service Definitionen**

Verbindlichkeiten, die mit „A“ eingestuft sind, werden als Verbindlichkeiten der „oberen Mittelklasse“ zugerechnet und bergen ein geringes Kreditrisiko.

Die von Moody's Investors Service verwendete Rating-Skala für langfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „Aaa“, die die Kategorie höchster Qualität mit einem minimalen Kreditrisiko bezeichnet, über die Kategorien „Aa“, „A“, „Baa“, „Ba“, „B“, „Caa“, „Ca“, bis zur niedrigsten Kategorie „C“, die langfristige Verbindlichkeiten bezeichnet, bei denen ein Zahlungsausfall in der Regel bereits eingetreten ist und eine geringe Aussicht auf Rückzahlung von Kapital und Zinsen besteht. Moody's Investors Service verwendet innerhalb der Kategorien „Aa“ bis „Caa“ zusätzlich numerische Unterteilungen („1“, „2“ oder „3“). Der Zusatz „1“ weist darauf hin, dass die jeweilige langfristige Verbindlichkeit zum oberen Drittel der jeweiligen Rating-Kategorie gehört, während der Zusatz „2“ auf eine Klassifizierung im mittleren Drittel und der Zusatz „3“ auf eine solche im unteren Drittel hinweist.

Emittenten mit der Einstufung „P-2“ verfügen in hohem Maße über die Fähigkeit, ihre kurzfristigen Schuldverschreibungen zurückzuzahlen.

Die von Moody's Investors Service verwendete Rating-Skala für die Fähigkeit eines Emittenten zur Erfüllung seiner kurzfristigen Finanzverbindlichkeiten hat verschiedene Kategorien und reicht von „P-1“ über die Kategorien „P-2“ und „P-3“ bis zur niedrigsten Kategorie „NP“, die verdeutlicht, dass ein Emittent zu keiner der „Prime“-Rating-Kategorien gehört.

Ein Rating-Ausblick ist eine Meinung über die Richtung, in die sich ein Rating mittelfristig voraussichtlich entwickeln wird. Die Ausblicke werden in die folgenden

vier Kategorien unterteilt: „positiv“, „negativ“, „stabil“ und „noch unbestimmt“ (d. h. ereignisabhängig).

- **Standard and Poor's Definitionen**

Die Fähigkeit eines Schuldners mit einem Standard & Poor's-Rating von „A“, seine finanziellen Verpflichtungen zu erfüllen, ist stark, aber etwas anfälliger gegenüber nachteiligen Auswirkungen von Veränderungen äußerer Umstände und wirtschaftlicher Bedingungen als bei Schuldnern, die in einer höheren Rating-Kategorie eingestuft sind.

Die von Standard & Poor's verwendete Rating-Skala für die langfristige Fähigkeit eines Schuldners zur Erfüllung seiner Verbindlichkeiten hat verschiedene Rating-Kategorien und reicht von „AAA“, die die Kategorie höchster Bonität bezeichnet, über die Kategorien „AA“, „A“, „BBB“, „BB“, „B“, „CCC“, „CC“, „R“ und „SD“ bis zur niedrigsten Kategorie „D“, die kennzeichnet, dass Standard & Poor's davon ausgeht, dass der Zahlungsausfall einen allgemeinen Ausfall darstellen wird und Zahlungsausfälle bei allen oder nahezu allen fälligen Verpflichtungen des Schuldners eintreten werden. Den Kategorien „AA“ bis „CCC“ kann jeweils ein Pluszeichen („+“) oder Minuszeichen („-“) hinzugefügt werden, um die relative Stellung innerhalb der Haupt-Rating-Kategorien zu verdeutlichen.

Die kurzfristige Fähigkeit eines Schuldners zur Erfüllung seiner finanziellen Verpflichtungen mit einem „A-1“-Rating ist stark. Er ist mit der höchsten Rating-Kategorie von Standard & Poor's bewertet.

Die von Standard & Poor's verwendete Rating-Skala für die kurzfristige Fähigkeit eines Schuldners zur Erfüllung seiner Verbindlichkeiten hat verschiedene Rating-Kategorien und reicht von „A-1“, welche die Kategorie höchsten Bonität bezeichnet, über die Kategorien „A-2“, „A-3“, „B“, „C“, „R“ und „SD“ bis zur niedrigsten Kategorie „D“, die kennzeichnet, dass Standard & Poor's davon ausgeht, dass der Zahlungsausfall einen allgemeinen Ausfall darstellen wird und Zahlungsausfälle bei allen oder nahezu allen fälligen

Verpflichtungen des Schuldners eintreten werden.

„Stabil“ bedeutet, dass sich die Bonitätseinstufung voraussichtlich nicht ändern wird.

- ***Fitch Ratings Definitionen***

Ein „A“-Rating steht für ein gering eingeschätztes Kreditrisiko. Es bezeichnet eine gute Fähigkeit zur fristgerechten Zahlung der Verbindlichkeiten. Diese Fähigkeit ist jedoch durch ungünstige geschäftliche oder wirtschaftliche Ereignisse mehr gefährdet als bei höheren Ratings.

Die von Fitch Ratings verwendete Rating-Skala für langfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „AAA“, die für die höchste Kreditqualität steht, über die Kategorien „AA“, „A“, „BBB“, „BB“, „B“, „CCC“, „CC“, „C“, „RD“ bis zur niedrigsten Kategorie „D“, die nach Fitch Ratings' Einschätzung kennzeichnet, dass ein Emittent sich in einem Insolvenzverfahren, unter Zwangsverwaltung, in einem Vergleichsverfahren, in Auflösung oder einem anderen formellen Verfahren zur Abwicklung befindet oder in sonstiger Weise seine Geschäftstätigkeit eingestellt hat. Den Kategorien kann jeweils ein Plus- („+“) oder Minuszeichen („-“) beigefügt werden, um eine relative Einordnung innerhalb der Haupt-Rating-Kategorien auszudrücken. Solche Zusätze werden nicht der Rating-Kategorie „AAA“ oder den Rating-Kategorien unter „B“ beigefügt.

Ein „F1“-Rating bezeichnet die beste Fähigkeit für eine fristgerechte Zahlung der kurzfristigen Verbindlichkeiten.

Die von Fitch Ratings verwendete Rating-Skala für kurzfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „F1“, die für die höchste Kreditqualität steht, über die Kategorien „F2“, „F3“, „B“, „C“ und „RD“ bis zur niedrigsten Kategorie „D“, die einen weitgehenden Zahlungsausfall eines Schuldners kennzeichnet.

Risikofaktoren:

Ziel der Beschreibung der Risikofaktoren ist es, potenzielle Käufer der Wertpapiere vor der Tatigung von Anlagen zu schutzen, die nicht fur ihre Zwecke geeignet sind, sowie die wirtschaftlichen und rechtlichen Risiken, die mit einer Anlage in die Wertpapiere verbunden sind, aufzuzeigen. Potenzielle Kaufer der Wertpapiere sollten vor einer Anlageentscheidung die mit einer Anlage in die Wertpapiere verbundenen Risiken bedenken.

Risikofaktoren in Bezug auf die Emittentin und die Garantin:

Die Gruppe ist abhangig von der RBSG-Gruppe. Potenzielle Anleger sollten beachten, dass die Gruppe bestimmten Risiken der RBSG-Gruppe ausgesetzt ist, unter anderem der Instabilitat der globalen Finanzmarkte, fehlender Liquiditat, niedriger Bewertung von Vermogenswerten, geopolitischen Bedingungen, vollstandiger Verstaatlichung und anderen Manahmen nach dem britischen *Banking Act 2009* sowie anderen Risiken, die sich aus dem staatlichen Schutzprogramm fur Risiken aus bestimmten Vermogenswerten (*asset protection scheme*) ergeben. Daher sind die nachfolgenden Risikofaktoren, die sich auf die RBSG und die RBSG-Gruppe beziehen, auch fur die Emittentin und die Gruppe von Bedeutung:

- Die Geschaftslage und Geschaftsentwicklung der Gruppe kann durch bestehende und erwartete Bedingungen der Weltwirtschaft und der globalen Finanzmarkte und durch andere geopolitische Risiken negativ beeintrachtigt werden.
- Bei der Erfullung ihrer Verpflichtungen einschlielich ihrer Finanzierungszusagen ist die Gruppe abhangig von ihrem Zugang zu Liquiditat und zu Finanzierungsmoglichkeiten.
- Die Durchfuhrung der genehmigten und geplanten Ubertragung, eine Verzogerung der Durchfuhrung oder ein Scheitern der Ubertragung wesentlicher Teile der Geschaftstatigkeiten der RBS N.V. auf die RBS kann

erhebliche nachteilige Auswirkungen auf die Gruppe haben und ebenfalls den Wert der von der RBS N.V. ausgegebenen Wertpapiere negativ beeinflussen.

- Wenn von der RBS N.V. begebene Wertpapiere auf die RBS übertragen werden, kann dieser Umstand und/oder der Umstand, dass es sich bei der RBS um ein in Schottland errichtetes Unternehmen handelt, steuerliche oder andere Auswirkungen auf den Inhaber dieser Wertpapiere haben.
- Ein umfangreiches Programm der RBSG-Gruppe zur Restrukturierung und Verkürzung der Bilanz dauert an und kann den Geschäftsbetrieb der Gruppe, die Betriebsergebnisse, die Finanzlage, die Eigenkapitalquoten und die Liquidität beeinträchtigen sowie den Wert von Wertpapieren nachteilig beeinflussen, die von der RBS N.V. begeben wurden.
- Um die Unterstützung des britischen Schatzamts (*HM Treasury*) für die RBSG-Gruppe zu erhalten, ist es der Gruppe untersagt, in ihrem Ermessen stehende Zahlungen auf Coupons zu leisten und Ankaufsoptionen in Bezug auf bestimmte bestehende hybride Kapitalinstrumente der Gruppe auszuüben. Dies kann die Fähigkeit der Gruppe zur Gewinnung neuen Kapitals im Wege der Ausgabe von Wertpapieren beeinträchtigen.
- Die finanzielle Entwicklung der Gruppe wurde und wird weiterhin durch die Verschlechterung der Kreditqualität von Schuldern und Vertragsparteien erheblich beeinträchtigt und könnte sich aufgrund der vorherrschenden Wirtschafts- und Marktverhältnisse sowie rechtlicher und regulatorischer Entwicklungen weiter verschlechtern.
- Die Ertrags- und Finanzlage der Gruppe wurde durch die sich aus dem schwachen Marktumfeld ergebende niedrige Vermögensbewertung erheblich beeinträchtigt und kann dadurch weiter erheblich beeinträchtigt werden.
- Änderungen der Zinssätze, Wechselkurse, Credit

Spreads, Anleihe-, Aktien- und Rohstoffpreise, Basis-, Volatilitäts- und Korrelationsrisiken sowie anderer Marktfaktoren haben das Geschäft sowie das Betriebsergebnis der Gruppe wesentlich beeinträchtigt und werden sie weiter beeinträchtigen.

- Die Fremdfinanzierungskosten der Gruppe, ihr Zugang zu den Anleihekapitalmärkten sowie ihre Liquidität hängen entscheidend von dem Kreditrating der Gruppe ab.
- Die Geschäftsentwicklung der Gruppe kann beeinträchtigt werden, wenn ihr Kapital nicht effizient verwaltet wird oder wenn Kapitaladäquanz- und Liquiditätsanforderungen geändert werden.
- Die Gruppe ist Rechtsstreitigkeiten und aufsichtsrechtlichen Untersuchungen ausgesetzt und kann dies auch in Zukunft sein, was zu wesentlichen Geschäftsbeeinträchtigungen führen kann.
- Bestimmte Finanzinstrumente werden zum Marktwert angesetzt, der mithilfe von Finanzmodellen ermittelt wird, die Annahmen, Beurteilungen und Schätzungen beinhalten, die sich im Verlauf der Zeit ändern können oder die sich als nicht richtig herausstellen.
- Die Gruppe ist in sehr kompetitiven Märkten tätig, und ihr Geschäft und ihr Betriebsergebnis könnten negativ beeinträchtigt werden.
- Es ist möglich, dass es der Gruppe nicht gelingt, Führungskräfte (einschließlich der Mitglieder des Aufsichtsrates und des Vorstandes der Gruppe und anderen Mitarbeitern in Schlüsselpositionen) zu gewinnen oder zu halten, und sie könnte Schaden erleiden, wenn sie kein gutes Verhältnis zu ihren Arbeitnehmern unterhält.
- Alle Geschäftsbereiche der Gruppe sind weitgehend reguliert und beaufsichtigt. Wesentliche aufsichtsrechtliche und steuerrechtliche Veränderungen könnten sich nachteilig auf die Geschäftstätigkeit sowie das Betriebsergebnis und die Finanzlage der Gruppe

auswirken.

- Es kann sein, dass die Gruppe weitere Beiträge für ihr Pensionssystem aufbringen muss, wenn der Wert der Vermögenswerte in Pensionsfonds nicht ausreichend ist, um potenzielle Verbindlichkeiten zu decken.
- Das Geschäft der Gruppe birgt betriebsbedingte Risiken.
- Die Geschäftstätigkeit der Gruppe unterliegt damit verbundenen Reputationsrisiken.
- Die Werthaltigkeit und die aufsichtsrechtliche Eigenkapitalbehandlung bestimmter von der Gruppe berücksichtigter latenter Steueransprüche hängt von der Fähigkeit der Gruppe ab, ausreichende zukünftige steuerpflichtige Gewinne zu erzielen und davon, dass sich Steuergesetzgebung, aufsichtsrechtliche Anforderungen und Bilanzierungsgrundsätze nicht in nachteiliger Weise ändern.
- Zusätzlich zu den oben beschriebenen Risikofaktoren unterliegt die Gruppe Risiken, die sich aus der Beteiligung der RBSG-Gruppe an dem staatlichen Schutzprogramm für Risiken aus bestimmten Vermögenswerten (*asset protection scheme*) sowie aus zwei Absicherungsverträgen (die „**Absicherungsverträge**“), die von der RBS in Verbindung mit bestimmten, der RBS N.V. und ihren hundertprozentigen Tochtergesellschaften zuzurechnenden Vermögenswerten und Risikopositionen abgeschlossen wurden, ergeben.
- Die umfangreichen Anforderungen an die Unternehmensleitung, die Verwaltung von Vermögenswerten und im Hinblick auf Informationspflichten, denen die Gruppe unter den Bedingungen des Schutzprogramms für Risiken aus bestimmten Vermögenswerten unterliegt bzw. deren mögliche Einhaltung durch die RBS sie nach den Absicherungsverträgen sicherstellen muss, können negative Auswirkungen auf die Gruppe haben. Zudem

kann jede Änderung oder Modifizierung der Bedingungen des Schutzprogramms für Risiken aus bestimmten Vermögenswerten negative Auswirkungen auf die erwarteten Vorteile aus den Absicherungsverträgen und damit auf die Gruppe haben.

- Jegliche Änderungen in Bezug auf die regulatorische Behandlung von Kapital nach den Absicherungsverträgen kann wesentliche negative Auswirkungen auf die Gruppe haben.

- Die rechtliche Abspaltung der ABN AMRO Bank N.V. (damaliger Firmenname) hat wechselseitige Haftungsverhältnisse zur Folge, die die rechtlichen Rückgriffsmöglichkeiten für Anleger verändern.

Risikofaktoren in Bezug auf die RBS:

RBS ist eine der wichtigsten operativen Tochtergesellschaften der RBSG, auf die ein wesentlicher Teil der konsolidierten Vermögenswerte, Verbindlichkeiten und Geschäftsgewinne der RBSG entfällt. Daher sind die nachfolgenden Risikofaktoren, die sich auf die RBSG und die RBSG-Gruppe beziehen, auch für die RBS und die RBS-Gruppe von Bedeutung.

- Die Geschäfte und die Entwicklung der RBSG-Gruppe können durch die tatsächlichen oder vermuteten weltweiten wirtschaftlichen und finanziellen Marktbedingungen sowie durch andere geopolitische Risiken beeinträchtigt werden.

- Die Fähigkeit der RBSG-Gruppe, ihre Verpflichtungen, einschließlich ihrer Refinanzierungsanforderungen, zu erfüllen, hängt von der Fähigkeit der RBSG-Gruppe ab, Zugang zu Liquidität und Refinanzierungsmöglichkeiten zu erhalten.

- Die Unabhängige Kommission zum Bankwesen (*Independent Commission on Banking*), die durch die Regierung des Vereinigten Königreichs im Juni 2010 eingesetzt wurde, um mögliche Strukturmaßnahmen zur Reform des Bankensystems im Vereinigten Königreich zu prüfen, hat ihren Abschlussbericht zum Wettbewerb und zu möglichen Strukturreformen in der Bankindustrie im Vereinigten Königreich (der „**Abschlussbericht**“)

veröffentlicht. Der Abschlussbericht enthält eine Reihe von Empfehlungen, u.a. im Hinblick auf (i) die Abschirmung der Bankgeschäftstätigkeit mit Privatkunden, (ii) die Erhöhung der Fähigkeit zur Verlustaufnahme (sogenanntes „*bail-in*“, durch bspw. die Möglichkeit, Verluste abzuschreiben oder diese unter bestimmten Umständen in Stammaktien des Emittenten zu wandeln) und (iii) die Förderung des Wettbewerbs. Die Regierung des Vereinigten Königreichs hat angedeutet, dass sie die Empfehlungen weitgehend wie vorgeschlagen unterstützt und beabsichtigt, sie umzusetzen; dies könnte die RBSG Gruppe erheblich beeinträchtigen.

- Die Fähigkeit der RBSG-Gruppe, ihren Strategieplan umzusetzen, hängt von dem Erfolg der RBSG-Gruppe ab, sich wieder auf ihre Kernstärken und ihr Programm zur Verkürzung ihrer Bilanz zu konzentrieren.
- Die Verschiebung der Umsetzung (oder ein Scheitern der Umsetzung) der genehmigten vorgesehenen Übertragungen eines wesentlichen Teils der Geschäftstätigkeiten der The Royal Bank of Scotland N.V. („**RBS N.V.**“) auf die RBS kann die RBSG-Gruppe wesentlich beeinträchtigen.
- Die RBSG-Gruppe unterliegt einer Vielzahl von Risiken, die sich aus der Umsetzung des Restrukturierungsplans im Zusammenhang mit der Staatshilfe ergeben, und sie darf keine im Ermessen stehende Dividenden- und Zinszahlungen auf Hybridkapitalinstrumente (einschließlich Vorzugsaktien und B-Aktien) leisten. Dies kann die Fähigkeit der Gruppe beeinträchtigen, neues Kernkapital zu beschaffen.
- Die RBSG und ihre Banktochtergesellschaften im Vereinigten Königreich können dem Risiko der vollständigen Verstaatlichung oder anderen Auflösungsverfahren nach dem englischen Bankgesetz von 2009 (*Banking Act 2009*) ausgesetzt sein, was verschiedene Maßnahmen hinsichtlich der Wertpapiere

zur Folge haben kann.

- Die finanzielle Entwicklung der RBSG-Gruppe wurde und wird weiter durch die Verschlechterung der Kreditqualität von Schuldnern und Geschäftspartnern erheblich beeinträchtigt, und weitere Verschlechterungen könnten durch die vorherrschenden Wirtschafts- und Marktverhältnisse sowie rechtliche und regulatorische Entwicklungen eintreten.
- Die Ertrags- und Finanzlage der RBSG-Gruppe wurde durch die sich aus dem schwachen Marktumfeld ergebende niedrige Vermögensbewertung erheblich beeinträchtigt und kann dadurch weiter erheblich beeinträchtigt werden.
- Der Wert und die Wirksamkeit eines Kreditschutzes, den die RBSG-Gruppe gekauft hat, hängt von dem Wert der zugrunde liegenden Vermögenswerte sowie von der Finanzlage der Versicherer und Geschäftspartner ab.
- Änderungen der Zinssätze, Wechselkurse, Credit Spreads, Anleihe-, Aktien- und Rohstoffpreise, Basis-, Volatilitäts- und Korrelationsrisiken sowie anderer Marktfaktoren haben das Geschäft sowie das Betriebsergebnis der RBSG-Gruppe wesentlich beeinträchtigt und werden sie weiter beeinträchtigen.
- Die Fremdfinanzierungskosten der RBSG-Gruppe, ihr Zugang zu den Anleihekapitalmärkten sowie ihre Liquidität hängen entscheidend von dem Kreditrating der RBSG-Gruppe sowie von dem Kreditrating des britischen Staates ab.
- Die Geschäftsentwicklung der RBSG-Gruppe kann beeinträchtigt werden, wenn ihr Kapital nicht effizient verwaltet wird oder wenn Kapitaladäquanz- und Liquiditätsanforderungen geändert werden.
- Die RBSG-Gruppe ist Rechtsstreitigkeiten und aufsichtsrechtlichen Untersuchungen ausgesetzt und kann dies auch in Zukunft sein, was zu wesentlichen Geschäftsbeeinträchtigungen führen kann.
- Bestimmte Finanzinstrumente werden zum

Marktwert angesetzt, der mithilfe von Finanzmodellen ermittelt wird, die Annahmen, Beurteilungen und Schätzungen beinhalten, die sich im Verlauf der Zeit ändern oder die sich als nicht richtig herausstellen können.

- Die RBSG-Gruppe ist in sehr kompetitiven Märkten tätig, und ihr Geschäft sowie ihr Betriebsergebnis können beeinträchtigt werden.
- Es ist möglich, dass es der RBSG-Gruppe nicht gelingt, Führungskräfte (einschließlich Verwaltungsratsmitgliedern und anderen Mitarbeitern in Schlüsselpositionen) zu gewinnen oder zu halten, und sie könnte Schaden erleiden, wenn sie kein gutes Verhältnis zu ihren Arbeitnehmern unterhält.
- Alle Geschäftsbereiche der RBSG-Gruppe sind weitgehend reguliert und beaufsichtigt. Wesentliche aufsichtsrechtliche Veränderungen (einschließlich Änderungen des Steuerrechts) könnten sich nachteilig auf die Geschäftstätigkeit sowie das Betriebsergebnis und die Finanzlage der RBSG-Gruppe auswirken.
- Die Ergebnisse der RBSG-Gruppe könnten durch eine Wertminderung des Goodwill beeinträchtigt werden.
- Es kann sein, dass die RBSG-Gruppe weitere Beiträge für ihr Pensionssystem aufbringen muss, wenn der Wert der Vermögenswerte in Pensionsfonds nicht ausreichend ist, um potenzielle Verbindlichkeiten zu decken.
- Das Geschäft der RBSG-Gruppe birgt betriebsbedingte Risiken.
- Das britische Schatzamt (*HM Treasury*) (bzw. die UK Financial Investments Limited als Vertreter) kann einen wesentlichen Einfluss auf die RBSG-Gruppe ausüben, und ein eventuelles Angebot bzw. eine eventuelle Veräußerung seiner Beteiligung kann den Preis der Wertpapiere beeinträchtigen.
- Die Geschäftstätigkeit der RBSG-Gruppe unterliegt

damit verbundenen Reputationsrisiken.

- Im Vereinigten Königreich sowie in anderen Jurisdiktionen muss die RBSG-Gruppe Beiträge zu dem Entschädigungssystem für Banken und andere zugelassene Finanzdienstleistungsunternehmen leisten, die ihre Verbindlichkeiten gegenüber ihren Kunden nicht erfüllen können.
- Die Werthaltigkeit und die aufsichtsrechtliche Eigenmittelbehandlung bestimmter von der RBSG-Gruppe berücksichtigter latenter Steueransprüche hängt von der Fähigkeit der RBSG-Gruppe ab, ausreichende zukünftige steuerpflichtige Gewinne zu erzielen und davon, dass sich Steuergesetzgebung, aufsichtsrechtliche Anforderungen und Bilanzierungsgrundsätze nicht in nachteiliger Weise ändern.
- Die Beteiligung der RBSG-Gruppe an dem staatlichen britischen Schutzprogramm für Risiken aus bestimmten Vermögenswerten (asset protection scheme) ist teuer und könnte nicht die erwarteten Vorteile erzielen. Der Eintritt von dazugehörigen Risiken kann das Geschäft, die Kapitalsituation, die Finanzlage und das Betriebsergebnis der RBSG-Gruppe wesentlich beeinträchtigen.
- Die umfangreichen Anforderungen an die Unternehmensführung (Governance) und Verwaltung von Vermögenswerten sowie die umfangreichen Informationsanforderungen gemäß den Bedingungen des Programms (scheme) können sich negativ auf die RBSG-Gruppe und die erwarteten Vorteile des staatlichen Schutzprogramms für Risiken aus bestimmten Vermögenswerten auswirken.
- Änderungen der erwarteten aufsichtsrechtlichen Eigenmittelbehandlung des staatlichen Schutzprogramms für Risiken aus bestimmten Vermögenswerten, der von der RBSG ausgegebenen B-Aktien und der bedingten B-Aktien, die die RBSG ausgeben kann, können die RBSG-Gruppe erheblich

beeinträchtigen.

- Die RBS hat ein Kreditderivat und einen Finanzgarantievertrag mit der RBS N.V. abgeschlossen, die die Ergebnisse der RBS-Gruppe beeinträchtigen können.
- Falls die RBSG-Gruppe keine bedingten B-Aktien an das britische Schatzamt ausgeben kann, kann dies die Kapitalsituation, die Liquidität, das Betriebsergebnis und die zukünftigen Aussichten der RBSG-Gruppe erheblich beeinträchtigen.

4. In the Bonus Discount Base Prospectus 2012, in the section "**ZUSAMMENFASSUNG (GERMAN LANGUAGE VERSION OF THE SUMMARY)**" the third paragraph under the heading "**Geplante Übertragung von Aktivitäten der RBS N.V. auf die RBS**" shall be replaced as follows:

Am 26. März 2012 teilte die Gruppe mit, dass (1) die RBS N.V. (als abspaltende Gesellschaft) und die RBS II B.V. (als übernehmende Gesellschaft) an diesem Tag bei dem niederländischen Handelsregister einen Abspaltungsantrag eingereicht haben und (2) die RBS und die RBS II B.V. an diesem Tag nach einer vorläufigen Anhörung vor dem schottischen Zivilgerichtshof (*Court of Session*) Anträge auf eine geplante grenzüberschreitende Verschmelzung der RBS II B.V. auf die RBS (zusammen mit dem Abspaltungsantrag das „**Geplante Niederländische Verfahren**“) bei dem Companies House im Vereinigten Königreich bzw. dem niederländischen Handelsregister eingereicht haben. Nach Umsetzung des Geplanten Niederländischen Verfahrens wird ein wesentlicher Teil der Geschäftstätigkeit der RBS N.V. in den Niederlanden sowie in bestimmten Niederlassungen der RBS N.V. in einer Reihe von Staaten in Europa auf die RBS übertragen (die „**Übertragenen Geschäftsbereiche**“). Die Umsetzung des Geplanten Niederländischen Verfahrens erfolgt durch Abspaltung der Übertragenen Geschäftsbereiche in die RBS II B.V. im Wege eines gesetzlich vorgesehenen Abspaltungsverfahrens in den Niederlanden (die „**Abspaltung**“) mit anschließender Verschmelzung der RBS II B.V. auf die RBS im Wege einer grenzüberschreitenden Verschmelzung (die „**Verschmelzung**“). Die RBS II B.V. ist eine in den Niederlanden als Bank zugelassene Gesellschaft, die eigens für Zwecke des Geplanten Niederländischen Verfahrens gegründet wurde. Die Umsetzung des Geplanten Niederländischen Verfahrens ist u.a. abhängig von aufsichtsrechtlichen und gerichtlichen Genehmigungen. Im Falle einer Gestattung werden die aufsichtsrechtlichen Genehmigungen unter dem Vorbehalt gewährt, dass die Abspaltung nicht vorgenommen wird, sofern nicht danach auch die Verschmelzung erfolgt. Am 18. Juni 2012 hat der

schottische Zivilgerichtshof unter anderem die Durchführung der Verschmelzung nach Art. 11 der Richtlinie 2005/56/EG des Europäischen Parlaments und des Rates der Europäischen Union genehmigt.

Am 4. Juli 2012 haben die RBSG, RBS, RBS Holdings, RBS N.V. und RBS II B.V. beschlossen, die Umsetzung des Geplanten Niederländischen Verfahrens, die ursprünglich am 9. Juli 2012 erfolgen sollte, im Hinblick auf technische Probleme der RBSG-Gruppe im Vereinigten Königreich und in Irland vorsorglich zu verschieben. Die britische Finanzmarktaufsichtsbehörde (*Financial Services Authority*) wurde über die Verschiebung unterrichtet und hat keine Einwände. Die niederländische Zentralbank (*De Nederlandsche Bank*) wurde über die Verschiebung unterrichtet.

Am 20. Juli 2012 haben die RBSG, RBS, RBS Holdings, RBS N.V. und RBS II B.V. mitgeteilt, dass die Umsetzung des Geplanten Niederländischen Verfahrens voraussichtlich am 10. September 2012 stattfinden wird. Die Umsetzung zu diesem Datum ist unter anderem von aufsichtsbehördlichen Genehmigungen sowie der Genehmigung des Court of Session in Schottland abhängig.

Im Falle einer Änderung dieses Datums wird die Emittentin einen Nachtrag zu dem Basisprospekt veröffentlichen.

Registration Document", "Proposed Dutch Scheme", "Additional Information about the Issuer and the Guarantor", "Significant changes" and "Rating of the Issuer" shall be replaced as follows:

RBS N.V. Registration Document

The required information about The Royal Bank of Scotland N.V. acting either through its principal office in the Netherlands or through its London branch or any other branch, as specified in the Final Terms, as issuer of the Securities (the "Issuer") and RBS Holdings N.V. as guarantor (the "Guarantor" or "RBS Holdings") for all liabilities of the Issuer incurred in connection with legal acts performed by the Issuer after 15 June 1998 (the "Guarantee") as well as the Guarantee is contained in the registration document of RBS Holdings N.V. and The Royal Bank of Scotland N.V. dated 28 March 2012 (the "RBS N.V. Registration Document").

As a result of the Proposed Dutch Scheme (as defined and further set out in the subsection "Proposed Dutch Scheme" within the section "Information about The Royal Bank of Scotland plc"), RBS will become the issuer of certain securities originally issued by RBS N.V. Any liability of RBS Holdings under the Guarantee will, from the effective date of the Proposed Dutch Scheme, cease to apply in relation to any securities for which RBS will become the issuer.

Proposed Dutch Scheme

On 18 June 2012, the Court of Session in Scotland made an order, *inter alia*, approving the completion of the merger of RBS II B.V. into RBS through a cross-border merger for the purposes of Article 11 of Directive 2005/56/EC of the European Parliament and the Council of the European Union.

On 4 July 2012, RBSG, RBS, RBS Holdings, RBS N.V. and RBS II B.V. decided that, as a result of technology issues which affected the RBSG Group in the UK and Ireland, it would be prudent to defer the implementation of the "Proposed Dutch Scheme" which was scheduled to take place on 9 July 2012 and which comprises (1) a legal demerger by RBS N.V. as the demerging company and RBS II B.V. as the acquiring company and (2) the cross-border merger of RBS II B.V. into RBS. The FSA has been advised of the delay and has no objections. De Nederlandsche Bank is aware of the delay.

On 20 July 2012, RBSG, RBS, RBS Holdings, RBS N.V. and RBS II B.V. announced that the Proposed Dutch Scheme is now expected to be implemented on 10 September 2012, subject (among other matters) to regulatory approvals and the approval of the Court of Session in Scotland. Rating of the Issuer

As at 28 August 2012, the credit ratings³ of the Issuer assigned by Moody's Investors Service Ltd., London, United Kingdom ("**Moody's Investors Service**"), Standard & Poor's Credit Market Services Europe Limited, London, United Kingdom ("**Standard & Poor's**"), and Fitch Ratings Limited, London, United Kingdom ("**Fitch Ratings**"), are as follows:

	Long term	Short term	Outlook
Moody's Investors Service	A3	P-2	Negative
Standard & Poor's	A	A-1	Stable
Fitch Ratings	A	F1	Stable

Moody's Investors Service definitions

Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging from "Aaa" (describing obligations judged to be of the highest quality, with minimal credit risk), "Aa", "A", "Baa", "Ba", "B", "Caa" and "Ca" to "C", the lowest category representing long-term obligations that are typically in default, with little prospect for recovery of principal or interest. In addition, Moody's Investors Service appends numerical modifiers ("1", "2", and "3") to each generic rating classification from "Aa" through "Caa". The modifier "1" indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier "2" indicates a mid-range ranking, and the modifier "3" indicates a ranking in the lower end of that generic rating category.

Issuers rated "P-2" have a strong ability to repay short-term debt obligations.

The rating system used by Moody's Investors Service for short-term obligations has various subcategories ranging from "P 1", "P-2" and "P-3" to "NP", the lowest category representing issuers that do not fall within any of the "Prime" rating categories.

³ The rating agencies set forth in this section are registered in accordance with Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (the "**Regulation**") as published on the website of the European Securities and Markets Authority pursuant to Article 18(3) of the Regulation.

A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: "Positive", "Negative", "Stable", and "Developing" (contingent upon an event).

Standard and Poor's definitions

An obligor rated "A" by Standard & Poor's has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor's for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB"; "BB"; "B", "CCC", "CC", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus ("+") or minus ("-") signs following ratings from the "AA" to "CCC" categories show the relative standing within the major rating categories.

An obligor rated "A-1" by Standard & Poor's has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor's.

The rating system used by Standard & Poor's for short-term issuer credit ratings has various subcategories ranging from "A-1" (which is the highest quality rating), "A-2", "A-3", "B" "C", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

"Stable" means that a rating is not likely to change.

Fitch Ratings definitions

"A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C", "RD" to "D", the lowest category indicating that the issuer in Fitch Ratings' opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers "+" or "-" may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the "AAA" rating category or to the categories below "B".

An "F1" rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from "F1" (which is the highest quality rating), "F2", "F3", "B" "C" and "RD" to "D", the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody's Investors Service (www.moody.com), Standard & Poor's (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively. They have been accurately reproduced and that as far as the Issuer is aware and is able to ascertain from information published by Moody's Investors Service, Standard & Poor's, and Fitch Ratings, respectively, no facts have been omitted which would render the reproduced information inaccurate or misleading.

As defined by Moody's Investors Service, an "A" rating means the capacity of the issuer to meet its obligations on the relevant notes issued by it is considered to be upper-medium grade subject to low credit risk. As defined by Moody's Investors Service, the addition of a "3" indicates that the obligation ranks in the lower end of its generic rating category. As defined by Moody's Investors Service, a "P-2" rating means that the issuer has a strong ability to repay its short-term debt obligations on the relevant notes issued by it.

The rating definitions set out above constitute third-party information and were obtained in the English language from the publication entitled "Rating Symbols and Definitions - June 2012" published by Moody's Investors Service (available at www.moodys.com). The information found at the website referred to in the previous sentence does not form part of and is not incorporated by reference into this Base Prospectus. The rating definitions set out above have been accurately reproduced from the source identified above and, so far as the Issuer is able to ascertain from information published by Moody's Investors Service, no facts have been omitted which would render the rating definitions set out above inaccurate or misleading.

FSA agreement in relation to interest rate swap products for small and medium enterprises

On 29 June 2012, RBS announced that it, in common with a number of other UK banks, had reached an agreement with the FSA on an approach to the mis-selling issues surrounding interest rate swap products for small and medium enterprises (SMEs). The agreement includes an independent review process which is intended to provide certainty for affected customers and other stakeholders. In respect of less sophisticated customers who entered into more complex swap products, RBS has agreed to provide direct and immediate redress. RBS is currently not able to reliably estimate the financial impact of this agreement.

Litigation

London Interbank Offered Rate ("LIBOR")

Certain members of the RBSG Group have been named as defendants in a number of class actions and individual claims filed in the US with respect to the setting of LIBOR. It is possible that further claims may be threatened or brought in the US or elsewhere relating to the setting of interest rates or interest rate-related trading.

Investigations

LIBOR

The RBSG Group continues to co-operate fully with investigations by various governmental and regulatory authorities into its submissions, communications and procedures relating to the setting of LIBOR and other interest rates. The relevant authorities include, amongst others, the US Commodity Futures Trading Commission, the US Department of Justice (Fraud Division), the FSA and the Japanese Financial Services Agency. The RBSG Group has dismissed a number of employees for misconduct as a result of its investigations into these matters.

The RBSG Group is also under investigation by competition authorities in a number of jurisdictions, including the European Commission, Department of Justice (Antitrust Division) and Canadian Competition Bureau, stemming from the actions of certain individuals in the setting of LIBOR and other interest rates, as well as interest rate-related trading. The RBSG Group is also co-operating fully with these investigations.

It is not possible to reliably measure what effect these investigations, any regulatory findings and any related developments may have on the RBSG Group, including the timing and amount of fines or settlements.

Technology incident

On 19 June 2012, the RBSG Group was affected by a technology incident, as a result of which the processing of certain customer accounts and payments were subject to considerable delay. The cause of the incident is being investigated by independent external counsel with the assistance of third party advisers, who have been instructed to carry out an independent review. The RBSG Group has agreed to reimburse customers for any loss suffered as a result of the incident and has made a provision of £125million in the unaudited Interim Results 2012 of RBSG for this matter. Additional costs may arise once all redress and business disruption items are clear and a further update will be given in the third quarter.

The incident, the RBSG Group's handling of the incident and the systems and controls surrounding the processes affected, are the subject of regulatory enquiries (both from the UK and Ireland) and the RBSG Group could become a party to litigation. In particular, the RBSG Group could face legal claims from those whose accounts were affected and could itself have claims against third parties.

The Issuer is a bank licensed and regulated by the Dutch Central Bank (De Nederlandsche Bank).

The Issuer operates across Europe, the Middle East and Africa (EMEA), the Americas and Asia. According to the Annual Report and Accounts 2011 for the financial year ended 31 December 2011 of RBS Holdings, the Group had total consolidated assets of EUR 146.7 billion as at 31 December 2011, the Group's Tier 1 and Core Tier 1 capital ratios were 12.0 per cent. and 8.4 per cent., respectively, as at that date.

RBS Holdings and RBS N.V. form part of the RBSG Group. RBSG is the holding company of a global banking and financial services group. Headquartered in Edinburgh, the RBSG Group operates in the United Kingdom, the United States and internationally through its three principal subsidiaries, RBS, National Westminster Bank Public Limited Company ("**NatWest**") and RBS N.V. Both RBS and NatWest are major United Kingdom clearing banks. In the United States, RBS's subsidiary Citizens Financial Group, Inc. is a commercial banking organisation. Globally, the Group has a diversified customer base and provides a wide range of products and services to personal, commercial and large corporate and institutional customers.

Group Organisational Structure:

The Group comprises the following four segments:

- Global Banking & Markets ("**GBM**"): The GBM segment represents the business providing an extensive range of debt and equity financing, risk management and investment services as a banking partner to major corporations and financial institutions around the world. The GBM business within RBS Holdings is organised along four principal business lines: Global Lending, Equities, Short Term Markets & Funding and Local Markets.
- Global Transaction Services ("**GTS**"): GTS

provides global transaction services, offering Global Trade Finance, Transaction Banking and International Cash Management.

- **Central Items:** The Central Items segment includes group and corporate functions, such as treasury, capital management and finance, risk management, legal, communications and human resources. Central Items manages the Group's capital resources, statutory and regulatory obligations and provides services to the branch network.

- **Non-Core Segment:** The Non-Core segment contains a range of businesses and asset portfolios managed separately that the Group intends to run off or dispose of, in line with the RBSG Group strategy for Non-Core assets. It also includes the remaining assets and liabilities in RBS N.V. that have not yet been sold, wound down or alternatively transferred by the Consortium Members (as defined below), in which each of the Consortium Members has a joint and indirect interest.

Global Banking & Markets, Global Transaction Services and Central Items comprise the Group's Core segments.

These businesses are part of global business units of the RBSG Group that operate across multiple legal entities. The strategy of the Group is part of the overall business strategy of the RBSG Group. RBS Holdings has been restructured into Core and Non-Core components. The RBSG Group expects to substantially run down or dispose of the businesses, assets and portfolios within the Non-Core division by 2013 and has completed the sales of businesses in Latin America, Asia, Europe and the Middle East.

**Separation from the ABN
AMRO Group:**

In 2007, RFS Holdings B.V. ("**RFS Holdings**"), which was jointly owned by RBSG Group, the Dutch State (successor to Fortis Bank Nederland (Holding) N.V.) and Santander (together the ("**Consortium Members**"), completed the acquisition of ABN AMRO

Holding N.V.

On 6 February 2010, the businesses of ABN AMRO Holding N.V. acquired by the Dutch State were legally demerged to a newly established company, ABN AMRO Bank N.V., which on 1 April 2010, was transferred to ABN AMRO Group N.V., itself owned by the Dutch State.

Certain assets within RBS N.V. continue to be shared by the Consortium Members. Approximately 98 per cent. of the issued share capital of RFS Holdings is now held by the RBSG Group.

**Proposed Transfer of
Activities:**

On 19 April 2011, the Group announced that it had approved the proposed transfers of a substantial part of its business activities of RBS N.V. to RBS, (the "**Proposed Transfers**"). It is expected that the Proposed Transfers will be implemented on a phased basis over a period ending on 31 December 2013. A large part of the Proposed Transfers is expected to have taken place by the end of 2012. The Proposed Transfers include a proposal to change the issuer of a number of securities issued by RBS N.V. which will include some or all of the securities issued by RBS N.V. between 19 April 2011 and the date that the Proposed Transfers take effect.

On 17 October 2011, the Group completed the transfer of a substantial part of the UK activities of RBS N.V. to RBS pursuant to Part VII of UK Financial Services and Markets Act 2000.

On 26 March 2012, the Group announced that (1) RBS N.V. (as the demerging company) and RBS II B.V. (as the acquiring company) had that day filed a proposal with the Dutch Trade Register for a legal demerger and (2) following a preliminary hearing at the Court of Session in Scotland, RBS and RBS II B.V. had that day made filings with the Companies House in the UK and the Dutch Trade Register respectively for a proposed cross-border merger of RBS II B.V. into RBS (together with the proposal for the legal demerger, the

"Proposed Dutch Scheme"). Upon implementation of the Proposed Dutch Scheme, a substantial part of the business conducted by RBS N.V. in The Netherlands as well as in certain branches of RBS N.V. located in a number of countries in Europe will be transferred to RBS (the **"Transferring Businesses"**). The Proposed Dutch Scheme will be implemented by the demerger of the transferring businesses into RBS II B.V. by way of a Dutch statutory demerger (the **"Demerger"**), followed by the merger of RBS II B.V. into RBS through a cross-border merger. RBS II B.V. is a Dutch company licensed as a bank in The Netherlands that has been established specifically for the purposes of the Proposed Dutch Scheme. Implementation of the Proposed Dutch Scheme is subject, amongst other matters, to regulatory and court approvals. If granted, the regulatory approvals will be granted on the basis that the Demerger will not proceed unless the Merger is to proceed thereafter. Subject to these matters, it is expected that the Proposed Dutch Scheme will take effect on 9 July 2012.

As a result of the Proposed Dutch Scheme, RBS will become the Issuer of certain securities originally issued by RBS N.V. Any liability of RBS Holdings under the Guarantee will, from the effective date of the Proposed Dutch Scheme, cease to apply in relation to any securities for which RBS will become the Issuer.

On 23 March 2012, RBS N.V. and RBS published a list of securities of RBS N.V. for which it is possible that RBS will become the issuer of the Securities, accordingly, indicating whether or not RBS is expected to become the issuer of those securities pursuant to the Proposed Dutch Scheme (subject to the relevant securities not having been exercised, redeemed or repurchased and cancelled prior to the implementation of the Proposed Dutch Scheme).

For securities issued by RBS N.V. after 30 March 2012, RBS N.V. will include provisions in the final terms for any new issues of securities which are eligible for the

Proposed Dutch Scheme to indicate whether or not RBS is expected to subsequently become the issuer of those securities as a result of the Proposed Dutch Scheme (subject to the relevant securities not having been exercised, redeemed or repurchased and cancelled prior to the implementation of the Proposed Dutch Scheme).

According to the Abbreviated Financial Statements 2011 of the Issuer, the Issuer recorded a loss for 2011 of EUR 656 million. Its total assets were EUR 165.3 billion at 31 December 2011.

Rating of the Issuer:

As of 30 March 2012, the credit ratings¹ of the Issuer assigned by Moody's Investors Service Ltd., London,

¹ Since 31 October 2011 the rating agencies set forth in this section are registered in accordance with Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (the

United Kingdom ("**Moody's Investors Service**"), Standard & Poor's Credit Market Services Europe Limited, London, United Kingdom ("**Standard & Poor's**"), and Fitch Ratings Limited, London, United Kingdom ("**Fitch Ratings**"), are as follows:

	Long term	Short term	Outlook
Moody's Investors Service	A2	P-1	Negative
Standard & Poor's	A	A-1	Stable
Fitch Ratings	A	F1	Stable

- **Moody's Investors Service definitions**

Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging from "Aaa" (describing obligations judged to be of the highest quality, with minimal credit risk), "Aa", "A", "Baa", "Ba", "B", "Caa" and "Ca" to "C", the lowest category representing long-term obligations that are typically in default, with little prospect for recovery of principal or interest. In addition, Moody's Investors Service appends numerical modifiers ("1", "2", and "3") to each generic rating classification from "Aa" through "Caa". The modifier "1" indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier "2" indicates a mid-range ranking, and the modifier "3" indicates a ranking in the lower end of that generic rating category.

Issuers rated "P-1" have a superior ability to repay short-term debt obligations.

The rating system used by Moody's Investors Service

"Regulation") as published on the website of the European Securities and Markets Authority pursuant to Article 18(3) of the Regulation.

for short-term obligations has various subcategories ranging from "P-1", "P-2" and "P-3" to "NP", the lowest category representing issuers that do not fall within any of the "Prime" rating categories.

A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: "Positive", "Negative", "Stable", and "Developing" (contingent upon an event).

- ***Standard and Poor's definitions***

An obligor rated "A" by Standard & Poor's has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor's for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus ("+") or minus ("-") signs following ratings from the "AA" to "CCC" categories show the relative standing within the major rating categories.

An obligor rated "A-1" by Standard & Poor's has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor's.

The rating system used by Standard & Poor's for short-term issuer credit ratings has various subcategories ranging from "A-1" (which is the highest quality rating), "A-2", "A-3", "B", "C", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as

they come due.

"Stable" means that a rating is not likely to change.

- ***Fitch Ratings definitions***

"A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C", "RD" to "D", the lowest category indicating that the issuer in Fitch Ratings' opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers "+" or "-" may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the "AAA" rating category or to the categories below "B".

An "F1" rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from "F1" (which is the highest quality rating), "F2", "F3", "B" "C" and "RD" to "D", the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody's Investors Service (www.moodys.com), Standard & Poor's (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively.

Accordingly, risk factors below which relate to RBSG and the RBSG Group will also be of relevance to the Issuer and the Group:

- The Group's businesses and performance can be negatively affected by actual or perceived global economic and financial market conditions and by other geopolitical risks.
- The Group's ability to meet its obligations including its funding commitments depends on the Group's ability to access sources of liquidity and funding.
- The execution and/or any delay in the execution (or non-completion) of the approved proposed transfers of a substantial part of the business activities of RBS N.V. to RBS may have a material adverse effect on the Group and may also negatively impact the value of securities issued by RBS N.V.
- If securities issued by RBS N.V. are transferred to RBS, the fact of such transfer and/or the fact that RBS is a Scottish incorporated company might impact holders of such securities, whether for tax reasons or otherwise.

securities issued by RBS N.V.

- As a condition to the RBSG Group receiving HM Treasury support, the Group is prohibited from making discretionary coupon payments on, and exercising call options in relation to, certain of its existing hybrid capital instruments, which may impair the Group's ability to raise new capital through the issuance of Securities.
- The financial performance of the Group has been, and continues to be, materially affected by deteriorations in borrower and counterparty credit quality and further deteriorations, could arise due to prevailing economic and market conditions, and legal and regulatory developments.
- The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions.
- Changes in interest rates, foreign exchange rates, credit spreads, bond, equity and commodity prices, basis, volatility and correlation risks and other market factors have significantly affected and will continue to affect the Group's business and results of operations.
- The Group's borrowing costs, its access to the debt capital markets and its liquidity depend significantly on its credit ratings.
- The Group's business performance could be adversely affected if its capital is not managed effectively or as a result of changes to capital adequacy and liquidity requirements.

Die RBS Holdings und die RBS N.V. sind Teil der RBSG-Gruppe. Die RBSG ist die Muttergesellschaft einer weltweit tätigen Bank- und Finanzdienstleistungsgruppe. Mit Hauptsitz in Edinburgh, ist die RBSG-Gruppe im Vereinigten Königreich, in den Vereinigten Staaten und international durch ihre drei Haupttochtergesellschaften, RBS, National Westminster Bank Public Limited Company („**NatWest**“) und RBS N.V. tätig. Sowohl die RBS als auch NatWest sind bedeutende Clearingbanken im Vereinigten Königreich. In den Vereinigten Staaten ist Citizens Financial Group, Inc., die Tochtergesellschaft der RBS, eine Handelsbankengruppe. Die Gruppe hat weltweit eine diversifizierte Kundenbasis und stellt Privat- und Geschäftskunden sowie Großunternehmen und institutionellen Kunden eine breite Palette von Produkten und Dienstleistungen zur Verfügung.

Organisationsstruktur der Gruppe:

Die Gruppe umfasst die folgenden vier Unternehmensbereiche:

- *Global Banking & Markets* (Globales Bankgeschäft und Märkte, „**GBM**“): Der Unternehmensbereich GBM bietet im Bankgeschäft bedeutenden Unternehmen und Finanzinstituten weltweit eine breite Palette von Kredit- und Eigenkapitalfinanzierungen, Risikomanagement und Investmentdienstleistungen an. Der Unternehmens-

bereich GBM innerhalb von RBS Holdings ist in vier Hauptgeschäftsbereiche aufgeteilt: *Global Lending* (Globales Kreditgeschäft), *Equities* (Aktiengeschäft), *Short Term Markets & Funding* (Kurzfristige Märkte und Finanzierung) und *Local Markets* (Lokale Märkte).

- *Global Transaction Services* (Globale Transaktionsdienstleistungen, „GTS“): GTS bietet als globale Transaktionsdienstleistungen *Global Trade Finance* (Globale Handelsfinanzierung), *Transaction Banking* (Transaktionsbankgeschäft) und *International Cash Management* (Internationales Liquiditätsmanagement) an.

Es umfasst auch bei der RBS N.V. verbleibendes Vermögen und Verbindlichkeiten, das/die noch nicht verkauft, abgewickelt oder alternativ durch die Mitglieder des Konsortiums (nachstehend definiert) übertragen werden, und an dem/den jedes Mitglied des Konsortiums eine gemeinsame und unmittelbare Beteiligung hat.

Global Banking & Markets, *Global Transaction Services* und *Central Items* stellen die Kernbereiche der Gruppe dar.

Diese Geschäftsbereiche sind Teil der globalen

Geschäftseinheiten der RBSG-Gruppe, die durch verschiedene juristische Personen handeln. Die Strategie der Gruppe ist Teil der gesamten Unternehmensstrategie der RBSG-Gruppe. Die RBS Holdings ist in Kern- und Nicht-Kernbereiche restrukturiert worden. Die RBSG-Gruppe wird voraussichtlich die Geschäftsbereiche Vermögenswerte und Portfolien innerhalb des Nicht-Kernbereiches bis 2013 im Wesentlichen abgewickelt bzw. veräußert haben, und die RBSG-Gruppe hat die Veräußerung der Unternehmen in Lateinamerika, Asien, Europa und im Nahen Osten vollzogen.

Abspaltung der ABN AMRO Gruppe:

In 2007 hat die RFS Holdings B.V. („**RFS Holdings**“), die gemeinsam von der RBSG-Gruppe, dem niederländischen Staat (als Nachfolger der Fortis Bank Nederland (Holding) N.V.) und Santander (gemeinsam die „**Mitglieder des Konsortium**“) gehalten wurde, den Erwerb der ABN AMRO Holding N.V. abgeschlossen.

Am 6. Februar 2010 wurden die vom niederländischen Staat übernommenen Geschäfte der ABN AMRO Holding N.V. rechtlich auf eine neu gegründete Firma, die ABN AMRO Bank N.V., abgespalten. Die ABN AMRO Bank N.V. wurde wiederum am 1. April 2010 an die ABN AMRO Group N.V. übertragen, die im Eigentum des niederländischen Staates steht.

Bestimmte Vermögenswerte der RBS N.V. verbleiben weiterhin gemeinschaftlich bei den Mitgliedern des Konsortiums. Circa 98 Prozent des ausgegebenen Stammkapitals der RFS Holdings wird nunmehr von der RBSG-Gruppe gehalten.

Geplante Übertragung von Aktivitäten:

Am 19. April 2011 hat die Gruppe mitgeteilt, dass sie einer geplanten Übertragung eines wesentlichen Teils ihrer Geschäftsaktivitäten von der RBS N.V. auf die RBS zugestimmt hat (die „**Geplanten Übertragungen**“). Es wird erwartet, dass die Geplanten Übertragungen in mehreren Stufen bis zum 31. Dezember 2013 durchgeführt werden. Ein großer Teil der Geplanten Übertragungen soll den Planungen zufolge bis Ende 2012 erfolgt sein. Die Geplanten Übertragungen

beinhalten eine Ersetzung der Emittentin für eine Vielzahl der von der RBS N.V. begebenen Wertpapiere. Dies wird auch für einen Teil oder alle der von der RBS N.V. zwischen dem 19. April 2011 und dem Zeitpunkt des Wirksamwerdens der Geplanten Übertragungen begebenen Wertpapiere gelten.

Am 17. Oktober 2011 hat die Gruppe die Übertragung wesentlicher Teile der englischen Geschäftstätigkeiten der RBS N.V. auf die RBS nach Teil VII des britischen *Financial Services and Markets Act 2000* abgeschlossen.

Am 26. März 2012 teilte die Gruppe mit, dass (1) die RBS N.V. (als abspaltende Gesellschaft) und die RBS II B.V. (als übernehmende Gesellschaft) an diesem Tag bei dem niederländischen Handelsregister einen Abspaltungsantrag eingereicht haben und (2) die RBS und die RBS II B.V. an diesem Tag nach einer vorläufigen Anhörung vor dem zuständigen Gericht in Schottland (*Court of Session*) Anträge auf eine geplante grenzüberschreitende Verschmelzung der RBS II B.V. auf die RBS (zusammen mit dem Abspaltungsantrag das „**Geplante Niederländische Verfahren**“) bei dem Companies House im Vereinigten Königreich bzw. dem niederländischen Handelsregister eingereicht haben. Nach Umsetzung des Geplanten Niederländischen Verfahrens wird ein wesentlicher Teil der Geschäftstätigkeit der RBS N.V. in den Niederlanden sowie in bestimmten Niederlassungen der RBS N.V. in einer Reihe von Staaten in Europa auf die RBS übertragen (die „**Übertragenen Geschäftsbereiche**“). Die Umsetzung des Geplanten Niederländischen Verfahrens erfolgt durch Abspaltung der Übertragenen Geschäftsbereiche in die RBS II B.V. im Wege eines gesetzlich vorgesehenen Abspaltungsverfahrens in den Niederlanden (die „**Abspaltung**“) mit anschließender Verschmelzung der RBS II B.V. auf die RBS im Wege einer grenzüberschreitenden Verschmelzung. Die RBS II B.V. ist eine in den Niederlanden als Bank zugelassene Gesellschaft, die eigens für Zwecke des

Geplanten Niederländischen Verfahrens gegründet wurde. Die Umsetzung des Geplanten Niederländischen Verfahrens ist u.a. abhängig von aufsichtsrechtlichen und gerichtlichen Genehmigungen. Im Falle einer Gestattung werden die aufsichtsrechtlichen Genehmigungen unter dem Vorbehalt gewährt, dass die Abspaltung nicht vorgenommen wird, sofern nicht danach auch die Verschmelzung erfolgt. Unter diesen Voraussetzungen wird erwartet, dass das Geplante Niederländische Verfahren am 9. Juli 2012 wirksam wird.

Als Folge des Geplanten Niederländischen Verfahrens wird die RBS für bestimmte, ursprünglich von der RBS N.V. begebene Wertpapiere als Emittentin an die Stelle der RBS N.V. treten. Für den Fall einer wirksamen Umsetzung des Geplanten Niederländischen Verfahrens enden sämtliche Verpflichtungen der RBS Holdings gemäß der Garantie in Bezug auf die Wertpapiere, die auf die RBS als neue Emittentin übergehen.

Entsprechend haben die RBS N.V. und die RBS am 23. März 2012 eine Liste mit bereits von der RBS N.V. begebenen Wertpapieren veröffentlicht, für die die Möglichkeit besteht, dass die RBS nach dem Geplanten Niederländischen Verfahren nachträglich zur Emittentin der Wertpapiere wird. Diese Liste bezeichnet die Wertpapiere, bei denen davon ausgegangen wird, dass die RBS nachträglich zur Emittentin für diese Wertpapiere wird (soweit diese Wertpapiere vor dem Geplanten Niederländische Verfahren weder ausgeübt, noch gekündigt oder zurückgekauft und eingezogen wurden).

Für Wertpapiere, die von der RBS N.V. erst nach dem 30. März 2012 begeben werden, wird die RBS N.V. in den Endgültigen Bedingungen angeben, ob bei der betreffenden Emission von einem nachträglichen Wechsel der Emittentenfunktion auf die RBS nach dem Geplanten Niederländische Verfahren auszugehen ist (soweit diese Wertpapiere vor dem Geplanten Niederländische Verfahren weder ausgeübt, noch

gekündigt oder zurückgekauft und eingezogen wurden).

Finanzangaben der Emittentin:

- **Moody’s Investors Service Definitionen**

Verbindlichkeiten, die mit „A“ eingestuft sind, werden als Verbindlichkeiten der „oberen Mittelklasse“ zugerechnet und bergen ein geringes Kreditrisiko.

Die von Moody’s Investors Service verwendete Rating-Skala für langfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „Aaa“, die die Kategorie höchster Qualität mit einem minimalen Kreditrisiko bezeichnet, über die Kategorien „Aa“, „A“, „Baa“, „Ba“, „B“, „Caa“, „Ca“, bis zur niedrigsten Kategorie „C“, die langfristige Verbindlichkeiten bezeichnet, bei denen ein Zahlungsausfall in der Regel bereits eingetreten ist und eine geringe Aussicht auf Rückzahlung von Kapital und Zinsen besteht. Moody’s Investors Service verwendet innerhalb der Kategorien „Aa“ bis „Caa“ zusätzlich numerische Unterteilungen („1“, „2“ oder „3“). Der Zusatz „1“ weist darauf hin, dass die jeweilige langfristige Verbindlichkeit zum oberen Drittel der jeweiligen Rating-Kategorie gehört, während der Zusatz „2“ auf eine Klassifizierung im mittleren Drittel und der Zusatz „3“ auf eine solche im unteren Drittel hinweist.

Emittenten mit der Einstufung „P-1“ verfügen in herausragender Weise über die Fähigkeit, ihre kurzfristigen Schuldverschreibungen zurückzuzahlen.

Die von Moody's Investors Service verwendete Rating-Skala für die Fähigkeit eines Emittenten zur Erfüllung seiner kurzfristigen Finanzverbindlichkeiten hat verschiedene Kategorien und reicht von „P-1“ über die Kategorien „P-2“ und „P-3“ bis zur niedrigsten Kategorie „NP“, die verdeutlicht, dass ein Emittent zu keiner der „Prime“-Rating-Kategorien gehört.

Ein Rating-Ausblick ist eine Meinung über die Richtung, in die sich ein Rating mittelfristig voraussichtlich entwickeln wird. Die Ausblicke werden in die folgenden vier Kategorien unterteilt: „positiv“, „negativ“, „stabil“ und „noch unbestimmt“ (d. h. ereignisabhängig).

- ***Standard and Poor's Definitionen***

Die Fähigkeit eines Schuldners mit einem Standard & Poor's-Rating von „A“, seine finanziellen Verpflichtungen zu erfüllen, ist stark, aber etwas anfälliger gegenüber nachteiligen Auswirkungen von Veränderungen äußerer Umstände und wirtschaftlicher Bedingungen als bei Schuldnern, die in einer höheren Rating-Kategorie eingestuft sind.

Die von Standard & Poor's verwendete Rating-Skala für die langfristige Fähigkeit eines Schuldners zur Erfüllung seiner Verbindlichkeiten hat verschiedene Rating-Kategorien und reicht von „AAA“, die die Kategorie höchster Bonität bezeichnet, über die Kategorien „AA“, „A“, „BBB“, „BB“, „B“, „CCC“, „CC“, „R“ und „SD“ bis zur niedrigsten Kategorie „D“, die kennzeichnet, dass Standard & Poor's davon ausgeht, dass der Zahlungsausfall einen allgemeinen Ausfall darstellen wird und Zahlungsausfälle bei allen oder nahezu allen fälligen Verpflichtungen des Schuldners eintreten werden. Den Kategorien „AA“ bis „CCC“ kann jeweils ein Pluszeichen („+“) oder Minuszeichen („-“) hinzugefügt werden, um die relative Stellung innerhalb der Haupt-Rating-Kategorien zu verdeutlichen.

Die kurzfristige Fähigkeit eines Schuldners zur Erfüllung seiner finanziellen Verpflichtungen mit einem „A-1“-Rating ist stark. Er ist mit der höchsten Rating-Kategorie

von Standard & Poor's bewertet.

Die von Standard & Poor's verwendete Rating-Skala für die kurzfristige Fähigkeit eines Schuldners zur Erfüllung seiner Verbindlichkeiten hat verschiedene Rating-Kategorien und reicht von „A-1“, welche die Kategorie höchsten Bonität bezeichnet, über die Kategorien „A-2“, „A-3“, „B“, „C“, „R“ und „SD“ bis zur niedrigsten Kategorie „D“, die kennzeichnet, dass Standard & Poor's davon ausgeht, dass der Zahlungsausfall einen allgemeinen Ausfall darstellen wird und Zahlungsausfälle bei allen oder nahezu allen fälligen Verpflichtungen des Schuldners eintreten werden.

„Stabil“ bedeutet, dass sich die Bonitätseinstufung voraussichtlich nicht ändern wird.

- ***Fitch Ratings Definitionen***

Ein „A“-Rating steht für ein gering eingeschätztes Kreditrisiko. Es bezeichnet eine gute Fähigkeit zur fristgerechten Zahlung der Verbindlichkeiten. Diese Fähigkeit ist jedoch durch ungünstige geschäftliche oder wirtschaftliche Ereignisse mehr gefährdet als bei höheren Ratings.

Die von Fitch Ratings verwendete Rating-Skala für langfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „AAA“, die für die höchste Kreditqualität steht, über die Kategorien „AA“, „A“, „BBB“, „BB“, „B“, „CCC“, „CC“, „C“, „RD“ bis zur niedrigsten Kategorie „D“, die nach Fitch Ratings' Einschätzung kennzeichnet, dass ein Emittent sich in einem Insolvenzverfahren, unter Zwangsverwaltung, in einem Vergleichsverfahren, in Auflösung oder einem anderen formellen Verfahren zur Abwicklung befindet oder in sonstiger Weise seine Geschäftstätigkeit eingestellt hat. Den Kategorien kann jeweils ein Plus- („+“) oder Minuszeichen („-“) beigefügt werden, um eine relative Einordnung innerhalb der Haupt-Rating-Kategorien auszudrücken. Solche Zusätze werden nicht der Rating-Kategorie „AAA“ oder den Rating-Kategorien unter „B“ beigefügt.

Ein „F1“-Rating bezeichnet die beste Fähigkeit für eine fristgerechte Zahlung der kurzfristigen Verbindlichkeiten.

Risikofaktoren in Bezug auf die Emittentin und die Garantin:

Die Gruppe ist abhängig von der RBSG-Gruppe. Potenzielle Anleger sollten beachten, dass die Gruppe bestimmten Risiken der RBSG-Gruppe ausgesetzt ist, unter anderem der Instabilität der globalen Finanzmärkte, fehlender Liquidität, niedriger Bewertung von Vermögenswerten, geopolitischen Bedingungen, vollständiger Verstaatlichung und anderen Maßnahmen nach dem britischen Banking Act 2009 sowie anderen Risiken, die sich aus dem staatlichen Schutzprogramm für Risiken aus bestimmten Vermögenswerten (*asset protection scheme*) ergeben. Daher sind die nachfolgenden Risikofaktoren, die sich auf die RBSG und die RBSG-Gruppe beziehen, auch für die Emittentin und die Gruppe von Bedeutung:

- Die Geschäftslage und Geschäftsentwicklung der Gruppe kann durch bestehende und erwartete

Bedingungen der Weltwirtschaft und der globalen Finanzmärkte und durch andere geopolitische Risiken negativ beeinträchtigt werden.

- Bei der Erfüllung ihrer Verpflichtungen einschließlich ihrer Finanzierungszusagen ist die Gruppe abhängig von ihrem Zugang zu Liquidität und zu Finanzierungsmöglichkeiten.
- Die Durchführung der genehmigten und geplanten Übertragung, eine Verzögerung der Durchführung oder ein Scheitern der Übertragung wesentlicher Teile der Geschäftsaktivitäten der RBS N.V. auf die RBS kann erhebliche nachteilige Auswirkungen auf die Gruppe haben und ebenfalls den Wert der von der RBS N.V. ausgegebenen Wertpapiere negativ beeinflussen.
- Wenn von der RBS N.V. begebene Wertpapiere auf die RBS übertragen werden, kann dieser Umstand und/oder der Umstand, dass es sich bei der RBS um ein in Schottland errichtetes Unternehmen handelt, steuerliche oder andere Auswirkungen auf den Inhaber dieser Wertpapiere haben.
- Ein umfangreiches Programm der RBSG-Gruppe zur Restrukturierung und Verkürzung der Bilanz dauert an und kann den Geschäftsbetrieb der Gruppe, die Betriebsergebnisse, die Finanzlage, die Eigenkapitalquoten und die Liquidität beeinträchtigen sowie den Wert von Wertpapieren nachteilig beeinflussen, die von der RBS N.V. begeben wurden.
- Um die Unterstützung des britischen Schatzamts (*HM Treasury*) für die RBSG-Gruppe zu erhalten, ist es der Gruppe untersagt, in ihrem Ermessen stehende Zahlungen auf Coupons zu leisten und Ankaufsoptionen in Bezug auf bestimmte bestehende hybride Kapitalinstrumente der Gruppe auszuüben. Dies kann die Fähigkeit der Gruppe zur Gewinnung neuen Kapitals im Wege der Ausgabe von Wertpapieren beeinträchtigen.
- Die finanzielle Entwicklung der Gruppe wurde und wird weiterhin durch die Verschlechterung der

Kreditqualität von Schuldnern und Vertragsparteien erheblich beeinträchtigt und könnte sich aufgrund der vorherrschenden Wirtschafts- und Marktverhältnisse sowie rechtlicher und regulatorischer Entwicklungen weiter verschlechtern.

- Die Ertrags- und Finanzlage der Gruppe wurde durch die sich aus dem schwachen Marktumfeld ergebende niedrige Vermögensbewertung erheblich beeinträchtigt und kann dadurch weiter erheblich beeinträchtigt werden.
- Änderungen der Zinssätze, Wechselkurse, Credit Spreads, Anleihe-, Aktien- und Rohstoffpreise, Basis-, Volatilitäts- und Korrelationsrisiken sowie anderer Marktfaktoren haben das Geschäft sowie das Betriebsergebnis der Gruppe wesentlich beeinträchtigt und werden sie weiter beeinträchtigen.
- Die Fremdfinanzierungskosten der Gruppe, ihr Zugang zu den Anleihekapitalmärkten sowie ihre Liquidität hängen entscheidend von dem Kreditrating der Gruppe ab.
- Die Geschäftsentwicklung der Gruppe kann beeinträchtigt werden, wenn ihr Kapital nicht effizient verwaltet wird oder wenn Kapitaladäquanz- und Liquiditätsanforderungen geändert werden.
- Die Gruppe ist Rechtsstreitigkeiten und aufsichtsrechtlichen Untersuchungen ausgesetzt und kann dies auch in Zukunft sein, was zu wesentlichen Geschäftsbeeinträchtigungen führen kann.
- Bestimmte Finanzinstrumente werden zum Marktwert angesetzt, der mithilfe von Finanzmodellen ermittelt wird, die Annahmen, Beurteilungen und Schätzungen beinhalten, die sich im Verlauf der Zeit ändern können oder die sich als nicht richtig herausstellen.
- Die Gruppe ist in sehr kompetitiven Märkten tätig, und ihr Geschäft und ihr Betriebsergebnis könnten negativ beeinträchtigt werden.

- Es ist möglich, dass es der Gruppe nicht gelingt, Führungskräfte (einschließlich der Mitglieder des Aufsichtsrates und des Vorstandes der Gruppe und anderen Mitarbeitern in Schlüsselpositionen) zu gewinnen oder zu halten, und sie könnte Schaden erleiden, wenn sie kein gutes Verhältnis zu ihren Arbeitnehmern unterhält.
- Alle Geschäftsbereiche der Gruppe sind weitgehend reguliert und beaufsichtigt. Wesentliche aufsichtsrechtliche und steuerrechtliche Veränderungen könnten sich nachteilig auf die Geschäftstätigkeit sowie das Betriebsergebnis und die Finanzlage der Gruppe auswirken.
- Es kann sein, dass die Gruppe weitere Beiträge für ihr Pensionssystem aufbringen muss, wenn der Wert der Vermögenswerte in Pensionsfonds nicht ausreichend ist, um potenzielle Verbindlichkeiten zu decken.
- Das Geschäft der Gruppe birgt betriebsbedingte Risiken.
- Die Geschäftstätigkeit der Gruppe unterliegt damit verbundenen Reputationsrisiken.
- Die Werthaltigkeit und die aufsichtsrechtliche Eigenkapitalbehandlung bestimmter von der Gruppe berücksichtigter latenter Steueransprüche hängt von der Fähigkeit der Gruppe ab, ausreichende zukünftige steuerpflichtige Gewinne zu erzielen und davon, dass sich Steuergesetzgebung, aufsichtsrechtliche Anforderungen und Bilanzierungsgrundsätze nicht in nachteiliger Weise ändern.
- Zusätzlich zu den oben beschriebenen Risikofaktoren unterliegt die Gruppe Risiken, die sich aus der Beteiligung der RBSG-Gruppe an dem staatlichen Schutzprogramm für Risiken aus bestimmten Vermögenswerten (*asset protection scheme*) sowie aus zwei Absicherungsverträgen (die „**Absicherungsverträge**“), die von der RBS in Verbindung mit bestimmten, der RBS N.V. und ihren hundertprozentigen

Tochtergesellschaften zuzurechnenden Vermögenswerten und Risikopositionen abgeschlossen wurden, ergeben.

- Die umfangreichen Anforderungen an die Unternehmensleitung, die Verwaltung von Vermögenswerten und im Hinblick auf Informationspflichten, denen die Gruppe unter den Bedingungen des Schutzprogramms für Risiken aus bestimmten Vermögenswerten unterliegt bzw. deren mögliche Einhaltung durch die RBS sie nach den Absicherungsverträgen sicherstellen muss, können negative Auswirkungen auf die Gruppe haben. Zudem kann jede Änderung oder Modifizierung der Bedingungen des Schutzprogramms für Risiken aus bestimmten Vermögenswerten negative Auswirkungen auf die erwarteten Vorteile aus den Absicherungsverträgen und damit auf die Gruppe haben.
- Jegliche Änderungen in Bezug auf die regulatorische Behandlung von Kapital nach den Absicherungsverträgen kann wesentliche negative Auswirkungen auf die Gruppe haben.
- Die rechtliche Abspaltung der ABN AMRO Bank N.V. (damaliger Firmenname) hat wechselseitige Haftungsverhältnisse zur Folge, die die rechtlichen Rückgriffsmöglichkeiten für Anleger verändern.

Risikofaktoren in Bezug auf die RBS:

RBS ist eine der wichtigsten operativen Tochtergesellschaften der RBSG, auf die ein wesentlicher Teil der konsolidierten Vermögenswerte, Verbindlichkeiten und Geschäftsgewinne der RBSG entfällt. Daher sind die nachfolgenden Risikofaktoren, die sich auf die RBSG und die RBSG-Gruppe beziehen, auch für die RBS und die RBS-Gruppe von Bedeutung.

- Die Geschäfte und die Entwicklung der RBSG-Gruppe können durch die tatsächlichen oder vermuteten weltweiten wirtschaftlichen und finanziellen Marktbedingungen sowie durch andere geopolitische Risiken beeinträchtigt werden.
- Die Fähigkeit der RBSG-Gruppe, ihre

Verpflichtungen, einschließlich ihrer Refinanzierungsanforderungen, zu erfüllen, hängt von der Fähigkeit der RBSG-Gruppe ab, Zugang zu Liquidität und Refinanzierungsmöglichkeiten zu erhalten.

- Die Unabhängige Kommission zum Bankwesen (*Independent Commission on Banking*) hat ihren Abschlussbericht zum Wettbewerb und zu möglichen Strukturreformen in der Bankindustrie im Vereinigten Königreich veröffentlicht. Die Regierung des Vereinigten Königreichs hat angedeutet, dass sie die Empfehlungen weitgehend wie vorgeschlagen unterstützt und beabsichtigt, sie umzusetzen; dies könnte die RBSG-Gruppe erheblich beeinträchtigen.
- Die Fähigkeit der RBSG-Gruppe, ihren Strategieplan umzusetzen, hängt von dem Erfolg der RBSG-Gruppe ab, sich wieder auf ihre Kernstärken und ihr Programm zur Verkürzung ihrer Bilanz zu konzentrieren.
- Die Verschiebung der Umsetzung (oder ein Scheitern der Umsetzung) der genehmigten vorgesehenen Übertragungen eines wesentlichen Teils der Geschäftstätigkeiten der The Royal Bank of Scotland N.V. („**RBS N.V.**“) auf die RBS kann die RBSG-Gruppe wesentlich beeinträchtigen.
- Die RBSG-Gruppe unterliegt einer Vielzahl von Risiken, die sich aus der Umsetzung des Restrukturierungsplans im Zusammenhang mit der Staatshilfe ergeben, und sie darf keine im Ermessen stehende Dividenden- und Zinszahlungen auf Hybridkapitalinstrumente (einschließlich Vorzugsaktien und B-Aktien) leisten. Dies kann die Fähigkeit der Gruppe beeinträchtigen, neues Kernkapital zu beschaffen.
- Die RBSG und ihre Banktochtergesellschaften im Vereinigten Königreich können dem Risiko der vollständigen Verstaatlichung oder anderen Auflösungsverfahren nach dem englischen Bankgesetz von 2009 (Banking Act 2009) ausgesetzt sein, was

verschiedene Maßnahmen hinsichtlich der Wertpapiere zur Folge haben kann.

- Die finanzielle Entwicklung der RBSG-Gruppe wurde und wird weiter durch die Verschlechterung der Kreditqualität von Schuldnern und Geschäftspartnern erheblich beeinträchtigt, und weitere Verschlechterungen könnten durch die vorherrschenden Wirtschafts- und Marktverhältnisse sowie rechtliche und regulatorische Entwicklungen eintreten.
- Die Ertrags- und Finanzlage der RBSG-Gruppe wurde durch die sich aus dem schwachen Marktumfeld ergebende niedrige Vermögensbewertung erheblich beeinträchtigt und kann dadurch weiter erheblich beeinträchtigt werden.
- Der Wert und die Wirksamkeit eines Kreditschutzes, den die RBSG-Gruppe gekauft hat, hängt von dem Wert der zugrunde liegenden Vermögenswerte sowie von der Finanzlage der Versicherer und Geschäftspartner ab.
- Änderungen der Zinssätze, Wechselkurse, Credit Spreads, Anleihe-, Aktien- und Rohstoffpreise, Basis-, Volatilitäts- und Korrelationsrisiken sowie anderer Marktfaktoren haben das Geschäft sowie das Betriebsergebnis der RBSG-Gruppe wesentlich beeinträchtigt und werden sie weiter beeinträchtigen.
- Die Fremdfinanzierungskosten der RBSG-Gruppe, ihr Zugang zu den Anleihekapitalmärkten sowie ihre Liquidität hängen entscheidend von dem Kreditrating der RBSG-Gruppe sowie von dem Kreditrating des britischen Staates ab.
- Die Geschäftsentwicklung der RBSG-Gruppe kann beeinträchtigt werden, wenn ihr Kapital nicht effizient verwaltet wird oder wenn Kapitaladäquanz- und Liquiditätsanforderungen geändert werden.
- Die RBSG-Gruppe ist Rechtsstreitigkeiten und aufsichtsrechtlichen Untersuchungen ausgesetzt und kann dies auch in Zukunft sein, was zu wesentlichen Geschäftsbeeinträchtigungen führen kann.

- Bestimmte Finanzinstrumente werden zum Marktwert angesetzt, der mithilfe von Finanzmodellen ermittelt wird, die Annahmen, Beurteilungen und Schätzungen beinhalten, die sich im Verlauf der Zeit ändern oder die sich als nicht richtig herausstellen können.
- Die RBSG-Gruppe ist in sehr kompetitiven Märkten tätig, und ihr Geschäft sowie ihr Betriebsergebnis können beeinträchtigt werden.
- Es ist möglich, dass es der RBSG-Gruppe nicht gelingt, Führungskräfte (einschließlich Verwaltungsratsmitgliedern und anderen Mitarbeitern in Schlüsselpositionen) zu gewinnen oder zu halten, und sie könnte Schaden erleiden, wenn sie kein gutes Verhältnis zu ihren Arbeitnehmern unterhält.
- Alle Geschäftsbereiche der RBSG-Gruppe sind weitgehend reguliert und beaufsichtigt. Wesentliche aufsichtsrechtliche Veränderungen (einschließlich Änderungen des Steuerrechts) könnten sich nachteilig auf die Geschäftstätigkeit sowie das Betriebsergebnis und die Finanzlage der RBSG-Gruppe auswirken.
- Die Ergebnisse der RBSG-Gruppe könnten durch eine Wertminderung des Goodwill beeinträchtigt werden.
- Es kann sein, dass die RBSG-Gruppe weitere Beiträge für ihr Pensionssystem aufbringen muss, wenn der Wert der Vermögenswerte in Pensionsfonds nicht ausreichend ist, um potenzielle Verbindlichkeiten zu decken.
- Das Geschäft der RBSG-Gruppe birgt betriebsbedingte Risiken.
- Das britische Schatzamt (HM Treasury) (bzw. die UK Financial Investments Limited als Vertreter) kann einen wesentlichen Einfluss auf die RBSG-Gruppe ausüben, und ein eventuelles Angebot bzw. eine eventuelle Veräußerung seiner Beteiligung kann den Preis der Wertpapiere beeinträchtigen.

- Die Geschäftstätigkeit der RBSG-Gruppe unterliegt damit verbundenen Reputationsrisiken.
- Im Vereinigten Königreich sowie in anderen Jurisdiktionen muss die RBSG-Gruppe Beiträge zu dem Entschädigungssystem für Banken und andere zugelassene Finanzdienstleistungsunternehmen leisten, die ihre Verbindlichkeiten gegenüber ihren Kunden nicht erfüllen können.
- Die Werthaltigkeit und die aufsichtsrechtliche Eigenmittelbehandlung bestimmter von der RBSG-Gruppe berücksichtigter latenter Steueransprüche hängt von der Fähigkeit der RBSG-Gruppe ab, ausreichende zukünftige steuerpflichtige Gewinne zu erzielen und davon, dass sich Steuergesetzgebung, aufsichtsrechtliche Anforderungen und Bilanzierungsgrundsätze nicht in nachteiliger Weise ändern.
- Die Beteiligung der RBSG-Gruppe an dem staatlichen britischen Schutzprogramm für Risiken aus bestimmten Vermögenswerten (asset protection scheme) ist teuer und könnte nicht die erwarteten Vorteile erzielen. Der Eintritt von dazugehörigen Risiken kann das Geschäft, die Kapitalsituation, die Finanzlage und das Betriebsergebnis der RBSG-Gruppe wesentlich beeinträchtigen.
- Die umfangreichen Anforderungen an die Unternehmensführung (Governance) und Verwaltung von Vermögenswerten sowie die umfangreichen Informationsanforderungen gemäß den Bedingungen des Programms (scheme) können sich negativ auf die RBSG-Gruppe und die erwarteten Vorteile des staatlichen Schutzprogramms für Risiken aus bestimmten Vermögenswerten auswirken.
- Änderungen der erwarteten aufsichtsrechtlichen Eigenmittelbehandlung des staatlichen Schutzprogramms für Risiken aus bestimmten Vermögenswerten, der von der RBSG ausgegebenen B-Aktien und der bedingten B-Aktien, die die RBSG

ausgeben kann, können die RBSG-Gruppe erheblich beeinträchtigen.

- Die RBS hat ein Kreditderivat und einen Finanzgarantievertrag mit der RBS N.V. abgeschlossen, die die Ergebnisse der RBS-Gruppe beeinträchtigen können.
- Falls die RBSG-Gruppe keine bedingten B-Aktien an das britische Schatzamt ausgeben kann, kann dies die Kapitalsituation, die Liquidität, das Betriebsergebnis und die zukünftigen Aussichten der RBSG-Gruppe erheblich beeinträchtigen.

	Long term	Short term	Outlook
Moody's Investors Service	A2	P-1	Negative

³ Since 31 October 2011 the rating agencies set forth in this section are registered in accordance with Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (the "**Regulation**") as published on the website of the European Securities and Markets Authority pursuant to Article 18(3) of the Regulation.

Standard & Poor's	A	A-1	Stable
Fitch Ratings	A	F1	Stable

Moody's Investors Service definitions

Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging from "Aaa" (describing obligations judged to be of the highest quality, with minimal credit risk), "Aa", "A", "Baa", "Ba", "B", "Caa" and "Ca" to "C", the lowest category representing long-term obligations that are typically in default, with little prospect for recovery of principal or interest. In addition, Moody's Investors Service appends numerical modifiers ("1", "2", and "3") to each generic rating classification from "Aa" through "Caa". The modifier "1" indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier "2" indicates a mid-range ranking, and the modifier "3" indicates a ranking in the lower end of that generic rating category.

Issuers rated "P-1" have a superior ability to repay short-term debt obligations.

The rating system used by Moody's Investors Service for short-term obligations has various subcategories ranging from "P 1", "P-2" and "P-3" to "NP", the lowest category representing issuers that do not fall within any of the "Prime" rating categories.

A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: "Positive", "Negative", "Stable", and "Developing" (contingent upon an event).

Standard and Poor's definitions

An obligor rated "A" by Standard & Poor's has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor's for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB"; "BB"; "B", "CCC", "CC", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus ("+") or minus ("-") signs following ratings from the "AA" to "CCC" categories show the relative standing within the major rating categories.

An obligor rated "A-1" by Standard & Poor's has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor's.

The rating system used by Standard & Poor's for short-term issuer credit ratings has various subcategories ranging from "A-1" (which is the highest quality rating), "A-2", "A-3", "B", "C", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

"Stable" means that a rating is not likely to change.

Fitch Ratings definitions

"A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C", "RD" to "D", the lowest category indicating that the issuer in Fitch Ratings' opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers "+" or "-" may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the "AAA" rating category or to the categories below "B".

An "F1" rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from "F1" (which is the highest quality rating), "F2", "F3", "B", "C" and "RD" to "D", the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody's Investors Service (www.moody.com), Standard & Poor's (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively. They have been accurately reproduced and that as far as the Issuer is aware and is able to ascertain from information published by Moody's Investors Service, Standard & Poor's, and Fitch Ratings, respectively, no facts have been omitted which would render the reproduced information inaccurate or misleading.

ANNEX 1: PRESS RELEASE DATED 19 APRIL 2011

19th April 2011

Proposed transfers of a substantial part of the business activities of RBS N.V. to RBS plc

The Boards of The Royal Bank of Scotland Group plc (RBSG), The Royal Bank of Scotland plc (RBS plc), RBS Holdings N.V. and The Royal Bank of Scotland N.V. (RBS N.V.) have approved the proposed transfers of a substantial part of the business activities of RBS N.V. to RBS plc (the "Proposed Transfers"), subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures. This follows a period of extensive dialogue with key regulators and rating agencies. The Proposed Transfers will not include the Consortium Shared Assets referred to below.

The Proposed Transfers will streamline the manner in which the Global Banking & Markets (GBM) and Global Transaction Services (GTS) businesses of RBSG and its subsidiaries and subsidiary undertakings (the "RBS Group") interact with clients with simplified access to the GBM and GTS product suites. They will provide benefits to clients in effecting easier interaction with the RBS Group including management of collateral. Clients will continue to deal, and conduct business, with their local RBS teams as at present. There is no requirement for clients to take any action now and any action required in connection with the Proposed Transfers will be communicated in a timely way with a view to ensuring a smooth transition.

The Proposed Transfers will not result in any change to the current business strategy for any of the transferred RBS N.V. businesses and the way in which the RBS Group commercially operates will remain unchanged.

The Proposed Transfers are consistent with RBS Group's efforts to simplify its structure, thereby reducing risk, cost and complexity. In addition, the Proposed Transfers are expected to result in a simplified management and reporting framework for the RBS Group across the multiple jurisdictions in which RBS plc and RBS N.V. operate.

RBS N.V.'s businesses include the following product areas: Equities & Structured Retail Products, Emerging Markets, Lending, Global Transaction Services (GTS), and Short Term Markets & Financing (STMF). RBS N.V. also currently holds directly and indirectly certain other assets which are owned by RBSG jointly with the Dutch State and Santander (the "Consortium Shared Assets"). As at 31 December 2010, RBS N.V. had consolidated total assets of €200.4bn (£172.8bn), a Core Tier 1 Capital Ratio of 8.7% and a Tier 1 Capital Ratio of 11.0%. As at the same date, RBSG had consolidated total assets of £1.5tn, a Core Tier 1 Capital Ratio of 10.7% and a Tier 1 Capital Ratio of 12.9% and RBS plc, the receiving entity for the Proposed Transfers, had consolidated total assets of £1.3tn, a Core Tier 1 Capital Ratio of 8.4% and a Tier 1 Capital Ratio of 10.1%. The Proposed Transfers are not expected to have any impact on RBSG's capital position.

It is expected that the Proposed Transfers will be implemented on a phased basis over a period ending 31 December 2013. A large part of the Proposed Transfers (including the transfers of certain securities issued by RBS N.V.) is expected to have

taken place by the end of 2012. This will be subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures.

RBS plc and RBS N.V. have discussed the Proposed Transfers in detail with the UK Financial Services Authority and De Nederlandsche Bank (“DNB”) and they will continue to be involved as the Proposed Transfers progress through to completion. Approvals from these and other regulators will be required prior to execution. Where available and practicable, statutory transfer schemes will be used to implement the Proposed Transfers which may require court approval.

Due to legal constraints, securities and related guarantees which are governed by New York, New South Wales, New Zealand and Hong Kong law (including the three series of Trust Preferred Securities issued by RBS N.V. Capital Funding Trusts V, VI and VII) are currently not expected to be transferred to RBS plc pursuant to the statutory transfer schemes which are anticipated to be used to implement the Proposed Transfers. Alternative steps will be considered in relation to such securities and guarantees, where reasonably practicable in RBS’s opinion. In respect of securities and guarantees governed by other laws which have been issued by RBS N.V., further analysis is ongoing to establish whether they will or will not be transferred to RBS plc pursuant to the Proposed Transfers and further announcements will be made in due course. In the meantime, holders of RBS N.V. securities are not required to take any action in connection with the Proposed Transfers. The proposed transfers of securities from RBS N.V. to RBS plc are not, of themselves, expected to change the price that RBS plc, as part of its normal market making activities, may bid for such securities. However, RBS cannot guarantee the price at which such securities may trade. The market prices for such securities may be impacted by a number of factors, including the value of the assets underlying such securities and prevailing market conditions, any of which may affect the value of the securities.

For legal, tax and other reasons, there are expected to be certain operations, assets and other liabilities in RBS N.V. which will not be transferred to RBS plc. RBSG is committed to providing the necessary support to ensure that RBS N.V. continues to meet its commitments during and after the Proposed Transfers. Following completion of the Proposed Transfers, RBS N.V. will continue to be authorised and regulated by DNB.

The RBS Group has held detailed discussions on the Proposed Transfers with the three main rating agencies, Moody’s, Standard & Poor’s and Fitch. The plan for the Proposed Transfers has been designed not to impact the ratings of RBS N.V. or RBS plc. It is anticipated that the agencies will publish their credit opinions following this announcement.

Certain unaudited pro forma condensed consolidated financial information relating to RBS Holdings N.V. is set out in the Appendix to this announcement.

Notes to the pro forma financial information relating to RBS Holdings N.V.

1 Basis of preparation

The pro forma financial information for RBS Holdings N.V. as at 31 December 2010, and for the years ended 31 December 2010, 31 December 2009 and 31 December 2008 respectively, has been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the IASB and adopted by the European Union. The financial information has been extracted from audited financial information for the year ended 31 December 2010 contained within the Annual Report and Accounts of RBS Holdings N.V. published on 29 March 2011 and does not reflect subsequent events.

The pro forma financial information has been prepared on the following basis:

- The pro forma financial information has been prepared on the basis of management's best estimate of the relevant third party assets and liabilities of RBS N.V. that will be transferred to RBS plc.
- The pro forma condensed consolidated statement of financial position of RBS Holdings N.V. as at 31 December 2010 is presented to show the effect of the Proposed Transfers as if the Proposed Transfers had occurred on 31 December 2010.
- The pro forma condensed consolidated income statements of RBS Holdings N.V. for the years ended 31 December 2010, 2009 and 2008 respectively, are presented to show the effect of the Proposed Transfers as if the Proposed Transfers had occurred on 1 January of the respective years.
- Assets and liabilities to be transferred are presented based on their carrying values determined under IFRS. The allocation of equity was assessed on a global basis to reflect the expected level of capital support required by the transferring and retained businesses. Pre-existing intra-group funding was treated as settled upon transfer with new funding allocated as needed to reflect the financing needs of the transferring and retained businesses. Certain modifications were applied where, in the opinion of management, material non-recurring profit and loss items could be allocated more reliably on an individual basis.
- The Proposed Transfers are subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures, any of which may significantly change the pro forma information from that presented.

The same accounting policies were followed in the pro forma financial information as were applied in the preparation of RBS Holdings N.V. financial statements for the year ended 31 December 2010.

Appendix

Notes to the pro forma financial information relating to RBS Holdings N.V.

2 Businesses to be transferred as part of the Proposed Transfers

RBS N.V.'s businesses include the following product areas: Equities & Structured Retail Products, Emerging Markets, Lending, Global Transaction Services (GTS), and Short Term Markets & Financing (STMF). The Proposed Transfers comprise a number of subsidiary companies and specific product portfolios together with associated hedging. RBS N.V. also currently holds directly and indirectly certain other assets which are owned by RBSG jointly with the Dutch State and Santander (the "Consortium Shared Assets"); these are part of the retained businesses.

It is expected that the Proposed Transfers will be implemented on a phased basis over a period ending 31 December 2013. A large part of the Proposed Transfers (including the transfers of certain securities issued by RBS N.V.) is expected to have taken place by the end of 2012. This will be subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures.

It is not certain whether such transfers (or any of them) will be effected at the value used for the pro forma financial information. No person should place any reliance on the pro forma financial information in connection with making an investment decision or for any other purpose and should be aware that changes to the current proposals (including, without limitation, to the assets and liabilities to be transferred or retained, the eventual manner in which such assets and liabilities are proposed to be transferred and to the timing pursuant to which they are proposed to be transferred) may be made if required, or if determined by RBS N.V. or RBS plc (in their absolute discretion) to be desirable for commercial or other reasons. Accordingly, nothing in this pro forma financial information should be taken as (or is) a representation that any of the assets and liabilities referred to will be transferred or retained, whether in a manner consistent with the figures contained in this pro forma financial information, in accordance with the timing set out above, or at all. For the avoidance of doubt, this pro forma financial information has been prepared and circulated solely for information purposes and does not constitute an offer to any person.

3 Overview of RBS Holdings N.V. after the Proposed Transfers

For legal, tax and other reasons, there are expected to be certain operations, assets and liabilities in RBS N.V. which will not be transferred to RBS plc. RBSG is committed to providing the necessary support to ensure that RBS N.V. continues to meet its commitments during and after the Proposed Transfers. Following completion of the Proposed Transfers, RBS N.V. will continue to be authorised and regulated by DNB.

Company information

Basis of presentation

On the basis of article 403 of Part 9 of Book 2 of the Netherlands Civil Code, The Royal Bank of Scotland N.V. ('RBS N.V.') is not required to publish annual financial statements. Only abbreviated financial statements need to be drawn up and approved by the company directors. The shareholder of RBS N.V. has agreed to this in a declaration of consent, dated 15 April 2011 and filed with the Chamber of Commerce in Amsterdam. Furthermore a statement of liability by the parent company (RBS Holdings N.V.) is filed with the Chamber of Commerce in Amsterdam. The assets and liabilities and the income statement of RBS N.V. are fully consolidated in the 2010 consolidated financial statements of RBS Holdings N.V., which are included in the Annual Report and Accounts 2010 dated 28 March 2011.

In the abbreviated financial statements, the terms 'company' and 'RBS N.V.' mean The Royal Bank of Scotland N.V. The term 'Group' refers to RBS Holdings and its consolidated subsidiaries. The term 'RBS Group' refers to The Royal Bank of Scotland Group plc whose shareholding in RFS Holdings B.V. ('RFS Holdings') was increased to 97.7% as at 31 December 2010. The abbreviation '€m' represents millions of euros.

Legal separation of ABN AMRO Bank N.V. occurred on 1 April 2010, with the shares in that entity being transferred by RBS Holdings N.V. to a holding company called ABN AMRO Group N.V., which is owned by the Dutch State.

Following the legal separation, RBS Holdings N.V. has one direct subsidiary, RBS N.V., a fully operational bank within the RBS Group. RBS N.V. is independently rated and regulated by the Dutch Central Bank. As announced on 1 April 2010, RBS N.V. has appointed new Supervisory and Managing Boards. As a result of legal separation RBS N.V. no longer consolidates the interests of ABN AMRO Bank N.V. and its results are classified as discontinued operations. Results for 2009 have been re-presented accordingly.

The Group is majority owned by RBS Group and therefore the presentation of the abbreviated financial statements has been aligned with that of RBS Group, the ultimate parent company. Further details of the reclassifications are provided in the 2010 consolidated financial statements of RBS Holdings N.V. included in the Annual Report and Accounts 2010 on page 102. The changes do not affect the Group's accounting policies, results, total assets or total liabilities. The presentation of comparatives has been aligned accordingly.

The income statement and balance sheet as presented on the next two pages are derived from the presentation of the RBS N.V. income statement and balance sheet on page 189 to 192 of the RBS Holdings N.V.'s Annual Report and Accounts 2010, dated 28 March 2011.

An unqualified auditor's report was provided on the 2010 consolidated financial statements of RBS Holdings N.V. included in the Annual Report and Accounts 2010 on page 199 to 200.

8. In the Bonus Discount Base Prospectus 2009, Bonus Discount Base Prospectus 2010 and the Bonus Discount Base Prospectus 2011 the section "**TAXATION**" shall be replaced in its entirety by the following:

TAXATION

Potential purchasers of the Securities who are in any doubt about their tax position on acquisition, ownership, transfer, redemption or non-redemption of any Securities should consult their professional tax advisers.

1. GENERAL

Purchasers of the Securities may be required to pay stamp taxes and/or other charges in accordance with the laws and practices of the country of purchase in addition to the issue or purchase price of the Securities.

The Issuer assumes neither any liability nor any obligation to pay any taxes, duties or other payments which may arise as a result of the acquisition, ownership, transfer or redemption of any Securities. Investors are advised that, under the terms of the Securities, any such taxes levied will not be reimbursed by the Issuer.

Any Securities which are transferred under the Proposed Transfers pursuant to the Proposed Dutch Scheme shall be referred to in this section as "**Dutch Scheme Securities**".

The following does not address any tax consequences of, or consider the position following, the Proposed Transfers other than to the extent stated in relation to Dutch Scheme Securities.

2. THE NETHERLANDS

The following paragraph, which is intended as a general guide only, is based on current law and practice in The Netherlands. It summarises certain aspects of taxation in The Netherlands only which may be applicable to the Securities but do not purport to be a comprehensive description of all tax considerations which may be of relevance.

All payments by the Issuer with respect to the Securities will be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld, or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, unless such withholding is, in the future, required by law.

3. FEDERAL REPUBLIC OF GERMANY

The following summary of the tax implications of an investment in the Securities is based upon the applicable provisions of German tax law and their interpretation by fiscal authorities and fiscal courts as at the date of this Base Prospectus. **The tax implications might change as a result of amendments to such applicable law, its interpretation or, as the case may be, of the administrative practices of fiscal authorities – under certain circumstances even with retroactive effect.**

In particular, the discussion herein is limited to Securities that are issued and acquired after 31 December 2008. The tax treatment of Securities that were issued and acquired prior to 1 January 2009 may, subject to certain transition rules in connection with the introduction of the flat tax (*Abgeltungsteuer*) on investment income, differ significantly from the description in this summary.

This summary reflects the view held by the Issuer with respect to the tax implications of an investment in the Securities. However, it is not a guarantee regarding the tax consequences of the purchase, sale or redemption of the Securities. Furthermore, this summary is not adequate to serve as the sole basis for an evaluation of the tax implications of an investment in the Securities since in any case the

investor's individual circumstances must be taken into account. As a consequence thereof, this summary is limited to a general overview over certain income tax implications in Germany. **Investors are strongly advised to consult their personal tax adviser about the tax implications of an investment in the Securities.**

The following paragraphs refer only to the taxation of individuals who have their domicile or their permanent residence in Germany and who hold the Securities as private assets (*Privatvermögen*). If the Securities are held as business assets (*Betriebsvermögen*) by an individual or corporate investor who is tax resident in Germany, income from the Securities is not subject to the 26.375% discharging flat rate tax but is subject to personal income tax at graduated rates or corporate income tax (each plus solidary surcharge thereon and for individuals eventually church tax) and trade tax.

In the specific case of an individual who is tax resident in Germany and who holds the Securities as private assets, the following applies:

If the investor realises capital gains upon the sale of the Securities or upon their redemption (if a cash payment is made to the investor upon redemption) such capital gains are subject to a withholding tax ("*Kapitalertragsteuer*") at a rate of 26.375 % (including the solidarity surcharge) plus a church tax, if applicable, provided that a domestic (i.e. German) branch of a domestic or of a foreign credit or financial services institution, a domestic securities trading bank or a domestic securities trading company (each a "**Domestic Paying Agent**") has kept the Securities in a securities custody account since their acquisition and disburses or credits the capital gains. The capital gains are generally determined as the difference between the proceeds from the disposal or redemption of the Securities and the acquisition costs. As a general rule, the deduction of withholding taxes by these disbursing agents has a discharging effect regarding the income tax liability of the investor on such capital gains ("*Abgeltungsteuer*", i.e. a discharging flat rate tax). Deviating withholding rules may apply if the Securities were sold or redeemed after being transferred from a securities deposit account with a foreign bank or a foreign branch of a domestic credit or financial service institution, unless the investor provides evidence for the investor's actual acquisition costs to the Domestic Paying Agent. Such evidence is only permissible if the foreign bank is resident within the EU, European Economic Area or a contracting state of the EU directive on the taxation of savings income (2003/48/EC).

Individual investors are entitled to a tax allowance (*Sparer-Pauschbetrag*) for investment income of EUR 801 per year (EUR 1,602 for married couples filing their tax return jointly). The tax allowance is taken into account for purposes of the withholding tax provided that the investor files a withholding tax exemption request with the respective bank or financial institution where the securities deposit account to which the Securities are allocated is held. The deduction of related expenses for tax purposes is not possible.

If no or not sufficient withholding tax is deducted from the capital gains of the investor, these gains will have to be declared in the income tax assessment and are then as a general rule subject to the above mentioned flat income tax rate of 26.375 %, plus church tax, if applicable. The investor may also opt for assessment of its investment income in certain other situations (e.g. if its total income tax liability

on all taxable income including the investment income determined by generally applicable graduated income tax rates is lower than 25 %).

As a general rule, any losses realised upon the sale or redemption of the Securities (if a cash payment is made to the investor upon redemption) can be offset against other income from capital investments. However, the German tax administration takes the position that capital losses can not be recognised in cases where no payments are made to the investors on the maturity or redemption date (e.g. because of a knock-out). If no sufficient income from other capital investments is available in the assessment period in which the loss is realised, the loss can be carried forward and reduces income from capital investments which the investor realises in the following years. However, the loss cannot be carried back into the preceding assessment periods.

If no cash payment is made upon redemption of the Securities but if shares are delivered to the investor, such exchange of the Securities against the shares may – depending on the final terms of the Securities – not be taxable. In this case, only the sale of the shares received generally triggers the tax consequences described above. The capital gain or loss resulting from the sale of the shares is calculated by deducting the acquisition costs of the Securities, which are deemed to be the acquisition costs of the shares under German tax law, from the sales price of the shares. However, in this scenario any loss resulting from the sale of the shares can only be offset against capital gains from the sale of shares and not with income from other capital investments.

4. AUSTRIA

Investors should be aware that this overview cannot be used as a substitute for individual tax advice and is not intended to be definitive. There can be no guarantee that the Austrian tax authorities will adopt the same interpretation of the matters set out below as the Issuer and due to changes in the settled practice of Austrian tax authorities or Austrian case law, the tax treatment of alternative investments may, even retroactively, vary and lead to different results than those set out herein. There is no specific Austrian case law or other binding legal guideline available on the tax treatment of the Securities.

4.1 Tax Treatment of Austrian Tax Resident Investors

(a) Private investors

Pursuant to § 124b(85) of the Austrian Income Tax Act (*Einkommensteuergesetz* ("**ESTG**")), income received from index securities and similarly structured products that are issued on or after 1 March 2004 is qualified as investment income (§ 27 ESTG) for Austrian income tax purposes. According to the Austrian Federal Ministry of Finance (*Bundesministerium für Finanzen* ("**BMF**")), § 124b(85) ESTG may as well be applied to securities under which the investor has a right for repayment of the investment and the amount of such repayment depends on the performance of single equities or commodities which, at their entirety, do not amount to an index (BMF, Income Tax Guidelines 2000 (*Einkommensteuerrichtlinien 2000*) ("**ESTR 2000**") para 6198a).

Any difference between the issue price and the repurchase price of the security due to the development of the reference underlying is treated as interest (§ 27(2)(2) EStG) for Austrian income tax purposes. Equally, any positive difference due to the development of the underlying that is realised upon the sale of a security is treated as investment income.

Interest received by an investor resident in Austria for tax purposes is subject to Austrian income tax. In case of a private investor, income tax is levied at the time the interest is received, i.e. according to the settled practice of Austrian tax authorities upon the redemption or the sale of the Securities with respect to any difference amount realised upon redemption or sale. A private investor is not taxed on the increase in value of the security due to the positive development of the underlying or the price of the security at the stock exchange prior to redemption or sale.

If a security within the meaning of § 93(3)(1) EStG (*Forderungswertpapier*; i.e., a security that securitises a claim in a way that the right under the security follows the right to the security) is held by a private investor resident in Austria for tax purposes and interest is paid by an Austrian coupon-paying agent within the meaning of § 95(3)(2) EStG (generally the Austrian depository), withholding tax at a rate of 25 per cent is triggered. For a private individual investor such withholding tax is final provided that the security is both legally and actually publicly offered. If such an investor's applicable average income tax rate is below 25 per cent, the investor may file an income tax return including the interest income and apply for assessment of his income tax liability based on his income tax return. In the absence of an Austrian coupon-paying agent the investor must file an income tax return and include the interest received. Income tax will be levied at a special rate of 25 per cent (§ 37(8) EStG; BMF, EStR 2000 para 7377a). A deduction of expenses that are directly economically connected to the securities, if the income received thereunder is subject to flat and final withholding tax or to the special income tax rate of 25 per cent, is not available.

If the issuer may settle a security either in cash or by physical delivery of a certain share (cash or share note), generally, the entire interest paid under such security is subject to the 25 % withholding tax. However, if the interest rate is considerably above market rate the BMF considers this an indication that the interest is paid in compensation for the underlying risk. Such high interest may be credited against a potential loss from the delivery of the share and is not subject to withholding tax to this extent. If tax has been withheld on such interest in the past, a credit of the tax withheld applies (§ 95(6) EStG) to the extent the interest has been used to cover losses. Reversed investment income is capped at the amount of interest of the last coupon payment period. The investor may apply for further credit in the tax return or pursuant to § 240(3) of the Austrian Federal Fiscal Code (*Bundesabgabenordnung* ("**BAO**")) (BMF, EStR 2000 para 6198).

Income from the sale of index or similarly structured products due to increases in value below the nominal value is subject to income tax (regular rates of up to 50 per cent) only if the sale occurs within one year after the acquisition (so called speculative transaction; § 30(1) EStG)

and the aggregate amount of income from speculative transactions in the calendar year exceeds EUR 440. As regards securities that are acquired after 30 September 2011 and before 1 April 2012, pursuant to § 124b Z 184 EStG every sale or other settlement is treated as a speculative transaction (§ 30(1) EStG). Income from a sale or other settlement after 31 March 2012 is subject to the special income tax rate of 25 per cent pursuant to § 27a(1) EStG as amended by the *Budgetbegleitgesetz 2011* ("**BBG 2011**", BGBl I 111/2010; see below).

*Securities acquired after 31 March 2012 and new rules applicable as of 1 April 2012 (referring to the EStG as amended by the BBG 2011/Abgabenänderungsgesetz 2011 ("**AbgÄG 2011**", BGBl I 76/2011)/Budgetbegleitgesetz 2012 ("**BBG 2012**", BGBl I 112/2011))*

Pursuant to § 27(4) EStG, the difference payment, the premium, the capital gain and the income from another form of settlement of forward transactions (*Termingeschäfte*, e.g. options) and other derivative financial instruments (e.g. index certificates) are income from investment in the form of income from derivatives. Other derivative financial instruments within the present context are derivative financial instruments irrespective of whether the underlying consists of financial assets, commodities or other assets, so that all types of certificates are covered. Consequently, in case of certificates the difference between the acquisition cost and the sales price, settlement amount or redemption amount is income from derivatives that is subject to income tax. The actual exercise of an option or the actual delivery of the underlying, however, is not a taxable event.

Income from investment derived from securities that securitise a receivable and are legally and actually publicly offered are subject to income tax at the special rate of 25 per cent pursuant to § 27a(1) EStG. With respect to income from derivatives (§ 27(4) EStG), income tax is levied by way of final withholding tax (such income does not have to be included in the income tax return, except in case of an exercise of the option for taxation at regular income tax rates or the option for setting-off of losses) in case of an Austrian depository or, in its absence, an Austrian paying agent, which has executed the transaction in connection with the depository and is involved in the transaction. An Austrian depository or paying agent may be credit institutions, Austrian branches of non-Austrian credit institutions or Austrian branches of certain investment services providers (§ 95(2)(2) EStG in connection with § 97(1) EStG). In the absence of an Austrian depository or paying agent, the income has to be included in the income tax return and is subject to income tax at the special rate of 25 per cent.

The investor may file an income tax return and apply for assessment of his income tax liability based on his income tax return (§ 27a(5) EStG). Subject to certain restrictions a set-off (but no carry forward) of losses is available among income from investment. For such setting-off of losses, generally the investor must opt for assessment to income tax (option for setting-off of losses; § 97(2) EStG in connection with § 27(8) EStG). In case of an Austrian depository, the setting-off of losses has to be effected by the depository (§ 93 Abs 6 EStG). A deduction of expenses that are directly economically connected to the securities, if the income received

thereunder is subject to the special income tax rate of 25 per cent pursuant to § 27(1) EStG, is not available (§ 20(2) EStG).

(b) Business investors

Income from a security held as a business asset constitutes business income.

A corporation subject to unlimited corporate income tax liability in Austria receiving such income will be subject to Austrian corporate income tax at a rate of 25 per cent.

Flat and final withholding tax at a rate of 25 per cent is triggered if the security is held by an individual investor resident for tax purposes in Austria and the interest is paid by an Austrian coupon-paying agent. In the absence of an Austrian coupon-paying agent, income tax at a special flat rate of 25 per cent will be due. A deduction of expenses that are directly economically connected to the securities, if the income received thereunder is subject to flat and final withholding tax or to the special income tax rate of 25 per cent, is not available.

Income from the sale of index or similarly structured products due to increases in value below the nominal value are subject to corporate income tax at a rate of 25 per cent in case of a corporation as investor and income tax at the regular rates of up to 50 per cent in case of an individual as investor irrespective of any holding periods.

Securities acquired after 31 March 2012 and new rules applicable as of 1 April 2012 (referring to the EStG as amended by the BBG 2011/AbgÄG 2011/BBG 2012)

In case of a corporation, the current regime of taxation applies.

If the securities are held by an individual, income from investment is subject to income tax at the special rate of 25 per cent which is levied by way of withholding in case of an Austrian depository or paying agent (§ 27a(6) EStG). However, in case of an individual holding the securities as business assets, pursuant to § 97(1) EStG the withholding tax on income from derivatives (§ 27(4) EStG) is not final (i.e., the income must be included in the income tax return). A set-off (and a carry forward) of losses is available under certain rules (§ 6(2)(c) EStG). A deduction of expenses that are directly economically connected to the securities, if the income received thereunder is subject to the special income tax rate of 25 per cent pursuant to § 27a(1) EStG, is not available.

(c) Risk of a Qualification as Units in a Non-Austrian Investment Fund

According to Austrian tax authorities, the provisions for non-Austrian investment funds within the meaning of § 42(1) of the Austrian Investment Fund Act (*Investmentfondsgesetz* ("**InvFG**")) (as of 1 April 2012: § 188 of the Austrian Investment Fund Act 2011 (*Investmentfondsgesetz 2011* ("**InvFG 2011**"))) may equally apply if the repayment of the invested amount exclusively depends on the performance of certain securities (index) and either the issuer, a trustee or a direct or indirect subsidiary of the issuer actually acquires the majority of the securities comprised by the index for the purposes of issuing the securities or the assets comprised by the index are actively managed. However, directly held notes the

performance of which depends on an index, irrespective of whether the index is a recognised index or an individually composed fixed or at any time modifiable index are not treated as units in a non-Austrian investment fund (BMF, Investment Fund Guidelines 2008 (*Investmentfondsrichtlinien 2008* ("InvFR 2008"))) para 267). The risk of the qualification of a Security as unit in a non-Austrian investment fund must be assessed on a case-by-case basis.

4.2 Tax Treatment of non-Austrian Tax Resident Investors

(a) Austrian Income Tax Liability

Pursuant to § 98(1)(5) EStG, interest received under securities (that are not held in an Austrian permanent establishment) by an investor who is not resident for tax purposes in Austria is basically not subject to Austrian income tax. If interest is paid by an Austrian coupon-paying agent, 25 per cent withholding tax is triggered, unless the non-Austrian tax resident individual investor proves his non-resident status for tax purposes to the Austrian coupon-paying agent by presenting an official picture identification card and provides his address. In addition, Austrian citizens or citizens of an Austrian neighbouring state have to provide a written declaration that they neither have a domicile nor their habitual place of abode in Austria. Further, the securities under which the interest is paid must be deposited with an Austrian bank (BMF, EStR 2000 paras 7775 et seq). If the investor is not an individual, the coupon-paying agent is discharged from its withholding obligation if the investor proves his non-resident status for tax purposes through presentation of an identification card of an individual acting on behalf of the corporation, the security is deposited with an Austrian credit institution and written evidence is provided by a declaration of the non-Austrian corporation and the individual acting on behalf the corporation that the non-Austrian corporation is the beneficial owner of the securities (BMF, Corporate Income Tax Guidelines 2001 (*Körperschaftsteuerrichtlinien 2001* ("KStR 2001"))) paras 1463 et seq and EStR 2000 paras 7779 et seq). Pursuant to § 98(1)(7) EStG investors who are not resident for tax purposes in Austria are generally not subject to income tax or, in case of a corporation, corporate income tax with respect to income from speculative transactions with securities (that are not held in an Austrian permanent establishment).

Securities acquired after 31 March 2012 and new provisions applicable as of 1 April 2012 (referring to the EStG as amended by the BBG 2011/AbgÄG 2011/BBG 2012)

Pursuant to § 98(1)(5) EStG, income from derivatives (§ 27(4) EStG) (that are not held in an Austrian permanent establishment) received by an investor who is not resident for tax purposes in Austria is basically not subject to Austrian income tax, or, in case of a corporation that is not resident for tax purposes in Austria, Austrian corporate income tax. § 94(13) EStG provides for an exemption from withholding tax with respect to income that is not subject to (limited) income tax in Austria pursuant to § 98(1)(5) EStG (the documentation requirements pursuant to EStR 2000 paras 7775 et seq, presumably, will remain to be considered).

(b) Austrian EU Source Tax Liability

Directive 2003/48/EC of 3 June 2003 was implemented into Austrian domestic law by the enactment of the Austrian EU Source Tax Act (*EU-Quellensteuergesetz* ("**EU-QuStG**")). Accordingly, interest paid by an Austrian coupon-paying agent to an individual beneficial owner resident in another EU member state may be subject to EU source tax at a rate of currently 35 per cent. Whether interest under the Securities is subject to EU source tax must be determined on a case-by-case basis.

5. UNITED KINGDOM

The following applies only to persons who are the beneficial owners of the Securities and is a summary of the Issuer's understanding of current United Kingdom tax law as applied in England and Wales and United Kingdom HM Revenue & Customs ("**HMRC**") practice relating only to certain aspects of United Kingdom taxation. It does not deal with any other United Kingdom taxation implications of acquiring, holding, exercising, not exercising or disposing of Securities and should not be relied upon by Securityholders or prospective Securityholders. Some aspects do not apply to certain classes of persons (such as persons carrying on a trade of dealing in securities and persons connected with the Issuer) to whom special rules may apply. The United Kingdom tax treatment of prospective Securityholders depends on their individual circumstances and may be subject to change in the future. The precise tax treatment of a Securityholder will depend for each issue on the terms of the Securities, as specified in the Conditions of the Securities as amended and supplemented by the applicable Final Terms. For United Kingdom tax purposes, the term "Security" or "Securities" refers to instruments of the type described in this Base Prospectus and is not intended to be determinative (or indicative) of the nature of the instrument for the purposes of United Kingdom taxation. Prospective Securityholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice. This summary is intended as general information only and each prospective Securityholder should consult a professional tax adviser with respect to the tax consequences of an investment in the Securities.

5.1 Withholding Tax

Securities issued by the Issuer otherwise than through the Issuer's London branch and which are not Dutch Scheme Securities

Payments on these Securities may generally be made without withholding on account of United Kingdom income tax.

Securities issued by the Issuer's London branch and Dutch Scheme Securities

Payments by the Issuer's London branch or by RBS (in the case of Dutch Scheme Securities) are likely to be regarded as having a United Kingdom source. However payments made in respect of such Securities may be made without deduction or withholding for or on account of United Kingdom income tax where such payments are not regarded as interest, manufactured payments or annual payments for United Kingdom tax purposes.

Even if such payments by the Issuer's London branch or by RBS, as applicable, were to be regarded as interest, manufactured payments or annual payments for United Kingdom tax purposes, the Issuer or RBS, as applicable should not be required to withhold or deduct sums for or on account of United Kingdom income tax from payments made in respect of the Securities provided that the payments are regarded as made under derivative contracts, the profits and losses arising from which are calculated in accordance with the provisions of Part 7 of the Corporation Tax Act 2009 (which broadly they should be provided that the payments are made under options, futures or contracts for differences for the purposes of Part 7 of that Act, which are derivatives for the purposes of FRS25 (or International Accounting Standard 32) and are not excluded for the purposes of Part 7 of that Act by virtue of their underlying subject matter).

If payments made in respect of the Securities were to be regarded as interest for United Kingdom tax purposes, provided that the Issuer's London branch, or RBS, as applicable, qualifies as a bank within the meaning of section 991 of the Income Tax Act 2007 ("**ITA 2007**") on the date of such payments, such payments may be made without withholding or deduction for or on account of United Kingdom income tax where the interest is paid in the ordinary course of the Issuer's London branch's business within the meaning of section 878 ITA 2007; this would include all payments of interest by the Issuer's London branch, or RBS, as applicable except where there is an intention to avoid United Kingdom tax.

Payments of interest on or in respect of the Securities may also be made by the Issuer's London branch or RBS, as applicable, without deduction of or withholding for or on account of United Kingdom income tax if the Securities are and continue to be listed on a "recognised stock exchange", as defined in section 1005 of the ITA 2007. The Securities will satisfy this requirement if they are admitted to trading on a "recognised stock exchange" and officially listed in a country in which there is a "recognised stock exchange" in accordance with provisions corresponding to those generally applicable in EEA states. Provided, therefore, that the Securities are and remain so listed, interest on the Securities will be payable by the Issuer's London branch or RBS, as applicable, without withholding or deduction for or on account of United Kingdom income tax whether or not the Issuer's London branch or RBS, as applicable, carries on a banking business in the United Kingdom and whether or not the interest is paid in the ordinary course of its business.

Interest on or in respect of the Securities may also be paid without withholding or deduction for or on account of United Kingdom income tax where at the time the payment is made, the Issuer's London branch or RBS, as applicable, reasonably believes (and any person by or through whom interest on the Securities is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HMRC has not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

Interest on or in respect of such Securities may also be paid without withholding or deduction for or on account of United Kingdom income tax where the maturity of the Securities is less than 365 days and

those Securities do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments by the Issuer's London branch or RBS, as applicable, of interest on or in respect of Securities, on account of United Kingdom income tax at the basic rate (currently 20 per cent). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HMRC can issue a notice to the Issuer's London branch or RBS, as applicable, to pay interest to the Securityholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty, as applicable).

Payments by the Guarantor

Any payments by the Guarantor in respect of interest on, or other amounts due under, Securities issued by the Issuer otherwise than through the Issuer's London branch and which are not Dutch Scheme Securities may generally be made without withholding on account of United Kingdom income tax.

Any payments by the Guarantor in respect of interest on, or other amounts due under, Securities issued by the Issuer's London branch and which are not Dutch Scheme Securities (other than the repayment of amounts subscribed for the Securities) may be subject to United Kingdom withholding tax, subject to the availability of any exemptions or reliefs or to any direction to the contrary from HMRC in respect of such relief as may be available pursuant to the provisions of any applicable double tax treaty.

5.2 Certain other United Kingdom Tax Considerations

Payments made in respect of Securities issued by the Issuer's London branch and (from the time of the transfer) the Dutch Scheme Securities are generally expected to have a United Kingdom source. Accordingly, depending upon the category of the income, such payments may be chargeable to United Kingdom tax by direct assessment even where the Securityholder is not resident (or in the case of an individual, ordinarily resident) in the United Kingdom and does not hold their Securities for the purposes of, or receive such payments in connection with, a trade, profession or vocation carried on via a branch, agency or permanent establishment in the United Kingdom, although in practice HMRC may not seek to enforce any such liability in respect of such a Securityholder.

If Securityholders are liable to United Kingdom tax by way of direct assessment, Securityholders which are resident in a jurisdiction with an appropriate double taxation treaty with the United Kingdom may be entitled to claim exemption from direct assessment under the terms of that double taxation treaty.

5.3 United Kingdom Information Gathering Powers

Securityholders may wish to note that, in certain circumstances, HMRC has power to obtain information (including the name and address of the beneficial owner) from any person in the United Kingdom who either pays or credits interest (or amounts treated as interest) to or receives interest (or

amounts treated as interest) for the benefit of a Securityholder. HMRC also has power, in certain circumstances, to obtain information from any person in the United Kingdom who pays amounts payable on the redemption of Securities which are deeply discounted securities for the purposes of the Income Tax (Trading and Other Income) Act 2005 to or receives such amounts for the benefit of another person, although HMRC published practice indicates that HMRC will not exercise the power referred to above to require this information in respect of amounts payable on the redemption of deeply discounted securities where such amounts are paid on or before 5 April 2013. Such information may include the name and address of the beneficial owner of the amount payable on redemption. Any information obtained may, in certain circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the Securityholder is resident for tax purposes.

5.4 Stamp Taxes

For the purposes of the following paragraphs, "**Exempt Loan Capital**" means any security which constitutes loan capital for the purposes of section 78 Finance Act 1986 ("**Loan Capital**") and: (a) does not carry rights to acquire shares or securities (by way of exchange, conversion or otherwise); (b) has not carried and does not carry a right to interest the amount of which exceeds a reasonable commercial return on the nominal amount of the relevant security; (c) subject to certain exceptions has not carried and does not carry a right to interest the amount of which falls or has fallen to be determined to any extent by reference to the results of, or any part of, a business or to the value of any property; and (d) has not carried and does not carry a right to a premium which is not reasonably comparable with amounts payable on securities listed on the London Stock Exchange.

Stamp duty on the issue of Securities

Subject to the following paragraph, no stamp duty will generally be payable in relation to the issue of Securities.

In relation to Securities issued in bearer form which are denominated in sterling and which are not loan capital for the purposes of section 78 of the Finance Act 1986 ("**FA 1986**"), a charge to United Kingdom stamp duty at 1.5 per cent of the value of such Securities may arise. No stamp duty liability will arise on the issue of such Securities by the Issuer if issued outside the United Kingdom. However, in relation to Securities of that kind originally issued by the Issuer outside the United Kingdom, on the first transfer by delivery in the United Kingdom of any such Security a stamp duty liability at 1.5 per cent of the value of such Security may arise. Furthermore, an instrument issuing a Security which has the characteristics of an option or any instrument granting such a Security may technically be subject to United Kingdom stamp duty at a rate of up to 4 per cent of the consideration paid for the Security.

Stamp duty on the transfer of Securities

Other than as described above, no United Kingdom stamp duty should be required to be paid on transfers of Securities on sale provided no instrument of transfer is used to complete such sales.

*Stamp duty reserve tax ("**SDRT**") on the issue or transfer of Securities to a Clearance Service*

No SDRT should be payable in relation to the issue of a Security by the Issuer or the transfer of such a Security to any person providing a clearance service, or a nominee for any such person, within the meaning of section 96 FA 1986 (a "**Clearance Service**"), in each case, unless the Security is an interest in, or to dividends or other rights arising out of, or a right to allotment of or to subscribe for, or an option to acquire shares which are paired with shares (which are not "newly subscribed shares" as defined in section 99(12) FA 1986) issued by a body corporate incorporated in the United Kingdom.

Except where an election has been made under which the alternative system of charge as provided for in section 97A FA 1986 (a "**s97A Election**") applies, SDRT at a rate of 1.5 per cent may be payable in respect of a Security which is not a Dutch Scheme Security issued by the Issuer on the issue or transfer of such a Security to a Clearance Service where it is an interest in, or to dividends or other rights arising out of, or a right to allotment of or to subscribe for, or an option to acquire shares which are paired with shares (which are not "newly subscribed shares" as defined in section 99(12) FA 1986) issued by a body corporate incorporated in the United Kingdom.

The stamp duty reserve tax analysis in the above paragraph is likely to apply to the transfer of a Security to a Clearance Service where no s97A Election applies in respect of the Security where such Security was issued by the Issuer and is a Dutch Scheme Security, although this is not free from doubt. Were the analysis in the above paragraph not to apply to a transfer of such a Security to a Clearance Service where no s97A Election applies in respect of the Security, SDRT at a rate of 1.5 per cent may be payable on such a transfer in circumstances other than those described in the paragraph above if the Security is not Exempt Loan Capital.

The European Court of Justice has found in C-569/07 HSBC Holdings plc and Vidacos Nominees Ltd v The Commissioners of Her Majesty's Revenue & Customs (Case C-569/07) that the 1.5 per cent charge is contrary to EU Community Law where shares are issued to a clearance service. HMRC has subsequently indicated that it will not levy the charge on shares issued to a clearance service within the EU. It is not clear the extent to which this decision applies to the Securities or the way in which any change in legislation or HMRC practice in response to this decision may alter the position outlined above.

SDRT on the transfer of Securities held within a Clearance Service where no s97A Election applies in respect of the Security

SDRT should generally not be payable in relation to an agreement to transfer a Security held within a Clearance Service provided that no s97A Election applies in respect of the Security.

SDRT on the transfer of Securities held within a Clearance Service where a s97A Election applies in respect of the Security

In the case of Securities issued by the Issuer which are not Dutch Scheme Securities and which are held within a Clearance Service where a s97A Election applies in respect of the Security, no SDRT should be payable in relation to any agreement to transfer or transfer of such a Security unless the Security is an interest in, or to dividends or other rights arising out of, or a right to allotment of or to subscribe for, or an option to acquire shares which are paired with shares (which are not "newly

subscribed shares" as defined in section 99(12) FA 1986) issued by a body corporate incorporated in the United Kingdom, provided that such Security is in bearer form.

The stamp duty reserve tax analysis in the above paragraph is likely to apply to the transfer of a Dutch Scheme Security which is held within a Clearance Service where a s97A Election applies in respect of such Dutch Scheme Security, although this is not free from doubt. Were the analysis in the above paragraph not to apply to a transfer of such a Security, SDRT at a rate of 0.5 per cent of the consideration given under an agreement to transfer such Securities may be payable on such a transfer in circumstances other than those described in the paragraph above if the Security is not Exempt Loan Capital.

Stamp duty and SDRT on the exercise or redemption of the Securities

Stamp duty and/or SDRT may be payable in respect of an agreement to transfer, or on the transfer of, an asset where the terms of any Security contemplate physical settlement of the Security.

6. EU SAVINGS DIRECTIVE

Under EC Council Directive 2003/48/EC on the taxation of savings income (the "**Directive**"), EU member states, subject to the following exceptions, are required to provide to the tax authorities of another EU member state details of payments of interest (or similar income) paid by a person within its jurisdiction to (or for the benefit of) an individual resident in that other EU member state or to certain limited types of entities established in that other EU member state. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

9. In the ETN Fixed Maturity Base Prospectus 2010 the section "**Taxation**" shall be replaced in its entirety by the following:

TAXATION

Potential purchasers of the Securities who are in any doubt about their tax position on acquisition, ownership, transfer, termination or exercise of any Securities should consult their professional tax advisers.

1. GENERAL

Purchasers of the Securities may be required to pay stamp taxes and/or other charges in accordance with the laws and practices of the country of purchase in addition to the issue or purchase price of the Securities.

The Issuer assumes neither any liability nor any obligation to pay any taxes, duties or other payments which may arise as a result of the ownership of any Securities, as well as their transfer, exercise, termination by the Issuer or the Securityholder or exercise by the Securityholder. The investors are advised that, under the terms of the Securities, any such taxes levied will not be reimbursed by the Issuer.

Any Securities which are transferred under the Proposed Transfers pursuant to the Proposed Dutch Scheme shall be referred to in this section as "**Dutch Scheme Securities**".

The discussion below does not address the tax treatment of Securities that have been transferred pursuant to the Proposed Transfers other than to the extent stated in relation to Dutch Scheme Securities.

2. THE NETHERLANDS

The following paragraph, which is intended as a general guide only, is based on current law and practice in The Netherlands. It summarises certain aspects of taxation in The Netherlands only which may be applicable to the Securities but do not purport to be a comprehensive description of all tax considerations which may be of relevance.

All payments by the Issuer with respect to the Securities will be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld, or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, unless such withholding is, in the future, required by law.

3. FEDERAL REPUBLIC OF GERMANY

The following summary of the tax implications of an investment in the Securities is based upon the applicable provisions of German tax law, and their interpretation by fiscal authorities and fiscal courts, as at the date of this Base Prospectus. **The tax implications might change as a result of amendments to such applicable law, its interpretation or, as the case may be, of the administrative practices of fiscal authorities – under certain circumstances even with retroactive effect.**

In particular, the discussion herein is limited to Securities that are issued and acquired after 31 December 2008. The tax treatment of Securities that were issued and acquired prior to 1 January 2009 may, subject to certain transition rules in connection with the introduction of the flat tax (*Abgeltungsteuer*) on investment income, differ significantly from the description in this summary.

This summary reflects the view held by the Issuer with respect to the tax implications of an investment in the Securities. However, it is not a guarantee regarding the treatment of the Securities or the legal consequences of their purchase, transfer, termination or exercise. Furthermore, this summary is not

adequate to serve as the sole basis for an estimation of the tax implications of an investment in the Securities since in any case the investor's individual circumstances must be taken into account. As a consequence thereof, this summary is limited to a general overview on certain implications of income tax in Germany. **Investors are strongly advised to consult their personal tax adviser about the tax implications of an investment in the Securities.**

The following paragraphs refer only to the taxation of individuals who have their domicile or their permanent residence in Germany and who hold the Securities as private assets (*Privatvermögen*). If the Securities are held as business assets (*Betriebsvermögen*) by an individual or corporate investor who is tax resident in Germany, income from the Securities is not subject to the 26.375% discharging flat rate tax but is subject to personal income tax at graduated rates or corporate income tax (each plus solidary surcharge thereon and for individuals eventually church tax).

In the specific case of an individual who is tax resident in Germany and who holds the Securities as private assets, the following applies:

If the Securityholder receives interest payments and/or dividend payments on the Securities and/or realizes capital gains upon the sale of the Securities, upon exercise, upon their termination by the Issuer or the Securityholder or exercise by the Securityholder, these interest payments and capital gains are subject to a withholding tax at a rate of 26.375 % (including the solidarity surcharge) plus a church tax, if applicable, provided that a domestic (i.e. German) branch of a domestic or of a foreign credit or financial services institution, a domestic securities trading bank or a domestic securities trading company (each a "**Domestic Paying Agent**") keeps the Securities in a securities custody account and disburses or credits the interest payments and/or capital gains. The capital gains are generally determined as the difference between the proceeds from the disposal or redemption of the Securities and the acquisition costs. As a general rule, the deduction of withholding taxes by these Domestic Paying Agents has a discharging effect regarding the income tax of the investor on such investment income ("*Abgeltungsteuer*", i.e. a discharging flat rate tax). Deviating withholding rules may apply with regard to the capital gains if the Securities were sold or redeemed after being transferred from a securities deposit account with a foreign bank or a foreign branch of a domestic credit or financial service institution, unless the investor provides evidence for the investor's actual acquisition costs to the Domestic Paying Agent. Such evidence is only permissible if the foreign bank is resident within the EU, European Economic Area or a contracting state of the EU directive on the taxation of savings income (2003/48/EC).

Individual investors are entitled to a tax allowance (*Sparer-Pauschbetrag*) for investment income of EUR 801 per year (EUR 1,602 for married couples filing their tax return jointly). The tax allowance is taken into account for purposes of the withholding tax provided that the investor files a withholding tax exemption request with the respective bank or financial institution where the securities deposit account to which the Securities are allocated is held. The deduction of related expenses for tax purposes is not possible.

If no or not sufficient withholding tax is deducted from the income from interest payments and/or capital gains of the Securityholder, this investment income will have to be declared in the income tax

assessment and is then subject to the above mentioned flat income tax rate of 26.375 %, plus church tax, if applicable. The investor may also opt for assessment of its investment income in certain other situations (e.g. if its total income tax liability on all taxable income including the investment income determined by generally applicable graduated income tax rates is lower than 25 %).

As a general rule, any losses realized upon the sale of the Securities, upon exercise, upon their termination by the Issuer or the Securityholder or exercise by the Securityholder can be offset against other income from capital investments. However, the German tax administration takes the position that capital losses can not be recognised in cases where no payments are made to the investors on the maturity or redemption date (e.g. because of a knock-out). If no sufficient income from other capital investments is available in the assessment period in which the loss is realized, the losses can be carried forward and reduce income from capital investments which the investor realizes in the following years. However, the losses cannot be carried backwards into the preceding assessment periods.

If no cash payment is made upon redemption of the Securities but if shares are delivered to the investor, such exchange of the Securities against the shares may – depending on the final terms of the Securities – not be taxable. In this case, only the sale of the shares received generally triggers the tax consequences described above. The capital gain or loss resulting from the sale of the shares is calculated by deducting the acquisition costs of the Securities, which are deemed to be the acquisition costs of the shares under German tax law, from the sales price of the shares. However, in this scenario any loss resulting from the sale of the shares can only be offset against capital gains from the sale of shares and not with income from other capital investments.

4. AUSTRIA

Investors should be aware that this overview cannot be used as a substitute for individual tax advice and is not intended to be definitive. There can be no guarantee that the Austrian tax authorities will adopt the same interpretation of the matters set out below as the Issuer and due to changes in the settled practice of Austrian tax authorities or Austrian case law, the tax treatment of alternative investments may, even retroactively, vary and lead to different results than those set out herein. There is no specific Austrian case law or other binding legal guideline available on the tax treatment of the Securities.

4.1 Tax Treatment of Austrian Tax Resident Investors

(a) Private investors

Pursuant to § 124b(85) of the Austrian Income Tax Act (*Einkommensteuergesetz* ("**ESTG**")), income received from index securities and similarly structured products that are issued on or after 1 March 2004 is qualified as investment income (§ 27 ESTG) for Austrian income tax purposes. According to the Austrian Federal Ministry of Finance (*Bundesministerium für Finanzen* ("**BMF**")), § 124b(85) ESTG may as well be applied to securities under which the investor has a right for repayment of the investment and the amount of such repayment

depends on the performance of single equities or commodities which, at their entirety, do not amount to an index (BMF, Income Tax Guidelines 2000 (*Einkommensteuerrichtlinien 2000* ("EStR 2000") para 6198a).

Any difference between the issue price and the repurchase price of the security due to the development of the reference underlying is treated as interest (§ 27(2)(2) EStG) for Austrian income tax purposes. Equally, any positive difference due to the development of the underlying that is realised upon the sale of a security is treated as investment income.

Interest received by an investor resident in Austria for tax purposes is subject to Austrian income tax. In case of a private investor, income tax is levied at the time the interest is received, i.e. according to the settled practice of Austrian tax authorities upon the redemption or the sale of the Securities with respect to any difference amount realised upon redemption or sale. A private investor is not taxed on the increase in value of the security due to the positive development of the underlying or the price of the security at the stock exchange prior to redemption or sale.

If a security within the meaning of § 93(3)(1) EStG (*Forderungswertpapier*; i.e., a security that securitises a claim in a way that the right under the security follows the right to the security) is held by a private investor resident in Austria for tax purposes and interest is paid by an Austrian coupon-paying agent within the meaning of § 95(3)(2) EStG (generally the Austrian depository), withholding tax at a rate of 25 per cent is triggered. For a private individual investor such withholding tax is final provided that the security is both legally and actually publicly offered. If such an investor's applicable average income tax rate is below 25 per cent, the investor may file an income tax return including the interest income and apply for assessment of his income tax liability based on his income tax return. In the absence of an Austrian coupon-paying agent the investor must file an income tax return and include the interest received. Income tax will be levied at a special rate of 25 per cent (§ 37(8) EStG; BMF, EStR 2000 para 7377a). A deduction of expenses that are directly economically connected to the securities, if the income received thereunder is subject to flat and final withholding tax or to the special income tax rate of 25 per cent, is not available.

If the issuer may settle a security either in cash or by physical delivery of a certain share (cash or share note), generally, the entire interest paid under such security is subject to the 25 % withholding tax. However, if the interest rate is considerably above market rate the BMF considers this an indication that the interest are paid in compensation for the underlying risk. Such high interest may be credited against a potential loss from the delivery of the share and is not subject to withholding tax to this extent. If tax has been withheld on such interest in the past, a credit of the tax withheld applies (§ 95(6) EStG) to the extent the interest has been used to cover losses. Reversed investment income is capped at the amount of interest of the last coupon payment period. The investor may apply for further credit in the tax return or pursuant to § 240(3) of the Austrian Federal Fiscal Code (*Bundesabgabenordnung* ("BAO")) (BMF, EStR 2000 para 6198).

Income from the sale of index or similarly structured products due to increases in value below the nominal value is subject to income tax (regular rates of up to 50 per cent) only if the sale occurs within one year after the acquisition (so called speculative transaction; § 30(1) EStG) and the aggregate amount of income from speculative transactions in the calendar year exceeds EUR 440. As regards securities that are acquired after 30 September 2011 and before 1 April 2012, pursuant to § 124b Z 184 EStG every sale or other settlement is treated as a speculative transaction (§ 30(1) EStG). Income from a sale or other settlement after 31 March 2012 is subject to the special income tax rate of 25 per cent pursuant to § 27a(1) EStG as amended by the *Budgetbegleitgesetz 2011* ("**BBG 2011**", BGBl I 111/2010; see below).

*Securities acquired after 31 March 2012 and new rules applicable as of 1 April 2012 (referring to the EStG as amended by the BBG 2011/Abgabenänderungsgesetz 2011 ("**AbgÄG 2011**", BGBl I 76/2011)/Budgetbegleitgesetz 2012 ("**BBG 2012**", BGBl I 112/2011))*

Pursuant to § 27(4) EStG, the difference payment, the premium, the capital gain and the income from another form of settlement of forward transactions (*Terminingeschäfte*, e.g. options) and other derivative financial instruments (e.g. index certificates) are income from investment in the form of income from derivatives. Other derivative financial instruments within the present context are derivative financial instruments irrespective of whether the underlying consists of financial assets, commodities or other assets, so that all types of certificates are covered. Consequently, in case of certificates the difference between the acquisition cost and the sales price, settlement amount or redemption amount is income from derivatives that is subject to income tax. The actual exercise of an option or the actual delivery of the underlying, however, is not a taxable event.

Income from investment derived from securities that securitise a receivable and are legally and actually publicly offered are subject to income tax at the special rate of 25 per cent pursuant to § 27a(1) EStG. With respect to income from derivatives (§ 27(4) EStG), income tax is levied by way of final withholding tax (such income does not have to be included in the income tax return, except in case of an exercise of the option for taxation at regular income tax rates or the option for setting-off of losses) in case of an Austrian depository or, in its absence, an Austrian paying agent, which has executed the transaction in connection with the depository and is involved in the transaction. An Austrian depository or paying agent may be credit institutions, Austrian branches of non-Austrian credit institutions or Austrian branches of certain investment services providers (§ 95(2)(2) EStG in connection with § 97(1) EStG). In the absence of an Austrian depository or paying agent, the income has to be included in the income tax return and is subject to income tax at the special rate of 25 per cent.

The investor may file an income tax return and apply for assessment of his income tax liability based on his income tax return (§ 27a(5) EStG). Subject to certain restrictions a set-off (but no carry forward) of losses is available among income from investment. For such setting-off of losses, generally the investor must opt for assessment to income tax (option for setting-off of losses; § 97(2) EStG in connection with § 27(8) EStG). In case of an Austrian depository, the

setting-off of losses has to be effected by the depository (§ 93 Abs 6 EStG). A deduction of expenses that are directly economically connected to the securities, if the income received thereunder is subject to the special income tax rate of 25 per cent pursuant to § 27(1) EStG, is not available (§ 20(2) EStG).

(b) Business investors

Income from a security held as a business asset constitutes business income.

A corporation subject to unlimited corporate income tax liability in Austria receiving such income will be subject to Austrian corporate income tax at a rate of 25 per cent.

Flat and final withholding tax at a rate of 25 per cent is triggered if the security is held by an individual investor resident for tax purposes in Austria and the interest is paid by an Austrian coupon-paying agent. In the absence of an Austrian coupon-paying agent, income tax at a special flat rate of 25 per cent will be due. A deduction of expenses that are directly economically connected to the securities, if the income received thereunder is subject to flat and final withholding tax or to the special income tax rate of 25 per cent, is not available.

Income from the sale of index or similarly structured products due to increases in value below the nominal value are subject to corporate income tax at a rate of 25 per cent in case of a corporation as investor and income tax at the regular rates of up to 50 per cent in case of an individual as investor irrespective of any holding periods.

Securities acquired after 31 March 2012 and new rules applicable as of 1 April 2012 (referring to the EStG as amended by the BBG 2011/AbgÄG 2011/BBG 2012)

In case of a corporation, the current regime of taxation applies.

If the securities are held by an individual, income from investment is subject to income tax at the special rate of 25 per cent which is levied by way of withholding in case of an Austrian depository or paying agent (§ 27a(6) EStG). However, in case of an individual holding the securities as business assets, pursuant to § 97(1) EStG the withholding tax on income from derivatives (§ 27(4) EStG) is not final (i.e., the income must be included in the income tax return). A set-off (and a carry forward) of losses is available under certain rules (§ 6(2)(c) EStG). A deduction of expenses that are directly economically connected to the securities, if the income received thereunder is subject to the special income tax rate of 25 per cent pursuant to § 27a(1) EStG, is not available.

(c) Risk of a Qualification as Units in a Non-Austrian Investment Fund

According to Austrian tax authorities, the provisions for non-Austrian investment funds within the meaning of § 42(1) of the Austrian Investment Fund Act (*Investmentfondsgesetz* ("**InvFG**")) (as of 1 April 2012: § 188 of the Austrian Investment Fund Act 2011 (*Investmentfondsgesetz 2011* ("**InvFG 2011**"))) may equally apply if the repayment of the invested amount exclusively depends on the performance of certain securities (index) and either the issuer, a trustee or a direct or indirect subsidiary of the issuer actually acquires the

majority of the securities comprised by the index for the purposes of issuing the securities or the assets comprised by the index are actively managed. However, directly held notes the performance of which depends on an index, irrespective of whether the index is a recognised index or an individually composed fixed or at any time modifiable index are not treated as units in a non-Austrian investment fund (BMF, Investment Fund Guidelines 2008 (*Investmentfondsrichtlinien 2008* ("InvFR 2008"))) para 267). The risk of the qualification of a Security as unit in a non-Austrian investment fund must be assessed on a case-by-case basis.

4.2 Tax Treatment of non-Austrian Tax Resident Investors

(a) Austrian Income Tax Liability

Pursuant to § 98(1)(5) EStG, interest received under securities (that are not held in an Austrian permanent establishment) by an investor not resident for tax purposes in Austria is basically not subject to Austrian income tax. If interest is paid by an Austrian coupon-paying agent, 25 per cent withholding tax is triggered, unless the non-Austrian tax resident individual investor proves his non-resident status for tax purposes to the Austrian coupon-paying agent by presenting an official picture identification card and provides his address. In addition, Austrian citizens or citizens of an Austrian neighbouring state have to provide a written declaration that they neither have a domicile nor their habitual place of abode in Austria. Further, the securities under which the interest is paid must be deposited with an Austrian bank (BMF, EStR 2000 paras 7775 et seq). If the investor is not an individual, the coupon-paying agent is discharged from its withholding obligation if the investor proves his non-resident status for tax purposes through presentation of an identification card of an individual acting on behalf of the corporation, the security is deposited with an Austrian credit institution and written evidence is provided by a declaration of the non-Austrian corporation and the individual acting on behalf the corporation that the non-Austrian corporation is the beneficial owner of the securities (BMF, Corporate Income Tax Guidelines 2001 (*Körperschaftsteuerrichtlinien 2001* ("KStR 2001"))) paras 1463 et seq and EStR 2000 paras 7779 et seq). Pursuant to § 98(1)(7) EStG investors who are not resident for tax purposes in Austria are generally not subject to income tax or, in case of a corporation, corporate income tax with respect to income from speculative transactions with securities (that are not held in an Austrian permanent establishment).

Securities acquired after 31 March 2012 and new provisions applicable as of 1 April 2012 (referring to the EStG as amended by the BBG 2011/AbgÄG 2011/BBG 2012)

Pursuant to § 98(1)(5) EStG, income from derivatives (§ 27(4) EStG) (that are not held in an Austrian permanent establishment) received by an investor who is not resident for tax purposes in Austria is basically not subject to Austrian income tax, or, in case of a corporation that is not resident for tax purposes in Austria, Austrian corporate income tax. Equally, there would generally be no (limited) income tax or corporate income tax liability in Austria with respect to interest paid under or realised increases in value of securities that securitise a

receivable. § 94(13) EStG provides for an exemption from withholding tax with respect to income that is not subject to (limited) income tax in Austria pursuant to § 98(1)(5) EStG (the documentation requirements pursuant to EStR 2000 paras 7775 et seq, presumably, will remain to be considered).

(b) Austrian EU Source Tax Liability

Directive 2003/48/EC of 3 June 2003 was implemented into Austrian domestic law by the enactment of the Austrian EU Source Tax Act (*EU-Quellensteuergesetz* ("**EU-QuStG**")). Accordingly, interest paid by an Austrian coupon-paying agent to an individual beneficial owner resident in another EU member state may be subject to EU source tax at a rate of currently 35 per cent. Whether interest under the Securities is subject to EU source tax must be determined on a case-by-case basis.

5. UNITED KINGDOM

The following applies only to persons who are beneficial owners of the Securities and is a summary of the Issuer's understanding of the current law and HM Revenue & Customs ("**HMRC**") practice in the United Kingdom relating to certain aspects of United Kingdom taxation. Some aspects do not apply to certain classes of persons (such as dealers and persons connected with the Issuer) to whom special rules apply. The United Kingdom tax treatment of prospective Securityholders depends on their individual circumstances and may be subject to change in the future. Prospective Securityholders who are in any doubt as to their own tax position or who may be subject to tax in a jurisdiction other than the United Kingdom should consult their professional advisers.

5.1 Withholding Tax

Securities issued otherwise than through the Issuer's London branch and which are not Dutch Scheme Securities

Payments on these Securities may be made without withholding or deduction for or on account of United Kingdom income tax.

Securities issued by the Issuer's London branch and Dutch Scheme Securities

Payments by the Issuer's London branch or by RBS (in the case of Dutch Scheme Securities) are likely to be regarded as having a United Kingdom source. However payments made in respect of such Securities may be made without deduction or withholding for or on account of United Kingdom income tax where such payments are not regarded as either interest or annual payments for United Kingdom tax purposes.

Even if such payments by the Issuer's London branch or by RBS, as applicable, were to be regarded as interest or annual payments for United Kingdom tax purposes, the Issuer or RBS, as applicable should not be required to withhold or deduct sums for or on account of United Kingdom income tax from payments made in respect of the Securities provided that the Securities are derivative contracts, the profits and losses arising from which are calculated in accordance with the provisions of Part 7 of

the Corporation Tax Act 2009 (which broadly they should be provided that they are derivatives for the purposes of FRS25 (or International Accounting Standard 32) and are not excluded for the purposes of Part 7 of that Act by virtue of their underlying subject matter).

If interest is payable on the Securities or if payments made in respect of the Securities were to be regarded as interest for United Kingdom tax purposes, provided the Issuer's London branch, or RBS, as applicable, qualifies as a bank within the meaning of section 991 of the Income Tax Act 2007 (the "ITA 2007") on the date of such payments, such payments may be made without withholding or deduction for or on account of United Kingdom income tax where the interest is paid in the ordinary course of the Issuer's London branch's or RBS's business, as applicable, within the meaning of section 878 of the ITA 2007; this would include all payments of interest by the Issuer's London branch, or RBS, as applicable except where there is an intention to avoid United Kingdom tax.

Payments of interest on the Securities may also be made by the Issuer's London branch or RBS, as applicable, without deduction of or withholding for or on account of United Kingdom income tax if the Securities are and continue to be listed on a "recognised stock exchange", as defined in section 1005 of the ITA 2007. Securities should satisfy this requirement if they are: (i) admitted to trading on a "recognised stock exchange"; and (ii) officially listed in a country in which there is a "recognised stock exchange" in accordance with provisions corresponding to those generally applicable in EEA states. Provided therefore, that the Securities are listed on a recognised stock exchange for these purposes, interest on the Securities will be payable without withholding or deduction for or on account of United Kingdom income tax whether or not the Issuer's London branch, or RBS, as applicable, carries on a banking business in the United Kingdom and whether or not the interest is paid in the ordinary course of its business.

Interest on such Securities may be paid without withholding or deduction for or on account of United Kingdom income tax where at the time the payment is made, the Issuer's London branch or RBS, as applicable, reasonably believes (and any person by or through whom interest on the Securities is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HMRC has not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

Interest on such Securities may also be paid without withholding or deduction for or on account of United Kingdom income tax where the maturity of the Securities is less than 365 days and the Securities do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments by the Issuer's London branch or RBS, as applicable, of interest on the Securities on account of United Kingdom income tax at the basic rate (currently 20%). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HMRC can issue a notice to the Issuer's London branch, or RBS, as applicable, to pay interest to the Securityholder without

deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

5.2 UK Information Gathering Powers

Securityholders may wish to note that, in certain circumstances, HMRC has power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays or credits interest to or receives interest for the benefit of a Securityholder. HMRC also has power, in certain circumstances, to obtain information from any person in the United Kingdom who pays amounts payable on the redemption of Securities (which are deeply discounted securities for the purposes of the Income Tax (Trading and Other Income) Act 2005) to or receives such amounts for the benefit of another person, although HMRC published practice indicates that HMRC will not exercise the power referred to above to require this information in respect of amounts payable on the redemption of deeply discounted securities where such amounts are paid on or before 5 April 2013. Such information may include the name and address of the beneficial owner of the amount payable on redemption. Any information obtained may, in certain circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the Securityholder is resident for tax purposes.

5.3 Stamp Taxes

For the purposes of the following paragraphs, "**Exempt Loan Capital**" means any security which constitutes loan capital for the purposes of section 78 Finance Act 1986 ("**Loan Capital**") and: (a) does not carry rights to acquire shares or securities (by way of exchange, conversion or otherwise); (b) has not carried and does not carry a right to interest the amount of which exceeds a reasonable commercial return on the nominal amount of the relevant security; (c) subject to certain exceptions has not carried and does not carry a right to interest the amount of which falls or has fallen to be determined to any extent by reference to the results of, or any part of, a business or to the value of any property; and (d) has not carried and does not carry a right to a premium which is not reasonably comparable with amounts payable on securities listed on the London Stock Exchange.

Subject to what follows, no stamp duty, capital duty, stamp duty reserve tax or other similar tax is payable in the United Kingdom on the issue or transfer by delivery of any Securities.

In relation to Securities in bearer form which are denominated in sterling and are not Loan Capital, a charge to stamp duty at 1.5 per cent of the value of such Securities may arise if issued in the United Kingdom. No stamp duty liability will arise on the issue of such Securities if issued outside the United Kingdom. However, in relation to Securities of that kind originally issued outside the United Kingdom, on the first transfer by delivery in the United Kingdom of any such Security a stamp duty liability at 1.5 per cent of the value of such Security will arise.

A Security or any instrument granting a Security (each an instrument) may be subject to United Kingdom stamp duty if it is executed in the United Kingdom or if it relates to any property situate, or to any matter or thing done or to be done, in the United Kingdom.

No United Kingdom stamp duty should be required to be paid on transfers of the Securities on sale provided no instrument of transfer is used to complete such sales.

An instrument transferring the Securities on sale may be subject to stamp duty at a rate of 0.5 per cent. of the consideration paid for the Securities unless the Securities comprise Exempt Loan Capital.

Stamp duty reserve tax at a rate of 1.5 per cent may be payable on the issue or transfer of a Security which is not a Dutch Scheme Security to a clearing system or depository receipt issuer where the Security comprises an interest in, or to dividends or other rights arising out of, or a right to allotment of or to subscribe for, or an option to acquire shares which are paired with shares (which are not "newly subscribed shares" as defined in section 99(12) of the Finance Act 1988) issued by a body corporate incorporated in the United Kingdom. The stamp duty reserve tax analysis in the above paragraph is also likely to apply to the issue or transfer of a Dutch Scheme Security to a clearing system, or to a depository receipt issuer, although this is not free from doubt. Were the analysis in the above paragraph not to apply to a transfer of such a Security, stamp duty reserve tax at a rate of 1.5 per cent may be payable on such a transfer in circumstances other than those described in the paragraph above if such Security is not Exempt Loan Capital.

Stamp duty reserve tax should generally not be payable in relation to an agreement to transfer or transfer of a Security within a clearance service provided that no election under section 97A of the Finance Act 1986 applies in respect of that Security.

Stamp duty reserve tax may be payable on a transfer of a Security in circumstances other than those described in the paragraphs above, if the Security does not comprise Exempt Loan Capital.

Stamp duty and stamp duty reserve tax may also be payable on the transfer of an asset on physical settlement of the Securities or on the transfer of security or other asset under the Collateral arrangements.

6. EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (the "**Directive**"), EU member states, subject to the following exceptions, are required to provide to the tax authorities of another member state details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other member state or to certain limited types of entities established in that other member state. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

On 16 June 2010, HM Treasury published the terms of reference for the UK Government's Independent Commission on Banking ("**ICB**"). Following an interim report published on 11 April 2011, the ICB published its final report to the Cabinet Committee on Banking Reform on 12 September 2011 (the "**Final Report**"). The Final Report makes a number of recommendations, including in relation to (i) the implementation of a ring-fence of retail banking operations, (ii) loss-absorbency (including bail-in) and (iii) competition. The ICB has recommended 2019 as the final deadline for the implementation of its recommendations. The RBSG Group will continue to participate in the debate and to consult with the UK Government on the implementation of the recommendations set out in the Final Report, the effects of which could have a negative

impact on the RBSG Group's consolidated net assets, operating results or cash flows in any particular period."

EUR 1,434 million for the first half of 2011, compared with a profit of EUR 409 million in the first half of 2010.

RBS Holdings and RBS N.V. form part of the RBSG Group. RBSG is the holding company of a global banking and financial services group. Headquartered in Edinburgh, the RBSG Group operates in the United Kingdom, the United States and internationally through its three principal subsidiaries, RBS, National Westminster Bank Public Limited Company ("**NatWest**") and RBS N.V. Both RBS and NatWest are major United Kingdom clearing banks. In the United States, RBS's subsidiary Citizens Financial Group, Inc. is a commercial banking organisation. Globally, the Group has a diversified customer base and provides a wide range of products and services to personal, commercial and large corporate and institutional customers.

Group Organisational Structure:

The Group comprises the following four segments:

- **Global Banking & Markets ("GBM"):** The GBM segment represents the business providing an extensive range of debt and equity financing, risk management and investment services as a banking partner to major corporations and financial institutions around the world. The GBM business within RBS Holdings is organised along four principal business lines: Global Lending, Equities, Short Term Markets & Funding and Local Markets.
- **Global Transaction Services ("GTS"):** GTS provides global transaction services, offering Global Trade Finance, Transaction Banking and International Cash Management.
- **Central Items:** The Central Items segment includes group and corporate functions, such as treasury, capital management and finance, risk management, legal, communications and human resources. Central Items manages the Group's capital resources, statutory and regulatory obligations and provides services to the branch network.
- **Non-Core Segment:** The Non-Core segment

contains a range of businesses and asset portfolios managed separately that the Group intends to run off or dispose of, in line with the RBSG Group strategy for Non-Core assets. It also includes the remaining assets and liabilities in RBS N.V. that have not yet been sold, wound down or alternatively transferred by the Consortium Members (as defined below), in which each of the Consortium Members has a joint and indirect interest.

Global Banking & Markets, Global Transaction Services and Central Items comprise the Group's Core segments.

These businesses are part of global business units of the RBSG Group that operate across multiple legal entities. The strategy of the Group is part of the overall business strategy of the RBSG Group. RBS Holdings has been restructured into Core and Non-Core components. The RBSG Group expects to substantially run down or dispose of the businesses, assets and portfolios within the Non-Core division by 2013 and has completed the sales of businesses in Latin America, Asia, Europe and the Middle East.

Separation from the ABN AMRO Group:

On 17 October 2007, RFS Holdings B.V. ("**RFS Holdings**"), which at the time was owned by RBSG, Fortis N.V., Fortis S.A./N.V., Fortis Bank Nederland (Holding) N.V. and Banco Santander, S.A. ("**Santander**"), completed the acquisition of ABN AMRO Holding N.V., which was renamed RBS Holdings N.V. on 1 April 2010 when the shares in ABN AMRO Bank N.V. were transferred to ABN AMRO Group N.V., a holding company for the interests of the Dutch State. This marked the substantial completion of the restructuring of the activities of ABN AMRO Holding N.V. in accordance with the agreement between RBSG, the Dutch State and Santander (the "**Consortium Members**").

On 31 December 2010, the share capital of RFS Holdings was amended, such that approximately 98 per cent. of RFS Holdings' issued share capital is now held by RBSG, with the remainder being held by Santander

and the Dutch State. Ultimately it is expected that RFS Holdings will become a wholly-owned subsidiary of RBSG.

Proposed Transfer of Activities:

On 19 April 2011, RBS N.V. announced that it had approved the proposed transfers of a substantial part of its business activities to RBS, subject to certain conditions (the "**Proposed Transfers**"). It is expected that the Proposed Transfers will be implemented on a phased basis over a period ending on 31 December 2013. A large part of the Proposed Transfers (including of certain debt securities issued by RBS N.V.) is expected to have taken place by the end of 2012. The Proposed Transfers include a proposal to change the issuer of a number of securities issued by RBS N.V. which will include some or all of the securities issued by RBS N.V. between 19 April 2011 and the date that the Proposed Transfers take effect.

**Summary Consolidated
Financial Information relating to
RBS Holdings:**

The following tables summarise certain financial information of RBS Holdings for its financial years ended 31 December 2010 and 31 December 2009 and have been extracted from the Annual Report 2010 of RBS Holdings, which were prepared in accordance with International Financial Reporting Standards as adopted by the European Union.

Legal separation of ABN AMRO Bank N.V. took place on 1 April 2010. As a result the Group no longer consolidates the interests of ABN AMRO Bank N.V. and its results are classified as discontinued operations. Results for 2009 have been re-presented accordingly. The Group is majority owned by the RBSG Group and therefore the presentation of the Group's financial statements has been aligned with that of the RBSG, the ultimate parent company of RBS Holdings. The changes do not affect the Group's accounting policies, results, total assets or total liabilities. The presentation of comparatives has been aligned accordingly.

Rating of the Issuer:

As of 1 December 2011, the credit ratings¹ of the Issuer assigned by Moody's Investors Service Ltd., London, United Kingdom ("**Moody's Investors Service**"), Standard & Poor's Credit Market Services Europe Limited, London, United Kingdom ("**Standard & Poor's**"), and Fitch Ratings Limited, London, United Kingdom ("**Fitch Ratings**"), are as follows:

	Long term	Short term	Outlook
Moody's Investors Service	A2	P-1	Negative
Standard & Poor's	A	A-1	Stable
Fitch Ratings	A	F1	Stable

• **Moody's Investors Service definitions**

Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging from "Aaa" (describing obligations judged to be of the highest quality, with minimal credit risk), "Aa", "A", "Baa", "Ba", "B", "Caa" and "Ca" to "C", the lowest category representing long-term obligations that are

¹ Since 31 October 2011 the rating agencies set forth in this section are registered in accordance with Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (the "**Regulation**") as published on the website of the European Securities and Markets Authority pursuant to Article 18(3) of the Regulation.

typically in default, with little prospect for recovery of principal or interest. In addition, Moody's Investors Service appends numerical modifiers ("1", "2", and "3") to each generic rating classification from "Aa" through "Caa". The modifier "1" indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier "2" indicates a mid-range ranking, and the modifier "3" indicates a ranking in the lower end of that generic rating category.

Issuers rated "P-1" have a superior ability to repay short-term debt obligations.

The rating system used by Moody's Investors Service for short-term obligations has various subcategories ranging from "P-1", "P-2" and "P-3" to "NP", the lowest category representing issuers that do not fall within any of the "Prime" rating categories.

A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: "Positive", "Negative", "Stable", and "Developing" (contingent upon an event).

- ***Standard and Poor's definitions***

An obligor rated "A" by Standard & Poor's has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor's for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB"; "BB"; "B", "CCC", "CC", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus ("+") or minus ("-") signs following ratings from the "AA" to "CCC" categories show the relative standing within the major

rating categories.

An obligor rated "A-1" by Standard & Poor's has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor's.

The rating system used by Standard & Poor's for short-term issuer credit ratings has various subcategories ranging from "A-1" (which is the highest quality rating), "A-2", "A-3", "B", "C", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

"Stable" means that a rating is not likely to change.

- ***Fitch Ratings definitions***

"A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C", "RD" to "D", the lowest category indicating that the issuer in Fitch Ratings' opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers "+" or "-" may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the "AAA" rating category or to the categories below "B".

An "F1" rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from "F1" (which is the highest quality rating), "F2", "F3", "B", "C"

and "RD" to "D", the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody's Investors Service (www.moodys.com), Standard & Poor's (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively.

- The Group's businesses and performance can be negatively affected by actual or perceived global economic and financial market conditions and by other geopolitical risks.
- An extensive restructuring and balance sheet reduction programme of the RBSG Group is ongoing and may adversely affect the Group's business, results of operations, financial condition, capital ratios and liquidity and may also negatively impact the value of securities issued by RBS N.V.
- The execution and/or any delay in the execution (or non-completion) of the approved proposed transfers of a

substantial part of the business activities of RBS N.V. to RBS may have a material adverse effect on the Group and may also negatively impact the value of securities issued by RBS N.V.

- Lack of liquidity is a risk to the Group's business and there is a risk that the Group's ability to access sources of liquidity and funding could become constrained.
- The financial performance of the Group has been materially affected by deteriorations in borrower and counterparty credit quality and it may continue to be impacted by any further deteriorations, including as a result of prevailing economic and market conditions, and legal and regulatory developments.
- The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions.
- Changes in interest rates, foreign exchange rates, credit spreads, bond, equity and commodity prices, basis, volatility and correlation risks and other market factors have significantly affected and will continue to affect the Group's business and results of operations.
- The Group's borrowing costs, its access to the debt capital markets and its liquidity depend significantly on its credit ratings.
- The Group's business performance could be adversely affected if its capital is not managed effectively or as a result of changes to capital adequacy and liquidity requirements.
- The value of certain financial instruments recorded at fair value is determined using financial models incorporating assumptions, judgements and estimates that may change over time or may ultimately not turn out to be accurate.
- The Group operates in markets that are highly competitive and its business and results of operations may be adversely affected.

- As a condition to the RBSG Group receiving HM Treasury support, the Group is prohibited from making discretionary coupon payments on, and exercising call options in relation to, certain of its existing hybrid capital instruments, which may impair the Group's ability to raise new capital through the issuance of securities.
- The Group could fail to attract or retain senior management, which may include members of the Group's Supervisory Board and Managing Board, or other key employees, and it may suffer if it does not maintain good employee relations.
- Each of the Group's businesses is subject to substantial regulation and oversight. Significant regulatory developments, including changes in tax law, could have an adverse effect on how the Group conducts its business and on its results of operations and financial condition.
- The Group is and may be subject to litigation and regulatory investigations that may impact its business.
- The Group may be required to make further contributions to its pension schemes if the value of pension fund assets is not sufficient to cover potential obligations.
- The Group is subject to enforcement risks relating to the United States Department of Justice's criminal investigation of its dollar clearing activities.
- The legal demerger of ABN AMRO Bank N.V. (as it was then named) has resulted in a cross liability that changes the legal recourse available to investors.
- Operational risks are inherent in the Group's businesses.
- The Group's operations have inherent reputational risk.
- The recoverability and regulatory capital treatment of certain deferred tax assets recognised by the Group depends on the Group's ability to generate sufficient future taxable profits and there being no adverse

changes to tax legislation, regulatory requirements or accounting standards.

- In addition to the risk factors described above, the Group is also subject to additional risks related to the entry by RBSG Group into the asset protection scheme and the two back to back contracts (the "**Contracts**") entered into by RBS in connection with certain assets and exposures of RBS N.V. and its wholly-owned subsidiaries.
- The extensive governance, asset management and information requirements under the conditions of the asset protection scheme, which the Group is required to comply with, or to ensure that RBS can comply with, pursuant to the Contracts may have an adverse impact on the Group. In addition, any changes or modifications to the conditions of the asset protection scheme may have a negative impact on the expected benefits of the Contracts and may have an adverse impact on the Group.
- Any changes to the expected regulatory capital treatment of the Contracts may negatively impact the Group's capital position.
- Fulfilling the disclosure obligations of the Group under the Contracts may give rise to litigation and regulatory risk.

Die Geplanten Übertragungen beinhalten eine Ersetzung der Emittentin für eine Vielzahl der von der RBS N.V. begebenen Wertpapiere. Dies wird auch für einen Teil oder alle der von der RBS N.V. zwischen dem 19. April 2011 und dem Zeitpunkt des Wirksamwerdens der Geplanten Übertragungen begebenen Wertpapiere gelten.

- **Moody's Investors Service Definitionen**

Verbindlichkeiten, die mit „A“ eingestuft sind, werden als Verbindlichkeiten der „oberen Mittelklasse“ zugerechnet und bergen ein geringes Kreditrisiko.

Die von Moody's Investors Service verwendete Rating-Skala für langfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „Aaa“, die die Kategorie höchster Qualität mit einem minimalen Kreditrisiko bezeichnet, über die Kategorien „Aa“, „A“, „Baa“, „Ba“, „B“, „Caa“, „Ca“, bis zur niedrigsten Kategorie „C“, die langfristige Verbindlichkeiten bezeichnet, bei denen ein Zahlungsausfall in der Regel bereits eingetreten ist und eine geringe Aussicht auf Rückzahlung von Kapital und Zinsen besteht. Moody's Investors Service verwendet innerhalb der Kategorien „Aa“ bis „Caa“ zusätzlich numerische Unterteilungen („1“, „2“ oder „3“). Der Zusatz „1“ weist darauf hin, dass die jeweilige langfristige Verbindlichkeit zum oberen Drittel der jeweiligen Rating-Kategorie gehört, während der Zusatz „2“ auf eine Klassifizierung im mittleren Drittel und der Zusatz „3“ auf eine solche im unteren Drittel hinweist.

Emittenten mit der Einstufung „P-1“ verfügen in

herausragender Weise über die Fähigkeit, ihre kurzfristigen Schuldverschreibungen zurückzuzahlen.

Die von Moody's Investors Service verwendete Rating-Skala für die Fähigkeit eines Emittenten zur Erfüllung seiner kurzfristigen Finanzverbindlichkeiten hat verschiedene Kategorien und reicht von „P-1“ über die Kategorien „P-2“ und „P-3“ bis zur niedrigsten Kategorie „NP“, die verdeutlicht, dass ein Emittent zu keiner der „Prime“-Rating-Kategorien gehört.

Ein Rating-Ausblick ist eine Meinung über die Richtung, in die sich ein Rating mittelfristig voraussichtlich entwickeln wird. Die Ausblicke werden in die folgenden vier Kategorien unterteilt: „positiv“, „negativ“, „stabil“ und „noch unbestimmt“ (d. h. ereignisabhängig).

- ***Standard and Poor's Definitionen***

Die Fähigkeit eines Schuldners mit einem Standard & Poor's-Rating von „A“, seine finanziellen Verpflichtungen zu erfüllen, ist stark, aber etwas anfälliger gegenüber nachteiligen Auswirkungen von Veränderungen äußerer Umstände und wirtschaftlicher Bedingungen als bei Schuldnern, die in einer höheren Rating-Kategorie eingestuft sind.

Die von Standard & Poor's verwendete Rating-Skala für die langfristige Fähigkeit eines Schuldners zur Erfüllung seiner Verbindlichkeiten hat verschiedene Rating-Kategorien und reicht von „AAA“, die die Kategorie höchster Bonität bezeichnet, über die Kategorien „AA“, „A“, „BBB“, „BB“, „B“, „CCC“, „CC“, „R“ und „SD“ bis zur niedrigsten Kategorie „D“, die kennzeichnet, dass Standard & Poor's davon ausgeht, dass der Zahlungsausfall einen allgemeinen Ausfall darstellen wird und Zahlungsausfälle bei allen oder nahezu allen fälligen Verpflichtungen des Schuldners eintreten werden. Den Kategorien „AA“ bis „CCC“ kann jeweils ein Pluszeichen („+“) oder Minuszeichen („-“) hinzugefügt werden, um die relative Stellung innerhalb der Haupt-Rating-Kategorien zu verdeutlichen.

Die kurzfristige Fähigkeit eines Schuldners zur Erfüllung

seiner finanziellen Verpflichtungen mit einem „A-1“-Rating ist stark. Er ist mit der höchsten Rating-Kategorie von Standard & Poor's bewertet.

Die von Standard & Poor's verwendete Rating-Skala für die kurzfristige Fähigkeit eines Schuldners zur Erfüllung seiner Verbindlichkeiten hat verschiedene Rating-Kategorien und reicht von „A-1“, welche die Kategorie höchsten Bonität bezeichnet, über die Kategorien „A-2“, „A-3“, „B“, „C“, „R“ und „SD“ bis zur niedrigsten Kategorie „D“, die kennzeichnet, dass Standard & Poor's davon ausgeht, dass der Zahlungsausfall einen allgemeinen Ausfall darstellen wird und Zahlungsausfälle bei allen oder nahezu allen fälligen Verpflichtungen des Schuldners eintreten werden.

„Stabil“ bedeutet, dass sich die Bonitätseinstufung voraussichtlich nicht ändern wird.

- ***Fitch Ratings Definitionen***

Ein „A“-Rating steht für ein gering eingeschätztes Kreditrisiko. Es bezeichnet eine gute Fähigkeit zur fristgerechten Zahlung der Verbindlichkeiten. Diese Fähigkeit ist jedoch durch ungünstige geschäftliche oder wirtschaftliche Ereignisse mehr gefährdet als bei höheren Ratings.

Die von Fitch Ratings verwendete Rating-Skala für langfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „AAA“, die für die höchste Kreditqualität steht, über die Kategorien „AA“, „A“, „BBB“, „BB“, „B“, „CCC“, „CC“, „C“, „RD“ bis zur niedrigsten Kategorie „D“, die nach Fitch Ratings' Einschätzung kennzeichnet, dass ein Emittent sich in einem Insolvenzverfahren, unter Zwangsverwaltung, in einem Vergleichsverfahren, in Auflösung oder einem anderen formellen Verfahren zur Abwicklung befindet oder in sonstiger Weise seine Geschäftstätigkeit eingestellt hat. Den Kategorien kann jeweils ein Plus- („+“) oder Minuszeichen („-“) beigefügt werden, um eine relative Einordnung innerhalb der Haupt-Rating-Kategorien auszudrücken. Solche Zusätze werden nicht

der Rating-Kategorie „AAA“ oder den Rating-Kategorien unter „B“ beigefügt.

Ein „F1“-Rating bezeichnet die beste Fähigkeit für eine fristgerechte Zahlung der kurzfristigen Verbindlichkeiten.

Die von Fitch Ratings verwendete Rating-Skala für kurzfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „F1“, die für die höchste Kreditqualität steht, über die Kategorien „F2“, „F3“, „B“, „C“ und „RD“ bis zur niedrigsten Kategorie „D“, die einen weitgehenden Zahlungsausfall eines Schuldners kennzeichnet.

Die oben aufgeführten Rating-Definitionen stammen in englischer Sprache von der jeweiligen Internetseite von Moody's Investors Service (www.moody.com), Standard & Poor's (www.standardandpoors.com) bzw. Fitch Ratings (www.fitchratings.com).

Risikofaktoren:

Ziel der Beschreibung der Risikofaktoren ist es, potenzielle Käufer der Wertpapiere vor der Tätigung von Anlagen zu schützen, die nicht für ihre Zwecke geeignet sind, sowie die wirtschaftlichen und rechtlichen Risiken, die mit einer Anlage in die Wertpapiere verbunden sind, aufzuzeigen. Potenzielle Käufer der Wertpapiere sollten vor einer Anlageentscheidung die mit einer Anlage in die Wertpapiere verbundenen Risiken bedenken.

Risikofaktoren in Bezug auf die Emittentin und die Garantin:

Die Gruppe ist abhängig von der RBSG-Gruppe. Potenzielle Anleger sollten beachten, dass die Gruppe bestimmten Risiken der RBSG-Gruppe ausgesetzt ist, unter anderem der Instabilität der globalen Finanzmärkte, fehlender Liquidität, niedriger Bewertung von Vermögenswerten, geopolitischen Bedingungen, vollständiger Verstaatlichung und anderen Maßnahmen nach dem britischen Banking Act 2009 sowie anderen Risiken, die sich aus dem staatlichen Schutzprogramm für Risiken aus bestimmten Vermögenswerten (*asset protection scheme*) ergeben. Daher sind die nachfolgenden Risikofaktoren, die sich auf die RBSG und die RBSG-Gruppe beziehen, auch für die Emittentin und die Gruppe von Bedeutung:

- Die Geschäftslage und Geschäftsentwicklung der Gruppe kann durch bestehende und erwartete Bedingungen der Weltwirtschaft und der globalen Finanzmärkte und durch andere geopolitische Risiken negativ beeinträchtigt werden.
- Ein umfangreiches Programm der RBSG-Gruppe zur Restrukturierung und Verkürzung der Bilanz dauert an und kann den Geschäftsbetrieb der Gruppe, die Betriebsergebnisse, die Finanzlage, die Eigenkapitalquoten und die Liquidität beeinträchtigen sowie den Wert von Wertpapieren nachteilig beeinflussen, die von der RBS N.V. begeben wurden.
- Die Durchführung der genehmigten und geplanten Übertragung, eine Verzögerung der Durchführung oder ein Scheitern der Übertragung wesentlicher Teile der Geschäftsaktivitäten der RBS N.V. auf die RBS kann erhebliche nachteilige Auswirkungen auf die Gruppe haben und ebenfalls den Wert der von der RBS N.V. ausgegebenen Wertpapiere negativ beeinflussen.
- Ein Risiko des Geschäfts der Gruppe liegt im Fehlen von Liquidität, und es besteht das Risiko, dass der Zugang der Gruppe zu Liquidität und zu Finanzierungsmöglichkeiten beschränkt sein könnte.
- Die finanzielle Entwicklung der Gruppe wurde durch die Verschlechterung der Kreditqualität von Schuldern und Vertragsparteien erheblich beeinträchtigt und kann durch weitere Verschlechterungen noch weitergehend beeinflusst werden, u.a. durch die vorherrschenden Wirtschafts- und Marktverhältnisse sowie rechtliche und regulatorische Entwicklungen.
- Die Ertrags- und Finanzlage der Gruppe wurde durch die sich aus dem schwachen Marktumfeld ergebende niedrige Vermögensbewertung erheblich beeinträchtigt und kann dadurch weiter erheblich beeinträchtigt werden.
- Änderungen der Zinssätze, Wechselkurse, Credit Spreads, Anleihe-, Aktien- und Rohstoffpreise, Basis-, Volatilitäts- und Korrelationsrisiken sowie anderer

Marktfaktoren haben das Geschäft sowie das Betriebsergebnis der Gruppe wesentlich beeinträchtigt und werden sie weiter beeinträchtigen.

- Die Fremdfinanzierungskosten der Gruppe, ihr Zugang zu den Anleihekapitalmärkten sowie ihre Liquidität hängen entscheidend von dem Kreditrating der Gruppe ab.
- Die Geschäftsentwicklung der Gruppe kann beeinträchtigt werden, wenn ihr Kapital nicht effizient verwaltet wird oder wenn Kapitaladäquanz- und Liquiditätsanforderungen geändert werden.
- Bestimmte Finanzinstrumente werden zum Marktwert angesetzt, der mithilfe von Finanzmodellen ermittelt wird, die Annahmen, Beurteilungen und Schätzungen beinhalten, die sich im Verlauf der Zeit ändern können oder die sich als nicht richtig herausstellen.
- Die Gruppe ist in sehr kompetitiven Märkten tätig, und ihr Geschäft und ihr Betriebsergebnis könnten negativ beeinträchtigt werden.
- Um die Unterstützung des britischen Schatzamts (*HM Treasury*) für die RBSG-Gruppe zu erhalten, ist es der Gruppe untersagt, in ihrem Ermessen stehende Zahlungen auf Coupons zu leisten und Ankaufsoptionen in Bezug auf bestimmte bestehende hybride Kapitalinstrumente der Gruppe auszuüben. Dies kann die Fähigkeit der Gruppe zur Gewinnung neuen Kapitals im Wege der Ausgabe von Wertpapieren beeinträchtigen.
- Es ist möglich, dass es der Gruppe nicht gelingt, Führungskräfte (einschließlich der Mitglieder des Aufsichtsrates und des Vorstandes der Gruppe und anderen Mitarbeitern in Schlüsselpositionen) zu gewinnen oder zu halten, und sie könnte Schaden erleiden, wenn sie kein gutes Verhältnis zu ihren Arbeitnehmern unterhält.
- Alle Geschäftsbereiche der Gruppe sind weitgehend reguliert und beaufsichtigt. Wesentliche

aufsichtsrechtliche und steuerrechtliche Veränderungen könnten sich nachteilig auf die Geschäftstätigkeit sowie das Betriebsergebnis und die Finanzlage der Gruppe auswirken.

- Die Gruppe ist Rechtsstreitigkeiten und aufsichtsrechtlichen Untersuchungen ausgesetzt und kann dies auch in Zukunft sein, was zu Geschäftsbeeinträchtigungen führen kann.
- Es kann sein, dass die Gruppe weitere Beiträge für ihr Pensionssystem aufbringen muss, wenn der Wert der Vermögenswerte in Pensionsfonds nicht ausreichend ist, um potenzielle Verbindlichkeiten zu decken.
- Die Gruppe unterliegt Risiken hinsichtlich der strafrechtlichen Ermittlungen durch das *United States Department of Justice* (Justizministerium der Vereinigten Staaten) im Hinblick auf ihre Dollar-Clearing-Aktivitäten.
- Die rechtliche Abspaltung der ABN AMRO Bank N.V. (damaliger Firmenname) hat wechselseitige Haftungsverhältnisse zur Folge, die die rechtlichen Rückgriffsmöglichkeiten für Anleger verändern.
- Das Geschäft der Gruppe birgt betriebsbedingte Risiken.
- Die Geschäftstätigkeit der Gruppe unterliegt damit verbundenen Reputationsrisiken.
- Die Werthaltigkeit und die aufsichtsrechtliche Eigenkapitalbehandlung bestimmter von der Gruppe berücksichtigter latenter Steueransprüche hängt von der Fähigkeit der Gruppe ab, ausreichende zukünftige steuerpflichtige Gewinne zu erzielen und davon, dass sich Steuergesetzgebung, aufsichtsrechtliche Anforderungen und Bilanzierungsgrundsätze nicht in nachteiliger Weise ändern.
- Zusätzlich zu den oben beschriebenen Risikofaktoren unterliegt die Gruppe Risiken, die sich aus der Beteiligung der RBSG-Gruppe an dem staatlichen Schutzprogramm für Risiken aus bestimmten

Vermögenswerten (*asset protection scheme*) sowie aus zwei Absicherungsverträgen (die „**Absicherungsverträge**“), die von der RBS in Verbindung mit bestimmten, der RBS N.V. und ihren hundertprozentigen Tochtergesellschaften zuzurechnenden Vermögenswerten und Risikopositionen abgeschlossen wurden, ergeben.

- Die umfangreichen Anforderungen an die Unternehmensleitung, die Verwaltung von Vermögenswerten und im Hinblick auf Informationspflichten, denen die Gruppe unter den Bedingungen des Schutzprogramms für Risiken aus bestimmten Vermögenswerten unterliegt bzw. deren mögliche Einhaltung durch die RBS sie nach den Absicherungsverträgen sicherstellen muss, können negative Auswirkungen auf die Gruppe haben. Zudem kann jede Änderung oder Modifizierung der Bedingungen des Schutzprogramms für Risiken aus bestimmten Vermögenswerten negative Auswirkungen auf die erwarteten Vorteile aus den Absicherungsverträgen und damit auf die Gruppe haben.
- Jegliche Änderungen in Bezug auf die regulatorische Behandlung von Kapital nach den Absicherungsverträgen kann negative Auswirkungen auf die Kapitalstruktur der Gruppe haben.
- Die Erfüllung der Offenlegungsverpflichtungen der Gruppe nach den Absicherungsverträgen kann Rechtsstreitigkeiten zur Folge haben und aufsichtsrechtliche Risiken begründen.

Rating of the Issuer

As of 1 December 2011, the credit ratings³ of the Issuer assigned by Moody's Investors Service Ltd., London, United Kingdom ("**Moody's Investors Service**"), Standard & Poor's Credit Market Services Europe Limited, London, United Kingdom ("**Standard & Poor's**"), and Fitch Ratings Limited, London, United Kingdom ("**Fitch Ratings**"), are as follows:

³ Since 31 October 2011 the rating agencies set forth in this section are registered in accordance with Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (the "**Regulation**") as published on the website of the European Securities and Markets Authority pursuant to Article 18(3) of the Regulation.

	Long term	Short term	Outlook
Moody's Investors Service	A2	P-1	Negative
Standard & Poor's	A	A-1	Stable
Fitch Ratings	A	F1	Stable

Moody's Investors Service definitions

Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging from "Aaa" (describing obligations judged to be of the highest quality, with minimal credit risk), "Aa", "A", "Baa", "Ba", "B", "Caa" and "Ca" to "C", the lowest category representing long-term obligations that are typically in default, with little prospect for recovery of principal or interest. In addition, Moody's Investors Service appends numerical modifiers ("1", "2", and "3") to each generic rating classification from "Aa" through "Caa". The modifier "1" indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier "2" indicates a mid-range ranking, and the modifier "3" indicates a ranking in the lower end of that generic rating category.

Issuers rated "P-1" have a superior ability to repay short-term debt obligations.

The rating system used by Moody's Investors Service for short-term obligations has various subcategories ranging from "P 1", "P-2" and "P-3" to "NP", the lowest category representing issuers that do not fall within any of the "Prime" rating categories.

A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: "Positive", "Negative", "Stable", and "Developing" (contingent upon an event).

Standard and Poor's definitions

An obligor rated "A" by Standard & Poor's has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor's for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from "AAA" (which is the

highest quality rating), "AA", "A", "BBB"; "BB"; "B", "CCC", "CC", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus ("+") or minus ("-") signs following ratings from the "AA" to "CCC" categories show the relative standing within the major rating categories.

An obligor rated "A-1" by Standard & Poor's has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor's.

The rating system used by Standard & Poor's for short-term issuer credit ratings has various subcategories ranging from "A-1" (which is the highest quality rating), "A-2", "A-3", "B" "C", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

"Stable" means that a rating is not likely to change.

Fitch Ratings definitions

"A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C", "RD" to "D", the lowest category indicating that the issuer in Fitch Ratings' opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers "+" or "-" may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the "AAA" rating category or to the categories below "B".

An "F1" rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from "F1" (which is the highest quality rating), "F2", "F3", "B" "C" and "RD" to "D", the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody's Investors Service (www.moody.com), Standard & Poor's (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively. They have been accurately reproduced and that as far as the Issuer is aware and is able to ascertain from information published by Moody's Investors Service, Standard & Poor's, and Fitch Ratings, respectively, no facts have been omitted which would render the reproduced information inaccurate or misleading.

Publication of information subsequent to the issue of Securities

The Issuer does not intend to make available any further information subsequent to any issue of Securities other than information which needs to be published in the form of a supplement in accordance with Section 16 WpPG.

ANNEX 1: PRESS RELEASE DATED 19 APRIL 2011

19th April 2011

Proposed transfers of a substantial part of the business activities of RBS N.V. to RBS plc

The Boards of The Royal Bank of Scotland Group plc (RBSG), The Royal Bank of Scotland plc (RBS plc), RBS Holdings N.V. and The Royal Bank of Scotland N.V. (RBS N.V.) have approved the proposed transfers of a substantial part of the business activities of RBS N.V. to RBS plc (the "Proposed Transfers"), subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures. This follows a period of extensive dialogue with key regulators and rating agencies. The Proposed Transfers will not include the Consortium Shared Assets referred to below.

The Proposed Transfers will streamline the manner in which the Global Banking & Markets (GBM) and Global Transaction Services (GTS) businesses of RBSG and its subsidiaries and subsidiary undertakings (the "RBS Group") interact with clients with simplified access to the GBM and GTS product suites. They will provide benefits to clients in effecting easier interaction with the RBS Group including management of collateral. Clients will continue to deal, and conduct business, with their local RBS teams as at present. There is no requirement for clients to take any action now and any action required in connection with the Proposed Transfers will be communicated in a timely way with a view to ensuring a smooth transition.

The Proposed Transfers will not result in any change to the current business strategy for any of the transferred RBS N.V. businesses and the way in which the RBS Group commercially operates will remain unchanged.

The Proposed Transfers are consistent with RBS Group's efforts to simplify its structure, thereby reducing risk, cost and complexity. In addition, the Proposed Transfers are expected to result in a simplified management and reporting framework for the RBS Group across the multiple jurisdictions in which RBS plc and RBS N.V. operate.

RBS N.V.'s businesses include the following product areas: Equities & Structured Retail Products, Emerging Markets, Lending, Global Transaction Services (GTS), and Short Term Markets & Financing (STMF). RBS N.V. also currently holds directly and indirectly certain other assets which are owned by RBSG jointly with the Dutch State and Santander (the "Consortium Shared Assets"). As at 31 December 2010, RBS N.V. had consolidated total assets of €200.4bn (£172.8bn), a Core Tier 1 Capital Ratio of 8.7% and a Tier 1 Capital Ratio of 11.0%. As at the same date, RBSG had consolidated total assets of £1.5tn, a Core Tier 1 Capital Ratio of 10.7% and a Tier 1 Capital Ratio of 12.9% and RBS plc, the receiving entity for the Proposed Transfers, had consolidated total assets of £1.3tn, a Core Tier 1 Capital Ratio of 8.4% and a Tier 1 Capital Ratio of 10.1%. The Proposed Transfers are not expected to have any impact on RBSG's capital position.

It is expected that the Proposed Transfers will be implemented on a phased basis over a period ending 31 December 2013. A large part of the Proposed Transfers (including the transfers of certain securities issued by RBS N.V.) is expected to have

taken place by the end of 2012. This will be subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures.

RBS plc and RBS N.V. have discussed the Proposed Transfers in detail with the UK Financial Services Authority and De Nederlandsche Bank (“DNB”) and they will continue to be involved as the Proposed Transfers progress through to completion. Approvals from these and other regulators will be required prior to execution. Where available and practicable, statutory transfer schemes will be used to implement the Proposed Transfers which may require court approval.

Due to legal constraints, securities and related guarantees which are governed by New York, New South Wales, New Zealand and Hong Kong law (including the three series of Trust Preferred Securities issued by RBS N.V. Capital Funding Trusts V, VI and VII) are currently not expected to be transferred to RBS plc pursuant to the statutory transfer schemes which are anticipated to be used to implement the Proposed Transfers. Alternative steps will be considered in relation to such securities and guarantees, where reasonably practicable in RBS’s opinion. In respect of securities and guarantees governed by other laws which have been issued by RBS N.V., further analysis is ongoing to establish whether they will or will not be transferred to RBS plc pursuant to the Proposed Transfers and further announcements will be made in due course. In the meantime, holders of RBS N.V. securities are not required to take any action in connection with the Proposed Transfers. The proposed transfers of securities from RBS N.V. to RBS plc are not, of themselves, expected to change the price that RBS plc, as part of its normal market making activities, may bid for such securities. However, RBS cannot guarantee the price at which such securities may trade. The market prices for such securities may be impacted by a number of factors, including the value of the assets underlying such securities and prevailing market conditions, any of which may affect the value of the securities.

For legal, tax and other reasons, there are expected to be certain operations, assets and other liabilities in RBS N.V. which will not be transferred to RBS plc. RBSG is committed to providing the necessary support to ensure that RBS N.V. continues to meet its commitments during and after the Proposed Transfers. Following completion of the Proposed Transfers, RBS N.V. will continue to be authorised and regulated by DNB.

The RBS Group has held detailed discussions on the Proposed Transfers with the three main rating agencies, Moody’s, Standard & Poor’s and Fitch. The plan for the Proposed Transfers has been designed not to impact the ratings of RBS N.V. or RBS plc. It is anticipated that the agencies will publish their credit opinions following this announcement.

Certain unaudited pro forma condensed consolidated financial information relating to RBS Holdings N.V. is set out in the Appendix to this announcement.

1 Basis of preparation

The pro forma financial information for RBS Holdings N.V. as at 31 December 2010, and for the years ended 31 December 2010, 31 December 2009 and 31 December 2008 respectively, has been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the IASB and adopted by the European Union. The financial information has been extracted from audited financial information for the year ended 31 December 2010 contained within the Annual Report and Accounts of RBS Holdings N.V. published on 29 March 2011 and does not reflect subsequent events.

The pro forma financial information has been prepared on the following basis:

- The pro forma financial information has been prepared on the basis of management's best estimate of the relevant third party assets and liabilities of RBS N.V. that will be transferred to RBS plc.
- The pro forma condensed consolidated statement of financial position of RBS Holdings N.V. as at 31 December 2010 is presented to show the effect of the Proposed Transfers as if the Proposed Transfers had occurred on 31 December 2010.
- The pro forma condensed consolidated income statements of RBS Holdings N.V. for the years ended 31 December 2010, 2009 and 2008 respectively, are presented to show the effect of the Proposed Transfers as if the Proposed Transfers had occurred on 1 January of the respective years.
- Assets and liabilities to be transferred are presented based on their carrying values determined under IFRS. The allocation of equity was assessed on a global basis to reflect the expected level of capital support required by the transferring and retained businesses. Pre-existing intra-group funding was treated as settled upon transfer with new funding allocated as needed to reflect the financing needs of the transferring and retained businesses. Certain modifications were applied where, in the opinion of management, material non-recurring profit and loss items could be allocated more reliably on an individual basis.
- The Proposed Transfers are subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures, any of which may significantly change the pro forma information from that presented.

The same accounting policies were followed in the pro forma financial information as were applied in the preparation of RBS Holdings N.V. financial statements for the year ended 31 December 2010.

Appendix

Notes to the pro forma financial information relating to RBS Holdings N.V.

2 Businesses to be transferred as part of the Proposed Transfers

RBS N.V.'s businesses include the following product areas: Equities & Structured Retail Products, Emerging Markets, Lending, Global Transaction Services (GTS), and Short Term Markets & Financing (STMF). The Proposed Transfers comprise a number of subsidiary companies and specific product portfolios together with associated hedging. RBS N.V. also currently holds directly and indirectly certain other assets which are owned by RBSG jointly with the Dutch State and Santander (the "Consortium Shared Assets"); these are part of the retained businesses.

It is expected that the Proposed Transfers will be implemented on a phased basis over a period ending 31 December 2013. A large part of the Proposed Transfers (including the transfers of certain securities issued by RBS N.V.) is expected to have taken place by the end of 2012. This will be subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures.

It is not certain whether such transfers (or any of them) will be effected at the value used for the pro forma financial information. No person should place any reliance on the pro forma financial information in connection with making an investment decision or for any other purpose and should be aware that changes to the current proposals (including, without limitation, to the assets and liabilities to be transferred or retained, the eventual manner in which such assets and liabilities are proposed to be transferred and to the timing pursuant to which they are proposed to be transferred) may be made if required, or if determined by RBS N.V. or RBS plc (in their absolute discretion) to be desirable for commercial or other reasons. Accordingly, nothing in this pro forma financial information should be taken as (or is) a representation that any of the assets and liabilities referred to will be transferred or retained, whether in a manner consistent with the figures contained in this pro forma financial information, in accordance with the timing set out above, or at all. For the avoidance of doubt, this pro forma financial information has been prepared and circulated solely for information purposes and does not constitute an offer to any person.

3 Overview of RBS Holdings N.V. after the Proposed Transfers

For legal, tax and other reasons, there are expected to be certain operations, assets and liabilities in RBS N.V. which will not be transferred to RBS plc. RBSG is committed to providing the necessary support to ensure that RBS N.V. continues to meet its commitments during and after the Proposed Transfers. Following completion of the Proposed Transfers, RBS N.V. will continue to be authorised and regulated by DNB.

Company information

Basis of presentation

On the basis of article 403 of Part 9 of Book 2 of the Netherlands Civil Code, The Royal Bank of Scotland N.V. ('RBS N.V.') is not required to publish annual financial statements. Only abbreviated financial statements need to be drawn up and approved by the company directors. The shareholder of RBS N.V. has agreed to this in a declaration of consent, dated 15 April 2011 and filed with the Chamber of Commerce in Amsterdam. Furthermore a statement of liability by the parent company (RBS Holdings N.V.) is filed with the Chamber of Commerce in Amsterdam. The assets and liabilities and the income statement of RBS N.V. are fully consolidated in the 2010 consolidated financial statements of RBS Holdings N.V., which are included in the Annual Report and Accounts 2010 dated 28 March 2011.

In the abbreviated financial statements, the terms 'company' and 'RBS N.V.' mean The Royal Bank of Scotland N.V. The term 'Group' refers to RBS Holdings and its consolidated subsidiaries. The term 'RBS Group' refers to The Royal Bank of Scotland Group plc whose shareholding in RFS Holdings B.V. ('RFS Holdings') was increased to 97.7% as at 31 December 2010. The abbreviation '€m' represents millions of euros.

Legal separation of ABN AMRO Bank N.V. occurred on 1 April 2010, with the shares in that entity being transferred by RBS Holdings N.V. to a holding company called ABN AMRO Group N.V., which is owned by the Dutch State.

Following the legal separation, RBS Holdings N.V. has one direct subsidiary, RBS N.V., a fully operational bank within the RBS Group. RBS N.V. is independently rated and regulated by the Dutch Central Bank. As announced on 1 April 2010, RBS N.V. has appointed new Supervisory and Managing Boards. As a result of legal separation RBS N.V. no longer consolidates the interests of ABN AMRO Bank N.V. and its results are classified as discontinued operations. Results for 2009 have been re-presented accordingly.

The Group is majority owned by RBS Group and therefore the presentation of the abbreviated financial statements has been aligned with that of RBS Group, the ultimate parent company. Further details of the reclassifications are provided in the 2010 consolidated financial statements of RBS Holdings N.V. included in the Annual Report and Accounts 2010 on page 102. The changes do not affect the Group's accounting policies, results, total assets or total liabilities. The presentation of comparatives has been aligned accordingly.

The income statement and balance sheet as presented on the next two pages are derived from the presentation of the RBS N.V. income statement and balance sheet on page 189 to 192 of the RBS Holdings N.V.'s Annual Report and Accounts 2010, dated 28 March 2011.

An unqualified auditor's report was provided on the 2010 consolidated financial statements of RBS Holdings N.V. included in the Annual Report and Accounts 2010 on page 199 to 200.

The consolidated financial statements of RBS Holdings N.V. for the year ended 31 December 2010 are prepared in accordance with International Financial Reporting Standards ('IFRS') as adopted by the European Union ('EU') and IFRS as issued by the International Accounting Standards Board ('IASB') which vary in certain significant respects from accounting principles generally accepted in the United States ('US'), or 'US GAAP'.

In preparing the enclosed financial information in respect of RBS N.V., the same accounting principles and methods of computation are applied as in the consolidated financial statements at 31 December 2010 and for the year then ended of RBS Holdings N.V. We refer to page 102 to 112 of the RBS Holdings N.V. Annual Report and Accounts 2010 for the description of the company's accounting policies.

Corporate Governance

The Dutch Corporate Governance Code ('Code Frijns') is formally applicable to the company. For all the relevant information, we kindly refer you to the Annual Report and Accounts 2010 of RBS Holdings N.V.

Subsequent events

RBS Holdings N.V. announced on 19 April 2011 the proposed transfers of a substantial part of the business activities of RBS N.V. to The Royal Bank of Scotland plc. For further details on this announcement please visit <http://www.investors.rbs.com>.

Auditor's report

Report on the abbreviated financial statements of The Royal Bank of Scotland N.V.

We have audited whether the accompanying abbreviated financial statements of The Royal Bank of Scotland N.V., consisting of the balance sheet as at 31 December 2009 and income statement for the year 2009 of The Royal Bank of Scotland N.V., Amsterdam, the Netherlands as included in this document on pages 5 and 6 are consistent, in all material respects, with the audited consolidated financial statements as included in the Annual Report of ABN AMRO Holding N.V. dated 26 March 2010 from which they have been derived. We expressed an unqualified opinion on these financial statements.

The abbreviated financial statements do not contain all the disclosures required by International Financial Reporting Standards as endorsed by the European Union. Reading the abbreviated financial statements, therefore, is not a substitute for reading the audited consolidated financial statements of ABN AMRO Holding N.V.

The abbreviated financial statements are prepared later than the date of the auditor's report on the consolidated financial statements of ABN AMRO Holding N.V., dated 26 March 2010. The abbreviated financial statements do not reflect the effects of events that occurred subsequent to the date of the auditor's report on the audited consolidated financial statements of ABN AMRO Holding N.V.

Management responsibility

Management is responsible for the preparation of the abbreviated financial statements in accordance with the accounting policies as applied in the 2009 consolidated financial statements of ABN AMRO Holding N.V.

Auditor's responsibility

Our responsibility is to express an opinion on these abbreviated financial statements. We conducted our audit in accordance with Dutch law and the International Standard on Auditing 810 "Engagements to report on summary financial statements". We planned and performed the audit to obtain reasonable assurance that the abbreviated financial statements have been derived consistently from the consolidated financial statements of ABN AMRO Holding N.V. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these abbreviated financial statements have been derived consistently, in all material respects, from the audited consolidated financial statements of ABN AMRO Holding N.V.

Emphasis of matter

Without impacting our opinion above, we emphasise that for a better understanding of the company's financial position and results and the scope of our audit, the abbreviated financial statements of The Royal Bank of Scotland N.V. should be read in conjunction with the unabridged consolidated financial statements of ABN AMRO Holding N.V., from which the abbreviated financial statements of The Royal Bank of Scotland N.V. were derived and our unqualified auditors' report thereon dated 26 March 2010.

ANNEX 1

19th April 2011

Proposed transfers of a substantial part of the business activities of RBS N.V. to RBS plc

The Boards of The Royal Bank of Scotland Group plc (RBSG), The Royal Bank of Scotland plc (RBS plc), RBS Holdings N.V. and The Royal Bank of Scotland N.V. (RBS N.V.) have approved the proposed transfers of a substantial part of the business activities of RBS N.V. to RBS plc (the "Proposed Transfers"), subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures. This follows a period of extensive dialogue with key regulators and rating agencies. The Proposed Transfers will not include the Consortium Shared Assets referred to below.

The Proposed Transfers will streamline the manner in which the Global Banking & Markets (GBM) and Global Transaction Services (GTS) businesses of RBSG and its subsidiaries and subsidiary undertakings (the "RBS Group") interact with clients with simplified access to the GBM and GTS product suites. They will provide benefits to clients in effecting easier interaction with the RBS Group including management of collateral. Clients will continue to deal, and conduct business, with their local RBS teams as at present. There is no requirement for clients to take any action now and any action required in connection with the Proposed Transfers will be communicated in a timely way with a view to ensuring a smooth transition.

The Proposed Transfers will not result in any change to the current business strategy for any of the transferred RBS N.V. businesses and the way in which the RBS Group commercially operates will remain unchanged.

The Proposed Transfers are consistent with RBS Group's efforts to simplify its structure, thereby reducing risk, cost and complexity. In addition, the Proposed Transfers are expected to result in a simplified management and reporting framework for the RBS Group across the multiple jurisdictions in which RBS plc and RBS N.V. operate.

RBS N.V.'s businesses include the following product areas: Equities & Structured Retail Products, Emerging Markets, Lending, Global Transaction Services (GTS), and Short Term Markets & Financing (STMF). RBS N.V. also currently holds directly and indirectly certain other assets which are owned by RBSG jointly with the Dutch State and Santander (the "Consortium Shared Assets"). As at 31 December 2010, RBS N.V. had consolidated total assets of €200.4bn (£172.8bn), a Core Tier 1 Capital Ratio of 8.7% and a Tier 1 Capital Ratio of 11.0%. As at the same date, RBSG had consolidated total assets of £1.5tn, a Core Tier 1 Capital Ratio of 10.7% and a Tier 1 Capital Ratio of 12.9% and RBS plc, the receiving entity for the Proposed Transfers, had consolidated total assets of £1.3tn, a Core Tier 1 Capital Ratio of 8.4% and a Tier 1 Capital Ratio of 10.1%. The Proposed Transfers are not expected to have any impact on RBSG's capital position.

It is expected that the Proposed Transfers will be implemented on a phased basis over a period ending 31 December 2013. A large part of the Proposed Transfers (including the transfers of certain securities issued by RBS N.V.) is expected to have

taken place by the end of 2012. This will be subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures.

RBS plc and RBS N.V. have discussed the Proposed Transfers in detail with the UK Financial Services Authority and De Nederlandsche Bank (“DNB”) and they will continue to be involved as the Proposed Transfers progress through to completion. Approvals from these and other regulators will be required prior to execution. Where available and practicable, statutory transfer schemes will be used to implement the Proposed Transfers which may require court approval.

Due to legal constraints, securities and related guarantees which are governed by New York, New South Wales, New Zealand and Hong Kong law (including the three series of Trust Preferred Securities issued by RBS N.V. Capital Funding Trusts V, VI and VII) are currently not expected to be transferred to RBS plc pursuant to the statutory transfer schemes which are anticipated to be used to implement the Proposed Transfers. Alternative steps will be considered in relation to such securities and guarantees, where reasonably practicable in RBS’s opinion. In respect of securities and guarantees governed by other laws which have been issued by RBS N.V., further analysis is ongoing to establish whether they will or will not be transferred to RBS plc pursuant to the Proposed Transfers and further announcements will be made in due course. In the meantime, holders of RBS N.V. securities are not required to take any action in connection with the Proposed Transfers. The proposed transfers of securities from RBS N.V. to RBS plc are not, of themselves, expected to change the price that RBS plc, as part of its normal market making activities, may bid for such securities. However, RBS cannot guarantee the price at which such securities may trade. The market prices for such securities may be impacted by a number of factors, including the value of the assets underlying such securities and prevailing market conditions, any of which may affect the value of the securities.

For legal, tax and other reasons, there are expected to be certain operations, assets and other liabilities in RBS N.V. which will not be transferred to RBS plc. RBSG is committed to providing the necessary support to ensure that RBS N.V. continues to meet its commitments during and after the Proposed Transfers. Following completion of the Proposed Transfers, RBS N.V. will continue to be authorised and regulated by DNB.

The RBS Group has held detailed discussions on the Proposed Transfers with the three main rating agencies, Moody’s, Standard & Poor’s and Fitch. The plan for the Proposed Transfers has been designed not to impact the ratings of RBS N.V. or RBS plc. It is anticipated that the agencies will publish their credit opinions following this announcement.

Certain unaudited pro forma condensed consolidated financial information relating to RBS Holdings N.V. is set out in the Appendix to this announcement.

Appendix

Notes to the pro forma financial information relating to RBS Holdings N.V.

1 Basis of preparation

The pro forma financial information for RBS Holdings N.V. as at 31 December 2010, and for the years ended 31 December 2010, 31 December 2009 and 31 December 2008 respectively, has been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the IASB and adopted by the European Union. The financial information has been extracted from audited financial information for the year ended 31 December 2010 contained within the Annual Report and Accounts of RBS Holdings N.V. published on 29 March 2011 and does not reflect subsequent events.

The pro forma financial information has been prepared on the following basis:

- The pro forma financial information has been prepared on the basis of management's best estimate of the relevant third party assets and liabilities of RBS N.V. that will be transferred to RBS plc.
- The pro forma condensed consolidated statement of financial position of RBS Holdings N.V. as at 31 December 2010 is presented to show the effect of the Proposed Transfers as if the Proposed Transfers had occurred on 31 December 2010.
- The pro forma condensed consolidated income statements of RBS Holdings N.V. for the years ended 31 December 2010, 2009 and 2008 respectively, are presented to show the effect of the Proposed Transfers as if the Proposed Transfers had occurred on 1 January of the respective years.
- Assets and liabilities to be transferred are presented based on their carrying values determined under IFRS. The allocation of equity was assessed on a global basis to reflect the expected level of capital support required by the transferring and retained businesses. Pre-existing intra-group funding was treated as settled upon transfer with new funding allocated as needed to reflect the financing needs of the transferring and retained businesses. Certain modifications were applied where, in the opinion of management, material non-recurring profit and loss items could be allocated more reliably on an individual basis.
- The Proposed Transfers are subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures, any of which may significantly change the pro forma information from that presented.

The same accounting policies were followed in the pro forma financial information as were applied in the preparation of RBS Holdings N.V. financial statements for the year ended 31 December 2010.

Appendix

Notes to the pro forma financial information relating to RBS Holdings N.V.

2 Businesses to be transferred as part of the Proposed Transfers

RBS N.V.'s businesses include the following product areas: Equities & Structured Retail Products, Emerging Markets, Lending, Global Transaction Services (GTS), and Short Term Markets & Financing (STMF). The Proposed Transfers comprise a number of subsidiary companies and specific product portfolios together with associated hedging. RBS N.V. also currently holds directly and indirectly certain other assets which are owned by RBSG jointly with the Dutch State and Santander (the "Consortium Shared Assets"); these are part of the retained businesses.

It is expected that the Proposed Transfers will be implemented on a phased basis over a period ending 31 December 2013. A large part of the Proposed Transfers (including the transfers of certain securities issued by RBS N.V.) is expected to have taken place by the end of 2012. This will be subject, amongst other matters, to regulatory and other approvals, further tax and other analysis in respect of the assets and liabilities to be transferred and employee consultation procedures.

It is not certain whether such transfers (or any of them) will be effected at the value used for the pro forma financial information. No person should place any reliance on the pro forma financial information in connection with making an investment decision or for any other purpose and should be aware that changes to the current proposals (including, without limitation, to the assets and liabilities to be transferred or retained, the eventual manner in which such assets and liabilities are proposed to be transferred and to the timing pursuant to which they are proposed to be transferred) may be made if required, or if determined by RBS N.V. or RBS plc (in their absolute discretion) to be desirable for commercial or other reasons. Accordingly, nothing in this pro forma financial information should be taken as (or is) a representation that any of the assets and liabilities referred to will be transferred or retained, whether in a manner consistent with the figures contained in this pro forma financial information, in accordance with the timing set out above, or at all. For the avoidance of doubt, this pro forma financial information has been prepared and circulated solely for information purposes and does not constitute an offer to any person.

3 Overview of RBS Holdings N.V. after the Proposed Transfers

For legal, tax and other reasons, there are expected to be certain operations, assets and liabilities in RBS N.V. which will not be transferred to RBS plc. RBSG is committed to providing the necessary support to ensure that RBS N.V. continues to meet its commitments during and after the Proposed Transfers. Following completion of the Proposed Transfers, RBS N.V. will continue to be authorised and regulated by DNB.

RBS Holdings and RBS N.V. form part of the RBSG Group. RBSG is the holding company of a global banking and financial services group. Headquartered in Edinburgh, the RBSG Group operates in the United Kingdom, the United States and internationally through its three principal subsidiaries, RBS, National Westminster Bank Public Limited Company ("**NatWest**") and RBS N.V. Both RBS and NatWest are major United Kingdom clearing banks. In the United States, RBS's subsidiary Citizens Financial Group, Inc. is a commercial banking organisation. Globally, the Group has a diversified customer base and provides a wide range of products and services to personal, commercial and large corporate and institutional customers.

Group Organisational Structure:

The Group comprises the following four segments:

- Global Banking & Markets ("**GBM**"): The GBM segment represents the business providing an extensive range of debt and equity financing, risk management and investment services as a banking partner to major corporations and financial institutions around the world. The GBM business within RBS Holdings is organised along four principal business lines: Global Lending, Equities, Short Term Markets & Funding and Local Markets.
- Global Transaction Services ("**GTS**"): GTS provides global transaction services, offering Global Trade Finance, Transaction Banking and International Cash Management.
- Central Items: The Central Items segment includes group and corporate functions, such as treasury, capital management and finance, risk management, legal, communications and human resources. Central Items manages the Group's capital resources, statutory and regulatory obligations and provides services to the branch network.
- Non-Core Segment: The Non-Core segment

contains a range of businesses and asset portfolios managed separately that the Group intends to run off or dispose of, in line with the RBSG Group strategy for Non-Core assets. It also includes the remaining assets and liabilities in RBS N.V. that have not yet been sold, wound down or alternatively transferred by the Consortium Members (as defined below), in which each of the Consortium Members has a joint and indirect interest.

Global Banking & Markets, Global Transaction Services and Central Items comprise the Group's Core segments.

These RBS N.V. businesses are part of global business units of the RBS Group that operate across multiple legal entities. The strategy of RBS N.V. is part of the overall business strategy of the RBSG Group. RBS Holdings has been restructured into Core and Non-Core components. The RBSG Group expects to substantially run down or dispose of the businesses, assets and portfolios within the Non-Core division by 2013 and has completed the sales of businesses in Latin America, Asia, Europe and the Middle East.

Separation from the ABN AMRO Group:

On 17 October 2007, RFS Holdings B.V. ("**RFS Holdings**"), which at the time was owned by RBSG, Fortis N.V., Fortis S.A./N.V., Fortis Bank Nederland (Holding) N.V. and Banco Santander, S.A. ("**Santander**"), completed the acquisition of ABN AMRO Holding N.V., which was renamed RBS Holdings N.V. on 1 April 2010 when the shares in ABN AMRO Bank N.V. were transferred to ABN AMRO Group N.V., a holding company for the interests of the Dutch State. This marked the substantial completion of the restructuring of the activities of ABN AMRO Holding N.V. in accordance with the agreement between RBSG, the Dutch State and Santander (the "**Consortium Members**").

On 31 December 2010, the share capital of RFS Holdings was amended, such that approximately 98 per cent. of RFS Holdings' issued share capital is now

held by RBSG, with the remainder being held by Santander and the Dutch State. Ultimately it is expected that RFS Holdings will become a wholly-owned subsidiary of RBSG.

Summary Consolidated Financial Information relating to RBS Holdings:

The following tables summarise certain financial information of RBS Holdings for its financial years ended 31 December 2010 and 31 December 2009 and have been extracted from the audited Annual Report 2010 of RBS Holdings, which were prepared in accordance with International Financial Reporting Standards as adopted by the European Union.

Legal separation of ABN AMRO Bank N.V. took place on 1 April 2010. As a result the Group no longer consolidates the interests of ABN AMRO Bank N.V. and its results are classified as discontinued operations. Results for 2009 have been re-presented accordingly. The Group is majority owned by the RBSG Group and therefore the presentation of the Group's financial statements has been aligned with that of the RBSG, the ultimate parent company of RBS Holdings. The changes do not affect the Group's accounting policies, results, total assets or total liabilities. The presentation of comparatives has been aligned accordingly.

Risk Factors:

The purpose of the risk factors description is to protect potential purchasers of the Securities from making investments that are not suitable for their purposes as well as to set out economic and legal risks associated with an investment in the Securities. Potential purchasers of the Securities should be aware of the risks associated with an investment in the Securities before making an investment decision.

Risk Factors relating to the Issuer and the Guarantor:

The Issuer is a principal operating subsidiary of RBSG and accounts for a substantial proportion of the consolidated assets, liabilities and operating profits of RBSG. Accordingly, risk factors below which relate to RBSG and the RBSG Group will also be of relevance to the Issuer and the Group:

- The Group's businesses, earnings and financial condition have been and will continue to be affected by the global economy and instability in the global financial markets.
- An extensive restructuring and balance sheet reduction programme of the RBSG Group is ongoing and may adversely affect the Group's business, results of operations, financial condition, capital ratios and liquidity.
- Lack of liquidity is a risk to the Group's business and its ability to access sources of liquidity has been, and will continue to be, constrained.
- The financial performance of the Group has been materially affected by deteriorations in borrower credit quality and it may continue to be impacted by any further deteriorations including as a result of prevailing economic and market conditions, and legal and

regulatory developments.

- The actual or perceived failure or worsening credit of the Group's counterparties has adversely affected and could continue to adversely affect the Group.
- The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions.
- Changes in interest rates, foreign exchange rates, credit spreads, bond, equity and commodity prices, basis, volatility and correlation risks and other market factors have significantly affected and will continue to affect the Group's business and results of operations.
- The Group's borrowing costs, its access to the debt capital markets and its liquidity depend significantly on its credit ratings.
- The Group's business performance could be adversely affected if its capital is not managed effectively or as a result of changes to capital adequacy and liquidity requirements.
- The value of certain financial instruments recorded at fair value is determined using financial models incorporating assumptions, judgements and estimates that may change over time or may ultimately not turn out to be accurate.
- The Group operates in markets that are highly competitive and consolidating. If the Group is unable to perform effectively, its business and results of operations will be adversely affected.
- As a condition to the RBSG Group receiving HM Treasury support, the Group is prohibited from making discretionary coupon payments on, and exercising call options in relation to, certain of its existing hybrid capital instruments, which may impair the Group's ability to raise new capital through the issuance of Securities.
- The Group could fail to attract or retain senior

management, which may include members of the Group's Supervisory Board and Managing Board, or other key employees, and it may suffer if it does not maintain good employee relations.

- Each of the Group's businesses is subject to substantial regulation and oversight. Significant regulatory developments could have an adverse effect on how the Group conducts its business and on its results of operations and financial condition.
- The Group is and may be subject to litigation and regulatory investigations that may impact its business.
- The Group may be required to make further contributions to its pension schemes if the value of pension fund assets is not sufficient to cover potential obligations.
- The Group is subject to enforcement risks relating to the United States Department of Justice's criminal investigation of its dollar clearing activities.
- The legal demerger of ABN AMRO Bank N.V. (as it was then named) has resulted in a cross liability that changes the legal recourse available to investors.
- Operational risks are inherent in the Group's operations.
- The Group is exposed to the risk of changes in tax legislation and its interpretation and to increases in the rate of corporate and other taxes in the jurisdictions in which it operates.
- The Group's operations have inherent reputational risk.
- The Group's business and earnings may be adversely affected by geopolitical conditions.
- The recoverability and regulatory capital treatment of certain deferred tax assets recognised by the Group depends on the Group's ability to generate sufficient future taxable profits and there being no adverse changes to tax legislation, regulatory requirements or

accounting standards.

- In addition to the risk factors described above, the Group is also subject to additional risks related to the entry by RBSG Group into the asset protection scheme and the two back to back contracts entered into by RBS in connection with certain assets and exposures of RBS N.V. and its wholly-owned subsidiaries.

Risikofaktoren:

Ziel der Beschreibung der Risikofaktoren ist es, potenzielle Käufer der Wertpapiere vor der Tatigung von Anlagen zu schutzen, die nicht fur ihre Zwecke geeignet sind, sowie die wirtschaftlichen und rechtlichen Risiken, die mit einer Anlage in die Wertpapiere verbunden sind, aufzuzeigen. Potenzielle Kaufer der Wertpapiere sollten vor einer Anlageentscheidung die mit einer Anlage in die Wertpapiere verbundenen Risiken bedenken.

Risikofaktoren in Bezug auf die Emittentin und die Garantin:

Die Emittentin ist eine der wichtigsten operativen Tochtergesellschaften der RBSG, auf die ein wesentlicher Teil der konsolidierten Vermogenswerte, Verbindlichkeiten und Geschaftsgewinne der RBSG entfallt. Daher sind die nachfolgenden Risikofaktoren, die sich auf die RBSG und die RBSG-Gruppe beziehen, auch fur die Emittentin und die Gruppe von Bedeutung:

- Die Geschäfts-, Ertrags- und Finanzlage der Gruppe wurde durch die Weltwirtschaft und die Instabilitat der globalen Finanzmarkte beeintrachtigt und wird hierdurch weiter beeintrachtigt werden.
- Ein umfangreiches Programm der RBSG-Gruppe zur Restrukturierung und Verkurzung der Bilanz dauert an und kann den Geschaftsbetrieb der Gruppe, die Betriebsergebnisse, die Finanzlage, die Eigenkapitalquoten und die Liquiditat beeintrachtigen.
- Ein Risiko des Geschäfts der Gruppe liegt im Fehlen von Liquiditat, und der Zugang der Gruppe zu Liquiditat ist eingeschrankt und wird eingeschrankt bleiben.
- Die finanzielle Entwicklung der Gruppe wurde durch die Verschlechterung der Kreditqualitat von Schuldern erheblich beeintrachtigt und kann durch weitere Verschlechterungen noch weitergehend beeinflusst werden, u.a. durch die vorherrschenden Wirtschafts- und Marktverhaltnisse sowie rechtliche und regulatorische Entwicklungen.
- Die tatsachliche oder vermutete Verschlechterung

der Bonität der Geschäftspartner der Gruppe hat die Gruppe beeinträchtigt und wird sie weiter beeinträchtigen.

- Die Ertrags- und Finanzlage der Gruppe wurde durch die sich aus dem schwachen Marktumfeld ergebende niedrige Vermögensbewertung erheblich beeinträchtigt und kann dadurch weiter erheblich beeinträchtigt werden.
- Änderungen der Zinssätze, Wechselkurse, Credit Spreads, Anleihe-, Aktien- und Rohstoffpreise, Basis-, Volatilitäts- und Korrelationsrisiken sowie anderer Marktfaktoren haben das Geschäft sowie das Betriebsergebnis der Gruppe wesentlich beeinträchtigt und werden sie weiter beeinträchtigen.
- Die Fremdfinanzierungskosten der Gruppe, ihr Zugang zu den Anleihekapitalmärkten sowie ihre Liquidität hängen entscheidend von dem Kreditrating der Gruppe ab.
- Die Geschäftsentwicklung der Gruppe kann beeinträchtigt werden, wenn ihr Kapital nicht effizient verwaltet wird oder wenn Kapitaladäquanz- und Liquiditätsanforderungen geändert werden.
- Bestimmte Finanzinstrumente werden zum Marktwert angesetzt, der mithilfe von Finanzmodellen ermittelt wird, die Annahmen, Beurteilungen und Schätzungen beinhalten, die sich im Verlauf der Zeit ändern können oder die sich als nicht richtig herausstellen.
- Die Gruppe ist in sehr kompetitiven und sich verdichtenden Märkten tätig. Wenn die Gruppe sich nicht erfolgreich entwickelt, werden ihr Geschäft und ihr Betriebsergebnis beeinträchtigt.
- Um die Unterstützung des britischen Schatzamts (*HM Treasury*) für die RBSG-Gruppe zu erhalten, ist es der Gruppe untersagt, in ihrem Ermessen stehende Zahlungen auf Coupons zu leisten und Ankaufsoptionen in Bezug auf bestimmte bestehende hybride Kapitalinstrumente der Gruppe auszuüben.

Dies kann die Fähigkeit der Gruppe zur Gewinnung neuen Kapitals im Wege der Ausgabe von Wertpapieren beeinträchtigen.

- Es ist möglich, dass es der Gruppe nicht gelingt, Führungskräfte (einschließlich der Mitglieder des Aufsichtsrates und des Vorstandes der Gruppe und anderen Mitarbeitern in Schlüsselpositionen) zu gewinnen oder zu halten, und sie könnte Schaden erleiden, wenn sie kein gutes Verhältnis zu ihren Arbeitnehmern unterhält.
- Alle Geschäftsbereiche der Gruppe sind weitgehend reguliert und beaufsichtigt. Wesentliche aufsichtsrechtliche Veränderungen könnten sich nachteilig auf die Geschäftstätigkeit sowie das Betriebsergebnis und die Finanzlage der Gruppe auswirken.
- Die Gruppe ist Rechtsstreitigkeiten und aufsichtsrechtlichen Untersuchungen ausgesetzt und kann dies auch in Zukunft sein, was zu Geschäftsbeeinträchtigungen führen kann.
- Es kann sein, dass die Gruppe weitere Beiträge für ihr Pensionssystem aufbringen muss, wenn der Wert der Vermögenswerte in Pensionsfonds nicht ausreichend ist, um potenzielle Verbindlichkeiten zu decken.
- Die Gruppe unterliegt Risiken hinsichtlich der strafrechtlichen Ermittlungen durch das *United States Department of Justice* (Justizministerium der Vereinigten Staaten) im Hinblick auf Ihre Dollar-Clearing-Aktivitäten.
- Die rechtliche Abspaltung der ABN AMRO Bank N.V. (damaliger Firmenname) hat wechselseitige Haftungsverhältnisse zur Folge, die die rechtlichen Rückgriffsmöglichkeiten für Anleger verändern.
- Das Geschäft der Gruppe birgt betriebsbedingte Risiken.
- Die Gruppe ist dem Risiko ausgesetzt, dass sich

die Steuergesetzgebung und ihre Auslegung ändern und dass sich die Körperschaftsteuer- und andere Steuersätze in den Jurisdiktionen erhöhen, in denen sie tätig ist.

- Die Geschäftstätigkeit der Gruppe unterliegt damit verbundenen Reputationsrisiken.
- Das Geschäft der Gruppe sowie ihre Erträge können durch geopolitische Bedingungen beeinträchtigt werden.
- Die Werthaltigkeit und die aufsichtsrechtliche Eigenkapitalbehandlung bestimmter von der Gruppe berücksichtigter latenter Steueransprüche hängt von der Fähigkeit der Gruppe ab, ausreichende zukünftige steuerpflichtige Gewinne zu erzielen und davon, dass sich Steuergesetzgebung, aufsichtsrechtliche Anforderungen und Bilanzierungsgrundsätze nicht in nachteiliger Weise ändern.

Issuer: The Royal Bank of Scotland N.V. acting either through its principal office in The Netherlands or through its London branch or any other branch as specified in the Final Terms (as defined below) (the "**Issuer**" or "**RBS N.V.**")

Guarantor: RBS Holdings N.V. (previously named ABN AMRO Holding N.V.) (the "**Guarantor**" or "**RBS Holdings**")

Description of the Guarantee: On 15 June 1998, the Guarantor declared pursuant to article 403 paragraph 1, subsection f of Book 2 of the Netherlands Civil Code to be jointly and severally liable for all debts resulting from legal acts performed by the Issuer after 15 June 1998 (the "**Guarantee**").

General Information about the Issuer, RBS Holdings and the Group: Both RBS Holdings and the Issuer are public limited liability companies incorporated under Dutch law on 30 May 1990 and 7 February 1825 respectively. RBS Holdings is registered with the Trade Register in Amsterdam under no. 33220369. The Issuer is registered with the Trade Register in Amsterdam under no. 33002587. RBS Holdings and the Issuer have their registered offices in Amsterdam, The Netherlands and their office address is Gustav Mahlerlaan 10, 1082 PP Amsterdam. The mailing address of both in the Netherlands is Post Office Box 12925, 1100 AX Amsterdam.

The Issuer is the result of the merger of Algemeen Bank Nederland N.V. and Amsterdam-Rotterdam Bank N.V. in 1990. Prior to the merger, these banks were respectively, the largest and second-largest bank in the Netherlands. The Issuer traces its origin to the formation of the Nederlandsche Handel-Maatschappij, N.V. in 1825, pursuant to a Dutch Royal Decree of 1824.

The group consisting of RBS Holdings and its consolidated subsidiaries (including the Issuer) (the "**Group**") is an international banking group offering a wide range of banking products and financial services

on a global basis.

Overview:

The Issuer is a bank licensed by the Dutch Central Bank (*De Nederlandsche Bank*).

The Issuer operates across Europe, Middle East and Africa (EMEA), the Americas and Asia. As at 31 December 2009, the businesses within RBS N.V. which were acquired by The Royal Bank of Scotland Group plc ("**RBSG**") reported total consolidated assets of EUR 275 billion and had more than 27,000 full time staff through a network of 264 offices and branches.

Headquartered in Edinburgh, RBSG operates in the United Kingdom, the United States and internationally through its two principal subsidiaries, The Royal Bank of Scotland plc ("**RBS**") and National Westminster Bank Plc ("**Natwest**"). Both RBS and Natwest are major United Kingdom clearing banks whose origins go back over 275 years. In the United States, RBS's subsidiary Citizens Financial Group, Inc. is a large commercial banking organization. RBSG has a large and diversified customer base and provides a wide range of products and services to personal, commercial and large corporate and institutional customers.

Organisational Structure:

RBS N.V. comprises the following core businesses:

- Global Banking & Markets: Global Lending, Equities, Short Term Markets & Funding, and Local Markets;
- Global Transaction Services: Global Trade Finance, Transaction Banking and International Cash Management;
- Risk & Restructuring: The Non-Core Division in Risk & Restructuring contains assets that are no longer core to RBSG's strategic objectives and include Trading, Wholesale Banking and Retail & Commercial Business Units, as well as selected network countries. The assets will reduce over time through wind-down, sale or transfer.

These RBS N.V. businesses are part of global business units in RBSG that operate across multiple legal entities. The strategy of RBS N.V. is part of the overall businesses' strategies of RBSG.

Separation of the group:

RBS Holdings owns 100% of the shares of the Issuer.

The shares in RBS Holdings are held by RFS Holdings B.V. ("**RFS Holdings**").

RFS Holdings is a company whose shares were held by a consortium consisting of RBSG, Fortis N.V. and Fortis SA/NV (which held its share in RFS Holdings indirectly through Fortis Bank Nederland (Holding) N.V.) and Banco Santander S.A. (the "**Consortium**") until 24 December 2008. On this date, the State of the Netherlands (the "**Dutch State**") acquired the share in RFS Holdings held by Fortis Bank Nederland (Holding) N.V. and thus became a direct shareholder in RFS Holdings. RFS Holdings is controlled by RBSG, which is incorporated in the United Kingdom and registered at 36 St Andrew Square, Edinburgh, Scotland. RBSG is the ultimate parent company of the Issuer.

On 30 September 2009, ABN AMRO Holding N.V. (renamed RBS Holdings N.V.) announced that a two-step approach would be taken to effect the legal separation of the assets and liabilities acquired by the Dutch State.

The first step of this two-step approach was completed as follows:

Step 1 – "Legal Demerger": The majority of the Dutch State acquired businesses was transferred from ABN AMRO Bank N.V. (the "**Demerging Company**") to a new legal entity, ABN AMRO II N.V. (the "**Acquiring Company**"). Furthermore, the Demerging Company was renamed The Royal Bank of Scotland N.V. and the Acquiring Company, comprising the Dutch State acquired businesses, was renamed ABN AMRO Bank N.V.

The Legal Demerger and the consequent name changes were completed on 6 February 2010.

The second step of the two-step approach was completed as follows:

Step 2 – "Legal Separation": Transfer of the shares of the Acquiring Company (renamed ABN AMRO Bank N.V.) from ABN AMRO Holding N.V. to a new holding company fully owned by the Dutch State and independent of ABN AMRO Holding N.V. Following the transfer of the shares in ABN AMRO Bank N.V. to a new holding company, ABN AMRO Holding N.V. was renamed RBS Holdings N.V.

The Legal Separation and the consequent name change were completed on 1 April 2010.

Following Legal Separation, the Issuer's activities will continue to be subject to the Dutch Central Bank's (*De Nederlandsche Bank*) and the Dutch Authority for the Financial Markets' (*Autoriteit Financiële Markten*) supervision and on a consolidated basis as part of RBSG and its consolidated subsidiaries be subject to UK Financial Services Authority supervision. Due to the change in the operating model of RBS N.V. compared to pre-acquisition ABN AMRO Bank N.V. a licence renewal was granted by the Dutch Central Bank on 3 February 2010.

Results of operations in 2009:

ABN AMRO Holding N.V. (renamed RBS Holdings N.V.) and its consolidated subsidiaries ("**ABN AMRO**") recorded a loss for 2009 of EUR 4,400 million comprising a loss after tax of EUR 4,499 million from continuing operations, partly offset by a gain after tax from discontinued operations of EUR 99 million. The loss for 2009 comprises a loss of EUR 4,168 million attributable to the RBSG acquired businesses, a loss of EUR 117 million attributable to the Dutch State acquired businesses and a loss of EUR 214 million attributable to Central Items. "**Central Items**" includes head office functions and other items centrally managed which are not allocated to individual

members of the Consortium.

ABN AMRO's total assets were EUR 469 billion at 31 December 2009, a decrease of EUR 197 billion, or 30%, when compared with EUR 667 billion at 31 December 2008. This decrease was primarily related to the continued transfer and sale of businesses and portfolios to RBSG.

ABN AMRO exceeded the minimum tier 1 and total capital ratios of 9% and 12.5% respectively (under Basel I as set by the Dutch Central Bank during the transition period of ABN AMRO). The tier 1 ratio at the end of 2009 was 19.9% and the total capital ratio amounted to 25.5%. In 2009, ABN AMRO and its shareholder, RFS Holdings, through which the members of the Consortium participate in ABN AMRO Holding N.V. (renamed RBS Holdings N.V.), took several capital actions, which were part of an agreed plan for the separation of the businesses, to ensure that at legal separation each individual bank was adequately capitalised.

**Unaudited interim results for the
half year ended 30 June 2010:**

RBS Holdings reported a total income of EUR 1,598 million for the half year ended 30 June 2010 compared to a loss of EUR 153 million for the same period in 2009. The continuing operations recorded a loss of EUR 541 million while the discontinued operations recorded a EUR 950 million profit after tax compared with a EUR 2,823 million loss from continuing operations and a EUR 176 million profit after tax from discontinued operations respectively for the prior year period. The results from discontinued operations are mainly attributable to the gain on the sale by RBS Holdings on 1 April 2010, of Dutch State acquired businesses included in the new ABN AMRO Bank N.V.

RBS Holdings total assets amounted to EUR 241.4 billion as at 30 June 2010, a decrease of EUR 227.9 billion since December 2009.

Rating of the Issuer:

As of 13 December 2010, the credit ratings of the Issuer are as follows:

	Long term	Short term	Outlook
Moody's Investors Service	A2	P-1	Stable
Standard & Poor's	A+	A-1	Stable
Fitch Ratings	AA-	F1+	Stable

- ***Moody's Investors Service definitions***

Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging from "Aaa" (describing obligations judged to be of the highest quality, with minimal credit risk), "Aa", "A", "Baa", "Ba", "B", "Caa" and "Ca" to "C", the lowest category representing long-term obligations that are typically in default, with little prospect for recovery of principal or interest. In addition, Moody's Investors Service appends numerical modifiers ("1", "2", and "3") to each generic rating classification from "Aa" through "Caa". The modifier "1" indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier "2" indicates a mid-range ranking, and the modifier "3" indicates a ranking in the lower end of that generic rating category.

Issuers rated "P-1" have a superior ability to repay short-term debt obligations.

The rating system used by Moody's Investors Service for short-term obligations has various subcategories ranging from "P-1", "P-2" and "P-3" to "NP", the lowest category representing issuers that do not fall within any of the "Prime" rating categories.

A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: "Positive", "Negative", "Stable", and "Developing" (contingent upon an event).

- ***Standard and Poor's definitions***

An obligor rated "A" by Standard & Poor's has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor's for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB"; "BB"; "B", "CCC", "CC", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus ("+") or minus ("-") signs following ratings from the "AA" to "CCC" categories show the relative standing within the major rating categories.

An obligor rated "A-1" by Standard & Poor's has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor's.

The rating system used by Standard & Poor's for short-term issuer credit ratings has various subcategories ranging from "A-1" (which is the highest quality rating), "A-2", "A-3", "B" "C", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

"Stable" means that a rating is not likely to change.

- ***Fitch Ratings definitions***

"AA" ratings of an issuer denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C", "RD" to "D", the lowest category indicating that the issuer in Fitch Ratings' opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers "+" or "-" may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the "AAA" rating category or to the categories below "B".

An "F1" rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments. It may have an added "+" to denote any exceptionally strong credit feature.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from "F1" (which is the highest quality rating), "F2", "F3", "B", "C" and "RD" to "D", the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody's Investors Service (www.moody.com), Standard & Poor's (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively.

Aufteilung der Gruppe:

Die RBS Holdings hält 100% der Anteile an der Emittentin.

Die Anteile an der RBS Holdings werden von der RFS Holdings B.V. („**RFS Holdings**“) gehalten.

RFS Holdings ist eine Gesellschaft, deren Anteile bis zum 24. Dezember 2008 von einem Konsortium bestehend aus RBSG, Fortis N.V. und Fortis SA/NV (die ihren Anteil an RFS Holdings wiederum indirekt durch die Fortis Bank Nederland (Holding) N.V. hielten) und Banco Santander S.A. (das „**Konsortium**“) gehalten wurden. Am 24. Dezember 2008 erwarb der niederländische Staat (der „**Niederländische Staat**“) den von der Fortis Bank Nederland (Holding) N.V. gehaltenen Anteil an RFS Holdings und wurde dadurch unmittelbarer Anteilsinhaber von RFS Holdings. RFS Holdings wird durch RBSG beherrscht, die im Vereinigten Königreich errichtet und mit Geschäftssitz in 36 St Andrew Square, Edinburgh, Schottland, eingetragen ist. RBSG ist die oberste Muttergesellschaft der Emittentin.

Am 30. September 2009 teilte die ABN AMRO Holding N.V. (in RBS Holdings N.V. umbenannt) mit, dass sie in einem zweistufigen Verfahren vorgehen würde, um die rechtliche Aufteilung der vom Niederländischen Staat erworbenen Vermögenswerte und Verbindlichkeiten zu vollziehen.

Die erste Stufe dieses zweistufigen Verfahrens wurde wie folgt vollzogen:

Stufe 1 – „Rechtliche Abspaltung“: Die Mehrheit der vom Niederländischen Staat erworbenen Geschäftsbereiche wurde von der ABN AMRO Bank N.V. (die „**Abspaltende Gesellschaft**“) auf einen neuen Rechtsträger, die ABN AMRO II N.V. (die „**Erwerbende Gesellschaft**“), übertragen. Des Weiteren wurden die Abspaltende Gesellschaft in The Royal Bank of Scotland N.V. und die Erwerbende Gesellschaft, die die vom Niederländischen Staat erworbenen Geschäftsbereiche umfasst, in ABN AMRO Bank N.V. umbenannt.

Die Rechtliche Abspaltung und die folgenden Namensänderungen wurden am 6. Februar 2010 vollzogen.

Die zweite Stufe des zweistufigen Verfahrens wurde wie folgt vollzogen:

Stufe 2 – „Rechtliche Aufteilung“: Übertragung der Aktien an der Erwerbenden Gesellschaft (der umbenannten ABN

AMRO Bank N.V.) von der ABN AMRO Holding N.V. auf eine neue Holdinggesellschaft, die vollständig im Eigentum des Niederländischen Staates steht und von ABN AMRO Holding N.V. unabhängig ist. Nach der Übertragung der Aktien an der ABN AMRO Bank N.V. auf eine neue Holdinggesellschaft wurde ABN AMRO Holding N.V. in RBS Holdings N.V. umbenannt.

Die Rechtliche Aufteilung und die folgende Namensänderung wurden am 1. April 2010 vollzogen.

Nach der Rechtlichen Aufteilung werden die Aktivitäten der Emittentin weiterhin Gegenstand der Aufsicht durch die Niederländische Zentralbank (*De Nederlandsche Bank*) und die Niederländische Finanzmarktbehörde (*Autoriteit Financiële Markten*) sein und auf konsolidierter Grundlage als Bestandteil der RBSG sowie ihrer konsolidierten Tochtergesellschaften unter der Aufsicht der britischen Finanzaufsichtsbehörde (Financial Services Authority) stehen. Wegen der Änderung des Geschäftsmodells der RBS N.V. im Vergleich zur ABN AMRO Bank N.V. vor der Übernahme wurde von der Niederländischen Zentralbank am 3. Februar 2010 eine Lizenzerneuerung erteilt.

**Geschäftszahlen für das
Jahr 2009:**

Die ABN AMRO Holding N.V. (in RBS Holdings N.V. umbenannt) und ihre konsolidierten Tochtergesellschaften („**ABN AMRO**“) verzeichneten für 2009 einen Verlust in Höhe von EUR 4.400 Mio. Darin enthalten ist ein Verlust nach Steuern in Höhe von EUR 4.499 Mio. aus fortgeführten Geschäftsaktivitäten, dem teilweise ein Ertrag nach Steuern aus eingestellten Geschäftsaktivitäten in Höhe von EUR 99 Mio. gegenübersteht. Der Verlust für 2009 besteht aus einem auf die von der RBSG erworbenen Geschäftsbereiche entfallenden Verlust in Höhe von EUR 4.168 Mio., einem auf die von dem Niederländischen Staat erworbenen Geschäftsbereiche entfallenden Verlust in Höhe von EUR 117 Mio. und einem auf das Segment *Central Items* (Zentrale Funktionen) entfallenden Verlust in Höhe von EUR 214 Mio. Das Segment „**Central Items**“ (Zentrale Funktionen) umfasst Hauptverwaltungsaufgaben und weitere zentral verwaltete Aufgaben, die nicht einzelnen Mitgliedern des Konsortiums zugewiesen sind.

Die Gesamtvermögenswerte der ABN AMRO betragen EUR 469 Mrd. zum 31. Dezember 2009, was eine Reduzierung in Höhe von EUR 197 Mrd. oder 30% verglichen mit EUR 667 Mrd. zum 31. Dezember 2008 darstellt. Diese Reduzierung folgte hauptsächlich aus der fortlaufenden Übertragung und dem fortlaufenden Verkauf der Geschäftsbereiche und Portfolien an die RBSG.

Die ABN AMRO überschritt die Mindestkernkapitalquote (Tier 1) und die Gesamtkapitalquote von 9% bzw. 12,5% (unter Basel I, wie von der Niederländischen Zentralbank während des Übergangszeitraums der ABN AMRO festgelegt). Die Kernkapitalquote (Tier 1) zum Ende des Jahres 2009 betrug 19,9% und die Gesamtkapitalquote belief sich auf 25,5%. ABN AMRO und ihre Aktionärin, RFS Holdings, über die die Mitglieder des Konsortiums an der ABN AMRO Holding N.V. (in RBS Holdings N.V. umbenannt) beteiligt sind, führten 2009 im Rahmen eines vereinbarten Plans zur Aufteilung der Geschäftsbereiche verschiedene Kapitalmaßnahmen durch, um sicherzustellen, dass bei der rechtlichen Aufteilung jede einzelne Bank angemessen kapitalisiert war.

**Ungeprüfte
Zwischenergebnisse für das
Halbjahr endend am 30. Juni
2010:**

Die RBS Holdings verzeichnete für das Halbjahr, das am 30. Juni 2010 endete, einen Gesamtertrag (*total income*) in Höhe von EUR 1.598 Mio., verglichen mit einem Verlust in Höhe von EUR 153 Mio. für den gleichen Zeitraum im Jahr 2009. Die fortgeführten Geschäftsaktivitäten verzeichneten einen Verlust in Höhe von EUR 541 Mio., während die eingestellten Geschäftsaktivitäten einen Gewinn nach Steuern in Höhe von EUR 950 Mio. verzeichneten, verglichen mit einem Verlust aus fortgeführten Geschäftsaktivitäten in Höhe von EUR 2.823 Mio. bzw. einem Gewinn nach Steuern aus eingestellten Geschäftsaktivitäten in Höhe von EUR 176 Mio. für den Vorjahreszeitraum. Die Ergebnisse aus eingestellten Geschäftsaktivitäten sind hauptsächlich auf den Gewinn zurückzuführen, der bei der am 1. April 2010 vollzogenen Veräußerung der von dem Niederländischen Staat erworbenen und in die neue ABN AMRO Bank N.V. einbezogenen Geschäftsbereiche entstanden ist.

Die Gesamtvermögenswerte der RBS Holdings beliefen sich zum 30. Juni 2010 auf EUR 241,4 Mrd., eine Reduzierung um EUR 227,9 Mrd. seit Dezember 2009.

Rating der Emittentin:

Zum 13. Dezember 2010 lauten die Kreditratings der Emittentin wie folgt:

	Langfristig	Kurzfristig	Ausblick
Moody's Investors Service	A2	P-1	Stabil
Standard & Poor's	A+	A-1	Stabil
Fitch Ratings	AA-	F1+	Stabil

• **Moody's Investors Service Definitionen**

Verbindlichkeiten, die mit „A“ eingestuft sind, werden als Verbindlichkeiten der „oberen Mittelklasse“ zugerechnet und bergen ein geringes Kreditrisiko.

Die von Moody's Investors Service verwendete Rating-Skala für langfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „Aaa“, die die Kategorie höchster Qualität mit einem minimalen Kreditrisiko bezeichnet, über die Kategorien „Aa“, „A“, „Baa“, „Ba“, „B“, „Caa“, „Ca“, bis zur niedrigsten Kategorie „C“, die langfristige Verbindlichkeiten bezeichnet, bei denen ein Zahlungsausfall in der Regel bereits eingetreten ist und eine geringe Aussicht auf Rückzahlung von Kapital und Zinsen besteht. Moody's Investors Service verwendet innerhalb der Kategorien „Aa“ bis „Caa“ zusätzlich numerische Unterteilungen („1“, „2“ oder „3“). Der Zusatz „1“ weist darauf hin, dass die jeweilige langfristige Verbindlichkeit zum oberen Drittel der jeweiligen Rating-Kategorie gehört, während der Zusatz „2“ auf eine Klassifizierung im mittleren Drittel und der Zusatz „3“ auf eine solche im unteren Drittel hinweist.

Emittenten mit der Einstufung „P-1“ verfügen in herausragender Weise über die Fähigkeit, ihre kurzfristigen

Schuldverschreibungen zurückzuzahlen.

Die von Moody's Investors Service verwendete Rating-Skala für die Fähigkeit eines Emittenten zur Erfüllung seiner kurzfristigen Finanzverbindlichkeiten hat verschiedene Kategorien und reicht von „P-1“ über die Kategorien „P-2“ und „P-3“ bis zur niedrigsten Kategorie „NP“, die verdeutlicht, dass ein Emittent zu keiner der „Prime“-Rating-Kategorien gehört.

Ein Rating-Ausblick ist eine Meinung über die Richtung, in die sich ein Rating mittelfristig voraussichtlich entwickeln wird. Die Ausblicke werden in die folgenden vier Kategorien unterteilt: „positiv“, „negativ“, „stabil“ und „noch unbestimmt“ (d. h. ereignisabhängig).

- **Standard and Poor's Definitionen**

Die Fähigkeit eines Schuldners mit einem Standard & Poor's-Rating von „A“, seine finanziellen Verpflichtungen zu erfüllen, ist stark, aber etwas anfälliger gegenüber nachteiligen Auswirkungen von Veränderungen äußerer Umstände und wirtschaftlicher Bedingungen als bei Schuldnern, die in einer höheren Rating-Kategorie eingestuft sind.

Die von Standard & Poor's verwendete Rating-Skala für die langfristige Fähigkeit eines Schuldners zur Erfüllung seiner Verbindlichkeiten hat verschiedene Rating-Kategorien und reicht von „AAA“, die die Kategorie höchster Bonität bezeichnet, über die Kategorien „AA“, „A“, „BBB“, „BB“, „B“, „CCC“, „CC“, „R“ und „SD“ bis zur niedrigsten Kategorie „D“, die kennzeichnet, dass Standard & Poor's davon ausgeht, dass der Zahlungsausfall einen allgemeinen Ausfall darstellen wird und Zahlungsausfälle bei allen oder nahezu allen fälligen Verpflichtungen des Schuldners eintreten werden. Den Kategorien „AA“ bis „CCC“ kann jeweils ein Pluszeichen („+“) oder Minuszeichen („-“) hinzugefügt werden, um die relative Stellung innerhalb der Haupt-Rating-Kategorien zu verdeutlichen.

Die kurzfristige Fähigkeit eines Schuldners zur Erfüllung seiner finanziellen Verpflichtungen mit einem „A-1“-Rating ist stark. Er ist mit der höchsten Rating-Kategorie von

Standard & Poor's bewertet.

Die von Standard & Poor's verwendete Rating-Skala für die kurzfristige Fähigkeit eines Schuldners zur Erfüllung seiner Verbindlichkeiten hat verschiedene Rating-Kategorien und reicht von „A-1“, welche die Kategorie höchsten Bonität bezeichnet, über die Kategorien „A-2“, „A-3“, „B“, „C“, „R“ und „SD“ bis zur niedrigsten Kategorie „D“, die kennzeichnet, dass Standard & Poor's davon ausgeht, dass der Zahlungsausfall einen allgemeinen Ausfall darstellen wird und Zahlungsausfälle bei allen oder nahezu allen fälligen Verpflichtungen des Schuldners eintreten werden.

„Stabil“ bedeutet, dass sich die Bonitätseinstufung voraussichtlich nicht ändern wird.

- ***Fitch Ratings Definitionen***

Ein „AA“-Rating eines Emittenten steht für ein sehr gering eingeschätztes Kreditrisiko. Es bezeichnet eine sehr gute Fähigkeit zur fristgerechten Zahlung der Verbindlichkeiten. Diese Fähigkeit ist durch vorhersehbare Ereignisse nicht wesentlich gefährdet.

Die von Fitch Ratings verwendete Rating-Skala für langfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „AAA“, die für die höchste Kreditqualität steht, über die Kategorien „AA“, „A“, „BBB“, „BB“, „B“, „CCC“, „CC“, „C“, „RD“ bis zur niedrigsten Kategorie „D“, die nach Fitch Ratings' Einschätzung kennzeichnet, dass ein Emittent sich in einem Insolvenzverfahren, unter Zwangsverwaltung, in einem Vergleichsverfahren, in Auflösung oder einem anderen formellen Verfahren zur Abwicklung befindet oder in sonstiger Weise seine Geschäftstätigkeit eingestellt hat. Den Kategorien kann jeweils ein Plus- („+“) oder Minuszeichen („-“) beigefügt werden, um eine relative Einordnung innerhalb der Haupt-Rating-Kategorien auszudrücken. Solche Zusätze werden nicht der Rating-Kategorie „AAA“ oder den Rating-Kategorien unter „B“ beigefügt.

Ein „F1“-Rating bezeichnet die beste Fähigkeit für eine fristgerechte Zahlung der kurzfristigen Verbindlichkeiten. Soweit ein Pluszeichen („+“) hinzugefügt wird, hebt dies die

außergewöhnlich gute Bonität hervor.

Die von Fitch Ratings verwendete Rating-Skala für kurzfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „F1“, die für die höchste Kreditqualität steht, über die Kategorien „F2“, „F3“, „B“, „C“ und „RD“ bis zur niedrigsten Kategorie „D“, die einen weitgehenden Zahlungsausfall eines Schuldners kennzeichnet.

Die oben aufgeführten Rating-Definitionen stammen in englischer Sprache von der jeweiligen Internetseite von Moody's Investors Service (www.moody.com), Standard & Poor's (www.standardandpoors.com) bzw. Fitch Ratings (www.fitchratings.com).

General Information about the Issuer, RBS Holdings and the Group:

Both RBS Holdings and the Issuer are public limited liability companies incorporated under Dutch law on 30 May 1990 and 7 February 1825 respectively. RBS Holdings is registered with the Trade Register in Amsterdam under no. 33220369. The Issuer is registered with the Trade Register in Amsterdam under no. 33002587. The mailing address of both in the Netherlands is Post Office Box 12925, 1100 AX Amsterdam.

The Issuer is the result of the merger of Algemeen Bank Nederland N.V. and Amsterdam-Rotterdam Bank N.V. in 1990. Prior to the merger, these banks were respectively, the largest and second-largest bank in the Netherlands. The Issuer traces its origin to the formation of the Nederlandsche Handel-Maatschappij, N.V. in 1825, pursuant to a Dutch Royal Decree of 1824.

The group consisting of RBS Holdings and its consolidated subsidiaries (including the Issuer) (the “**Group**”) is an international banking group offering a wide range of banking products and financial services on a global basis.

Overview:

The Issuer is a bank licensed by the Dutch Central Bank (*De Nederlandsche Bank*).

The Issuer operates across Europe, Middle East and Africa (EMEA), the Americas and Asia. As at 31 December 2009, the businesses within RBS N.V. which were acquired by The Royal Bank of Scotland Group plc (“**RBSG**”) reported total consolidated assets of EUR 275 billion and had more than 27,000 full time staff through a network of 264 offices and branches.

Headquartered in Edinburgh, RBSG operates in the United Kingdom, the United States and internationally through its two principal subsidiaries, The Royal Bank of Scotland plc (“**RBS**”) and National Westminster Bank Plc (“**Natwest**”). Both RBS and Natwest are major United Kingdom clearing banks whose origins go back over 275 years. In the United States, RBS's subsidiary Citizens Financial Group, Inc. is a large commercial banking organization. RBSG has a large and diversified customer base and provides a wide range of products and services to personal,

commercial and large corporate and institutional customers.

Organisational Structure:

RBS N.V. comprises the following core businesses:

- Global Banking & Markets: Global Lending, Equities, Short Term Markets & Funding, and Local Markets;
- Global Transaction Services: Global Trade Finance, Transaction Banking and International Cash Management;
- Risk & Restructuring: The Non-Core Division in Risk & Restructuring contains assets that are no longer core to RBSG's strategic objectives and include Trading, Wholesale Banking and Retail & Commercial Business Units, as well as selected network countries. The assets will reduce over time through wind-down, sale or transfer.

These RBS N.V. businesses are part of global business units in RBSG that operate across multiple legal entities. The strategy of RBS N.V. is part of the overall businesses' strategies of RBSG.

Separation of the group:

RBS Holdings owns 100% of the shares of the Issuer.

The shares in RBS Holdings are held by RFS Holdings B.V. ("**RFS Holdings**").

RFS Holdings is a company whose shares were held by a consortium consisting of RBSG, Fortis N.V. and Fortis SA/NV (which held its share in RFS Holdings indirectly through Fortis Bank Nederland (Holding) N.V.) and Banco Santander S.A. (the "**Consortium**") until 24 December 2008. On this date, the State of the Netherlands (the "**Dutch State**") acquired the share in RFS Holdings held by Fortis Bank Nederland (Holding) N.V. and thus became a direct shareholder in RFS Holdings. RFS Holdings is controlled by RBSG, which is incorporated in the United Kingdom and registered at 36 St Andrew Square, Edinburgh, Scotland. RBSG is the ultimate parent company of the Issuer.

On 30 September 2009, ABN AMRO Holding N.V. (renamed RBS Holdings N.V.) announced that a two-step approach would be taken to effect the legal separation of the assets and liabilities acquired by the Dutch State.

The first step of this two-step approach was completed as follows:

Step 1 – “Legal Demerger”: The majority of the Dutch State acquired businesses was transferred from ABN AMRO Bank N.V. (the “**Demerging Company**”) to a new legal entity, ABN AMRO II N.V. (the “**Acquiring Company**”). Furthermore, the Demerging Company was renamed The Royal Bank of Scotland N.V. and the Acquiring Company, comprising the Dutch State acquired businesses, was renamed ABN AMRO Bank N.V.

The Legal Demerger and the consequent name changes were completed on 6 February 2010.

The second step of the two-step approach was completed as follows:

Step 2 – “Legal Separation”: Transfer of the shares of the Acquiring Company (renamed ABN AMRO Bank N.V.) from ABN AMRO Holding N.V. to a new holding company fully owned by the Dutch State and independent of ABN AMRO Holding N.V. Following the transfer of the shares in ABN AMRO Bank N.V. to a new holding company, ABN AMRO Holding N.V. was renamed RBS Holdings N.V.

The Legal Separation and the consequent name change were completed on 1 April 2010.

Following Legal Separation, the Issuer's activities will continue to be subject to the Dutch Central Bank's (*De Nederlandsche Bank*) and the Dutch Authority for the Financial Markets' (*Autoriteit Financiële Markten*) supervision and on a consolidated basis as part of RBSG and its consolidated subsidiaries be subject to UK Financial Services Authority supervision. Due to the change in the operating model of RBS N.V. compared to pre-acquisition ABN AMRO Bank N.V. a licence renewal was granted by the Dutch Central Bank on 3 February 2010.

**Results of operations in
2009:**

ABN AMRO Holding N.V. (renamed RBS Holdings N.V.) and its consolidated subsidiaries (“**ABN AMRO**”) recorded a loss for 2009 of EUR 4,400 million comprising a loss after tax of EUR 4,499 million from continuing operations, partly offset by a gain after tax from discontinued operations of EUR 99 million. The loss for 2009 comprises a loss of EUR 4,168 million attributable to the RBSG acquired businesses, a loss of EUR 117 million attributable to the Dutch State acquired businesses and a loss of EUR 214 million attributable to Central Items. “**Central Items**” includes head office

functions and other items centrally managed which are not allocated to individual members of the Consortium.

ABN AMRO's total assets were EUR 469 billion at 31 December 2009, a decrease of EUR 197 billion, or 30%, when compared with EUR 667 billion at 31 December 2008. This decrease was primarily related to the continued transfer and sale of businesses and portfolios to RBSG.

ABN AMRO exceeded the minimum tier 1 and total capital ratios of 9% and 12.5% respectively (under Basel I as set by the Dutch Central Bank during the transition period of ABN AMRO). The tier 1 ratio at the end of 2009 was 19.9% and the total capital ratio amounted to 25.5%. In 2009, ABN AMRO and its shareholder, RFS Holdings, through which the members of the Consortium participate in ABN AMRO Holding N.V. (renamed RBS Holdings N.V.), took several capital actions, which were part of an agreed plan for the separation of the businesses, to ensure that at legal separation each individual bank was adequately capitalised.

Aufteilung der Gruppe:

Die RBS Holdings hält 100% der Anteile an der Emittentin.

Die Anteile an der RBS Holdings werden von der RFS Holdings B.V. („**RFS Holdings**“) gehalten.

RFS Holdings ist eine Gesellschaft, deren Anteile bis zum 24. Dezember 2008 von einem Konsortium bestehend aus RBSG, Fortis N.V. und Fortis SA/NV (die ihren Anteil an RFS Holdings wiederum indirekt durch die Fortis Bank Nederland (Holding) N.V. hielten) und Banco Santander S.A. (das „**Konsortium**“) gehalten wurden. Am 24. Dezember 2008 erwarb der niederländische Staat (der „**Niederländische Staat**“) den von der Fortis Bank Nederland (Holding) N.V. gehaltenen Anteil an RFS Holdings und wurde dadurch unmittelbarer Anteilsinhaber von RFS Holdings. RFS Holdings wird durch RBSG beherrscht, die im Vereinigten

Königreich errichtet und mit Geschäftssitz in 36 St Andrew Square, Edinburgh, Schottland, eingetragen ist. RBSG ist die oberste Muttergesellschaft der Emittentin.

Am 30. September 2009 teilte die ABN AMRO Holding N.V. (in RBS Holdings N.V. umbenannt) mit, dass sie in einem zweistufigen Verfahren vorgehen würde, um die rechtliche Aufteilung der vom Niederländischen Staat erworbenen Vermögenswerte und Verbindlichkeiten zu vollziehen.

Die erste Stufe dieses zweistufigen Verfahrens wurde wie folgt vollzogen:

Stufe 1 – „Rechtliche Abspaltung“: Die Mehrheit der vom Niederländischen Staat erworbenen Geschäftsbereiche wurde von der ABN AMRO Bank N.V. (die „**Abspaltende Gesellschaft**“) auf einen neuen Rechtsträger, die ABN AMRO II N.V. (die „**Erwerbende Gesellschaft**“), übertragen. Des Weiteren wurden die Abspaltende Gesellschaft in The Royal Bank of Scotland N.V. und die Erwerbende Gesellschaft, die die vom Niederländischen Staat erworbenen Geschäftsbereiche umfasst, in ABN AMRO Bank N.V. umbenannt.

Die Rechtliche Abspaltung und die folgenden Namensänderungen wurden am 6. Februar 2010 vollzogen.

Die zweite Stufe des zweistufigen Verfahrens wurde wie folgt vollzogen:

Stufe 2 – „Rechtliche Aufteilung“: Übertragung der Aktien an der Erwerbenden Gesellschaft (der umbenannten ABN AMRO Bank N.V.) von der ABN AMRO Holding N.V. auf eine neue Holdinggesellschaft, die vollständig im Eigentum des Niederländischen Staates steht und von ABN AMRO Holding N.V. unabhängig ist. Nach der Übertragung der Aktien an der ABN AMRO Bank N.V. auf eine neue Holdinggesellschaft wurde ABN AMRO Holding N.V. in RBS Holdings N.V. umbenannt.

Die Rechtliche Aufteilung und die folgende Namensänderung wurden am 1. April 2010 vollzogen.

Nach der Rechtlichen Aufteilung werden die Aktivitäten der Emittentin weiterhin Gegenstand der Aufsicht durch die Niederländische Zentralbank (*De Nederlandsche Bank*) und die Niederländische Finanzmarktbehörde (*Autoriteit Financiële*

Markten) sein und auf konsolidierter Grundlage als Bestandteil der RBSG sowie ihrer konsolidierten Tochtergesellschaften unter der Aufsicht der britischen Finanzaufsichtsbehörde (*Financial Services Authority*) stehen. Wegen der Änderung des Geschäftsmodells der RBS N.V. im Vergleich zur ABN AMRO Bank N.V. vor der Übernahme wurde von der Niederländischen Zentralbank am 3. Februar 2010 eine Lizenzerneuerung erteilt.

**Geschäftszahlen für das
Jahr 2009:**

Die ABN AMRO Holding N.V. (in RBS Holdings N.V. umbenannt) und ihre konsolidierten Tochtergesellschaften („**ABN AMRO**“) verzeichneten für 2009 einen Verlust in Höhe von EUR 4.400 Mio. Darin enthalten ist ein Verlust nach Steuern in Höhe von EUR 4.499 Mio. aus fortgeführten Geschäftsaktivitäten, dem teilweise ein Ertrag nach Steuern aus eingestellten Geschäftsaktivitäten in Höhe von EUR 99 Mio. gegenübersteht. Der Verlust für 2009 besteht aus einem auf die von der RBSG erworbenen Geschäftsbereiche entfallenden Verlust in Höhe von EUR 4.168 Mio., einem auf die von dem Niederländischen Staat erworbenen Geschäftsbereiche entfallenden Verlust in Höhe von EUR 117 Mio. und einem auf das Segment *Central Items* (Zentrale Funktionen) entfallenden Verlust in Höhe von EUR 214 Mio. Das Segment „**Central Items**“ (Zentrale Funktionen) umfasst Hauptverwaltungsaufgaben und weitere zentral verwaltete Aufgaben, die nicht einzelnen Mitgliedern des Konsortiums zugewiesen sind.

Die Gesamtvermögenswerte der ABN AMRO betragen EUR 469 Mrd. zum 31. Dezember 2009, was eine Reduzierung in Höhe von EUR 197 Mrd. oder 30% verglichen mit EUR 667 Mrd. zum 31. Dezember 2008 darstellt. Diese Reduzierung folgte hauptsächlich aus der fortlaufenden Übertragung und dem fortlaufenden Verkauf der Geschäftsbereiche und Portfolien an die RBSG.

Die ABN AMRO überschreitet die Mindestkernkapitalquote (Tier 1) und die Gesamtkapitalquote von 9% bzw. 12,5% (unter Basel I, wie von der Niederländischen Zentralbank während des Übergangszeitraums der ABN AMRO festgelegt). Die Kernkapitalquote (Tier 1) zum Ende des Jahres 2009 betrug 19,9% und die Gesamtkapitalquote belief sich auf 25,5%. ABN AMRO und ihre Aktionärin, RFS Holdings, über die die Mitglieder des Konsortiums an der ABN AMRO Holding N.V. (in RBS Holdings N.V. umbenannt) beteiligt sind, führten 2009 im Rahmen

eines vereinbarten Plans zur Aufteilung der Geschäftsbereiche verschiedene Kapitalmaßnahmen durch, um sicherzustellen, dass bei der rechtlichen Aufteilung jede einzelne Bank angemessen kapitalisiert war.

**Ungeprüfte Zwischen-
ergebnisse für das Halb-
jahr endend am
30. Juni 2010:**

Die RBS Holdings verzeichnete für das Halbjahr, das am 30. Juni 2010 endete, einen Gesamtertrag (*total income*) in Höhe von EUR 1.598 Mio., verglichen mit einem Verlust in Höhe von EUR 153 Mio. für den gleichen Zeitraum im Jahr 2009. Die fortgeführten Geschäftsaktivitäten verzeichneten einen Verlust in Höhe von EUR 541 Mio., während die eingestellten Geschäftsaktivitäten einen Gewinn nach Steuern in Höhe von EUR 950 Mio. verzeichneten, verglichen mit einem Verlust aus fortgeführten Geschäftsaktivitäten in Höhe von EUR 2.823 Mio. bzw. einem Gewinn nach Steuern aus eingestellten Geschäftsaktivitäten in Höhe von EUR 176 Mio. für den Vorjahreszeitraum. Die Ergebnisse aus eingestellten Geschäftsaktivitäten sind hauptsächlich auf den Gewinn zurückzuführen, der bei der am 1. April 2010 vollzogenen Veräußerung der von dem Niederländischen Staat erworbenen und in die neue ABN AMRO Bank N.V. einbezogenen Geschäftsbereiche entstanden ist.

Die Gesamtvermögenswerte der RBS Holdings beliefen sich zum 30. Juni 2010 auf EUR 241,4 Mrd., eine Reduzierung um EUR 227,9 Mrd. seit Dezember 2009.

RFS Holdings is a company whose shares were held by a consortium consisting of RBSG, Fortis N.V. and Fortis SA/NV (which held its share in RFS Holdings indirectly through Fortis Bank Nederland (Holding) N.V.) and Banco Santander S.A. (the "**Consortium**") until 24 December 2008. On this date, the State of the Netherlands (the "**Dutch State**") acquired the share in RFS Holdings held by Fortis Bank Nederland (Holding) N.V. and thus became a direct shareholder in RFS Holdings. RFS Holdings is controlled by RBSG, which is incorporated in the United Kingdom and registered at 36 St Andrew Square, Edinburgh, Scotland. RBSG is the ultimate parent company of RBS Holdings and the Issuer. The

consolidated financial statements of the Group are included in the consolidated financial statements of RBSG.

On 30 September 2009, ABN AMRO Holding N.V. (renamed RBS Holdings N.V.) announced that a two-step approach would be taken to effect the legal separation of the assets and liabilities acquired by the Dutch State.

The first step of this two-step approach was completed as follows:

Step 1 – “Legal Demerger”: The majority of the Dutch State acquired businesses was transferred from ABN AMRO Bank N.V. (the “**Demerging Company**”) to a new legal entity, ABN AMRO II N.V. (the “**Acquiring Company**”). Furthermore, the Demerging Company was renamed The Royal Bank of Scotland N.V. and the Acquiring Company, comprising the Dutch State acquired businesses, was renamed ABN AMRO Bank N.V.

The Legal Demerger and the consequent name changes were completed on 6 February 2010.

The second step of the two-step approach was completed as follows:

Step 2 – “Legal Separation”: Transfer of the shares of the Acquiring Company (renamed ABN AMRO Bank N.V.) from ABN AMRO Holding N.V. to a new holding company fully owned by the Dutch State and independent of ABN AMRO Holding N.V. Following the transfer of the shares in ABN AMRO Bank N.V. to a new holding company, ABN AMRO Holding N.V. was renamed RBS Holdings N.V.

The Legal Separation and the consequent name change were completed on 1 April 2010.

Following Legal Separation, the Issuer's activities will continue to be subject to the Dutch Central Bank's (*De Nederlandsche Bank*) and the Dutch Authority for the Financial Markets' (*Autoriteit Financiële Markten*) supervision and on a consolidated basis as part of RBSG

and its consolidated subsidiaries be subject to UK Financial Services Authority supervision. Due to the change in the operating model of RBS N.V. compared to pre-acquisition ABN AMRO Bank N.V. a licence renewal was granted by the Dutch Central Bank on 3 February 2010.

Results of operations in 2009:

ABN AMRO Holding N.V. (renamed RBS Holdings N.V.) and its consolidated subsidiaries (“**ABN AMRO**”) recorded a loss for 2009 of EUR 4,400 million comprising a loss after tax of EUR 4,499 million from continuing operations, partly offset by a gain after tax from discontinued operations of EUR 99 million. The loss for 2009 comprises a loss of EUR 4,168 million attributable to the RBSG acquired businesses, a loss of EUR 117 million attributable to the Dutch State acquired businesses and a loss of EUR 214 million attributable to Central Items. “**Central Items**” includes head office functions and other items centrally managed which are not allocated to individual members of the Consortium.

ABN AMRO’s total assets were EUR 469 billion at 31 December 2009, a decrease of EUR 197 billion, or 30%, when compared with EUR 667 billion at 31 December 2008. This decrease was primarily related to the continued transfer and sale of businesses and portfolios to RBSG.

ABN AMRO exceeded the minimum tier 1 and total capital ratios of 9% and 12.5% respectively (under Basel I as set by the Dutch Central Bank during the transition period of ABN AMRO). The tier 1 ratio at the end of 2009 was 19.9% and the total capital ratio amounted to 25.5%. In 2009, ABN AMRO and its shareholder, RFS Holdings, through which the members of the Consortium participate in ABN AMRO Holding N.V. (renamed RBS Holdings N.V.), took several capital actions, which were part of an agreed plan for the separation of the businesses, to ensure that at legal separation each individual bank was adequately capitalised.

Unaudited financial results for the first quarter 2010:

RBS Holdings reported a gain of EUR 178 million for the three months ended 31 March 2010 compared to a loss of EUR 886 million for the same period in 2009. The continuing operations broke even while the discontinued operations recorded a EUR 178 million gain compared with a EUR 976 million loss and a EUR 90 million gain respectively for the prior year period. The results from discontinued operations are mainly attributable to the Dutch State acquired businesses included in the new ABN AMRO Bank N.V. which was legally separated from RBS Holdings on 1 April 2010.

RBS Holdings' total assets amounted to EUR 467 billion as at 31 March 2010, a decrease of EUR 2 billion as compared to 31 December 2009.

The Tier 1 capital ratio and total capital ratio for RBS Holdings at 31 March 2010 was 12.79% and 17.84% respectively. The Tier 1 capital ratio and total capital ratio for RBSG acquired businesses at 31 March 2010 was 11.92% and 18.46% respectively.

Rating of the Issuer:

As of the date of this Base Prospectus, the credit ratings of the Issuer are as follows:

	Long term	Short term	Outlook
Moody's Investors Service	A2	P-1	Stable
Standard & Poor's	A+	A-1	Stable
Fitch Ratings	AA-	F1+	Stable

• ***Moody's Investors Service definitions***

Obligations rated "A" are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging

from “Aaa” (describing obligations judged to be of the highest quality, with minimal credit risk), “Aa”, “A”, “Baa”, “Ba”, “B”, “Caa” and “Ca” to “C”, the lowest category representing long-term obligations that are typically in default, with little prospect for recovery of principal or interest. In addition, Moody’s Investors Service appends numerical modifiers (“1”, “2”, and “3”) to each generic rating classification from “Aa” through “Caa”. The modifier “1” indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier “2” indicates a mid-range ranking, and the modifier “3” indicates a ranking in the lower end of that generic rating category.

Issuers rated “P-1” have a superior ability to repay short-term debt obligations.

The rating system used by Moody’s Investors Service for short-term obligations has various subcategories ranging from “P-1”, “P-2” and “P-3” to “NP”, the lowest category representing issuers that do not fall within any of the “Prime” rating categories.

A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: “Positive”, “Negative”, “Stable”, and “Developing” (contingent upon an event).

- ***Standard and Poor’s definitions***

An obligor rated “A” by Standard & Poor’s has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor’s for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from “AAA” (which is the highest quality rating), “AA”, “A”, “BBB”, “BB”, “B”, “CCC”, “CC”, “R” and “SD” to “D”, the

lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus ("+") or minus ("-") signs following ratings from the "AA" to "CCC" categories show the relative standing within the major rating categories.

An obligor rated "A-1" by Standard & Poor's has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor's.

The rating system used by Standard & Poor's for short-term issuer credit ratings has various subcategories ranging from "A-1" (which is the highest quality rating), "A-2", "A-3", "B", "C", "R" and "SD" to "D", the lowest category indicating that Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

"Stable" means that a rating is not likely to change.

- ***Fitch Ratings definitions***

"AA" ratings of an issuer denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from "AAA" (which is the highest quality rating), "AA", "A", "BBB", "BB", "B", "CCC", "CC", "C", "RD" to "D", the lowest category indicating that the issuer in Fitch Ratings' opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers "+" or "-" may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the "AAA" rating category or to the categories below "B".

An “F1” rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments. It may have an added “+” to denote any exceptionally strong credit feature.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from “F1” (which is the highest quality rating), “F2”, “F3”, “B”, “C” and “RD” to “D”, the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody’s Investors Service (www.moody.com), Standard & Poor’s (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively.

Risk Factors:

The purpose of the risk factors description is to protect potential purchasers of the Securities from making investments that are not suitable for their purposes as well as to set out economic and legal risks associated with an investment in the Securities. Potential purchasers of the Securities should be aware of the risks associated with an investment in the Securities before making an investment decision.

Risk Factors relating to the Issuer and the Guarantor:

In the context of its business activities, the Issuer is subject to various risks that are typical of the banking industry. Should certain risks materialise, this may adversely affect the business situation, financial condition and profits and losses of the Issuer and its subsidiaries and, consequently, the business situation, financial condition and profits and losses of the Guarantor and, hence, the capacity (i) of the Issuer to meet its liabilities under the Securities towards the Securityholders (as defined below under “General Conditions/Securityholder”), and/or (ii) of the Guarantor to meet its obligations under the Guarantee. Factors which can adversely affect the business situation, financial condition and profits and losses of the Issuer are inter alia (i) general economic conditions and other business conditions, (ii) competition, (iii) regulatory change and (iv)

standard banking risks including changes in interest and foreign exchange rates and operational, credit, market, liquidity and legal risks.

Risk Factors relating to the Securities:

Certain factors are material for the purpose of assessing the market risks associated with the Securities. These include, but are not limited to the fact that (i) the Securities have a complex structure which may lead to a **total loss** of the investment, (ii) the Securities may not be a suitable investment for all investors, (iii) the value of the Securities may fluctuate, (iv) the issue price of the Securities may include an agio, commissions and/or other fees, (v) there may not be a secondary market in the Securities, (vi) purchasing the Securities as a hedge may not be effective, (vii) actions taken by the Issuer may affect the value of the Securities, (viii) Securityholders have no ownership interest in the Underlying (as defined below under "Description of the Securities"), (ix) the Issuer and/or the Calculation Agent may make adjustments to the Conditions as a consequence of events affecting the Underlying, (x) there may be delays in effecting settlement of the Securities, (xi) taxes may be payable by the Securityholders and (xii) the Securities may under certain circumstances be terminated by the Issuer prior to their stated date.

Other risks associated with the Securities may include (i) risks associated with Securities represented by a Global Security (as defined below under "General Conditions/Form of Securities") or issued in dematerialised form, (ii) risks associated with nominee arrangements concluded by the Securityholders with investment services providers, (iii) the risk that the return on an investment in the Securities will be affected by charges incurred by the Securityholders, (iv) the risk that changes of law may affect the value of the Securities, (v) the risk that ratings assigned to the Issuer or, if applicable, the Securities may not reflect all risks, (vi) the risk that legal investment constraints may restrict certain investments in the Securities, (vii) in case that the Securityholder uses a loan to finance the purchase of the Securities, the risk that he

will not be able to repay the loan principal plus interest, (viii) special risks associated with the specific structure of the different types of Securities and (ix) special risks associated with certain Underlyings of the Securities (e.g. commodities, commodity forward contracts and commodity future contracts, funds, shares, baskets of shares or share indices).

Final Terms:

So-called “Final Terms” will be prepared for each tranche of Securities issued under this Base Prospectus which, in addition to stating the terms and conditions applying to the Securities may but do not need to replicate some information already contained in this Base Prospectus. In the Final Terms, information not currently contained in this Base Prospectus may be added in the placeholders contained in this Base Prospectus, or information currently contained in this Base Prospectus may be deleted if contained in square brackets, or information currently contained in this Base Prospectus may be adjusted as set forth in this Base Prospectus.

Terms and Conditions of the Securities:

The applicable terms and conditions of the Securities will be as set out in the general conditions set forth under “General Conditions” (the “**General Conditions**”) and in the securities-specific product conditions set forth under “Product Conditions” (the “**Product Conditions**”). The Final Terms applicable to each tranche of Securities may replicate, complete or adjust the General Conditions and/or the securities-specific Product Conditions to reflect the specific structure applicable to a specific tranche of Securities. If the Securities are represented by a Global Security, the General Conditions and the securities-specific Product Conditions will be attached to the Global Security representing the relevant tranche of Securities. The General Conditions and the Product Conditions applying to a specific tranche of Securities are referred to as “**Conditions**”.

Description of the Securities:

Certificates are investment instruments which, following exercise in accordance with the Final Terms, either pay a cash amount determined by reference to the value of an underlying on one or more specified days (“**cash settled**”).

Securities) or deliver the underlying (“**physically settled Securities**”), in each case subject to the multiplier, as specified in the Final Terms. Possible underlyings of these Certificates may be commodities, commodity forward contracts or commodity future contracts, currencies, funds, indices, index future contracts, shares (except those of the Issuer or of any other company of the Group) or baskets consisting of such shares (each an “**Underlying**”), in case of physically settled Securities only shares or share baskets. In case of physically settled Securities it is possible that a cash amount is paid in respect of a fractional entitlement instead of delivery of this fractional entitlement.

The Securities do not represent any claim to payment of interest, and thus do not generate any ongoing interest income. The Securities do not grant any claim to dividends either.

The Certificates that may be issued under this Base Prospectus have a fixed term and are described below.

The protection mechanism(s) provided by some of the Certificates issued under this Base Prospectus (e.g. the possibility of a bonus payment in case of Bonus Certificates, the granting of a safety buffer in case of Discount Certificates, the currency hedge in case of Quanto Certificates, in each case as described hereinafter) is/are paid for by the Securityholders to the extent that they receive neither dividends nor any other distributions from the Underlying and/or that the pay-out may be capped.

Bonus Certificates:

In case of Bonus Certificates the cash amount payable or the Underlying deliverable to the Securityholder (as the case may be) depends (i) upon the price or level of the Underlying *on the date specified* in the Final Terms (the “**Final Reference Price**”) compared to the barrier specified in the Final Terms (the “**Barrier**”) and compared to the bonus level specified in the Final Terms (the “**Bonus Level**”) and (ii) upon whether or not a Knock-out Bonus Event has occurred. The Barrier is lower than the Bonus Level. A “**Knock-out Bonus Event**” occurs if the price or

level of the Underlying is lower than or equal to the Barrier *at any time* during the observation period as defined in the Final Terms (the “**Observation Period**”).

If no Knock-out Bonus Event has occurred and if the Final Reference Price is greater than the Barrier but lower than or equal to the Bonus Level, the Securityholder will receive a fixed amount corresponding to the Bonus Level multiplied by the multiplier, less expenses (if any) (bonus payment).

If, on the other hand, a Knock-Out Event has occurred or if the Final Reference Price is lower than or equal to the Barrier or greater than the Bonus Level, the Securityholder will receive an amount corresponding to the Final Reference Price multiplied by the multiplier, less expenses (if any). In these events, Bonus Certificates will become tracker certificates tracking the performance of the Underlying (however without entitlement to dividends or interest payments of the Underlying) and no bonus payment will be made. In case of shares or a basket of shares as Underlying the Conditions may provide that the Securityholder may receive, instead of a cash amount, a number of the underlying shares corresponding in value to the Final Reference Price multiplied by the multiplier, less expenses (if any). It is, however, possible that a cash amount is paid with respect to a fractional entitlement instead of delivery of this fractional entitlement.

As a general rule, a decrease of the price or level of the Underlying (in particular if the price or level equals or falls below the Barrier) leads to losses for holders of Bonus Certificates.

Reverse Bonus Certificates:

In case of Reverse Bonus Certificates (like in regular Bonus Certificates – see above) the cash amount payable to the Securityholder depends (i) upon the Final Reference Price compared to the Barrier and compared to the Bonus Level and (ii) upon whether or not a Knock-out Bonus Event has occurred *at any time* during the Observation Period.

However, Reverse Bonus Certificates work inversely to

regular Bonus Certificates. Whereas, as a general rule, for holders of regular Bonus Certificates a decrease in the price or level of the Underlying leads to losses, for holders of Reverse Certificates an increase in the price or level of the Underlying leads to losses.

As a consequence thereof, in case of Reverse Bonus Certificates, the Barrier is higher than the Bonus Level and a “**Knock-out Bonus Event**” occurs if the price or level of the Underlying is greater than or equal to the Barrier *at any time* during the Observation Period.

Furthermore, if no Knock-out Bonus Event has occurred and if the Final Reference Price is lower than the Barrier but greater than or equal to the Bonus Level, the Securityholder will receive a fixed bonus amount as specified in the Final Terms.

If, on the other hand, a Knock-Out Event has occurred or if the Final Reference Price is greater than or equal to the Barrier or lower than the Bonus Level, the Securityholder will receive an amount which reflects the reverse performance of the Underlying between the Initial Reference Price and the Final Reference Price multiplied by the multiplier, less expenses (if any).

In case of Reverse Bonus Certificates, a total loss of the invested amount will occur already if the price or level of the Underlying increases by 100% as compared to the Initial Reference Price.

**Capped Bonus Certificates
and Capped Reverse Bonus
Certificates:**

If Bonus Certificates or Reverse Bonus Certificates are “capped”, the cash amount payable to the Securityholder is limited to an amount specified in the Final Terms (the “**Maximum Amount**”). In this event, in case of Capped Bonus Certificates the Securityholder will not participate in an increase in the price or level of the Underlying exceeding the cap specified in the Final Terms (the “**Cap**”), and in case of Capped Reverse Bonus Certificates the Securityholder will not participate in a decrease in the price or level of the Underlying falling below the Cap.

Discount Certificates:

In case of Discount Certificates the cash amount payable or the Underlying deliverable to the Securityholder (as the

case may be) depends upon the Final Reference Price compared to the Cap.

If the Final Reference Price is lower than the Cap, the Securityholder will receive an amount corresponding to the Final Reference Price multiplied by the multiplier, less expenses (if any). In case of shares or a basket of shares as Underlying the Conditions may provide that the Securityholder may receive, instead of the before-mentioned cash amount, a number of the underlying shares corresponding in value to the Final Reference Price multiplied by the multiplier, less expenses (if any). It is, however, possible that a cash amount is paid with respect to a fractional entitlement instead of delivery of this fractional entitlement.

If the Final Reference Price is greater than or equal to the Cap, the Securityholder will receive a fixed amount corresponding to the Cap multiplied by the multiplier, less expenses (if any).

In any event, the Securityholder will not participate in an increase in the price or level of the Underlying exceeding the Cap. On the other hand, the initial issue price of Discount Certificates is generally lower than the price or level of the Underlying (multiplied by the multiplier), which means Discount Certificates are priced at a discount compared to a direct investment in the Underlying. Due to the discount, Discount Certificates have a safety buffer that protects investors to a certain extent when the price or level of the Underlying falls. Nevertheless, the risk of a total loss is not excluded.

Quanto Certificates:

Where the settlement currency is different to the underlying currency, Bonus Certificates, Reverse Bonus Certificates, and Discount Certificates may have a quanto feature, i.e. a fixed rate of exchange between the two currencies for the term of the Securities, thus a built-in currency hedge.

Issue Price:

The Securities will be sold at a price determined by the Issuer who may, in making such determination, refer to, amongst other factors, the level or price of the Underlying

(as the case may be), the relevant multiplier and any applicable foreign exchange rate(s). The issue price of the Securities is based on internal pricing models of the Issuer and may be higher than their market value due to commissions and/or other fees relating to the issue and sale of the Securities (including a margin paid to distributors or third parties or retained by the Issuer) as well as amounts relating to the hedging of the Issuer's obligations under such Securities. Any distributor of the Securities receiving any commission, fee, or non-monetary benefit may be obliged under applicable law to disclose the existence, nature and amount of such commission, fee or benefit to the investor. Investors should ensure that they have received such information prior to purchasing the Securities from such distributor.

Listing:

Whether or not a tranche of Securities will be listed on one or more stock exchange(s) or unofficial market(s), e.g. the *Freiverkehr* of a German stock exchange, or not at all, will be set forth in the Final Terms.

Following notification of the approval of this Base Prospectus in accordance with Section 18(1) WpPG, the Securities may be admitted to trading in the regulated markets or included in the unofficial market segments of, and/or listed on, the stock exchanges of several EEA States and/or offered to the public within the EEA States which have been notified.

General Conditions:

Set out below is a summary of certain significant provisions of the General Conditions applicable to all Securities issued under this Base Prospectus.

Form of Securities:

The Securities, except in case of Securities issued in dematerialised form, are bearer securities which are represented by a global bearer security (the "**Global Security**") deposited with the Clearing Agent, and will be transferable only in accordance with the applicable law and the rules and procedures of the Clearing Agent through whose systems the Securities are transferred.

If the Securities are issued in dematerialised form, they will be registered in the book-entry system of the Clearing

Agent. In that case, title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time (the “**Applicable Rules**”).

The Final Terms will specify whether the Securities will be represented by a Global Security or issued in dematerialised form.

In either case (whether in global or in dematerialised form), no definitive securities will be issued.

Securityholder:

“**Securityholder**” means, in case of Securities represented by a Global Security, the holder of a unit in the Global Security and, in case of Securities issued in dematerialised form, a person in whose name a Security is registered in the book-entry system of the Clearing Agent, or any other person recognised as a holder of Securities pursuant to the Applicable Rules.

Status of the Securities:

The Securities constitute unsecured and unsubordinated obligations of the Issuer and rank pari passu among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer save for those preferred by mandatory provisions of law.

Notices:

All notices under the Conditions shall either (i) be published on the Issuer’s website (or any successor website) and shall become effective upon such publication, or (ii) be delivered to the Clearing Agent and shall become effective upon such delivery, unless the relevant notice provides a different date for the effectiveness. The Final Terms will specify which manner of giving notice shall apply. Additional publication requirements under mandatory provisions of law or under the rules or regulations of any relevant stock exchange shall remain unaffected.

Substitution of the Issuer:

The Issuer may at any time, without the consent of the Securityholders, substitute for itself as issuer of the Securities with regard to any and all rights, obligations and liabilities under and in connection with the Securities any

entity (the “**Substitute**”), provided that the conditions relating thereto as set forth in the Conditions (including a notice to the Securityholders) have been fulfilled.

Taxation:

The Securityholder (and not the Issuer) shall be liable for and/or pay any tax, duty or charge in connection with the ownership of and/or any transfer, payment or delivery in respect of the Securities held by such Securityholder. The Issuer shall have the right to withhold or deduct from any amount payable to any Securityholder such amount as shall be necessary to account for or to pay any such tax, duty, charge, withholding or other payment.

Product Conditions:

Different Product Conditions apply to the different types of Securities detailed in this Base Prospectus. Set out below is a summary of certain significant provisions of the Product Conditions applicable to all types of Securities.

Exercise of the Securities:

The Securities will be exercised automatically on the exercise date specified in the Final Terms.

Payment and/or delivery in case of an automatic exercise is subject to delivery of a certification by the Securityholder. Any such certification has to contain the information set forth in the Product Conditions, among others, a statement that the Securityholder is neither a U.S. person nor a person within the United States.

Early Termination:

The Issuer has the right to terminate the Securities early (i) if it has determined in its reasonable discretion (*billiges Ermessen*) that its performance thereunder is or will become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (the “**Applicable Law**”) and (ii) upon the occurrence of certain hedging disruption events as defined in the Final Terms. If the Issuer terminates early in such circumstances, it will, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair

market value of the Security immediately prior to such termination (ignoring the illegality, if any) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities.

Paying Agent, Principal Paying Agent and Calculation Agent:

The Royal Bank of Scotland N.V. or such other entity as specified in the Final Terms.

Settlement of Securities:

Securities may be settled by payment of a cash amount or by delivery of the Underlying, as specified in the Final Terms.

Clearing Agent:

Clearstream Banking AG, Frankfurt (“**CBF**”), Clearstream Banking, société anonyme, Luxembourg (“**CBL**”) and Euroclear Bank S.A./N.V. as operator of the Euroclear system (“**Euroclear**”) and/or any other or further Clearing Agent(s) as specified in the Final Terms.

Market Disruption Event or Fund Disruption Event:

If a Market Disruption Event or a Fund Disruption Event (as the case may be) (in each case as specified in the Final Terms) occurs, the Securityholders may experience a delay in the determination of the parameters relevant for settlement as well as in the settlement itself. Furthermore, the parameters relevant for settlement (e.g. the price or level of the Underlying) may be adversely affected. Market Disruption Events are defined in the Final Terms for each type of Security not linked to funds and Fund Disruption Events are defined in the Final Terms for the fund linked Securities; they vary depending on the type of Security.

Emerging Market Disruption Event:

If an Emerging Market Disruption Event (as specified in the Final Terms) occurs, Securityholders may experience a delay in the determination of the parameters relevant for settlement as well as in the settlement itself. Furthermore, the parameters relevant for settlement (e.g. the price or level of the Underlying) may be adversely affected. Emerging Market Disruption Events apply only if specified in the Final Terms.

Settlement Disruption Event:

If a Settlement Disruption Event (as specified in the Final Terms) occurs with respect to physically settled Securities, Securityholders may experience a delay in delivery of the Underlying. If delivery of the Underlying is not practicable

by reason of a Settlement Disruption Event, the Issuer is entitled to pay to the Securityholder (in lieu of delivery of the Underlying) the fair market value of the Securities as determined by the Issuer in its reasonable discretion (*billiges Ermessen*), less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the **“Disruption Cash Settlement Price”**). The determination of the Disruption Cash Settlement Price may be adversely affected by the Settlement Disruption Event and the deduction of these costs. Settlement Disruption Events are defined in the Final Terms of the Securities which may be settled physically and the definition varies depending on the type of the Security.

Hedging Disruption Event:

If a disruption to the hedging of the Issuer (Hedging Disruption Event) (as specified in the Final Terms) occurs, the Issuer may (i) terminate the Securities (see above under “Early Termination”), or (ii) replace the Underlying by another underlying, or (iii) make any other adjustment to the Conditions in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event.

Adjustments for European Monetary Union:

The Issuer may, without the consent of any Securityholder of the Securities, on giving notice to the Securityholders elect that, with effect from the date specified in such notice, certain terms of the Securities shall be redenominated in Euro, as further set out in the respective Product Condition.

Applicable Law:

The Securities shall be governed by, and construed in accordance with, German law or any other law as specified in the Final Terms.

Place of Performance and Jurisdiction:

The place of performance and jurisdiction for the Securities shall be Frankfurt am Main, Germany or any other place of performance and jurisdiction as specified in the Final Terms.

Juni 1998 gemäß Artikel 403 Abs. 1 lit. f Buch 2 des niederländischen Bürgerlichen Gesetzbuchs erklärt, dass sie gesamtschuldnerisch für sämtliche Verbindlichkeiten haftet, die aus nach dem 15. Juni 1998 von der Emittentin vorgenommenen Rechtshandlungen entstehen (die „**Garantie**“).

Aufteilung der Gruppe:

Die RBS Holdings hält 100% der Anteile an der Emittentin.

Die Anteile an der RBS Holdings werden von der RFS Holdings B.V. („**RFS Holdings**“) gehalten.

RFS Holdings ist eine Gesellschaft, deren Anteile bis zum 24. Dezember 2008 von einem Konsortium bestehend aus RBSG, Fortis N.V. und Fortis SA/NV (die ihren Anteil an RFS Holdings wiederum indirekt durch die Fortis Bank Nederland (Holding) N.V. hielten) und Banco Santander S.A. (das „**Konsortium**“) gehalten wurden. Am 24. Dezember 2008 erwarb der niederländische Staat (der „**Niederländische Staat**“) den von der Fortis Bank Nederland (Holding) N.V. gehaltenen Anteil an RFS Holdings und wurde dadurch unmittelbarer Anteilseigner von RFS Holdings. RFS Holdings wird durch RBSG beherrscht, die im Vereinigten Königreich errichtet und mit Geschäftssitz in 36 St Andrew Square, Edinburgh, Schottland, eingetragen ist. RBSG ist die oberste Muttergesellschaft der Emittentin.

Am 30. September 2009 teilte die ABN AMRO Holding N.V. (in RBS Holdings N.V. umbenannt) mit, dass sie in einem zweistufigen Verfahren vorgehen würde, um die rechtliche Aufteilung der vom Niederländischen Staat erworbenen Vermögenswerte und Verbindlichkeiten zu vollziehen.

Die erste Stufe dieses zweistufigen Verfahrens wurde wie folgt vollzogen:

Stufe 1 – „Rechtliche Abspaltung“: Die Mehrheit der vom Niederländischen Staat erworbenen Geschäftsbereiche wurde von der ABN AMRO Bank N.V. (die „**Abspaltende Gesellschaft**“) auf einen neuen Rechtsträger, die ABN AMRO II N.V. (die „**Erwerbende Gesellschaft**“), übertragen. Des Weiteren wurden die Abspaltende Gesellschaft in The Royal Bank of Scotland N.V. und die Erwerbende Gesellschaft, die die vom Niederländischen Staat erworbenen Geschäftsbereiche umfasst, in ABN

AMRO Bank N.V. umbenannt.

Die Rechtliche Abspaltung und die folgenden Namensänderungen wurden am 6. Februar 2010 vollzogen.

Die zweite Stufe des zweistufigen Verfahrens wurde wie folgt vollzogen:

Stufe 2 – „Rechtliche Aufteilung“: Übertragung der Aktien an der Erwerbenden Gesellschaft (der umbenannten ABN AMRO Bank N.V.) von der ABN AMRO Holding N.V. auf eine neue Holdinggesellschaft, die vollständig im Eigentum des Niederländischen Staates steht und von ABN AMRO Holding N.V. unabhängig ist. Nach der Übertragung der Aktien an der ABN AMRO Bank N.V. auf eine neue Holdinggesellschaft wurde ABN AMRO Holding N.V. in RBS Holdings N.V. umbenannt.

Die Rechtliche Aufteilung und die folgende Namensänderung wurden am 1. April 2010 vollzogen.

Nach der Rechtlichen Aufteilung werden die Aktivitäten der Emittentin weiterhin Gegenstand der Aufsicht durch die Niederländische Zentralbank (De Nederlandsche Bank) und die Niederländische Finanzmarktbehörde (Autoriteit Financiële Markten) sein und auf konsolidierter Grundlage als Bestandteil der RBSG sowie ihrer konsolidierten Tochtergesellschaften unter der Aufsicht der britischen Finanzaufsichtsbehörde (Financial Services Authority) stehen. Wegen der Änderung des Geschäftsmodells der RBS N.V. im Vergleich zur ABN AMRO Bank N.V. vor der Übernahme wurde von der Niederländischen Zentralbank am 3. Februar 2010 eine Lizenzerneuerung erteilt.

**Geschäftszahlen für das Jahr
2009:**

Die ABN AMRO Holding N.V. (in RBS Holdings N.V. umbenannt) und ihre konsolidierten Tochtergesellschaften („**ABN AMRO**“) verzeichneten für 2009 einen Verlust in Höhe von EUR 4.400 Mio. Darin enthalten ist ein Verlust nach Steuern in Höhe von EUR 4.499 Mio. aus fortgeführten Geschäftsaktivitäten, dem teilweise ein Ertrag nach Steuern aus eingestellten Geschäftsaktivitäten in Höhe von EUR 99 Mio. gegenübersteht. Der Verlust für 2009 besteht aus einem auf die von der RBSG erworbenen Geschäftsbereiche entfallenden Verlust in Höhe von EUR

4.168 Mio., einem auf die von dem Niederländischen Staat erworbenen Geschäftsbereiche entfallenden Verlust in Höhe von EUR 117 Mio. und einem auf das Segment Central Items (Zentrale Funktionen) entfallenden Verlust in Höhe von EUR 214 Mio. Das Segment „**Central Items**“ (Zentrale Funktionen) umfasst Hauptverwaltungsaufgaben und weitere zentral verwaltete Aufgaben, die nicht einzelnen Mitgliedern des Konsortiums zugewiesen sind.

Die Gesamtvermögenswerte der ABN AMRO betragen EUR 469 Mrd. zum 31. Dezember 2009, was eine Reduzierung in Höhe von EUR 197 Mrd. oder 30% verglichen mit EUR 667 Mrd. zum 31. Dezember 2008 darstellt. Diese Reduzierung folgte hauptsächlich aus der fortlaufenden Übertragung und dem fortlaufenden Verkauf der Geschäftsbereiche und Portfolien an die RBSG.

Die ABN AMRO überschreitet die Mindestkernkapitalquote (Tier 1) und die Gesamtkapitalquote von 9% bzw. 12,5% (unter Basel I, wie von der Niederländischen Zentralbank während des Übergangszeitraums der ABN AMRO festgelegt). Die Kernkapitalquote (Tier 1) zum Ende des Jahres 2009 betrug 19,9% und die Gesamtkapitalquote belief sich auf 25,5%. ABN AMRO und ihre Aktionärin, RFS Holdings, über die die Mitglieder des Konsortiums an der ABN AMRO Holding N.V. (in RBS Holdings N.V. umbenannt) beteiligt sind, führten 2009 im Rahmen eines vereinbarten Plans zur Aufteilung der Geschäftsbereiche verschiedene Kapitalmaßnahmen durch, um sicherzustellen, dass bei der rechtlichen Aufteilung jede einzelne Bank angemessen kapitalisiert war.

**Ungeprüfte Finanzergebnisse für
das erste Quartal 2010:**

Die RBS Holdings verzeichnete einen Gewinn in Höhe von EUR 178 Mio. für den Dreimonatszeitraum bis zum 31. März 2010, verglichen mit einem Verlust in Höhe von EUR 886 Mio. für den gleichen Zeitraum im Jahr 2009. Die fortgeführten Geschäftsaktivitäten erreichten ein ausgeglichenes Ergebnis, während die eingestellten Geschäftsaktivitäten einen Gewinn in Höhe von EUR 178 Mio. verzeichneten, verglichen mit einem Verlust in Höhe von EUR 976 Mio. bzw. einem Gewinn in Höhe von EUR 90 Mio. für den Vorjahreszeitraum. Die Ergebnisse aus

eingestellten Geschäftsaktivitäten entfallen hauptsächlich auf die von dem Niederländischen Staat erworbenen Geschäftsbereiche, die in die neue ABN AMRO Bank N.V. einbezogen sind, die von der RBS Holdings am 1. April 2010 rechtlich geteilt wurde.

Die Gesamtvermögenswerte der RBS Holdings beliefen sich zum 31. März 2010 auf EUR 467 Mrd., eine Reduzierung von EUR 2 Mrd. verglichen mit dem 31. Dezember 2009.

Die Kernkapitalquote (Tier 1) und die Gesamtkapitalquote für die RBS Holdings betragen 12,79% bzw. 17,84% zum 31. März 2010. Die Kernkapitalquote (Tier 1) und die Gesamtkapitalquote für die von RBSG erworbenen Geschäftsbereiche betragen 11,92% bzw. 18,46% zum 31. März 2010.

Rating der Emittentin:

Zum Datum dieses Basisprospekts lauten die Kreditratings der Emittentin wie folgt:

	Langfristig	Kurzfristig	Ausblick
Moody's Investors Service	A2	P-1	Stabil
Standard & Poor's	A+	A-1	Stabil
Fitch Ratings	AA-	F1+	Stabil

• **Moody's Investors Service Definitionen**

Verbindlichkeiten, die mit „A“ eingestuft sind, werden als Verbindlichkeiten der „oberen Mittelklasse“ zugerechnet und bergen ein geringes Kreditrisiko.

Die von Moody's Investors Service verwendete Rating-Skala für langfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „Aaa“, die die Kategorie höchster Qualität mit einem minimalen Kreditrisiko bezeichnet, über die Kategorien „Aa“, „A“, „Baa“, „Ba“, „B“, „Caa“, „Ca“, bis zur niedrigsten Kategorie „C“, die langfristige Verbindlichkeiten bezeichnet, bei denen ein Zahlungsausfall in der Regel bereits eingetreten ist und eine geringe

Aussicht auf Rückzahlung von Kapital und Zinsen besteht. Moody's Investors Service verwendet innerhalb der Kategorien „Aa“ bis „Caa“ zusätzlich numerische Unterteilungen („1“, „2“ oder „3“). Der Zusatz „1“ weist darauf hin, dass die jeweilige langfristige Verbindlichkeit zum oberen Drittel der jeweiligen Rating-Kategorie gehört, während der Zusatz „2“ auf eine Klassifizierung im mittleren Drittel und der Zusatz „3“ auf eine solche im unteren Drittel hinweist.

Emittenten mit der Einstufung „P-1“ verfügen in herausragender Weise über die Fähigkeit, ihre kurzfristigen Schuldverschreibungen zurückzuzahlen.

Die von Moody's Investors Service verwendete Rating-Skala für die Fähigkeit eines Emittenten zur Erfüllung seiner kurzfristigen Finanzverbindlichkeiten hat verschiedene Kategorien und reicht von „P-1“ über die Kategorien „P-2“ und „P-3“ bis zur niedrigsten Kategorie „NP“, die verdeutlicht, dass ein Emittent zu keiner der „Prime“-Rating-Kategorien gehört.

Ein Rating-Ausblick ist eine Meinung über die Richtung, in die sich ein Rating mittelfristig voraussichtlich entwickeln wird. Die Ausblicke werden in die folgenden vier Kategorien unterteilt: „positiv“, „negativ“, „stabil“ und „noch unbestimmt“ (d. h. ereignisabhängig).

- ***Standard and Poor's Definitionen***

Die Fähigkeit eines Schuldners mit einem Standard & Poor's-Rating von „A“, seine finanziellen Verpflichtungen zu erfüllen, ist stark, aber etwas anfälliger gegenüber nachteiligen Auswirkungen von Veränderungen äußerer Umstände und wirtschaftlicher Bedingungen als bei Schuldnern, die in einer höheren Rating-Kategorie eingestuft sind.

Die von Standard & Poor's verwendete Rating-Skala für die langfristige Fähigkeit eines Schuldners zur Erfüllung seiner Verbindlichkeiten hat verschiedene Rating-Kategorien und reicht von „AAA“, die die Kategorie höchster Bonität bezeichnet, über die Kategorien „AA“, „A“, „BBB“, „BB“, „B“, „CCC“, „CC“, „R“ und „SD“ bis zur niedrigsten Kategorie „D“,

die kennzeichnet, dass Standard & Poor's davon ausgeht, dass der Zahlungsausfall einen allgemeinen Ausfall darstellen wird und Zahlungsausfälle bei allen oder nahezu allen fälligen Verpflichtungen des Schuldners eintreten werden. Den Kategorien „AA“ bis „CCC“ kann jeweils ein Pluszeichen („+“) oder Minuszeichen („-“) hinzugefügt werden, um die relative Stellung innerhalb der Haupt-Rating-Kategorien zu verdeutlichen.

Die kurzfristige Fähigkeit eines Schuldners zur Erfüllung seiner finanziellen Verpflichtungen mit einem „A-1“-Rating ist stark. Er ist mit der höchsten Rating-Kategorie von Standard & Poor's bewertet.

Die von Standard & Poor's verwendete Rating-Skala für die kurzfristige Fähigkeit eines Schuldners zur Erfüllung seiner Verbindlichkeiten hat verschiedene Rating-Kategorien und reicht von „A-1“, welche die Kategorie höchsten Bonität bezeichnet, über die Kategorien „A-2“, „A-3“, „B“, „C“, „R“ und „SD“ bis zur niedrigsten Kategorie „D“, die kennzeichnet, dass Standard & Poor's davon ausgeht, dass der Zahlungsausfall einen allgemeinen Ausfall darstellen wird und Zahlungsausfälle bei allen oder nahezu allen fälligen Verpflichtungen des Schuldners eintreten werden.

„Stabil“ bedeutet, dass sich die Bonitätseinstufung voraussichtlich nicht ändern wird.

- ***Fitch Ratings Definitionen***

Ein „AA“-Rating eines Emittenten steht für ein sehr gering eingeschätztes Kreditrisiko. Es bezeichnet eine sehr gute Fähigkeit zur fristgerechten Zahlung der Verbindlichkeiten. Diese Fähigkeit ist durch vorhersehbare Ereignisse nicht wesentlich gefährdet.

Die von Fitch Ratings verwendete Rating-Skala für langfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „AAA“, die für die höchste Kreditqualität steht, über die Kategorien „AA“, „A“, „BBB“, „BB“, „B“, „CCC“, „CC“, „C“, „RD“ bis zur niedrigsten Kategorie „D“, die nach Fitch Ratings' Einschätzung kennzeichnet, dass ein Emittent sich in einem Insolvenzverfahren, unter Zwangsverwaltung, in einem Vergleichsverfahren, in

Auflösung oder einem anderen formellen Verfahren zur Abwicklung befindet oder in sonstiger Weise seine Geschäftstätigkeit eingestellt hat. Den Kategorien kann jeweils ein Plus- („+“) oder Minuszeichen („-“) beigefügt werden, um eine relative Einordnung innerhalb der Haupt-Rating-Kategorien auszudrücken. Solche Zusätze werden nicht der Rating-Kategorie „AAA“ oder den Rating-Kategorien unter „B“ beigefügt.

Ein „F1“-Rating bezeichnet die beste Fähigkeit für eine fristgerechte Zahlung der kurzfristigen Verbindlichkeiten. Soweit ein Pluszeichen („+“) hinzugefügt wird, hebt dies die außergewöhnlich gute Bonität hervor.

Die von Fitch Ratings verwendete Rating-Skala für kurzfristige Verbindlichkeiten hat verschiedene Kategorien und reicht von „F1“, die für die höchste Kreditqualität steht, über die Kategorien „F2“, „F3“, „B“, „C“ und „RD“ bis zur niedrigsten Kategorie „D“, die einen weitgehenden Zahlungsausfall eines Schuldners kennzeichnet.

Die oben aufgeführten Rating-Definitionen stammen in englischer Sprache von der jeweiligen Internetseite von Moody's Investors Service (www.moodys.com), Standard & Poor's (www.standardandpoors.com) bzw. Fitch Ratings (www.fitchratings.com).

Risikofaktoren:

Ziel der Beschreibung der Risikofaktoren ist es, potenzielle Käufer der Wertpapiere vor der Tötigung von Anlagen zu schützen, die nicht für ihre Zwecke geeignet sind, sowie die wirtschaftlichen und rechtlichen Risiken, die mit einer Anlage in die Wertpapiere verbunden sind, aufzuzeigen. Potenzielle Käufer der Wertpapiere sollten vor einer Anlageentscheidung die mit einer Anlage in die Wertpapiere verbundenen Risiken bedenken.

Risikofaktoren in Bezug auf die Emittentin und die Garantin:

Die Emittentin ist im Zusammenhang mit ihrer Geschäftstätigkeit einer Reihe von Risiken ausgesetzt, die für den Bankensektor typisch sind. Die Verwirklichung bestimmter Risiken kann sich nachteilig auf die Geschäfts-, Finanz- und Ertragslage der Emittentin und ihrer Tochtergesellschaften und damit auch auf die Geschäfts-, Finanz- und Ertragslage der Garantin auswirken, was wiederum die Fähigkeit (i) der

Emittentin zur Erfüllung ihrer Verbindlichkeiten aus den Wertpapieren gegenüber den Wertpapierinhabern (wie nachstehend definiert unter „Allgemeine Bedingungen/ Wertpapierinhaber“) und/oder (ii) der Garantin zur Erfüllung ihrer Verpflichtungen aus der Garantie beeinträchtigen kann. Zu den Faktoren, die die Geschäfts-, Finanz- und Ertragslage der Emittentin negativ beeinflussen können, gehören unter anderen (i) die allgemeine wirtschaftliche Lage und sonstige Geschäftsbedingungen, (ii) das Wettbewerbsumfeld, (iii) aufsichtsrechtliche Veränderungen und (iv) normale Bankrisiken, etwa veränderte Zinsen und Devisenkurse sowie operative, rechtliche, Kredit-, Markt- und Liquiditätsrisiken.

Risikofaktoren in Bezug auf die Wertpapiere:

Bestimmte Faktoren sind für die Einschätzung der Marktrisiken, die mit den Wertpapieren verbunden sind, von wesentlicher Bedeutung. Zu diesen Risiken zählen unter anderen: die Tatsache, dass (i) die Wertpapiere eine komplexe Struktur haben, die zu einem **vollständigen Verlust** der Anlage führen kann, (ii) die Wertpapiere möglicherweise nicht für alle Anleger eine geeignete Anlage darstellen, (iii) der Wert der Wertpapiere schwanken kann, (iv) der Ausgabepreis der Wertpapiere einen Ausgabeaufschlag, Provisionen und/oder sonstige Gebühren enthalten kann, (v) möglicherweise kein Sekundärmarkt für die Wertpapiere besteht, (vi) ein Kauf der Wertpapiere für Absicherungszwecke möglicherweise nicht effizient ist, (vii) sich Handlungen der Emittentin auf den Wert der Wertpapiere auswirken können, (viii) die Wertpapierinhaber über keine Eigentumsrechte an dem Basiswert (wie nachstehend definiert unter „Beschreibung der Wertpapiere“) verfügen, (ix) die Emittentin und/oder die Berechnungsstelle Anpassungen der Bedingungen aufgrund von den Basiswert betreffenden Ereignissen vornehmen können, (x) es zu Verzögerungen bei der Abrechnung der Wertpapiere kommen kann, (xi) Wertpapierinhaber möglicherweise zur Zahlung von Steuern verpflichtet sind, und (xii) die Wertpapiere von der Emittentin unter bestimmten Voraussetzungen vorzeitig gekündigt werden können.

Zu den sonstigen Risiken, die mit den Wertpapieren ver-

bunden sind, können gehören: (i) Risiken im Zusammenhang mit den Wertpapieren, die durch Globalurkunden (wie nachstehend definiert unter „Allgemeine Bedingungen/Form der Wertpapiere“) verbrieft bzw. die in dematerialisierter Form begeben werden, (ii) Risiken im Zusammenhang mit Vereinbarungen, die Wertpapierinhaber mit Dienstleistern über das Halten von Wertpapieren (Nominee-Vereinbarungen) abschließen, (iii) das Risiko, dass die mit einer Anlage in die Wertpapiere erzielte Rendite durch Gebühren beeinträchtigt wird, die für die Wertpapierinhaber anfallen, (iv) das Risiko, dass Gesetzesänderungen den Wert der Wertpapiere beeinträchtigen könnten, (v) das Risiko, dass die der Emittentin oder gegebenenfalls den Wertpapieren zugewiesenen Ratings nicht alle Risiken widerspiegeln, (vi) das Risiko, dass rechtliche Anlagevorschriften bestimmte Anlagen in die Wertpapiere einschränken, (vii) im Falle einer Finanzierung des Kaufs der Wertpapiere mittels eines Darlehens durch den Wertpapierinhaber das Risiko, dass er möglicherweise nicht in der Lage ist, den Darlehensbetrag zuzüglich Zinsen zurückzuzahlen, (viii) besondere Risiken im Zusammenhang mit den besonderen Merkmalen der verschiedenen Arten von Wertpapieren und (ix) besondere Risiken im Zusammenhang mit bestimmten Basiswerten der Wertpapiere (beispielsweise Rohstoffe, Terminkontrakte auf Rohstoffe, Fonds, Aktien, Aktienkörbe oder Aktienindizes).

Endgültige Bedingungen:

Für jede gemäß diesem Basisprospekt begebene Tranche von Wertpapieren werden so genannte „Endgültige Bedingungen“ veröffentlicht, in denen neben der Angabe der für die Wertpapiere maßgeblichen Bedingungen einige der bereits in diesem Basisprospekt enthaltenen Informationen wiederholt sein können (aber nicht müssen). In den Endgültigen Bedingungen werden möglicherweise derzeit nicht in diesem Basisprospekt enthaltene Informationen in den in diesem Basisprospekt enthaltenen Platzhaltern ergänzt oder derzeit in diesem Basisprospekt enthaltene Informationen gestrichen, falls sie sich in eckigen Klammern befinden, oder derzeit in diesem Basisprospekt enthaltene Informationen gemäß den Angaben in diesem

Basisprospekt angepasst.

Wertpapierbedingungen:

Die für die Wertpapiere geltenden Wertpapierbedingungen sind die unter „Allgemeine Bedingungen“ aufgeführten allgemeinen Bedingungen (die „**Allgemeinen Bedingungen**“) und die unter „Produktbedingungen“ aufgeführten wertpapierspezifischen Produktbedingungen (die „**Produktbedingungen**“). Die auf eine Tranche von Wertpapieren anwendbaren Endgültigen Bedingungen können die Allgemeinen Bedingungen und/oder die wertpapierspezifischen Produktbedingungen wiederholen, vervollständigen oder anpassen, um die spezifische Struktur, die auf die jeweilige Tranche von Wertpapieren anwendbar ist, zu reflektieren. Werden die Wertpapiere durch eine Globalurkunde verbrieft, werden der die betreffende Tranche der Wertpapiere verbriefenden Globalurkunde die Allgemeinen Bedingungen und die wertpapierspezifischen Produktbedingungen beigelegt. Die Allgemeinen Bedingungen und die für eine bestimmte Tranche von Wertpapieren geltenden Produktbedingungen werden als „**Bedingungen**“ bezeichnet.

Beschreibung der Wertpapiere:

Zertifikate sind Anlageinstrumente, bei denen nach Ausübung gemäß den Endgültigen Bedingungen – unter Berücksichtigung des für das jeweilige Zertifikat festgelegten Bezugsverhältnisses – entweder ein Zahlungsbetrag gezahlt wird, der sich nach dem Wert eines Basiswerts an einem oder mehreren festgelegten Tagen richtet („**Wertpapiere mit Barabrechnung**“) oder der Basiswert geliefert wird („**Wertpapiere mit physischer Lieferung**“), je nachdem, was in den Endgültigen Bedingungen angegeben ist. Mögliche Basiswerte für diese Zertifikate sind Rohstoffe, Terminkontrakte auf Rohstoffe, Währungen, Fonds, Indizes, Terminkontrakte auf Indizes, Aktien (mit Ausnahme von Aktien der Emittentin bzw. eines anderen Unternehmens der Gruppe) oder aus solchen Aktien zusammengestellte Körbe (jeweils ein „**Basiswert**“), bei Wertpapieren mit physischer Lieferung nur Aktien oder Aktienkörbe. Bei Wertpapieren mit physischer Lieferung ist es möglich, dass anstelle der Lieferung eines Bruchteils des Basiswerts ein Geldbetrag hinsichtlich dieses Bruchteils

gezahlt wird.

Die Wertpapiere verbriefen keinen Anspruch auf Zinszahlungen und generieren somit keine laufenden Zinserträge. Die Wertpapiere verbriefen auch keinen Anspruch auf Dividenden.

Die Zertifikate, die im Rahmen dieses Basisprospekts begeben werden können, haben eine feste Laufzeit und werden nachfolgend näher beschrieben.

Der Schutzmechanismus bzw. die Schutzmechanismen, den bzw. die einige der unter diesem Basisprospekt begebenen Zertifikate gewähren (z.B. die Möglichkeit einer Bonuszahlung bei Bonus Zertifikaten, die Einräumung eines Risikopuffers bei Discount Zertifikaten, die Währungsabsicherung bei Quanto Zertifikaten, wie jeweils nachfolgend beschrieben), ist bzw. sind von den Wertpapierinhabern zu bezahlen, indem diese weder Dividenden noch andere Ausschüttungen auf den Basiswert erhalten bzw. indem der auszuzahlende Betrag höhenmäßig begrenzt (gecappt) ist.

Bonus Zertifikate:

Bei Bonus Zertifikaten hängt der an den Wertpapierinhaber zu zahlende Auszahlungsbetrag bzw. zu liefernde Basiswert (i) von dem Kurs, Preis bzw. Stand des Basiswerts an dem in den Endgültigen Bedingungen angegebenen Datum (der „**Endgültige Referenzpreis**“) im Vergleich zu der in den Endgültigen Bedingungen angegebenen Barriere (die „**Barriere**“) und im Vergleich zu dem in den Endgültigen Bedingungen angegebenen Bonuslevel (der „**Bonuslevel**“) ab sowie (ii) davon, ob ein Knock-out-Bonus-Ereignis eingetreten ist oder nicht. Die Barriere liegt unterhalb des Bonuslevels. Ein „**Knock-out-Bonus-Ereignis**“ tritt ein, wenn der Kurs, Preis bzw. Stand des Basiswerts zu irgendeinem Zeitpunkt während des in den Endgültigen Bedingungen definierten Beobachtungszeitraums (der „**Beobachtungszeitraum**“) niedriger als die Barriere ist oder dieser entspricht.

Wenn kein Knock-out-Bonus-Ereignis eingetreten ist und der Endgültige Referenzpreis höher als die Barriere, jedoch niedriger als der Bonuslevel ist bzw. diesem entspricht,

erhält der Wertpapierinhaber einen festgelegten Betrag, der dem Produkt aus dem Bonuslevel und dem Bezugsverhältnis abzüglich etwaiger Kosten entspricht (Bonuszahlung).

Ist hingegen ein Knock-out-Bonus-Ereignis eingetreten oder ist der Endgültige Referenzpreis niedriger als die Barriere bzw. entspricht er der Barriere oder ist er höher als der Bonuslevel, erhält der Wertpapierinhaber einen Betrag, der dem Produkt aus dem Endgültigen Referenzpreis und dem Bezugsverhältnis abzüglich etwaiger Kosten entspricht. D.h. in diesem Fall werden die Bonus Zertifikate zu Trackerzertifikaten, die die Performance des Basiswerts widerspiegeln (allerdings ohne Beteiligung an Dividenden oder Zinszahlungen des Basiswerts), und es erfolgt keine Bonuszahlung. Falls der Basiswert aus Aktien oder einem Aktienkorb besteht, können die Bedingungen vorsehen, dass der Wertpapierinhaber statt eines Geldbetrags eine bestimmte Anzahl der zugrunde liegenden Aktien erhält, die im Wert dem Produkt aus dem Endgültigen Referenzpreis und dem Bezugsverhältnis abzüglich etwaiger Kosten entspricht. Es ist jedoch möglich, dass statt der Lieferung eines Bruchteils einer Aktie ein Geldbetrag hinsichtlich dieses Bruchteils gezahlt wird.

Grundsätzlich führt ein Fallen des Kurses, Preises bzw. Stands des Basiswerts (insbesondere, wenn der Kurs, Preis bzw. Stand der Barriere entspricht oder niedriger als sie ist) zu Verlusten der Inhaber von Bonus Zertifikaten.

Reverse Bonus Zertifikate:

Bei Reverse Bonus Zertifikaten hängt der an den Wertpapierinhaber zu zahlende Auszahlungsbetrag (wie bei normalen Bonus Zertifikaten) (i) von dem Endgültigen Referenzpreis im Vergleich zu der Barriere und im Vergleich zu dem Bonuslevel ab sowie (ii) davon, ob ein Knock-out-Bonus-Ereignis zu *irgendeinem Zeitpunkt* während des Beobachtungszeitraums eingetreten ist oder nicht.

Reverse Bonus Zertifikate funktionieren allerdings spiegelbildlich zu normalen Bonus Zertifikaten. Während grundsätzlich ein Fallen des Kurses, Preises bzw. Stands des Basiswerts zu Verlusten bei Inhabern von Bonus Zertifikaten führt, führt für Inhaber von Reverse Bonus

Zertifikaten ein Anstieg des Kurses, Preises bzw. Stands des Basiswerts zu Verlusten.

Daher liegt bei Reverse Bonus Zertifikaten die Barriere über dem Bonuslevel. Ferner tritt ein „**Knock-out-Bonus-Ereignis**“ ein, wenn der Kurs, Preis bzw. Stand des Basiswerts zu *irgendeinem Zeitpunkt* während des Beobachtungszeitraums höher als die Barriere ist oder dieser entspricht.

Wenn kein Knock-out-Bonus-Ereignis eingetreten ist und der Endgültige Referenzpreis niedriger als die Barriere, jedoch höher als der Bonuslevel ist bzw. diesem entspricht, erhält der Wertpapierinhaber ferner einen festgelegten Bonusbetrag, wie in den Endgültigen Bedingungen angegeben.

Ist hingegen ein Knock-out-Bonus-Ereignis eingetreten oder ist der Endgültige Referenzpreis höher als die Barriere bzw. entspricht er der Barriere oder ist er niedriger als der Bonuslevel, erhält der Wertpapierinhaber einen Betrag, der der umgekehrten Performance des Basiswerts zwischen dem Anfänglichen Referenzpreis und dem Endgültigen Referenzpreis, multipliziert mit dem Bezugsverhältnis abzüglich etwaiger Kosten entspricht.

Bei Reverse Bonus Zertifikaten tritt ein Totalverlust des investierten Kapitals schon dann ein, wenn der Kurs, Preis bzw. Stand des Basiswerts um 100% im Vergleich zum Anfänglichen Referenzpreis steigt.

Capped Bonus bzw. Capped Reverse Bonus Zertifikate:

Wenn Bonus Zertifikate oder Reverse Bonus Zertifikate „gecappt“ sind, ist der an den Wertpapierinhaber zu zahlende Auszahlungsbetrag auf einen in den Endgültigen Bedingungen angegebenen Betrag (der „**Höchstbetrag**“) begrenzt. In diesem Fall nimmt der Wertpapierinhaber bei Capped Bonus Zertifikaten nicht an einem Anstieg des Kurses, Preises bzw. Standes des Basiswerts über den in den Endgültigen Bedingungen angegebenen Cap (der „**Cap**“) hinaus bzw. bei Capped Reverse Bonus Zertifikaten nicht an einem Fallen des Kurses, Preises bzw. Standes des Basiswerts unter den Cap hinaus teil.

Discount Zertifikate:

Bei Discount Zertifikaten hängt der an den Wertpapier-

inhaber zu zahlende Auszahlungsbetrag bzw. zu liefernde Basiswert von dem Endgültigen Referenzpreis im Vergleich zu dem Cap ab.

Wenn der Endgültige Referenzpreis niedriger als der Cap ist, erhält der Wertpapierinhaber einen Betrag, der dem Produkt aus dem Endgültigen Referenzpreis und dem Bezugsverhältnis abzüglich etwaiger Kosten entspricht. Falls der Basiswert aus Aktien oder einem Aktienkorb besteht, können die Bedingungen vorsehen, dass der Wertpapierinhaber statt des vorgenannten Geldbetrags eine bestimmte Anzahl der zugrunde liegenden Aktien erhält, die im Wert dem Produkt aus dem Endgültigen Referenzpreis und dem Bezugsverhältnis abzüglich etwaiger Kosten entspricht. Es ist jedoch möglich, dass statt der Lieferung eines Bruchteils einer Aktie ein Geldbetrag hinsichtlich dieses Bruchteils gezahlt wird.

Wenn der Endgültige Referenzpreis höher als der Cap ist oder diesem entspricht, erhält der Wertpapierinhaber einen festgelegten Betrag, der dem Produkt aus dem Cap und dem Bezugsverhältnis abzüglich etwaiger Kosten entspricht.

Keinesfalls partizipiert der Wertpapierinhaber am Anstieg des Kurses, Preises bzw. Standes, der über den Cap hinausgeht. Andererseits ist der anfängliche Ausgabepreis von Discount Zertifikaten grundsätzlich niedriger als der Kurs, Preis bzw. Stand des Basiswerts (multipliziert mit dem Bezugsverhältnis), d.h. die Preisfestsetzung für Discount-zertifikate erfolgt mit einem Abschlag im Vergleich zu einer direkten Anlage in den Basiswert. Aufgrund des Discounts verfügen Discount Zertifikate über einen Risikopuffer, der Anleger bis zu einem gewissen Grad schützt, wenn der Kurs, Preis bzw. Stand des Basiswerts fällt. Dennoch ist das Totalverlustrisiko nicht ausgeschlossen.

Quanto Zertifikate:

Falls die Abrechnungswährung und die Referenzwährung nicht identisch sind, können Bonus Zertifikate, Reverse Bonus Zertifikate und Discount Zertifikate mit einem Quanto-Merkmal ausgestattet werden, d.h. es gibt einen festen Wechselkurs zwischen den beiden Währungen während der Laufzeit der Wertpapiere, wodurch die

Zertifikate eine Währungsabsicherung erhalten.

Ausgabepreis:

Die Zertifikate werden zu einem von der Emittentin festgelegten Preis verkauft; die Emittentin kann bei der Festlegung des Preises neben anderen Faktoren den Kurs, Preis bzw. Stand des Basiswerts, das maßgebliche Bezugsverhältnis und etwaige anwendbare Devisenkurse berücksichtigen. Der Ausgabepreis der Wertpapiere basiert auf internen Preisbildungsmodellen der Emittentin und kann aufgrund von Provisionen und/oder anderen Gebühren im Zusammenhang mit der Ausgabe und dem Verkauf der Wertpapiere (einschließlich an Vertriebsstellen oder Dritte gezahlter oder von der Emittentin einbehaltener Aufschläge) sowie aufgrund von Beträgen, die für die Absicherung der Verbindlichkeiten der Emittentin aus den Wertpapieren verwendet werden, höher als deren Marktwert sein. Vertriebsstellen der Wertpapiere, die eine Provision, Gebühr oder Zuwendung, die nicht in Geldform ist, erhalten, sind möglicherweise im Rahmen von einschlägigen gesetzlichen Vorschriften zur Offenlegung des Bestehens, des Wesens und der Höhe entsprechender Provisionen, Gebühren oder Zuwendungen gegenüber Anlegern verpflichtet. Anleger sollten sicherstellen, dass sie vor dem Kauf von Wertpapieren über eine Vertriebsstelle von dieser entsprechend informiert werden.

aufgeführt, die für alle im Rahmen dieses Basisprospekts begebenen Wertpapiere gelten.

Form der Wertpapiere:

Die Wertpapiere sind (mit Ausnahme der Wertpapiere, die in dematerialisierter Form begeben werden) Inhaberpapiere, die durch eine Inhaber-Sammelurkunde (die „**Globalurkunde**“) verbrieft sind, die bei der Clearingstelle hinterlegt wird und nur gemäß anwendbarem Recht sowie nach Maßgabe der Regeln und Verfahren der Clearingstelle, über deren Buchungssysteme die Übertragung der Wertpapiere erfolgt, übertragen werden.

Wenn die Wertpapiere in dematerialisierter Form begeben werden, werden sie in das Buchungssystem der Clearingstelle eingetragen. In diesem Fall werden die Rechte an den Wertpapieren zwischen den Inhabern von Konten bei der Clearingstelle gemäß den jeweils geltenden Gesetzen sowie den Vorschriften und Verfahren, die auf die Clearingstelle anwendbar bzw. von dieser erlassen worden sind, (die „**Anwendbaren Vorschriften**“) übertragen.

Die Endgültigen Bedingungen geben an, ob die Wertpapiere durch eine Globalurkunde verbrieft werden oder in dematerialisierter Form begeben werden.

Unabhängig davon, ob die Wertpapiere in einer Globalurkunde verbrieft werden oder in dematerialisierter Form begeben werden, werden keine Einzelurkunden ausgegeben.

Status der Wertpapiere:

Die Wertpapiere begründen unbesicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen unbesicherten und nicht nachrangigen gegenwärtigen und zukünftigen Verbindlichkeiten der Emittentin gleichrangig sind, mit

Ausnahme der Verbindlichkeiten, denen durch zwingende gesetzliche Bestimmungen ein Vorrang eingeräumt wird.

Mitteilungen:

Alle Mitteilungen gemäß den Bedingungen werden entweder (i) auf der Internetseite der Emittentin (oder einer Nachfolgesite) veröffentlicht und gelten mit dem Tag der Veröffentlichung als wirksam erfolgt oder werden (ii) an die Clearingstelle übermittelt und gelten mit der Übermittlung als wirksam erfolgt, es sei denn, die betreffende Mitteilung sieht ein anderes Datum für die Wirksamkeit vor. Auf welche Weise Mitteilungen erfolgen, ist in den jeweiligen Endgültigen Bedingungen angegeben. Zusätzliche Veröffentlichungsvorschriften im Rahmen zwingender gesetzlicher Vorschriften oder im Rahmen der Regeln oder Vorschriften maßgeblicher Börsen bleiben hiervon unberührt.

Ersetzung der Emittentin:

Die Emittentin kann jederzeit ohne die Zustimmung der Wertpapierinhaber sich selbst als Emittentin der Wertpapiere im Hinblick auf sämtliche Rechte, Verpflichtungen und Verbindlichkeiten aus oder im Zusammenhang mit den Wertpapieren durch eine andere Gesellschaft ersetzen (die „**Ersatzemittentin**“), sofern die diesbezüglich in den Endgültigen Bedingungen genannten Voraussetzungen (u.a. Mitteilung an die Wertpapierinhaber) erfüllt sind.

Besteuerung:

Der Wertpapierinhaber (und nicht die Emittentin) haftet für und/oder trägt sämtliche Steuern, Abgaben oder Lasten im Zusammenhang mit dem Eigentum und/oder der Übertragung, Zahlung oder Lieferung in Bezug auf die von ihm gehaltenen Wertpapiere. Die Emittentin ist berechtigt, von an Wertpapierinhaber zu zahlenden Beträgen solche Beträge einzubehalten bzw. abzuziehen, die jeweils zur Deckung bzw. Zahlung solcher Steuern, Abgaben oder Lasten oder zur Vornahme von Einbehalten oder sonstigen Zahlungen erforderlich sind.

Die Zahlung und/oder Lieferung erfolgt im Fall einer automatischen Ausübung vorbehaltlich der Vorlage einer Bescheinigung durch den Wertpapierinhaber.

Jede solche Bescheinigung muss die in den Produktbedingungen aufgeführten Angaben enthalten, unter anderem eine Erklärung dahingehend, dass der Wertpapierinhaber weder eine US-Person ist noch sich in den Vereinigten Staaten befindet.

Vorzeitige Kündigung:

Die Emittentin ist berechtigt, die Wertpapiere vorzeitig zu kündigen, (i) wenn sie nach ihrem billigen Ermessen festgelegt hat, dass die Erfüllung der Verbindlichkeiten aus den Wertpapieren für die Emittentin aufgrund der nach Treu und Glauben gebotenen Einhaltung der von einem Staat, einer Verwaltungsbehörde, einem Gesetzgeber oder einem Gericht erlassenen gegenwärtigen oder zukünftigen Gesetze, Verordnungen, Vorschriften, Urteile, Beschlüsse oder Richtlinien (das „**Anwendbare Recht**“) vollständig oder teilweise rechtswidrig ist oder wird, und (ii) falls sich bestimmte in den Endgültigen Bedingungen definierte Absicherungsstörungen ereignet haben. Kündigt die Emittentin in diesen Fällen vorzeitig, wird sie jedoch jedem Wertpapierinhaber, sofern und soweit nach Anwendbarem Recht zulässig, für jedes von einem solchen Wertpapierinhaber gehaltene Wertpapier einen Betrag zahlen, den die Emittentin nach ihrem billigen Ermessen als angemessenen Marktwert des Wertpapiers unmittelbar vor einer solchen Kündigung (ohne Berücksichtigung einer etwaigen Rechtswidrigkeit) festlegt, abzüglich der Kosten, die der Emittentin im Zusammenhang mit der Rückabwicklung der Geschäfte, die zur vollständigen oder teilweisen Absicherung der Verpflichtungen aus den Wertpapieren abgeschlossen wurden, entstanden sind.

RISK FACTORS

This “Risk Factors” section is to protect potential purchasers of bonus and discount certificates (the “Securities” or the “Certificates”) from making investments that are not suitable for their purposes as well as to set out economic and legal risks associated with an investment in the Securities.

Potential purchasers of the Securities should be aware of the risks associated with an investment in the Securities before making an investment decision. Hence, potential purchasers of the Securities should also read the rest of the information set out in this Base Prospectus and the registration document of RBS Holdings N.V. (the “Guarantor”) and The Royal Bank of Scotland N.V. (the “Issuer”) dated 1 July 2010 (the “Registration Document”) as well as in any supplements to this Base Prospectus approved by the BaFin pursuant to Section 16(1) WpPG (the “Supplements”) and in the so-called final terms (the “Final Terms”) prior to making any investment decision. To be able to make their own assessments prior to making any investment decision, potential purchasers of the Securities should consult their own stockbroker, banker, lawyer, accountant or other legal, tax or financial advisers and carefully review the risks entailed in an investment in the Securities and consider such an investment decision in the light of their personal circumstances.

The Issuer believes that the factors described below and in the Registration Document may affect (i) the Issuer’s ability to fulfil its obligations under the Securities issued and (ii) the ability of RBS Holdings N.V. (previously named ABN AMRO Holding N.V.) to fulfil its obligations under the Guarantee provided by RBS Holdings N.V. (previously named ABN AMRO Holding N.V.) with respect to the liabilities of the Issuer. In addition, factors which are material for the purpose of assessing the market risks associated with the Securities are also described below. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

The Issuer believes that the factors described below and in the Registration Document represent the principal risks inherent in investing in the Securities, but the inability of the Issuer to pay amounts on or in connection with any Securities may occur for other reasons than the factors described below. This may, for example, be due to the fact that, based on the information available to the Issuer as at the date of this Base Prospectus, the Issuer failed to identify, or anticipate the occurrence of, material risks.

1. RISK FACTORS RELATED TO THE ISSUER AND THE GUARANTOR

Each potential investor in the Securities should refer to the risk factors section of the Registration Document for a description of those factors which may affect the Issuer's and the Guarantor's ability to fulfil its obligations under the Securities issued.

2. RISK FACTORS RELATED TO THE SECURITIES

The Final Terms may replicate in part or in whole the risk factors set forth in this section and, in order to reflect the specific structure applicable to a specific tranche of Securities, contain additional risk factors. If the risk factors set forth in this section are replicated in the Final Terms, they may be adjusted to reflect the specific structure applicable to a specific tranche of Securities.

2.1 General Risks

The Securities are certificates which entail particular risks

Certificates are investment instruments which, following termination or exercise in accordance with the Final Terms, either pay a cash amount determined by reference to the value of an underlying on one or more specified days ("**cash settled Securities**") or deliver the underlying ("**physically settled Securities**"), subject to the multiplier, as specified in the Final Terms. Possible underlyings of the Certificates may be commodities, commodity forward contracts or commodity future contracts, currencies, funds, indices, index future contracts, shares (except those of the Issuer or of any other company of the Group) or baskets consisting of shares (each an "**Underlying**"), in case of physically settled Securities only shares or share baskets. In case of physically settled Securities it is possible that a cash amount is paid in respect of a fractional entitlement instead of delivery of this fractional entitlement. Certificates entail a risk which is linked to the valuation of the Underlying.

Investors should be aware that their entire investment may be lost in the event that the price or level of the Underlying decreases substantially.

Unlike direct investments in the Underlying, investors in the Securities are not able to hold the Securities beyond their stated term or the termination date in the expectation of a recovery in the price of the Underlying.

The Securities do not represent any claim to payment of interest, and thus do not generate any ongoing interest income. The Securities do not grant any claim to dividends either.

The price at which a Securityholder will be able to sell Securities prior to exercise or termination may be at a potentially substantial discount to the issue price and/or market value of the Securities.

"**Securityholder**" is, in case of Securities represented by a global bearer security (the "**Global Security**"), the holder of a unit in the Global Security and, in case of Securities issued in dematerialised form, a person in whose name a Security is registered in the book-entry system of the Clearing Agent, or any other person recognised as a holder of Securities pursuant to the legislation,

rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time. “**Clearing Agent**” is Clearstream Banking AG, Frankfurt, Clearstream Banking, société anonyme, Luxembourg and Euroclear Bank S.A./N.V. as operator of the Euroclear system and/or any other or further clearing agent(s) as specified in the Final Terms.

The Securities may not be a suitable investment for all investors

Each potential investor in the Securities must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Securities, the merits and risks of investing in the Securities and the information contained in this Base Prospectus or the Final Terms or incorporated by reference;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Securities and the impact the Securities will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Securities, including Securities where payments are to be made in one or more currencies, or where the currency for any payments is different from the currency of the country where the potential investor is resident;
- (d) understand thoroughly the terms of the Securities and be familiar with the behaviour of any relevant indices and financial markets; and
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for the development of economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Securities are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. A potential investor should not invest in Securities which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of the Securities and the impact this investment will have on the potential investor’s overall investment portfolio.

The value of the Securities may fluctuate

Securityholders may sustain a total loss of their investment. Potential investors should therefore ensure that they understand fully the nature of the Securities before they invest in the Securities.

Several factors, many of which are beyond the Issuer's control, will influence the value of the Securities at any time, including the following:

- (a) *Valuation of the Underlying.* The market price of the Securities is expected to be affected primarily by changes in the price or level of the Underlying to which such Securities are linked. It is impossible to predict how the price or level of the relevant Underlying will vary over time. Factors which may have an affect on the price or level of certain Underlyings include the rate of return of such Underlyings and the financial position and prospects of the issuer of such Underlyings or any component thereof. In addition, the price or level of the Underlying may depend on a number of interrelated factors, including economic, financial and political events and their effect on the capital markets generally and the relevant stock exchanges. Potential investors should also note that whilst the market value of the Securities is linked to the relevant Underlying and will be influenced (positively or negatively) by it, any change in the performance of the Securities may not be comparable and may be disproportionate as compared to the change of the Underlying. It is possible that while the Underlying is increasing in value, the value of the Securities may fall. Further, where no market value is available for an Underlying, The Royal Bank of Scotland N.V. in its capacity as calculation agent or such other entity as specified in the Final Terms (the "**Calculation Agent**") may determine its value to be zero notwithstanding the fact that there may be no Market Disruption Event, Fund Disruption Event, Emerging Market Disruption Event, Settlement Disruption Event or any other disruption event and/or no Adjustment Event or Potential Adjustment Event (each of these events as specified in the Final Terms) which applies.
- (b) *Interest Rates.* Investments in the Securities may involve interest rate risks with respect to the currency of denomination of the Underlying and/or the Securities. A variety of factors influence interest rates, such as macroeconomic, governmental, speculative, and market sentiment factors. Such fluctuations may have an impact on the value of the Securities.
- (c) *Volatility.* The term "volatility" refers to the actual and anticipated frequency and magnitude of changes of the market price with respect to an Underlying. Volatility is affected by a number of factors such as macroeconomic factors, speculative trading and supply and demand in the options, futures and other derivatives markets. Volatility of an Underlying will move up and down over time (sometimes more sharply than others) and different Underlyings will usually have separate volatilities at any particular time.
- (d) *Exchange Rates.* Even where payments with respect to the Securities are not expressly linked to a rate or rates of exchange between currencies, the value of the Securities could, in certain circumstances, be affected by such factors as fluctuations in the rates of exchange between any currency in which any payment with respect to the Securities is to be made and any currency in which the Underlying is traded, appreciation or depreciation of any such currencies and any existing or future governmental or other restrictions on the exchangeability of such currencies. There can be no assurance that rates of exchange between any relevant

currencies which are current rates on the issue date of any Securities will be representative of the relevant rates of exchange used in computing the value of the relevant Securities at any time thereafter. Where Securities are described as “Quanto”, the price or level of the Underlying will be converted from one currency (the “**Underlying Currency**”) into another currency (the “**Settlement Currency**”) on the date and in the manner specified in the Final Terms using a fixed exchange rate. No assurance can be given as to whether or not, taking into account relative exchange rate and interest rate fluctuations between the Underlying Currency and the Settlement Currency, a quanto feature in a Security would at any time enhance the return on the Security over a level of a similar security issued without such a quanto feature.

- (e) *Disruption Events.* The Calculation Agent may determine that a disruption event, including but not limited to a Market Disruption Event, a Fund Disruption Event, an Emerging Market Disruption Event, or a Settlement Disruption Event, (each of these events as specified in the Final Terms) has occurred or exists at a relevant time. Such determination may negatively affect the value of the Securities and the pay out under the Securities and/or may delay settlement with respect to the Securities. Potential investors should review the Final Terms to ascertain whether and how such provisions apply to the Securities.
- (f) *Creditworthiness.* Any person who purchases the Securities is relying upon the creditworthiness of the Issuer and of the Guarantor and has no rights against any other person. The Securities constitute unsecured and unsubordinated obligations of the Issuer only. The Securities rank pari passu among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer save for those preferred by mandatory provisions of law.

Pricing of Securities and impact of agio, commission, fees etc. on pricing

The issue price with respect to the Securities is based on internal pricing models of the Issuer and may be higher than the market value of the Securities, and the price, if any, at which any person is willing to purchase such Securities in secondary market transactions may be lower than the issue price with respect to such Securities. In particular, the issue price may include (irrespective of any agio which may be payable) commissions and/or other fees relating to the issue and sale of the Securities (including a margin paid to distributors or third parties or retained by the Issuer) as well as amounts relating to the hedging of the Issuer’s obligations under such Securities, and secondary market prices are likely to exclude such amounts. In addition, pricing models of other market participants may differ or produce a different result.

There may not be a secondary market in the Securities

There is a risk that investors have to hold the Securities through their life and cannot sell them prior to an exercise or termination. The nature and extent of any secondary market in the Securities cannot be predicted. Therefore, there is a risk of lack of liquidity in the Securities. If the Securities are listed or quoted on an exchange or quotation system this does not imply greater or lesser liquidity than if

equivalent Securities were not so listed or quoted. However, if Securities are not listed or quoted on an exchange or quotation system there may be a lack of transparency with regard to pricing information. Liquidity may also be affected by legal restrictions on offers for sale in certain jurisdictions. The Issuer may affect the liquidity of the Securities by purchasing and holding the Securities for its own account during trading in the secondary market. Any Securities repurchased by the Issuer may be resold at any time in the market.

Purchasing the Securities as a hedge may not be effective

Any person intending to use the Securities as a hedge instrument should recognise the correlation risk. The Securities may not be a perfect hedge to an Underlying or portfolio of which the Underlying forms a part. In addition, it may not be possible to liquidate the Securities at a price which directly reflects the price of the Underlying or portfolio of which the Underlying forms a part.

Actions taken by the Issuer may affect the value of the Securities

The Issuer and/or any of its affiliates may carry out activities, including effecting transactions for their own account or for the account of their customers and hold long or short positions in the Underlying, whether for risk reduction purposes or otherwise. In addition, in connection with the offering of any Securities, the Issuer and/or any of its affiliates may enter into one or more hedging transactions with respect to the Underlying. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer and/or any of its affiliates, the Issuer and/or any of its affiliates may enter into transactions in the Underlying which may affect the market price, liquidity or price or level of the Underlying and/or the Securities and which could be deemed to be adverse to the interests of the Securityholders. The Issuer and/or its affiliates are likely to modify their hedging positions throughout the life of the Securities whether by effecting transactions in the Underlying or in derivatives linked to the Underlying. Further, it is possible that the advisory services which the Issuer and/or its affiliates provide in the ordinary course of its/their business could lead to an adverse impact on the price or level of the Underlying.

Securityholders have no ownership interest in the Underlying

The Issuer is entitled but not obliged to hold the Underlying or enter into any derivatives contracts linked to the Underlying. Even if the Issuer chooses to do so, the Securities do not convey any ownership interest in the Underlying to the Securityholders. Furthermore, there is no restriction on the ability of the Issuer and/or its affiliates to sell, pledge or otherwise convey all right, title and interest in any Underlying held by it or any derivatives contracts linked to the Underlying entered into by it.

Actions taken by the Issuer and/or the Calculation Agent as a consequence of events affecting the Underlying

The Calculation Agent is the agent of the Issuer and not the agent of the Securityholders or any of them. The Issuer may itself act as the Calculation Agent. The Calculation Agent will make such adjustments to the General Conditions and the Product Conditions applying to a specific tranche of Securities (together, the “**Conditions**”) as it considers appropriate as a consequence of any disruption

events or certain actions (e.g. corporate actions) affecting the Underlying. The “**General Conditions**” are the general conditions of the Securities and the securities-specific product conditions are the “**Product Conditions**”. In making these adjustments the Calculation Agent is entitled to exercise substantial discretion and may be subject to conflicts of interest in exercising this discretion. The Calculation Agent is not required to make adjustments with respect to each and every disruption event or action (e.g. corporate action) affecting the Underlying.

There may be delays in effecting settlement

There may be a time lag between the time of exercise and the determination of the amount payable or the Underlying deliverable. In addition, there may be a delay in settlement due to a disruption event including but not limited to a Market Disruption Event, a Fund Disruption Event, an Emerging Market Disruption Event, or a Settlement Disruption Event. Payments or deliveries under the Securities (as the case may be) may decrease from what they would have been but for such delay.

The failure to duly deliver any certification required under the Conditions could also result in a delay in receiving any amounts or deliveries otherwise due under the Securities.

Taxes may be payable by the Securityholders

Potential investors in, and sellers of, the Securities should be aware that they may be required to pay taxes, duties or other charges in accordance with the laws and practices of the country where the Securities are transferred. Pursuant to the provisions of General Condition 7, the Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other similar payment which may arise as a result of the ownership, transfer or exercise of any Securities and the Securityholder shall be liable for and/or pay any tax, duty or charge in connection with the ownership of and/or any transfer, payment or delivery in respect of the Securities held by such Securityholder. The Issuer shall have the right, to withhold or deduct from any amount payable such amount, as shall be necessary to account for or to pay any such tax, duty, charge, withholding or other payment. Furthermore, any payment and/or delivery due with respect to the Securities will be conditional upon the payment of any expenses as provided in the Product Conditions.

Potential investors who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential investors should be aware that tax regulations and their application by the relevant taxation authorities may change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

The Securities may under certain circumstances be terminated by the Issuer prior to their stated date

The Issuer has the right to terminate the Securities early (i) if it shall have determined in its reasonable discretion (*billiges Ermessen*) that its performance thereunder is or will become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (the “**Applicable Law**”) and (ii) upon the occurrence of a

Hedging Disruption Event as specified in the Final Terms. If the Issuer terminates early in such circumstances, it will, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring the illegality, if any) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities.

Risks associated with Securities represented by a Global Security or issued in dematerialised form

The Securities, except in the case of Securities issued in dematerialised form, are bearer securities which are represented by a Global Security deposited with the Clearing Agent, and will be transferable only in accordance with the applicable law and the rules and procedures of the Clearing Agent through whose systems the Securities are transferred. If the Securities are issued in dematerialised form (the “**Dematerialised Securities**”), they will be registered in the book-entry system of the Clearing Agent. In that case, title to the Securities will pass by transfer between accountholders at the Clearing Agent perfected in accordance with the legislation, rules and regulations applicable to and/or issued by the Clearing Agent that are in force and effect from time to time. In either case (whether in global or in dematerialised form), no definitive securities will be issued.

Irrespective of whether the Securities are represented by a Global Security or issued as Dematerialised Securities, the Issuer has no responsibility or liability under any circumstances for any acts and omissions of the relevant Clearing Agent as well as for any losses which might occur to a Securityholder out of such acts and omissions in general and for records relating to, or payments made in respect of, the Securities.

Risk associated with nominee arrangements

Where a nominee service provider is used by a Securityholder to hold its Securities or such Securityholder holds interests in any Security through accounts with a Clearing Agent, such Securityholder will receive payments or deliveries solely on the basis of the arrangements entered into by the Securityholder with the nominee service provider or Clearing Agent, as the case may be. Furthermore, such Securityholder must rely on the nominee service provider or Clearing Agent to distribute all payments or securities attributable to the relevant Securities which are received from the Issuer. Accordingly, such a Securityholder will be exposed to the credit risk of, and default risk with respect to, the nominee service provider or Clearing Agent, as well as the Issuer.

In addition, such a Securityholder will only be able to sell any Securities held by it prior to their stated term with the assistance of the nominee service provider.

None of the Issuer or The Royal Bank of Scotland N.V. in its capacity as paying agent or such other entity as specified in the Final Terms (the “**Paying Agent**”) shall be responsible for the acts or omissions of any nominee service provider or Clearing Agent nor does it make any representation or

warranty, express or implied, as to the service provided by any nominee service provider or Clearing Agent.

The return on an investment in the Securities will be affected by charges incurred by the Securityholders

A Securityholder's total return on an investment in the Securities will be affected by the level of fees charged by the nominee service provider and/or the Clearing Agent used by the Securityholder. Such a person or institution may charge fees for the opening and operation of an investment account, transfers of Securities, custody services and on payments or deliveries. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the relevant Securities.

Changes of law may affect the value of the Securities

The Conditions are based on the law set forth in the respective Product Condition which may be German law or any other law specified in the Final Terms. No assurance can be given as to the impact of any possible change to such law or judicial or administrative practice in the relevant jurisdiction after the date of this Base Prospectus.

Ratings may not reflect all risks

One or more independent rating agencies may assign credit ratings to the Issuer or the Securities. The ratings may not reflect the potential impact of all risks related to the structure of the Securities, the market, additional factors discussed above and other factors that may affect the value of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment constraints may restrict certain investments

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) the Securities qualify as legally permissible investments for it, (ii) the Securities can be used as collateral for various types of borrowing and (iii) other restrictions apply to the purchase or pledge of any Securities. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of the Securities under any applicable risk-based capital or similar rules.

Use of loans

If an investor uses a loan to finance the purchase of the Securities, not only does it have to absorb the loss if the Securities fail to develop as expected, but it must also repay the loan principal plus interest. This increases the investor's risk of loss significantly. Investors should never count on paying interest and principal with profits from an investment in Securities. Instead, potential purchasers of Securities should first examine their financial situation in order to determine whether they will be able to pay the interest, and if necessary, repay the loan on short notice, even if the expected profits turn into losses.

2.2 Special Risks

Factors which are material for the purpose of assessing the market risks associated with the Securities

General

The protection mechanism(s) provided by some of the Certificates issued under this Base Prospectus (e.g. the possibility of a bonus payment in case of Bonus Certificates, the granting of a safety buffer in case of Discount Certificates, the currency hedge in case of Quanto Certificates, in each case as described hereinafter) is/are paid for by the Securityholders to the extent that they receive neither dividends nor any other distributions from the Underlying and/or that the pay-out may be capped.

Bonus Certificates

In case of Bonus Certificates the cash amount payable or the Underlying deliverable to the Securityholder (as the case may be) depends (i) upon the price or level of the Underlying *on the date specified* in the Final Terms (the “**Final Reference Price**”) compared to the barrier specified in the Final Terms (the “**Barrier**”) and compared to the bonus level specified in the Final Terms (the “**Bonus Level**”) and (ii) upon whether or not a Knock-out Bonus Event has occurred. The Barrier is lower than the Bonus Level. A “**Knock-out Bonus Event**” occurs if the price or level of the Underlying is lower than or equal to the Barrier *at any time* during the observation period as defined in the Final Terms (the “**Observation Period**”).

If a Knock-Out Event has occurred or if the Final Reference Price is lower than or equal to the Barrier or greater than the Bonus Level, the Securityholder will receive an amount corresponding to the Final Reference Price multiplied by the multiplier, less expenses (if any). In these events, Bonus Certificates will become tracker certificates tracking the performance of the Underlying (however without entitlement to dividends or interest payments of the Underlying) and no bonus payment will be made. A bonus payment is a fixed amount corresponding to the Bonus Level multiplied by the multiplier, less expenses (if any). It is paid only if no Knock-out Bonus Event has occurred and if the Final Reference Price is greater than the Barrier but lower than or equal to the Bonus Level.

In case of shares or a basket of shares as Underlying the Conditions may provide that the Securityholder may receive, instead of a cash amount, a number of the underlying shares corresponding in value to the Final Reference Price multiplied by the multiplier, less expenses (if any). It is, however, possible that a cash amount is paid with respect to a fractional entitlement instead of delivery of this fractional entitlement.

As a general rule, a decrease of the price or level of the Underlying (in particular if the price or level equals or falls below the Barrier) leads to losses for holders of Bonus Certificates.

Reverse Bonus Certificates

In case of Reverse Bonus Certificates (like in regular Bonus Certificates – see above) the cash amount payable to the Securityholder depends (i) upon the Final Reference Price compared to the

Barrier and compared to the Bonus Level and (ii) upon whether or not a Knock-out Bonus Event has occurred *at any time* during the Observation Period.

However, Reverse Bonus Certificates work inversely to regular Bonus Certificates. Whereas, as a general rule, for holders of regular Bonus Certificates a decrease in the price or level of the Underlying leads to losses, for holders of Reverse Certificates an increase in the price or level of the Underlying leads to losses.

As a consequence thereof, in case of Reverse Bonus Certificates, the Barrier is higher than the Bonus Level and a “**Knock-out Bonus Event**” occurs if the price or level of the Underlying is greater than or equal to the Barrier *at any time* during the Observation Period.

If a Knock-Out Event has occurred or if the Final Reference Price is greater than or equal to the Barrier or lower than the Bonus Level, the Securityholder will receive an amount which reflects the reverse performance of the Underlying between the Initial Reference Price and the Final Reference Price multiplied by the multiplier, less expenses (if any).

In case of Reverse Bonus Certificates, a total loss of the invested amount will occur already if the price or level of the Underlying increases by 100% as compared to the Initial Reference Price.

Capped Bonus Certificates and Capped Reverse Bonus Certificates

If Bonus Certificates or Reverse Bonus Certificates are “capped”, the cash amount payable to the Securityholder is limited to an amount specified in the Final Terms (the “**Maximum Amount**”). In this event, in case of Capped Bonus Certificates the Securityholder will not participate in an increase in the price or level of the Underlying exceeding the cap specified in the Final Terms (the “**Cap**”), and in case of Capped Reverse Bonus Certificates the Securityholder will not participate in a decrease in the price or level of the Underlying falling below the Cap.

Discount Certificates

In case of Discount Certificates the cash amount payable or the Underlying deliverable to the Securityholder (as the case may be) depends upon the Final Reference Price compared to the Cap.

If the Final Reference Price is lower than the Cap, the Securityholder will receive an amount corresponding to the Final Reference Price multiplied by the multiplier, less expenses (if any). In case of shares or a basket of shares as Underlying the Conditions may provide that the Securityholder may receive, instead of the before-mentioned cash amount, a number of the underlying shares corresponding in value to the Final Reference Price multiplied by the multiplier, less expenses (if any). It is, however, possible that a cash amount is paid with respect to a fractional entitlement instead of delivery of this fractional entitlement.

If the Final Reference Price is greater than or equal to the Cap, the Securityholder will receive a fixed amount corresponding to the Cap multiplied by the multiplier, less expenses (if any).

In any event, the Securityholder will not participate in an increase in the price or level of the Underlying exceeding the Cap.

2.3 Risks Relating to the Underlying

Certain Underlyings to which the Securities are linked are subject to certain risks

Special risks associated with commodities

In general, there are three main categories of commodities: mineral commodities (e.g. oil, gas, aluminium and copper), agricultural products (e.g. wheat and corn) and precious metals (e.g. gold and silver). Most commodities are traded on specialised exchanges or directly among market participants in the form of over the counter dealings (off-exchange) through largely standardised contracts.

The price risks inherent in commodities are often complex, as prices are subject to greater fluctuations (volatility) in this investment category than in other investment categories. In particular, commodities markets are less liquid than bond, currency or stock markets so that supply and demand changes materially affect prices and volatility. Consequently, investments in commodities are associated with greater risks and are more complex than investments in bonds, currencies or stocks.

There are numerous and complex factors affecting commodity prices. The following is a non-exhaustive list of several typical factors affecting commodity prices:

- (a) *Supply and demand.* Planning and managing the commodities supply is very time-consuming. As a result, there is little room for manoeuvre on the supply side and it is not possible to quickly adjust production to demand changes at all times. Demand may also differ on a regional scale. Likewise, prices are affected by the costs of transport to regions where commodities are needed. The cyclical behaviour of some commodities, e.g. agricultural products that are seasonally grown or produced, may entail heavy price fluctuations.
- (b) *Direct investment costs.* Direct investments in commodities are associated with storage and insurance costs as well as taxes. In addition, commodities do not pay interest or dividends. These factors affect the total return of commodities.
- (c) *Liquidity.* Not all commodities markets are liquid and able to react quickly and in a sufficient scope to changes in the supply and demand situation. As only few market participants are trading in the commodities markets, heavy speculative activity may have adverse consequences and cause price distortions.
- (d) *Weather and natural disasters.* Unfavourable weather conditions may affect the supply of certain commodities for the entire year. A supply crisis triggered by unfavourable weather conditions may lead to heavy and unpredictable price fluctuations. Likewise, the spread of diseases and the outbreak of epidemics may affect the prices of agricultural products.
- (e) *Political risks.* Commodities are often produced in emerging markets and in demand from industrial countries. Often, however, the political and economic situation in emerging markets is far less stable than in the industrial countries. Emerging markets are far more susceptible to the risks associated with swift political changes and economic downturns. Political crises may

shake the confidence of investors which, in turn, may affect the prices of commodities. Military or other conflicts may change the supply and demand patterns of certain commodities. Moreover, industrial countries may impose embargos on exported or imported goods and services, which may have a direct or indirect impact on the commodity prices. In addition, several commodities producers have formed organisations or cartels in order to regulate supply and, thus, prices.

- (f) *Taxation.* Changes in tax rates and tariffs may decrease or increase the profitability of commodities producers. Where such costs are passed on to investors, changes in tax rates and tariffs affect the prices of the respective commodities.

Past Performance. The past performance of the commodity is no guarantee of future results even if the past performance of the commodity has been tracked for a longer time.

Special risks associated with forward contracts and futures contracts

Commodity forward and future contracts are standardised forward and futures transactions that are linked to commodities (e.g. mineral commodities, agricultural products and precious metals), whereas financial forward and futures contracts are standardised forward and futures transactions that are linked to financial instruments (e.g. shares, indices and foreign currencies).

A forward or futures transaction constitutes the contractual obligation to buy or sell a certain amount or number of the respective underlying at a fixed price and at a pre-determined future point in time. Forward and futures contracts are traded on futures exchanges and standardised for this purpose as regards their contract size, the nature and quality of the underlying as well as delivery places and dates, if any.

Generally, there is a strong correlation between the price development of an underlying on the spot market and the corresponding futures exchange. However, forward and futures contracts are often traded at a premium on, or discount from, the spot price of the underlying. In the terminology used on futures exchanges, the difference between the spot price and the futures price is called “contango” or “backwardation”, as the case may be, and is a result of the inclusion of costs usually incurred in connection with spot transactions (storage, delivery, insurance etc.) and of income usually generated with spot transactions (interest, dividends etc.) on the one hand and differences in the evaluation of general market factors prevailing on the spot market and the futures exchange and the corresponding expectations of market participants on the other hand. Moreover, liquidity on the spot market may differ considerably from liquidity on the corresponding futures exchange, depending on the underlying.

Furthermore, when investing in commodity forward and future contracts, investors may find themselves in situations where the prices of commodity forward and future contracts expiring at a later date are higher (contango) or lower (backwardation) than the current spot price of the respective commodity. As the expiry date of the respective futures contract approaches, the futures price and the spot price of the respective commodity converge so that the Security linked to the respective futures contract may show a negative performance despite the fact that the spot price of the commodity is increasing.

If the Securities are linked to the exchange price of the underlying forward and futures contracts, knowledge of the market of the underlying to which the respective forward or futures contract is linked as well as of the functioning and evaluation factors of forward and futures contracts is necessary to make a valid assessment of the risks associated with the purchase of these Securities. If the underlying to which the forward or futures contract is linked is a commodity, the risk factors set out in “*Special risks associated with commodities*” above should be taken into account in addition to the risk factors described in this subsection.

Special risks associated with fund underlyings

Risk of short operating history. As at the date of the issuance of Securities linked to a fund, the underlying fund (the “**Underlying Fund**”) may have only a short operating history, the strategies that will be applied by the Underlying Fund may not have previously been used, and such strategies may deliver disappointing results over the longer term.

Past Performance. The past performance of the Underlying Fund is no guarantee of future results even if the Underlying Fund has a longer operating history.

Fees at various levels. In case of funds, fees can arise at various levels. At the level of the fund itself, fees arise on a regular basis, for instance in the form of administration fees. Additional fees and expenses may arise and be charged due to the contracting of third parties for services in connection with the management of the fund.

At the level of the investments made by the fund, fees can arise, for instance when an investment is made in other funds or other investment vehicles, which adversely affect the performance of such investments, and thus also the value of the fund assets.

Furthermore, performance-based fees may arise with regard to individual investments, even though a loss may have been incurred on the basis of the aggregate investments made.

Liquidity risk. When there is no buyer regarding units of the Underlying Fund and investments in the fund cannot be readily sold at the desired time or price, or, in the case the Underlying Fund is a fund of funds, the Underlying Fund may not be able to sell funds comprising its portfolio, the Underlying Fund may suffer price decreases all of which can adversely affect the value of the Securities. If the instruments in which the fund has invested are illiquid, the fund may incur considerable delays when trying to sell such investments. During the period of such a delay, the price of the relevant investment may change considerably. As a result, the fund may suffer substantial losses, which in turn may have a negative impact on the value of a fund unit. This can also lead to difficulties in calculating the net asset value of the fund which may lead to adverse consequences for the Securities.

Postponement or suspension of redemptions. A fund to which the Securities relate may cease or limit redemption of fund units with effect for a valuation date which is relevant for the calculation of an amount payable under the Securities. This can lead to delays in the payments on, or redemptions regarding, the Securities and to lower payments under the Securities.

Delayed publication of the net asset value. A fund to which the Securities relate may publish the net asset value with a delay which may lead to postponements for the calculations under the Securities.

Concentration on certain countries, industries or investment classes. It is possible that the fund to which the Securities relate concentrates its assets on certain countries, industries or investment classes. In such case, it can be subject to higher fluctuations in value than it would be if the risks were more diversified between industries, regions and countries. The value of investments in certain countries, industries and investment classes can be subject to high fluctuations within short periods of time.

Risks involved in less regulated markets. It is possible that an Underlying Fund invests in less regulated, tight and exotic markets. In such a case, there is the risk of government interventions which lead to a total or partial loss of the invested capital or of access to the capital invested there. Furthermore, an Underlying Fund might not be subject to any regulation or may invest in investment vehicles which are not subject to any regulation. Conversely, the introduction of regulation of a previously unregulated fund may create significant disadvantages for such funds.

Special risks connected with investments in alternative investment vehicles. A fund to which the Securities relate may carry a number of risks which are generally involved in investments in alternative investment vehicles. These include, among other things, insufficient transparency, lack of investment restrictions, concentration of risks, non-listed assets where it is difficult to estimate the net asset value, valuation errors, leverage, use of derivatives, short selling and trading with illiquid instruments. Furthermore, there is the risk of fraud or misrepresentation on the part of a trading adviser, manager or other service provider of an investment vehicle.

Conflicts of interest. Certain conflicts of interest may arise in connection with the business activities of a fund.

A trustee, manager or adviser of the fund can be in a potential conflict of interest due to, among other things, fee reimbursements or other advantages. For instance, a performance-based fee may be an incentive to invest in risky investments in order to achieve higher returns. In addition, when investment opportunities are scarce, an investment adviser may be tempted to arrange investments first for those persons who pay the highest fee.

Moreover, advisers of the fund and their respective employees can perform management, trading or consulting services for other accounts. One of these parties may be tempted to give preference to those portfolios carrying the highest fee.

Likewise, advisers of the fund and their respective employees can perform management, trading or consulting services for their own accounts and the accounts of other customers, and make recommendations or enter into positions that differ from those made for the fund or held by or for the fund or that compete with the fund. Persons entrusted with the management of the fund assets may receive performance-based fees, but do not participate in potential losses. This could be an incentive to enter into riskier transactions.

Moreover, persons affiliated with an administrator, manager, trustee or other person involved in the administration of the fund may enter into their own legal transactions with the fund.

There may be conflicts of interest other than those mentioned above.

Currency risk. The portfolio of the Underlying Fund may include investments which are denominated in a currency other than the currency of the fund (the “**Underlying Fund Currency**”) and some income by the fund may be received in a currency other than the Underlying Fund Currency. Even if the Underlying Fund entered into a forward foreign exchange contract for currency hedging purposes, the relevant forward foreign exchange contract would not constitute a perfect hedge. Accordingly, the net asset value of the assets may be adversely affected by changes in the value of the currencies of the investments relative to the Underlying Fund Currency.

Further risks to funds in general. Further risks common to all funds include:

- (a) the risk that the price of one or more of the assets in the Underlying Fund’s portfolio will fall, or will fail to rise. Many factors can adversely affect an asset’s performance, including both general financial market conditions and factors related to a specific asset or asset class;
- (b) general macro-economic or asset class specific factors, including interest rates, rates of inflation, financial instability, lack of timely or reliable financial information or unfavourable political or legal developments;
- (c) asset allocation policies of the investment adviser;
- (d) credit worthiness and the risk of default of the asset or of the assets generally in that class of assets;
- (e) the risk that the Underlying Fund’s investment objectives and/or investment restrictions as set out in its constitutive documents are materially changed, not complied with or the method of calculating the value of the Underlying Fund shares is materially changed;
- (f) the risk that the Underlying Fund is liquidated, dissolved or otherwise ceases to exist or it or the investment adviser is subject to a proceeding under any applicable bankruptcy, insolvency or other similar law;
- (g) the risk that the Underlying Fund or the investment adviser is subject to a fraud event;
- (h) the risk that under certain circumstances the Underlying Fund may be subject to the actions of other investors in the investment vehicles in which it is invested. For instance, a significant redemption of shares could cause liquidation of assets; and
- (i) the risk that the investment adviser will not manage the Underlying Fund in relation to maximise return under the Securities but solely in accordance with the investment objectives and/or investment restrictions applicable to the Underlying Fund.

Special risks associated with shares, baskets of shares and share indices

Risks related to foreign exchange controls. Potential investors should note that payments under the Securities by the Issuer with respect to stock basket or single stock Securities can be subject to the ability of the Issuer to sell the Underlying and to there being no foreign exchange control restrictions, including restrictions which prevent the conversion of the Underlying Currency into the Settlement Currency and the transfer of the Settlement Currency to accounts outside the jurisdiction of the Underlying.

Risks applicable where the Underlying is a price index related to shares. If the Underlying is a price index (contrary to a performance index), dividends paid out result in a decrease in the level of the index. Securityholders thus do not participate in any dividends or other distributions on the shares contained in the price index.

Dividends and distributions. Unless otherwise specified in the relevant Product Conditions, investors receive neither dividends nor any other distributions from the underlying shares.

Influence of the Issuer on the composition of an underlying index. The composition of an index may be determined in such a way that the index sponsor determines the composition and carries out the calculation of the index alone or in cooperation with other entities. If the Issuer is not the index sponsor, it usually cannot influence the composition of the index and the relevant index sponsor can make changes to the composition or calculation of the index under the index rules which may have a negative effect on the performance of the index or can permanently discontinue the calculation of the index without establishing a successor index. In the latter case, the Securities may be terminated and a loss may be incurred. On the other hand, if the Issuer or an affiliated company of the Issuer acts as index sponsor or as index calculator, conflicts of interests may arise with respect to the Issuer or its affiliated company acting in different capacities under the Conditions of the Securities and under the index rules. Conflicts of interest may also arise in this case if the Issuer or an affiliated company has issued or owns assets being components of the index or if the Issuer or an affiliated company has business relations with entities having issued or owning assets being components of the index.

Special risks associated with emerging market underlyings

Investing in Securities with emerging market underlyings (see the following paragraph below) involves substantial risks (including legal, political and economic risks) in addition to those risks normally associated with making investments in other countries and other investment products. Consequently, investments in Securities with emerging market underlyings are only suitable for investors who are aware of the special risks associated with an investment in emerging market assets and who have the knowledge of, and expertise in, financial transactions required to evaluate the risks and merits of an investment in such securities.

Emerging markets are countries whose economies are in the process of changing from those of a moderately developed country to that of an industrial country. Emerging market underlyings include for example assets traded or listed on an exchange in emerging markets (e.g. certain commodity

future contracts or shares), emerging market currencies, shares of companies whose assets are located in emerging markets to a material extent or that carry out a material share of their business activities in emerging markets, as well as indices comprising stocks or other financial instruments from emerging markets. Emerging markets are exposed to risks inherent in rapid political changes and economic downturns. Certain political risks may be higher in emerging markets than, for example, in EU countries or other industrial countries.

For example, restrictions may be imposed on foreign investors; assets may be expropriated or subject to taxation that is equivalent to expropriation; foreign bank deposits or other assets may be confiscated or nationalised; exchange controls may be imposed or other adverse political and/or social developments may occur. In addition, emerging markets economies may experience adverse developments including, but not limited to, in relation to inflation rates, exchange rate fluctuations or payments settlement. Each of the above impairments may have an adverse effect on investments in such country and may continue for a prolonged period of time, i.e. weeks or even months. Each of the above impairments may constitute a Market Disruption Event, a Fund Disruption Event or an Emerging Market Disruption Event under the conditions of the Securities issued under this Base Prospectus. As a consequence, no prices may be quoted in such period for the Securities affected by such an event. If, for example, it is determined by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) that a Market Disruption Event, a Fund Disruption Event or an Emerging Market Disruption Event has occurred or is continuing at the valuation date, the valuation date may be postponed by a considerable period of time. As a result, payments or deliveries to be made under the Securities may be delayed considerably. If, on the last day of the period by which the valuation was postponed, the Market Disruption Event, Fund Disruption Event or Emerging Market Disruption Event is still continuing, the reference price of the Underlying will be determined by the Issuer in its reasonable discretion (*billiges Ermessen*) and may even be zero.

Securities markets in emerging markets are mostly less developed, substantially smaller and at times have been more volatile and illiquid than the major securities markets in more developed countries. No assurance can be given that such volatility or illiquidity will not occur in the future. Many such securities markets also have clearance and settlement procedures that are less developed, less reliable and less efficient than those in more developed countries. There may also be generally less governmental supervision and regulation of the securities exchanges and securities professionals in emerging markets than exists in more developed countries.

Disclosure, accounting and regulatory standards in emerging markets are in many respects less stringent than standards in more developed countries and there may be less publicly available information about companies in such markets than is regularly published by or about companies in more developed countries. The assets and liabilities and profits and losses appearing in the financial statements of such companies may not reflect their financial position or results of operations in the way they would be reflected had such financial statements been prepared in accordance with generally accepted international accounting principles in more developed countries. The valuation of assets, depreciation, exchange differences, deferred taxation, contingent liabilities and consolidation

may also be treated differently than under generally accepted international accounting standards, all of which may affect the valuation of the underlying.

All of the above factors may have a material adverse effect on the value of the respective Securities.

Rating of the Issuer

As of the date of this Base Prospectus, the credit ratings of the Issuer are as follows:

	Long term	Short term	Outlook
Moody's Investors Service	A2	P-1	Stable
Standard & Poor's	A+	A-1	Stable
Fitch Ratings	AA-	F1+	Stable

Moody's Investors Service definitions

Obligations rated “A” are considered upper-medium grade and are subject to low credit risk.

The rating system used by Moody's Investors Service for long-term obligations has various subcategories ranging from “Aaa” (describing obligations judged to be of the highest quality, with

¹ A report of Deloitte Accountants B.V. in accordance with Commission Regulation (EC) No. 809/2004 relating to the unaudited pro forma financial information is set forth on page 36 et seq. of the Registration Document.

minimal credit risk), “Aa”, “A”, “Baa”, “Ba”, “B”, “Caa” and “Ca” to “C”, the lowest category representing long-term obligations that are typically in default, with little prospect for recovery of principal or interest. In addition, Moody’s Investors Service appends numerical modifiers (“1”, “2”, and “3”) to each generic rating classification from “Aa” through “Caa”. The modifier “1” indicates that the respective long-term obligation ranks in the higher end of its generic rating category; the modifier “2” indicates a mid-range ranking, and the modifier “3” indicates a ranking in the lower end of that generic rating category.

Issuers rated “P-1” have a superior ability to repay short-term debt obligations. The rating system used by Moody’s Investors Service for short-term obligations has various subcategories ranging from “P-1”, “P-2” and “P-3” to “NP”, the lowest category representing issuers that do not fall within any of the “Prime” rating categories. A rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: “Positive”, “Negative”, “Stable”, and “Developing” (contingent upon an event).

Standard and Poor’s definitions

An obligor rated “A” by Standard & Poor’s has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

The rating system used by Standard & Poor’s for the capacity of an obligor to pay its financial obligations over a long-term horizon has various subcategories ranging from “AAA” (which is the highest quality rating), “AA”, “A”, “BBB”, “BB”, “B”, “CCC”, “CC”, “R” and “SD” to “D”, the lowest category indicating that Standard & Poor’s believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due. Plus (“+”) or minus (“-”) signs following ratings from the “AA” to “CCC” categories show the relative standing within the major rating categories.

An obligor rated “A-1” by Standard & Poor’s has strong capacity to meet its financial commitments over a short-term time horizon. It is rated in the highest category by Standard & Poor’s.

The rating system used by Standard & Poor’s for short-term issuer credit ratings has various subcategories ranging from “A-1” (which is the highest quality rating), “A-2”, “A-3”, “B”, “C”, “R” and “SD” to “D”, the lowest category indicating that Standard & Poor’s believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

“Stable” means that a rating is not likely to change.

Fitch Ratings definitions

“AA” ratings of an issuer denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

The rating system used by Fitch Ratings for long-term financial commitments has various subcategories ranging from “AAA” (which is the highest quality rating), “AA”, “A”, “BBB”, “BB”, “B”, “CCC”, “CC”, “C”, “RD” to “D”, the lowest category indicating that the issuer in Fitch Ratings’ opinion has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure, or which has otherwise ceased business. The modifiers “+” or “-” may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to the “AAA” rating category or to the categories below “B”.

An “F1” rating indicates the strongest intrinsic capacity for timely payment of short-term financial commitments. It may have an added “+” to denote any exceptionally strong credit feature.

The rating system used by Fitch Ratings for short-term liabilities has various subcategories ranging from “F1” (which is the highest quality rating), “F2”, “F3”, “B”, “C” and “RD” to “D”, the lowest category indicating a broad-based default event for an entity.

The rating definitions set out above were obtained in the English language from Moody’s Investors Service (www.moodys.com), Standard & Poor’s (www.standardandpoors.com) and Fitch Ratings (www.fitchratings.com), respectively. They have been accurately reproduced and that as far as the Issuer is aware and is able to ascertain from information published by Moody’s Investors Service, Standard & Poor’s, and Fitch Ratings, respectively, no facts have been omitted which would render the reproduced information inaccurate or misleading.

TAXATION

Potential purchasers of the Certificates who are in any doubt about their tax position on acquisition, ownership, transfer, redemption or non-redemption of any Certificate should consult their professional tax advisers.

1. GENERAL

Purchasers of the Certificates may be required to pay stamp taxes and/or other charges in accordance with the laws and practices of the country of purchase in addition to the issue or purchase price of the Certificates.

The Issuer assumes neither any liability nor any obligation to pay any taxes, duties or other payments which may arise as a result of the ownership, transfer or redemption of any Certificates. The investors are advised that, under the terms of the Certificates, any such taxes levied will not be reimbursed by the Issuer.

2. THE NETHERLANDS

The following paragraph, which is intended as a general guide only, is based on current law and practice in The Netherlands. It summarises certain aspects of taxation in The Netherlands only which may be applicable to the Securities but do not purport to be a comprehensive description of all tax considerations which may be of relevance.

All payments by the Issuer with respect to the Securities will be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld, or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, unless such withholding is, in the future, required by law.

3. FEDERAL REPUBLIC OF GERMANY

The following summary of the tax implications of an investment in the Certificates is based upon the applicable provisions of German tax law and their interpretation by fiscal authorities and fiscal courts as at the date of the Base Prospectus. **The tax implications might change as a result of amendments to such applicable law, its interpretation or, as the case may be, of the administrative practices of fiscal authorities – under certain circumstances even with retroactive effect.**

This summary reflects the view held by the Issuer with respect to the tax implications of an investment in the Certificates. However, it is not a guarantee regarding the tax consequences of the purchase, sale or redemption of the Certificates. Furthermore, this summary is not adequate to serve as the sole basis for an evaluation of the tax implications of an investment in the Certificates since in any case the investor's individual circumstances must be taken into account. As a consequence thereof, this

summary is limited to a general overview over certain income tax implications in Germany. **Investors are strongly advised to consult their personal tax adviser about the tax implications of an investment in the Certificates.**

The following paragraphs refer only to the taxation of individuals who have their domicile or their permanent residence in Germany and who hold the Certificates as private assets. In this specific case, the following applies:

If the investor realises capital gains upon the sale of the Certificates or upon their redemption (if a cash payment is made to the investor upon redemption) such capital gains are subject to a withholding tax ("*Kapitalertragsteuer*") at a rate of 26.375 % (including the solidarity surcharge) plus a church tax, if applicable, provided that a domestic (i.e. German) branch of a domestic or of a foreign credit or financial services institution, a domestic securities trading bank or a domestic securities trading company has kept the Certificates in a securities custody account since their acquisition and disburses or credits the capital gains. As a general rule, the deduction of withholding taxes by these disbursing agents has a discharging effect regarding the income tax liability of the investor on such capital gains ("*Abgeltungsteuer*", i. e. a discharging flat rate tax). Deviating withholding rules may apply if the Certificates have not been kept with the same disbursing agent since their acquisition. If no withholding tax is deducted from the capital gains of the investor, these gains will have to be declared in the income tax assessment and are then as a general rule subject to the above mentioned flat income tax rate of 26.375 %, plus church tax, if applicable.

As a general rule, any losses realised upon the sale or redemption of the Certificates (if a cash payment is made to the investor upon redemption) can be offset against other income from capital investments. If no sufficient income from other capital investments is available in the assessment period in which the loss is realised, the loss can be carried forward and reduces income from capital investments which the investor realises in the following years. However, the loss cannot be carried back into the preceding assessment periods.

If no cash payment is made upon redemption of the Certificates but if shares are delivered to the investor, such exchange of the Certificates against the shares is not taxable. In this case, only the sale of the shares received triggers the tax consequences described above. The capital gain or loss resulting from the sale of the shares is calculated by deducting the acquisition costs of the Certificates, which are deemed to be the acquisition costs of the shares under German tax law, from the sales price of the shares. However, in this scenario any loss resulting from the sale of the shares can only be offset against capital gains from the sale of shares and not with income from other capital investments.

4. AUSTRIA

Investors should be aware that this overview cannot be used as a substitute for individual tax advice and is not intended to be definitive. There can be no guarantee that the Austrian tax authorities will adopt the same interpretation of the matters set out below as the Issuer and due to changes in the settled practice of Austrian tax authorities or Austrian case law, the tax treatment of alternative

investments may, even retroactively, vary and lead to different results than those set out herein. There is no specific Austrian case law or other binding legal guideline available on the tax treatment of the Securities.

4.1 Tax Treatment of Austrian Tax Resident Investors

(a) Private investors

Pursuant to § 124b Z 85 of the Austrian Income Tax Act (*Einkommensteuergesetz*; “**ESTG**”), income received from index securities and similarly structured products that are issued on or after 1 March 2004 is qualified as investment income (§ 27 EStG) for Austrian income tax purposes. According to the Austrian Federal Ministry of Finance (*Bundesministerium für Finanzen*, “**BMF**”), § 124b Z 85 EStG may as well be applied to securities under which the investor has a right for repayment of the investment and the amount of such repayment depends on the performance of single equities or commodities which, at their entirety, do not amount to an index (BMF, Income Tax Guidelines 2000 (*Einkommensteuerrichtlinien 2000*, “**ESTR 2000**”) para 6198a).

Any difference between the issue price and the repurchase price of the security (profit on redemption) due to the development of the reference underlying is treated as interest (§ 27(2)(2) EStG) for Austrian income tax purposes. Equally, any positive difference due to the development of the underlying that is realised upon the sale of a security (profit on sale) is treated as investment income.

Interest received by an investor resident in Austria for tax purposes is subject to Austrian income tax. In case of a private investor, income tax is levied at the time the interest is received, i.e. according to the settled practice of Austrian tax authorities upon the redemption or the sale of the Securities with respect to any difference amount realised upon redemption or sale. A private investor is not taxed on the increase in value of the security due to the positive development of the underlying or the price of the security at the stock exchange prior to redemption or sale.

If a security within the meaning of § 93(3)(1) EStG (*Forderungswertpapier*; i.e., a security that securitises a claim in a way that the right under the security follows the right to the security) is held by a private investor resident in Austria for tax purposes and interest is paid by an Austrian coupon-paying agent within the meaning of § 95(3)(2) EStG (generally the Austrian depository), withholding tax at a rate of 25 per cent is triggered. For a private individual investor such withholding tax is final provided that the security is both legally and actually publicly offered. If such an investor’s applicable average income tax rate is below 25 per cent, the investor may file an income tax return including the interest income and apply for assessment of his income tax liability based on his income tax return. In the absence of an Austrian coupon-paying agent the investor must file an income tax return and include the interest received. Income tax will be levied at a special rate of 25 per cent (§ 37(8) EStG; BMF, ESTR 2000 para 7377a). A deduction of expenses that are directly economically

connected to the securities, if the income received thereunder is subject to flat and final withholding tax or to the special income tax rate of 25 per cent, is not available.

(b) Business investors

Income from a security held as a business asset constitutes business income.

A corporation subject to unlimited corporate income tax liability in Austria receiving such income will be subject to Austrian corporate income tax at a rate of 25 per cent.

Flat and final withholding tax at a rate of 25 per cent is triggered if the security is held by an individual investor resident in Austria for tax purposes and the interest is paid by an Austrian coupon-paying agent. In the absence of an Austrian coupon-paying agent, income tax at a special flat rate of 25 per cent will be due. A deduction of expenses that are directly economically connected to the securities, if the income received thereunder is subject to flat and final withholding tax or to the special income tax rate of 25 per cent, is not available.

(c) Risk of a Qualification as Units in a Non-Austrian Investment Fund

According to Austrian tax authorities, the provisions for non-Austrian investment funds within the meaning of § 42(1) of the Austrian Investment Fund Act (*Investmentfondsgesetz*; “**InvFG**”) may equally apply if the repayment of the invested amount exclusively depends on the performance of certain securities (index) and either the issuer, a trustee or a direct or indirect subsidiary of the issuer actually acquires the majority of the securities comprised by the index for the purposes of issuing the securities or the assets comprised by the index are actively managed. However, directly held notes the performance of which depends on an index, irrespective of whether the index is a recognised index or an individually composed fixed or at any time modifiable index are not treated as units in a non-Austrian investment fund (BMF, Investment Fund Guidelines 2008 (*Investmentfondsrichtlinien 2008*; “**InvFR 2008**”) para 267). The risk of the qualification of a Security as unit in a non-Austrian investment fund must be assessed on a case-by-case basis.

4.2 Tax Treatment of non-Austrian Tax Resident Investors

(a) Austrian Income Tax Liability

Pursuant to § 98(1)(5) EStG, interest received under securities by a non-resident investor for tax purposes are basically not subject to Austrian income tax. If interest is paid by an Austrian coupon-paying agent, 25 per cent withholding tax is triggered unless the non-Austrian resident individual investor proves his non-resident status for tax purposes to the Austrian coupon-paying agent by presenting an official picture identification card. In addition, Austrian citizens or citizens of an Austrian neighbouring state have to provide a written declaration that they neither have a domicile nor their habitual place of abode in Austria. Further, the securities under which the interest is paid must be deposited with an Austrian bank (BMF, EStR 2000 Rz 7775 et seq). If the investor is not an individual, the coupon-paying agent is discharged from its withholding obligation if the investor proves his non-resident status

through presentation of an identification card of an individual acting on behalf of the investor, the security is deposited with an Austrian credit institution and written evidence is provided that the non-Austrian corporation is the beneficial owner of the securities (BMF, Corporate Income Tax Guidelines 2001 (*Körperschaftsteuerrichtlinien 2001*, “**KStR 2001**”) para 1463 et seq).

(b) Austrian EU Source Tax Liability

Directive 2003/48/EC of 3 June 2003 was implemented into Austrian domestic law by the enactment of the Austrian EU Source Tax Act (*EU-Quellensteuergesetz*; “**EU-QuStG**”). Accordingly, interest paid by an Austrian coupon-paying agent to an individual beneficial owner resident in another EU member state may be subject to EU source tax at a rate of currently 20 per cent (as of 1 July 2011: 35 per cent). Whether interest under the Securities is subject to EU source tax must be determined on a case-by-case basis.

5. UNITED KINGDOM

The following applies only to persons who are beneficial owners of the Securities and is a summary of the Issuer’s understanding of the current law and HM Revenue & Customs (“**HMRC**”) practice in the United Kingdom relating to certain aspects of United Kingdom taxation. Some aspects do not apply to certain classes of persons (such as dealers and persons connected with the Issuer) to whom special rules apply. The United Kingdom tax treatment of prospective Securityholders depends on their individual circumstances and may be subject to change in the future. Prospective Securityholders who are in any doubt as to their own tax position or who may be subject to tax in a jurisdiction other than the United Kingdom should consult their professional advisers.

5.1 Withholding Tax

Securities issued otherwise than through the Issuer’s London branch

Payments on these Securities may be made without withholding or deduction for or on account of United Kingdom income tax.

Securities issued by the Issuer’s London branch

Payments made in respect of the Securities may be made without deduction or withholding for or on account of United Kingdom income tax where such payments are not regarded as either interest or annual payments for United Kingdom tax purposes.

Even if such payments were to be regarded as interest or annual payments for United Kingdom tax purposes, the Issuer should not be required to withhold or deduct sums for or on account of United Kingdom income tax from payments made in respect of the Securities provided that the Securities are derivative contracts, the profits and losses arising from which are calculated in accordance with the provisions of Part 7 of the Corporation Tax Act 2009 (which broadly they should be provided that they are derivatives for the purposes of FRS25 (or International Accounting Standard 32) and are not excluded for the purposes of Part 7 of that Act by virtue of their underlying subject matter). If interest

is payable on the Securities or if payments made in respect of the Securities were to be regarded as interest for United Kingdom tax purposes, provided the Issuer's London branch qualifies as a bank for United Kingdom tax purposes on the date of such payments, such payments may be made without withholding or deduction for or on account of United Kingdom income tax where the interest is paid in the ordinary course of the Issuer's London branch's business; this would include all payments of interest by the Issuer's London branch except where those Securities concerned conform to the definition of tier 1, 2 or 3 capital for regulatory purposes or where there is an intention to avoid United Kingdom tax.

Payments of interest on the Securities may also be made without deduction of or withholding for or on account of United Kingdom income tax if the Securities are and continue to be listed on a "recognised stock exchange", as defined in section 1005 of the Income Tax Act 2007. Securities should satisfy this requirement if they are: (i) admitted to trading on a "recognised stock exchange"; and (ii) officially listed in a country in which there is a "recognised stock exchange" in accordance with provisions corresponding to those generally applicable in EEA states. Provided therefore, that the Securities are listed on a recognised stock exchange for these purposes, interest on the Securities will be payable without withholding or deduction for or on account of United Kingdom income tax whether or not the Issuer's London branch carries on a banking business in the United Kingdom and whether or not the interest is paid in the ordinary course of its business.

Interest on the Securities may be paid without withholding or deduction for or on account of United Kingdom income tax where interest on the Securities is paid by a company and, at the time the payment is made, the Issuer's London branch reasonably believes (and any person by or through whom interest on the Securities is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HMRC has not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

Interest on the Securities may also be paid without withholding or deduction for or on account of United Kingdom income tax where the maturity of the Securities is less than 365 days and the Securities do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Securities on account of United Kingdom income tax at the basic rate (currently 20%). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HMRC can issue a notice to the Issuer's London branch to pay interest to the Securityholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Irrespective of whether the Securities are issued by the Issuer's London branch, Securityholders may wish to note that, in certain circumstances, HMRC has power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who

either pays or credits interest to or receives interest for the benefit of a Securityholder. HMRC also has power, in certain circumstances, to obtain information from any person in the United Kingdom who pays amounts payable on the redemption of Securities (which are deeply discounted securities for the purposes of the Income Tax (Trading and Other Income) Act 2005) to or receives such amounts for the benefit of another person, although HMRC published practice indicates that HMRC will not exercise the power referred to above to require this information in respect of amounts payable on the redemption of deeply discounted securities where such amounts are paid on or before 5 April 2011. Such information may include the name and address of the beneficial owner of the amount payable on redemption. Any information obtained may, in certain circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the Securityholder is resident for tax purposes.

5.2 Stamp Taxes

Subject to what follows, no stamp duty, capital duty, stamp duty reserve tax or other similar tax is payable in the United Kingdom on the issue or transfer by delivery of any Securities.

In relation to Securities in bearer form which are denominated in sterling and are not loan capital for the purposes of section 78 Finance Act 1986 (**Loan Capital**), a charge to stamp duty at 1.5 per cent of the value of such Securities may arise if issued in the United Kingdom. No stamp duty liability will arise on the issue of such Securities if issued outside the United Kingdom. However, in relation to Securities of that kind originally issued outside the United Kingdom, on the first transfer by delivery in the United Kingdom of any such Security a stamp duty liability at 1.5 per cent of the value of such Security will arise.

A Security or any instrument granting a Security (each an instrument) may be subject to United Kingdom stamp duty if it is executed in the United Kingdom or if it relates to any property situate, or to any matter or thing done or to be done, in the United Kingdom. However, in the context of retail covered warrants listed on the London Stock Exchange, HMRC has indicated that no charge to United Kingdom stamp duty will arise on the grant of such warrants. It is not clear whether or not HMRC would be prepared to take such a view in relation to a Security.

No United Kingdom stamp duty should be required to be paid on transfers of the Securities on sale provided no instrument of transfer is used to complete such sales.

An instrument transferring the Securities on sale may be subject to stamp duty at a rate of 0.5 per cent. of the consideration paid for the Securities.

Even if an instrument is subject to United Kingdom stamp duty, there may be no practical necessity to pay that stamp duty, as United Kingdom stamp duty is not an assessable tax. However, an instrument which is not duly stamped cannot be used for certain purposes in the United Kingdom; for example it will be inadmissible in evidence in civil proceedings in a United Kingdom court. In the event that an instrument is subject to United Kingdom stamp duty, and it becomes necessary to pay that stamp duty (for example because this is necessary in order to enforce the document in the United Kingdom), interest will be payable (in addition to the stamp duty) in respect of the period from 30 days after the

date of execution of the instrument to the date of payment of the stamp duty. Penalties may also be payable if either (i) an instrument which was executed in the United Kingdom is not stamped within 30 days of being so executed or (ii) an instrument which was executed outside the United Kingdom is not stamped within 30 days of first being brought into the United Kingdom. In the case of a Security, if any United Kingdom stamp duty is required to be paid, it would be payable at a rate of 0.5 per cent of the value of that Security.

Stamp duty reserve tax at a rate of 1.5 per cent may be payable on the issue or transfer of a Security to a clearing system or depository receipt issuer where the Final Terms of that Security entitle the Securityholder to physical settlement and the Underlying consists of shares which are paired with shares (which are not “newly subscribed shares” as defined in section 99(12) of the Finance Act 1988) issued by a body corporate incorporated in the United Kingdom.

Stamp duty and stamp duty reserve tax may also be payable on the transfer of an asset on physical settlement of the Securities.

6. EU SAVINGS DIRECTIVE

Under EC Council Directive 2003/48/EC on the taxation of savings income (the “**Directive**”), EU member states, subject to the following exceptions, are required to provide to the tax authorities of another member state details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other member state or to certain limited types of entities established in that other member state. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

On 15 September 2008 the European Commission issued a report to the Council of the European Union on the operation of the Directive, which included the Commission’s advice on the need for changes to the Directive. On 13 November 2008 the European Commission published a more detailed proposal for amendments to the Directive, which included a number of suggested changes. The European Parliament approved an amended version of this proposal on 24 April 2009. If any of the proposed changes are made in relation to the Directive, they may amend or broaden the scope of the requirements described above.

SELLING RESTRICTIONS

The statements which follow are of a general nature. Potential investors in each jurisdiction must ensure that they are able validly to take delivery of the Securities and any assets into which they may convert or be settled. Additional certifications may be required by the Issuer and/or any Clearing Agent at the time of exercise and/or settlement.

1. GENERAL

No action has been or will be taken by the Issuer that would permit a public offering of the Securities or possession or distribution of any offering material in relation to the Securities in any jurisdiction where action for that purpose is required. No offers, sales or deliveries of any Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligation on the Issuer.

2. EUROPEAN ECONOMIC AREA

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), the Securities may, with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”), be offered to the public in that Relevant Member State only if the following conditions as well as any additional provisions applicable in a Relevant Member State are complied with:

- (a) the offer of the Securities to the public starts or occurs within a period of 12 months beginning on the date after the publication of this Base Prospectus approved by the BaFin and, if the Securities are offered to the public in any Relevant Member State other than Germany, this Base Prospectus as well as any Supplements have been notified to the competent authority in that Relevant Member State in accordance with Article 18 of the Prospectus Directive; or
- (b) the Securities are offered to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities; or
- (c) the Securities are offered to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive); or
- (d) the Securities are offered to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than EUR 43,000,000 and (3) an annual net turnover of more than EUR 50,000,000, as shown in its last annual or consolidated accounts; or

- (e) the Securities are offered in any other circumstances fulfilling any of the exemptions set forth in Article 3(2) of the Prospectus Directive,

provided that no offer of Securities referred to in (b) to (e) shall require the Issuer to publish a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression “**offer of Securities to the public**” in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “**Prospectus Directive**” means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

3. THE NETHERLANDS

Securities which qualify as savings certificates as defined in the Savings Certificates Act (“*Wet inzake spaarbewijzen*”) may only be transferred or accepted through the mediation of either the Issuer or an admitted institution of Euronext Amsterdam N.V. with due observance of the Savings Certificates Act and its implementing regulations (including registration requirements), provided that no mediation is required with respect to:

- (a) the initial issue of those Securities to the first holders thereof;
- (b) any transfer and delivery by individuals who do not act in the conduct of a profession or trade; and
- (c) the issue and trading of those Securities, if they are physically issued outside The Netherlands and are not distributed in The Netherlands in the course of primary trading or immediately thereafter.

4. UNITED STATES OF AMERICA

The Securities have not been and will not be registered under the Securities Act of 1933 (as amended) (the “**Securities Act**”) and trading in the Securities has not been and will not be approved by the United States Commodity Futures Trading Commission under the United States Commodity Exchange Act of 1922.

The Securities may not at any time be offered, sold, delivered, traded or exercised, directly or indirectly, in the United States or to, or for the account or benefit of, a U.S. person and a U.S. person may not, at any time, directly or indirectly, maintain a position in the Securities. Offers, sales, trading or deliveries of the Securities in the United States or to, or for the account or benefit of, U.S. persons may constitute a violation of the United States law governing commodities trading. Exercise of the Securities will be conditional upon certification as to non-U.S. beneficial ownership. Terms used in this paragraph have the meanings given to them in Regulation S under the Securities Act.

The Issuer will not offer, sell or deliver the Securities at any time within the United States or to, or for the account or benefit of, any U.S. person, and it will require all those dealers participating in the distribution of the Securities not to offer, sell, deliver or trade at any time, directly or indirectly, any Securities in the United States or to, for the account or benefit of, any U.S. person. In addition, the Issuer will send to each dealer to which it sells Securities at any time a confirmation or other notice setting forth the restrictions on offers, sales and deliveries of the Securities in the United States or to, or for the account or benefit of, U.S. persons. As used in this and the above paragraph, “**United States**” means the United States of America, its territories or possessions, any state of the United States, the District of Columbia or any other enclave of the United States government, its agencies or instrumentalities, and “**U.S. person**” means:

- (a) any person who is a U.S. person as defined in Regulation S under the Securities Act;
- (b) any person or entity other than one of the following:
 - (1) a natural person who is not a resident of the United States;
 - (2) a partnership, corporation or other entity, other than an entity organised principally for passive investment, organised under the laws of a jurisdiction other than the United States and which has its principal place of business in a jurisdiction other than the United States;
 - (3) an estate or trust, the income of which is not subject to United States income tax regardless of source;
 - (4) an entity organised principally for passive investment such as a pool, an investment company or similar entity, provided that units of participation in the entity held by U.S. persons represent in the aggregate less than 10 per cent of the beneficial interest in the entity, and that such entity was not formed principally for the purpose of facilitating investment by U.S. persons; or
 - (5) a pension plan for the employees, officers or principals of an entity organised and with its principal place of business outside the United States.

5. UNITED KINGDOM

The Issuer represents, warrants and agrees that it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 (the “**FSMA**”)) in connection with the issue or sale of any Securities in circumstances in which Section 21(1) of the FSMA would not, if the Issuer was not an authorised person, apply to the Issuer and that it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Securities in, from or otherwise involving the United Kingdom.

GENERAL INFORMATION

Authorisation

The Issuer's managing board, in its capacity as the Issuer's representative, is responsible for issuing debt instruments. The Issuer's managing board has delegated the issue of debt instruments, including the Securities, to the Asset and Liability Management Committee pursuant to a resolution dated 1 April 2010. In addition, the issue of Securities has been approved by the Issuer's supervisory board pursuant to a resolution dated 1 April 2010 and in accordance with the Issuer's articles of association. All consents, approvals, authorisations or other orders of all regulatory authorities required by the Issuer under the laws of The Netherlands have been given for the issue of the Securities.

Listing

Whether or not a tranche of Securities will be listed on one or more stock exchange(s) or unofficial market(s), e.g. the *Freiverkehr* of a German stock exchange, or not at all, will be set forth in the Final Terms.

Following notification of the approval of this Base Prospectus in accordance with Section 18(1) WpPG, the Securities may be admitted to trading in the regulated markets or included in the unofficial market segments of, and/or listed on, the stock exchanges of several EEA States and/or offered to the public within the EEA States which have been notified.

Increases

The (i) "General Conditions" and (ii) "Product Conditions" ((i) and (ii) together, the "**Conditions 2009**") set forth in the base prospectus relating to Bonus and Discount Certificates dated 11 August 2009 of ABN AMRO Bank N.V. (renamed The Royal Bank of Scotland N.V.) - (b) Exercise. The Securities shall be deemed to be automatically exercised on the Exercise Date.
- (c) Certification. The form of the Certification may be obtained during normal business hours from the specified office of each Paying Agent.

A Certification shall:

- (i) certify that neither the person delivering the Certification nor any person on whose behalf the Certification is being delivered is a U.S. person or a person within the United States. As used herein, “**U.S. person**” means (A) an individual who is a resident or a citizen of the United States; (B) a corporation, partnership or other entity organised in or under the laws of the United States or any political subdivision thereof or which has its principal place of business in the United States; (C) any estate or trust which is subject to United States federal income taxation regardless of the source of its income; (D) any trust if a court within the United States is able to exercise primary supervision over the administration of the trust and if one or more United States trustees have the authority to control all substantial decisions of the trust; (E) a pension plan for the employees, officers or principals of a corporation, partnership or other entity described in (B) above; (F) any entity organised principally for passive investment, 10 per cent or more of the beneficial interests in which are held by persons described in (A) to (E) above if such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain

- (iv) Market Disruption Events [or Emerging Market Disruption Events]. Any Market Disruption Event [or Emerging Market Disruption Event] with respect to the Reference Asset; or

In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the "**Early Termination Amount**"). The Early Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Early Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

 - (iii) a material decline in the creditworthiness of a party with whom the Issuer has entered into any Relevant Hedging Transaction; or
 - (iv) the general unavailability of: (A) market participants who will agree to enter into a Relevant Hedging Transaction; or (B) market participants who will so enter into a Relevant Hedging Transaction on commercially reasonable terms.

In such circumstances the Issuer shall, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Hedging Disruption Termination Amount**”). The Issuer shall pay the Hedging Disruption Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder;
 - (ii) replace the Reference Asset by another commodity forward contract or commodity future contract;
 - (iii) make any other adjustment to the Conditions in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event.

In that case (i) the last day of the Relevant Number of Days shall be deemed to be the Valuation Date (regardless of the Market Disruption Event [or the Emerging Market Disruption Event]); and (ii) the Calculation Agent shall determine the Final Reference Price. In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the "**Early Termination Amount**"). [(b)][(c)] Consequences of a Fund Disruption Event [or Emerging Market Disruption Event].

- (i) If in the determination of the Calculation Agent, a Fund Disruption Event [and/or an Emerging Market Disruption Event] has occurred on the Valuation Date, then the Valuation Date shall be the first succeeding Trading Day on which the Calculation Agent determines that there is no Fund Disruption Event [or no Emerging Market Disruption Event], unless the Calculation Agent determines that there is a Fund Disruption Event [or an Emerging Market Disruption Event] occurring on each of the Relevant Number of Trading Days immediately following the original date which (but for the Fund Disruption Event [or the Emerging Market Disruption Event]) would have been the Valuation Date. In that case (i) the last day of the Relevant Number of Trading Days shall be deemed to be the Valuation Date (regardless of the Fund Disruption Event [or the Emerging Market Disruption Event]); and (ii) the Calculation Agent shall determine the Final Reference Price.
- (ii) Following the occurrence of a Fund Disruption Event [and/or Emerging Market Disruption Event] (and regardless of whether or not such event is then continuing) the following actions may be taken:
 - (x) (A) the Calculation Agent may make adjustments to the Conditions to account for the economic effect on the Securities of such event and (B) determine the effective date of the relevant adjustments; or
 - (y) the Calculation Agent may select a Replacement Fund with a similar risk profile as the Fund replaced and a Fund Substitution Date. Following any such selection (A) the Replacement Fund shall replace the affected Fund on the Fund Substitution Date, (B) references herein to the name of the affected Fund shall be deemed to be references to the name of the Replacement Fund with effect from the Fund Substitution Date, and (C) the Calculation Agent may make adjustments to the Conditions to reflect such substitution; or
 - (z) the Issuer may terminate the Securities, in whole but not in part, on the date notified to the Securityholders in accordance with General Condition 3. If the Securities are terminated, the Issuer shall pay to each Securityholder with respect to each Security held by such

Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Termination Amount**”). The Issuer shall notify the Securityholders of the Termination Amount in accordance with General Condition 3 and the Issuer shall pay the Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

An adjustment in accordance with Product Condition 3[(b)][(c)](ii)(x) or a selection of a Replacement Fund in accordance with Product Condition 3[(b)][(c)](ii)(y) shall not preclude a subsequent termination in accordance with Product Condition 3[(b)][(c)](ii)(z) with respect to the same event.

[(c)][(d)] Each and any of the Issuer’s or the Calculation Agent’s determinations shall be made exercising reasonable discretion (*billiges Ermessen*). The Issuer shall give notice in accordance with General Condition 3 of any determination, adjustment or other decision made by it or the Calculation Agent pursuant to this Product Condition 3 as soon as practicable after it has been made. In case of a selection of a Replacement Fund in accordance with Product Condition 3[(b)][(c)](ii)(y), the notice shall also specify the prospectus relating to the Replacement Fund and the date of replacement of the Fund by the Replacement Fund. The Issuer shall make available for inspection by Securityholders copies of any such determinations and/or adjustments.

4. EARLY TERMINATION

Early Termination. The Issuer shall have the right to terminate the Securities if it has determined in its reasonable discretion (*billiges Ermessen*) that its performance thereunder is or will become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (the “**Applicable Law**”). In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Early Termination Amount**”). The Early Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Early Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

5. HEDGING DISRUPTION

- (a) Hedging Disruption Event. A “**Hedging Disruption Event**” shall occur if any of the following or a similar event occurs:
- (i) any material illiquidity in the market with respect to (A) the Fund or the Fund Units or (B) instruments related to the Fund or the Fund Units used by the Issuer to hedge entirely or in part its obligations under the Securities; or
 - (ii) a change in any Applicable Law (including, without limitation, any tax law) or in the interpretation of any Applicable Law by any court, regulatory authority or other authority with competent jurisdiction under the Applicable Law (including any action taken by a taxing authority) having an impact on the Securities or on a transaction to hedge entirely or in part the obligations of the Issuer under the Securities (a “**Relevant Hedging Transaction**”); or
 - (iii) a material decline in the creditworthiness of a party with whom the Issuer has entered into any Relevant Hedging Transaction; or
 - (iv) the general unavailability of: (A) market participants who will agree to enter into a Relevant Hedging Transaction; or (B) market participants who will so enter into a Relevant Hedging Transaction on commercially reasonable terms.
- (b) Consequences. The Issuer, in the event of a Hedging Disruption Event, may determine to:
- (i) terminate the Securities. In such circumstances the Issuer shall, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Hedging Disruption Termination Amount**”). The Issuer shall pay the Hedging Disruption Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder;
 - (ii) replace the Fund by another fund or the Fund Units by other fund units;
 - (iii) make any other adjustment to the Conditions in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event.
- (c) Each and any of the Issuer’s determinations and adjustments under this Product Condition 5 shall be made exercising reasonable discretion (*billiges Ermessen*) and be notified to the Securityholders in accordance with General Condition 3.

6. LANGUAGE

The English language of the Conditions shall be binding. Any translations are merely intended for information purposes.

 - (iii) such other changes shall be made to the Conditions as the Issuer may decide to conform them to conventions then applicable to instruments expressed in Euro.
- (b) Adjustment to Conditions. The Issuer may, without the consent of the Securityholders, on giving notice to the Securityholders in accordance with General Condition 3 make such adjustments to the Conditions as the Issuer may determine in its reasonable discretion (*billiges Ermessen*) to be appropriate to account for the effect of the third stage of European Economic and Monetary Union pursuant to the Treaty on the Conditions.
- (c) Euro Conversion Costs. Notwithstanding Product Condition 7(a) and/or Product Condition 7(b), none of the Issuer, the Calculation Agent nor any Paying Agent shall be liable to any Securityholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of Euro or any currency conversion or rounding effected in connection therewith.

- (b) Exercise. The Securities shall be deemed to be automatically exercised on the Exercise Date.
- (c) Certification. The form of the Certification may be obtained during normal business hours from the specified office of each Paying Agent.

A Certification shall:

- (i) certify that neither the person delivering the Certification nor any person on whose behalf the Certification is being delivered is a U.S. person or a person

within the United States. As used herein, “**U.S. person**” means (A) an individual who is a resident or a citizen of the United States; (B) a corporation, partnership or other entity organised in or under the laws of the United States or any political subdivision thereof or which has its principal place of business in the United States; (C) any estate or trust which is subject to United States federal income taxation regardless of the source of its income; (D) any trust if a court within the United States is able to exercise primary supervision over the administration of the trust and if one or more United States trustees have the authority to control all substantial decisions of the trust; (E) a pension plan for the employees, officers or principals of a corporation, partnership or other entity described in (B) above; (F) any entity organised principally for passive investment, 10 per cent or more of the beneficial interests in which are held by persons described in (A) to (E) above if such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements of Part 4 of the United States Commodity Futures Trading Commission’s regulations by virtue of its participants being non-U.S. persons; or (G) any other “U.S. person” as such term may be defined in Regulation S under the United States Securities Act of 1933, as amended, or in regulations adopted under the United States Commodity Exchange Act; and

- (ii) authorise the production of such Certification in any applicable administrative or legal proceedings.
- (d) The Principal Paying Agent shall use its best efforts promptly to notify the relevant Securityholder if it has determined that a Certification is incomplete.
- (e) Settlement. The Issuer shall pay the Cash Amount to the Clearing Agent for credit to the account of the Securityholder for each Security with respect to which a Certification has been delivered.
- (f) Payment Day. If the date for payment of any amount with respect to the Securities is not a Payment Day, the Securityholder shall not be entitled to payment until the next following Payment Day and shall not be entitled to any interest or other payment with respect to such delay.

3. MARKET DISRUPTION

- (a) If in the determination of the Calculation Agent a Market Disruption Event [or an Emerging Market Disruption Event] has occurred on the Valuation Date [or the Index Early Termination Date], then the Valuation Date [or the Index Early Termination Date, as the case may be,] shall be the first succeeding Trading Day on which the Calculation Agent determines that there is no Market Disruption Event [or no Emerging Market Disruption Event], unless the Calculation Agent determines that

there is a Market Disruption Event [or an Emerging Market Disruption Event] occurring on each of the Relevant Number of Trading Days immediately following the original date which (but for the Market Disruption Event [or the Emerging Market Disruption Event]) would have been the Valuation Date [or the Index Early Termination Date, as the case may be]. In that case (i) the last day of the Relevant Number of Trading Days shall be deemed to be the Valuation Date [or the Index Early Termination Date, as the case may be] (regardless of the Market Disruption Event [or the Emerging Market Disruption Event]); and (ii) the Calculation Agent shall determine the Final Reference Price. If a Market Disruption Event [or an Emerging Market Disruption Event] constitutes also an adjustment event in accordance with Product Condition 4 and the Calculation Agent makes an adjustment in accordance with Product Condition 4, the provisions relating to the Market Disruption [or the Emerging Market Disruption] shall not be applicable with respect to this event as of the effective date of the adjustment.

(b) **“Market Disruption Event”** means:

- (i) Moratorium. A general moratorium is declared with respect to banking activities in the country in which any Exchange or any Related Exchange is located; or
- (ii) Trading Limitation. The occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on any Exchange or any Related Exchange of any suspension of or limitation imposed on trading (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):
 - (A) on any Exchange(s) in Index Components that comprise 20 per cent or more of the level of the Index (as determined by the Calculation Agent) if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in an Index Component is suspended or limited at that time, then the relevant percentage contribution of that Index Component to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that Index Component relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or
 - (B) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the Index if, in the determination of the Calculation Agent, such suspension or limitation is material.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of any Exchange or Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by any Exchange or Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

4. ADJUSTMENTS

- (a) If the Index is (A) not calculated and announced by the Index Sponsor but is calculated and announced by a successor to the Index Sponsor (the “**Successor Sponsor**”) acceptable to the Calculation Agent; or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index, then (in either case) the Index will be deemed to be the index so calculated and announced by such Successor Sponsor or that successor index, as the case may be.
- (b) If (A) on or prior to the Valuation Date [or the Index Early Termination Date, as the case may be,] the Index Sponsor or, if applicable, the Successor Sponsor, makes a material change in the formula for, or the method of, calculating the Index or in any other way materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in Index Components and other routine events); or (B) on the Valuation Date [or the Index Early Termination Date, as the case may be,] the Index Sponsor or, if applicable, the Successor Sponsor fails to calculate and/or publish the Index, then (in either case) the Calculation Agent shall determine the Final Reference Price using, in lieu of a published level for the Index on the Valuation Date [or the Index Early Termination Date, as the case may be,] the level for the Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the Index last in effect prior to the change or failure, but using only those Index Components that comprised the Index immediately prior to the change or failure (other than those Index Components that have since ceased to be listed on the relevant Exchange or any other exchange on which the Index Components are listed) or, in the case of a material modification of the Index only, the Calculation Agent shall deem such

modified Index to be the Index so calculated and announced or shall terminate the Securities by giving notice in accordance with General Condition 3.

- (c) If, at any time, any event which is material to the calculation of the Index occurs and the Index Sponsor or, if applicable, the Successor Sponsor has (as determined by the Calculation Agent) not made an appropriate adjustment to the level of the Index in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor pertaining to the Index have been applied, the Calculation Agent shall make an adjustment to the level of the Index. [Where the Index Components consist of shares, the occurrence of one of the following events may trigger such an adjustment in accordance with this Product Condition 4(c): (A) a distribution or dividend to existing holders of the shares of (i) shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of the shares equally or proportionately with such payments to holders of shares or (iii) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or dividend of any shares to existing holders by way of bonus, capitalisation or similar issue; (C) an extraordinary dividend; (D) any cash dividends declared on the shares at a time when the relevant issuer has not previously declared or paid dividends on such shares for the prior four quarterly periods; (E) any non-cash dividends declared on the shares at a time when the relevant issuer has not previously declared or paid dividends on such shares for the prior four quarterly periods; (F) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer, provided that, in all cases, the related ex-dividend date occurs during the period from and including the Issue Date up to but excluding the Valuation Date[, or the Index Early Termination Date, as the case may be]; (G) a distribution of cash dividends on the shares equal to or greater than 8 per cent per annum of the then current market value of the shares; (H) any other similar event having dilutive or concentrative effect on the theoretical value of the shares.]¹²²
- (d) If in the determination of the Calculation Agent any other event has occurred which could make it impracticable or impossible for the Issuer to perform its obligations with respect to the Securities, the Calculation Agent may make adjustments to the Conditions.

- [(a)] Early Termination. The Issuer shall have the right to terminate the Securities if it has determined in its reasonable discretion (*billiges Ermessen*) that its performance thereunder is or will become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (the "**Applicable Law**"). In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the "**Early Termination Amount**"). The Early Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Early Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.
- [(b)] Index Early Termination. Upon the occurrence of an Index Early Termination Event, the Securities will terminate automatically and the Issuer will give notice to the Securityholders in accordance with General Condition 3. - (b) Consequences. The Issuer, in the event of a Hedging Disruption Event, may determine to:
- (i) terminate the Securities. In such circumstances the Issuer shall, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Hedging Disruption Termination Amount**”). The Issuer shall pay the Hedging Disruption Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder;
 - (ii) make an adjustment to the composition of the Index or replace the Index by another index;
 - (iii) make any other adjustment to the Conditions in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event.

[Insert supplemental or alternative adjustment events, if applicable]

- (c) Each and any of the Calculation Agent's determinations and adjustments under this Product Condition 4 shall be made exercising reasonable discretion (*billiges Ermessen*) and be notified to the Securityholders in accordance with General Condition 3.

5. EARLY TERMINATION

Early Termination. The Issuer shall have the right to terminate the Securities if it has determined in its reasonable discretion (*billiges Ermessen*) that its performance thereunder is or will become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (the "**Applicable Law**"). In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the "**Early Termination Amount**"). The Early Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Early Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

6. HEDGING DISRUPTION

- (a) Hedging Disruption Event. A “**Hedging Disruption Event**” shall occur if any of the following or a similar event occurs:

 - (ii) a change in any Applicable Law (including, without limitation, any tax law) or in the interpretation of any Applicable Law by any court, regulatory authority or other authority with competent jurisdiction under the Applicable Law (including any action taken by a taxing authority) having an impact on the Securities or on a transaction to hedge entirely or in part the obligations of the Issuer under the Securities (a “**Relevant Hedging Transaction**”); or
 - (iii) a material decline in the creditworthiness of a party with whom the Issuer has entered into any Relevant Hedging Transaction; or
 - (iv) the general unavailability of: (A) market participants who will agree to enter into a Relevant Hedging Transaction; or (B) market participants who will so enter into a Relevant Hedging Transaction on commercially reasonable terms.
- (b) Consequences. The Issuer, in the event of a Hedging Disruption Event, may determine to:
- (i) terminate the Securities. In such circumstances the Issuer shall, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Hedging Disruption Termination Amount**”). The Issuer shall pay the Hedging Disruption Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder;
 - (ii) replace the Reference Asset by another index future contract;
 - (iii) make any other adjustment to the Conditions in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event.
- (c) Each and any of the Issuer’s determinations and adjustments under this Product Condition 6 shall be made exercising reasonable discretion (*billiges Ermessen*) and be notified to the Securityholders in accordance with General Condition 3.

- (c) Euro Conversion Costs. Notwithstanding Product Condition 8(a) and/or Product Condition 8(b), none of the Issuer, the Calculation Agent nor any Paying Agent shall be liable to any Securityholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of Euro or any currency conversion or rounding effected in connection therewith.

3. MARKET DISRUPTION [AND SETTLEMENT DISRUPTION]¹⁷⁷

(a) [Market Disruption]¹⁷⁸

If in the determination of the Calculation Agent a Market Disruption Event [or an Emerging Market Disruption Event] has occurred on the Valuation Date, then the Valuation Date shall be the first succeeding Trading Day on which the Calculation Agent determines that there is no Market Disruption Event [or no Emerging Market Disruption Event], unless the Calculation Agent determines that there is a Market Disruption Event [or an Emerging Market Disruption Event] occurring on each of the Relevant Number of Trading Days immediately following the original date which (but for the Market Disruption Event [or the Emerging Market Disruption Event]) would have been the Valuation Date. In that case (i) the last day of the Relevant Number of Trading Days shall be deemed to be the Valuation Date (regardless of the Market Disruption Event [or the Emerging Market Disruption Event]); and (ii) the Calculation Agent shall determine the Final Reference Price. If a Market Disruption Event [or an Emerging Market Disruption Event] constitutes also an Adjustment Event in accordance with Product Condition 4 and the Calculation Agent makes an adjustment in accordance with Product Condition 4, the provisions relating to the Market Disruption [or the Emerging Market Disruption] shall not be applicable with respect to this event as of the effective date of the adjustment.

(b) **“Market Disruption Event”** means:

- (ii) Trading Limitation.  - (A) in the Shares on the Exchange or any other exchange on which the Shares are listed; or
 - (B) in any options contracts or futures contracts or other derivatives contracts relating to the Shares on any Related Exchange,

¹⁷⁷ In case of physical settlement.

¹⁷⁸ In case of physical settlement.

if, in the determination of the Calculation Agent, such suspension or limitation is material; or

- (iii) Other Events. Any other event similar to any of the above which could make it impracticable or impossible for the Issuer to perform its obligations with respect to the Securities.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange or any Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or any Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

[Insert in case the Share is related to one or more emerging market(s):

such Governmental Authority to issue or enter into such security, indebtedness for money borrowed or guarantee; or

- (iv) Inconvertibility/Non-transferability. The occurrence of any event which (A) generally makes it impossible to convert the currencies in the Relevant Currency Exchange Rate (if relevant) through customary legal channels for conducting such conversion in the principal financial centre of the Relevant Currency or (B) generally makes it impossible to deliver the Relevant Currency from accounts in the country of the principal financial centre of the Relevant Currency to accounts outside such country or the Relevant Currency between accounts in such country or to a party that is a non-resident of such country; or

[[c]][(d)] Settlement Disruption. If the Securities provide for the delivery of the Share Amount and prior to the delivery of the Share Amount with respect to any Security, in the determination of the Calculation Agent, a Settlement Disruption Event has occurred, then the Maturity Date for such Security shall be postponed to the first following Business Day on which no Settlement Disruption Event is subsisting. If the delivery of the Share Amount is not practicable by reason of a Settlement Disruption Event, then in lieu of delivery of the Share Amount and notwithstanding any other provision hereof the Issuer may determine to satisfy its obligations with respect to the relevant Security by payment of the Disruption Cash Settlement Price not later than on the [third][●] Business Day following the date on which notice of such determination is given to the Securityholders in accordance with General Condition 3. No Securityholder or any other person shall be entitled to any payment (including but not limited to interest) with respect to a Security in the event of any delay in the delivery of the Share Amount relating thereto due to the occurrence of a Settlement Disruption Event and no liability with respect thereto shall attach to the Issuer.

“Disruption Cash Settlement Price” means the amount determined by the Issuer as the fair market value of each Security on such day as determined by the Issuer less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities.

“Settlement Disruption Event” means, in the determination of the Issuer, an event beyond the control of the Issuer as a result of which the Issuer cannot make delivery

of the Share Amount in accordance with such market method as it determines at the relevant time for delivery of the Share Amount.]¹⁷⁹

[(d)][(e)] Each and any of the Calculation Agent's [and the Issuer's]¹⁸⁰ determinations under this Product Condition 3 shall be made exercising reasonable discretion (*billiges Ermessen*) and be notified to the Securityholders in accordance with General Condition 3.

4. ADJUSTMENTS

- (a) Following a declaration by the Share Company of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so (in this case an "**Adjustment Event**"), will:
- (i) make adjustments, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that diluting or concentrative effect; and
 - (ii) determine the effective date of the adjustments.
- (b) "**Potential Adjustment Event**" means:

 - (iii) an extraordinary dividend;
 - (iv) a distribution of cash dividends on the Shares equal to or greater than 8 per cent per annum of the then current market value of the Shares;
 - (v) a call by the Share Company with respect to Shares that are not fully paid;
 - (vi) a repurchase by the Share Company of Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise; or

- (vii) any other similar event that may have a diluting or concentrative effect on the theoretical value of the Shares.

[Insert supplemental or alternative potential adjustment events, if applicable]

- (c) De-listing, Merger Event, Nationalisation and Insolvency. If a De-listing, Merger Event, Nationalisation or Insolvency occurs in relation to the Share Company (each also an “**Adjustment Event**”), the Issuer may determine to take the action described in (i) or (ii) below:
 - (i) require the Calculation Agent to determine the adjustment, if any, to be made to any terms of these Conditions to account for the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment; or
 - (ii) terminate the Securities by giving notice to the Securityholders in accordance with General Condition 3. If the Securities are to be terminated, the Issuer shall pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination (taking into account the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (including but not limited to any equity options or selling or otherwise realising any Shares or other instruments of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements) (the “**Termination Amount**”). The Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

“**De-listing**” means a Share for any reason ceases to be listed or is suspended from listing on the Exchange (and such cessation or suspension is continuing and such Share is not subsequently listed or quoted on another stock exchange or quotation system acceptable to the Issuer).

“**Merger Date**” means the date upon which all holders of the Shares of a Share Company (other than, in the case of a take-over offer, Shares owned or controlled by the offeror) have agreed or have irrevocably become obliged to transfer their Shares.

“**Merger Event**” means any (i) reclassification of or change to the Shares of a Share Company that results in a transfer of or an irrevocable commitment to transfer all outstanding Shares of such Share Company; (ii) consolidation, amalgamation or merger of a Share Company with or into another entity (other than a consolidation, amalgamation or merger in which such Share Company is the continuing entity and

which does not result in any such reclassification of or change to all the outstanding Shares of a Share Company); or (iii) other take-over offer for the Shares of a Share Company that results in a transfer of, or an irrevocable commitment to transfer, the Shares of a Share Company (other than any such Shares owned or controlled by the offeror), in each case if the Merger Date is on or before the Valuation Date.

“**Nationalisation**” means that all the Shares of a Share Company or all the assets or substantially all the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority or entity.

“**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy or insolvency of or any analogous proceeding affecting a Share Company, (i) all the Shares are required to be transferred to a receiver, trustee, liquidator or other similar official or (ii) holders of the Shares of that Share Company become legally prohibited from transferring them.

- (d) Each and any of the Calculation Agent’s and the Issuer’s determinations and adjustments under this Product Condition 4 shall be made exercising reasonable discretion (*billiges Ermessen*) and be notified to the Securityholders in accordance with General Condition 3. In exercising such reasonable discretion, the Calculation Agent and the Issuer may (but are under no obligation to) take into account the adjustments made by any Related Exchange to options contracts or futures contracts or other derivatives contracts on the Shares traded on such Related Exchange. Furthermore, the occurrence of a Potential Adjustment Event, a De-listing, a Merger Event, a Nationalisation, or an Insolvency (if any) shall be notified to the Securityholders in accordance with General Condition 3, provided that such an event shall trigger any adjustment or termination under this Product Condition 4.

5. EARLY TERMINATION

Early Termination. The Issuer shall have the right to terminate the Securities if it has determined in its reasonable discretion (*billiges Ermessen*) that its performance thereunder is or will become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (the “**Applicable Law**”). In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Early Termination Amount**”). The Early Termination Amount shall be notified to the Securityholders by the

Issuer in accordance with General Condition 3. The Issuer shall pay the Early Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

6. HEDGING DISRUPTION

- (a) Hedging Disruption Event. A “**Hedging Disruption Event**” shall occur if any of the following or a similar event occurs:
- (i) any material illiquidity in the market with respect to (A) the Shares or (B) instruments related to the Shares used by the Issuer to hedge entirely or in part its obligations under the Securities; or
 - (ii) a change in any Applicable Law (including, without limitation, any tax law) or in the interpretation of any Applicable Law by any court, regulatory authority or other authority with competent jurisdiction under the Applicable Law (including any action taken by a taxing authority) having an impact on the Securities or on a transaction to hedge entirely or in part the obligations of the Issuer under the Securities (a “**Relevant Hedging Transaction**”); or
 - (iii) a material decline in the creditworthiness of a party with whom the Issuer has entered into any Relevant Hedging Transaction; or
 - (iv) the general unavailability of: (A) market participants who will agree to enter into a Relevant Hedging Transaction; or (B) market participants who will so enter into a Relevant Hedging Transaction on commercially reasonable terms.
- (b) Consequences. The Issuer, in the event of a Hedging Disruption Event, may determine to:
- (i) terminate the Securities. In such circumstances the Issuer shall, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Hedging Disruption Termination Amount**”). The Issuer shall pay the Hedging Disruption Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder;
 - (ii) replace the Share by another share;
 - (iii) make any other adjustment to the Conditions in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event.

- (c) Each and any of the Issuer's determinations and adjustments under this Product Condition 6 shall be made exercising reasonable discretion (*billiges Ermessen*) and be notified to the Securityholders in accordance with General Condition 3.

7. LANGUAGE

The English language of the Conditions shall be binding. Any translations are merely intended for information purposes.

- (c) Euro Conversion Costs. Notwithstanding Product Condition 8(a) and/or Product Condition 8(b), none of the Issuer, the Calculation Agent nor any Paying Agent shall

3. MARKET DISRUPTION [AND SETTLEMENT DISRUPTION]²¹⁵

(a) [Market Disruption]²¹⁶

If in the determination of the Calculation Agent a Market Disruption Event [or an Emerging Market Disruption Event] has occurred on the Valuation Date, then the Valuation Date shall be the first succeeding Trading Day on which the Calculation Agent determines that there is no Market Disruption Event [or no Emerging Market Disruption Event], unless the Calculation Agent determines that there is a Market Disruption Event [or an Emerging Market Disruption Event] occurring on each of the Relevant Number of Trading Days immediately following the original date which (but for the Market Disruption Event [or the Emerging Market Disruption Event]) would have been the Valuation Date. In that case (i) the last day of the Relevant Number of Trading Days shall be deemed to be the Valuation Date (regardless of the Market Disruption Event [or the Emerging Market Disruption Event]); and (ii) the Calculation

 - (A) in any Share on any relevant Exchange or any other exchange on which such Share is listed; or

 - (iii) Other Events. Any other event similar to any of the above which could make it impracticable or impossible for the Issuer to perform its obligations with respect to the Securities.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of any relevant exchange or Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by any relevant exchange or Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

No Securityholder or any other person shall be entitled to any payment (including but not limited to interest) with respect to a Security in the event of any delay in the delivery of the Share Amount relating thereto due to the occurrence of a Settlement Disruption Event and no liability with respect thereto shall attach to the Issuer.

Adjustment Event has a diluting or concentrative effect on the theoretical value of any Share and, if so (in this case an “**Adjustment Event**”), will:

[Insert supplemental or alternative potential adjustment events, if applicable]

(c) De-listing, Merger Event, Nationalisation and Insolvency. If a De-listing, Merger Event, Nationalisation or Insolvency occurs in relation to any Share Company (each also an “**Adjustment Event**”), the Issuer may determine to take the action described in (i) or (ii) below:

- (i) require the Calculation Agent to determine the adjustment, if any, to be made to any terms of these Conditions to account for the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment; or

- (ii) terminate the Securities by giving notice to the Securityholders in accordance with General Condition 3. If the Securities are to be terminated, the Issuer shall pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination (taking into account the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (including but not limited to any equity options or selling or otherwise realising any Share or other instruments of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements) (the “**Termination Amount**”). The Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

“**Nationalisation**” means that all the Shares of any Share Company or all the assets or substantially all the assets of any Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority or entity.

“**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy or insolvency of or any analogous proceeding affecting any Share Company, (i) all the Shares are required to be transferred to a receiver, trustee,

liquidator or other similar official or (ii) holders of the Shares of such Share Company become legally prohibited from transferring them.

- (d) Each and any of the Calculation Agent's and the Issuer's determinations and adjustments under this Product Condition 4 shall be made exercising reasonable discretion (*billiges Ermessen*) and be notified to the Securityholders in accordance with General Condition 3. In exercising such reasonable discretion, the Calculation Agent and the Issuer may (but are under no obligation to) take into account the adjustments made by any Related Exchange to options contracts or futures contracts or other derivatives contracts on the Shares traded on such Related Exchange. Furthermore, the occurrence of a Potential Adjustment Event, a De-listing, a Merger Event, a Nationalisation, or an Insolvency (if any) shall be notified to the Securityholders in accordance with General Condition 3, provided that such an event shall trigger any adjustment or termination under this Product Condition 4.

5. EARLY TERMINATION

Early Termination. The Issuer shall have the right to terminate the Securities if it has determined in its reasonable discretion (*billiges Ermessen*) that its performance thereunder is or will become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (the "**Applicable Law**"). In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the "**Early Termination Amount**"). The Early Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Early Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

6. HEDGING DISRUPTION

- (a) Hedging Disruption Event. A "**Hedging Disruption Event**" shall occur if any of the following or a similar event occurs:

 - (ii) a change in any Applicable Law (including, without limitation, any tax law) or in the interpretation of any Applicable Law by any court, regulatory authority or other authority with competent jurisdiction under the Applicable Law

 - (iv) the general unavailability of: (A) market participants who will agree to enter into a Relevant Hedging Transaction; or (B) market participants who will so enter into a Relevant Hedging Transaction on commercially reasonable terms.
- (b) Consequences. The Issuer, in the event of a Hedging Disruption Event, may determine to:
- (i) terminate the Securities. In such circumstances the Issuer shall, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Hedging Disruption Termination Amount**”). The Issuer shall pay the Hedging Disruption Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder;
 - (ii) replace the relevant Share by another share;
 - (iii) make any other adjustment to the Conditions in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event.

- (b) Exercise. The Securities shall be deemed to be automatically exercised on the Exercise Date.
- (c) Certification. The form of the Certification may be obtained during normal business hours from the specified office of each Paying Agent.

A Certification shall:

- (i) certify that neither the person delivering the Certification nor any person on whose behalf the Certification is being delivered is a U.S. person or a person within the United States. As used herein, **“U.S. person”** means (A) an individual who is a resident or a citizen of the United States; (B) a corporation, partnership or other entity organised in or under the laws of the United States or any political subdivision thereof or which has its principal place of business in the United States; (C) any estate or trust which is subject to United States federal income taxation regardless of the source of its income; (D) any trust if a court within the United States is able to exercise primary supervision over the administration of the trust and if one or more United States trustees have the authority to control all substantial decisions of the trust; (E) a pension plan for the employees, officers or principals of a corporation, partnership or other entity described in (B) above; (F) any entity organised principally for passive investment, 10 per cent or more of the beneficial interests in which are held by persons described in (A) to (E) above if such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements of Part 4 of the United States Commodity Futures Trading Commission’s regulations by virtue of its participants being non-U.S. persons; or (G) any other **“U.S. person”** as such term may be defined in Regulation S

[(b)][(c)] Consequences of a Fund Disruption Event [or Emerging Market Disruption Event].

- (i) If in the determination of the Calculation Agent, a Fund Disruption Event [and/or an Emerging Market Disruption Event] has occurred on the Valuation Date, then the Valuation Date shall be the first succeeding Trading Day on which the Calculation Agent determines that there is no Fund Disruption Event [or no Emerging Market Disruption Event], unless the Calculation Agent determines that there is a Fund Disruption Event [or an Emerging Market Disruption Event] occurring on each of the Relevant Number of Trading Days immediately following the original date which (but for the Fund Disruption Event [or the Emerging Market Disruption Event]) would have been the Valuation Date. In that case (i) the last day of the Relevant Number of Trading Days shall be deemed to be the Valuation Date (regardless of the Fund Disruption Event [or the Emerging Market Disruption Event]); and (ii) the Calculation Agent shall determine the Final Reference Price.
- (ii) Following the occurrence of a Fund Disruption Event [and/or Emerging Market Disruption Event] (and regardless of whether or not such event is then continuing) the following actions may be taken:
 - (x) (A) the Calculation Agent may make adjustments to the Conditions to account for the economic effect on the Securities of such event and (B) determine the effective date of the relevant adjustments; or
 - (y) the Calculation Agent may select a Replacement Fund with a similar risk profile as the Fund replaced and a Fund Substitution Date. Following any such selection (A) the Replacement Fund shall replace the affected Fund on the Fund Substitution Date, (B) references herein to the name of the affected Fund shall be deemed to be references to the name of the Replacement Fund with effect from the Fund Substitution Date, and (C) the Calculation Agent may make adjustments to the Conditions to reflect such substitution; or

Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Termination Amount**”). The Issuer shall notify the Securityholders of the Termination Amount in accordance with General Condition 3 and the Issuer shall pay the Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

An adjustment in accordance with Product Condition 3[(b)][(c)](ii)(x) or a selection of a Replacement Fund in accordance with Product Condition 3[(b)][(c)](ii)(y) shall not preclude a subsequent termination in accordance with Product Condition 3[(b)][(c)](ii)(z) with respect to the same event.

[(c)][(d)] Each and any of the Issuer’s or the Calculation Agent’s determinations shall be made exercising reasonable discretion (*billiges Ermessen*). The Issuer shall give notice in accordance with General Condition 3 of any determination, adjustment or other decision made by it or the Calculation Agent pursuant to this Product Condition 3 as soon as practicable after it has been made. In case of a selection of a Replacement Fund in accordance with Product Condition 3[(b)][(c)](ii)(y), the notice shall also specify the prospectus relating to the Replacement Fund and the date of replacement of the Fund by the Replacement Fund. The Issuer shall make available for inspection by Securityholders copies of any such determinations and/or adjustments.

4. EARLY TERMINATION

Early Termination. The Issuer shall have the right to terminate the Securities if it has determined in its reasonable discretion (*billiges Ermessen*) that its performance thereunder is or will become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (the “**Applicable Law**”). In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Early Termination Amount**”). The Early Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Early Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

5. HEDGING DISRUPTION

- (a) Hedging Disruption Event. A “**Hedging Disruption Event**” shall occur if any of the following or a similar event occurs:

2. RIGHTS AND PROCEDURES

- (a) Securityholder's Right. The Issuer, subject to an early termination [other than in accordance with Product Condition 5(b)], hereby grants the holder of each Security the right to demand payment of the Cash Amount on the Maturity Date [either (i)] upon automatic exercise in accordance with Product Condition 2(b), subject to the delivery of a certification (a “**Certification**”) to the Principal Paying Agent in accordance with Product Condition 2(c)[, or (ii) in case of an Index Early Termination Event in accordance with Product Condition 5(b)].
- (b) Exercise. The Securities shall be deemed to be automatically exercised on the Exercise Date.
- (c) Certification. The form of the Certification may be obtained during normal business hours from the specified office of each Paying Agent.

A Certification shall:

- (i) certify that neither the person delivering the Certification nor any person on whose behalf the Certification is being delivered is a U.S. person or a person

within the United States. As used herein, “**U.S. person**” means (A) an individual who is a resident or a citizen of the United States; (B) a corporation, partnership or other entity organised in or under the laws of the United States or any political subdivision thereof or which has its principal place of business in the United States; (C) any estate or trust which is subject to United States federal income taxation regardless of the source of its income; (D) any trust if a court within the United States is able to exercise primary supervision over the administration of the trust and if one or more United States trustees have the authority to control all substantial decisions of the trust; (E) a pension plan for the employees, officers or principals of a corporation, partnership or other entity described in (B) above; (F) any entity organised principally for passive investment, 10 per cent or more of the beneficial interests in which are held by persons described in (A) to (E) above if such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements of Part 4 of the United States Commodity Futures Trading Commission’s regulations by virtue of its participants being non-U.S. persons; or (G) any other “U.S. person” as such term may be defined in Regulation S under the United States Securities Act of 1933, as amended, or in regulations adopted under the United States Commodity Exchange Act; and

- (ii) authorise the production of such Certification in any applicable administrative or legal proceedings.
- (d) The Principal Paying Agent shall use its best efforts promptly to notify the relevant Securityholder if it has determined that a Certification is incomplete.
- (e) Settlement. The Issuer shall pay the Cash Amount to the Clearing Agent for credit to the account of the Securityholder for each Security with respect to which a Certification has been delivered.
- (f) Payment Day. If the date for payment of any amount with respect to the Securities is not a Payment Day, the Securityholder shall not be entitled to payment until the next following Payment Day and shall not be entitled to any interest or other payment with respect to such delay.

3. MARKET DISRUPTION

- (a) If in the determination of the Calculation Agent a Market Disruption Event [or an Emerging Market Disruption Event] has occurred on the Valuation Date[or the Index Early Termination Date], then the Valuation Date [or the Index Early Termination Date, as the case may be,] shall be the first succeeding Trading Day on which the Calculation Agent determines that there is no Market Disruption Event [or no Emerging Market Disruption Event], unless the Calculation Agent determines that

there is a Market Disruption Event [or an Emerging Market Disruption Event] occurring on each of the Relevant Number of Trading Days immediately following the original date which (but for the Market Disruption Event [or the Emerging Market Disruption Event]) would have been the Valuation Date[or the Index Early Termination Date, as the case may be]. In that case (i) the last day of the Relevant Number of Trading Days shall be deemed to be the Valuation Date[or the Index Early Termination Date, as the case may be] (regardless of the Market Disruption Event [or the Emerging Market Disruption Event]); and (ii) the Calculation Agent shall determine the Final Reference Price. If a Market Disruption Event [or an Emerging Market Disruption Event] constitutes also an adjustment event in accordance with Product Condition 4 and the Calculation Agent makes an adjustment in accordance with Product Condition 4, the provisions relating to the Market Disruption [or the Emerging Market Disruption] shall not be applicable with respect to this event as of the effective date of the adjustment.

(b) **“Market Disruption Event”** means:

- (i) Moratorium. A general moratorium is declared with respect to banking activities in the country in which any Exchange or any Related Exchange is located; or
- (ii) Trading Limitation. The occurrence or existence on any Trading Day during the one hour period that ends at the official close of trading on any Exchange or any Related Exchange of any suspension of or limitation imposed on trading (by reason of movements in price reaching or exceeding limits permitted by the relevant exchange or otherwise):
 - (A) on any Exchange(s) in Index Components that comprise 20 per cent or more of the level of the Index (as determined by the Calculation Agent) if, in the determination of the Calculation Agent, such suspension or limitation is material. For the purpose of determining whether such suspension or limitation is material, if trading in an Index Component is suspended or limited at that time, then the relevant percentage contribution of that Index Component to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that Index Component relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation; or
 - (B) on any Related Exchange in any options contracts or futures contracts or other derivatives contracts relating to the Index if, in the determination of the Calculation Agent, such suspension or limitation is material.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of any Exchange or Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by any Exchange or Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

[Insert supplemental or alternative market disruption events, if applicable]

- (ix) Unavailability of Settlement Currency. The unavailability of the Settlement Currency in the country of the principal financial centre of the Relevant Currency; or

- (b) If (A) on or prior to the Valuation Date[or the Index Early Termination Date, as the case may be,] the Index Sponsor or, if applicable, the Successor Sponsor, makes a material change in the formula for, or the method of, calculating the Index or in any other way materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in Index Components and other routine events); or (B) on the Valuation Date[or the Index Early Termination Date, as the case may be,] the Index Sponsor or, if applicable, the Successor Sponsor fails to calculate and/or publish the Index, then (in either case) the Calculation Agent shall determine the Final Reference Price using, in lieu of a published level for the Index on the Valuation Date[or the Index Early Termination Date, as the case may be,] the level for the Index as determined by the Calculation Agent in accordance with the formula for and method of calculating the Index last in effect prior to the change or failure, but using only those Index Components that comprised the Index immediately prior to the change or failure (other than those Index Components that have since ceased to be listed on the relevant Exchange or any other exchange on which the Index Components are listed) or, in the case of a material modification of the Index only, the Calculation Agent shall deem such

modified Index to be the Index so calculated and announced or shall terminate the Securities by giving notice in accordance with General Condition 3.

- (c) If, at any time, any event which is material to the calculation of the Index occurs and the Index Sponsor or, if applicable, the Successor Sponsor has (as determined by the Calculation Agent) not made an appropriate adjustment to the level of the Index in order to account fully for such event, notwithstanding that the rules published or applied by the Index Sponsor or, if applicable, the Successor Sponsor pertaining to the Index have been applied, the Calculation Agent shall make an adjustment to the level of the Index. [Where the Index Components consist of shares, the occurrence of one of the following events may trigger such an adjustment in accordance with this Product Condition 4(c): (A) a distribution or dividend to existing holders of the shares of (i) shares; or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the issuer of the shares equally or proportionately with such payments to holders of shares or (iii) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price; (B) a free distribution or dividend of any shares to existing holders by way of bonus, capitalisation or similar issue; (C) an extraordinary dividend; (D) any cash dividends declared on the shares at a time when the relevant issuer has not previously declared or paid dividends on such shares for the prior four quarterly periods; (E) any non-cash dividends declared on the shares at a time when the relevant issuer has not previously declared or paid dividends on such shares for the prior four quarterly periods; (F) any other extraordinary cash or non-cash dividend on, or distribution with respect to, the shares which is, by its terms or declared intent, declared and paid outside the normal operations or normal dividend procedures of the relevant issuer, provided that, in all cases, the related ex-dividend date occurs during the period from and including the Issue Date up to but excluding the Valuation Date[, or the Index Early Termination Date, as the case may be]; (G) a distribution of cash dividends on the shares equal to or greater than 8 per cent per annum of the then current market value of the shares; (H) any other similar event having dilutive or concentrative effect on the theoretical value of the shares.]²⁴⁷

- [(a)] Early Termination. The Issuer shall have the right to terminate the Securities if it has determined in its reasonable discretion (*billiges Ermessen*) that its performance thereunder is or will become unlawful in whole or in part as a result of compliance in good faith by the Issuer with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power (the "**Applicable Law**"). In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the "**Early Termination Amount**"). The Early Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. - (b) Consequences. The Issuer, in the event of a Hedging Disruption Event, may determine to:
- (i) terminate the Securities. In such circumstances the Issuer shall, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Hedging Disruption Termination Amount**”). The Issuer shall pay the Hedging Disruption Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder;

- (c) Certification. The form of the Certification may be obtained during normal business hours from the specified office of each Paying Agent.

A Certification shall:

- (i) certify that neither the person delivering the Certification nor any person on whose behalf the Certification is being delivered is a U.S. person or a person within the United States. As used herein, **“U.S. person”** means (A) an individual who is a resident or a citizen of the United States; (B) a corporation, partnership or other entity organised in or under the laws of the United States or any political subdivision thereof or which has its principal place of business in the United States; (C) any estate or trust which is subject to United States federal income taxation regardless of the source of its income; (D) any trust if a court within the United States is able to exercise primary supervision over the administration of the trust and if one or more United States trustees have the authority to control all substantial decisions of the trust; (E) a pension plan for the employees, officers or principals of a corporation, partnership or other entity described in (B) above; (F) any entity organised principally for passive investment, 10 per cent or more of the beneficial interests in which are held by persons described in (A) to (E) above if such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements of Part 4 of the United States Commodity Futures Trading Commission’s regulations by virtue of its participants being non-U.S. persons; or (G) any other **“U.S. person”** as such term may be defined in Regulation S

In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the "**Early Termination Amount**"). Agent determines that there is no Market Disruption Event [or no Emerging Market Disruption Event], unless the Calculation Agent determines that there is a Market Disruption Event [or an Emerging Market Disruption Event] occurring on each of the Relevant Number of Trading Days immediately following the original date which (but for the Market Disruption Event [or the Emerging Market Disruption Event]) would have been the Valuation Date. In that case (i) the last day of the Relevant Number of Trading Days shall be deemed to be the Valuation Date (regardless of the Market Disruption Event [or the Emerging Market Disruption Event]); and (ii) the Calculation Agent shall determine the Final Reference Price. If a Market Disruption Event [or an Emerging Market Disruption Event] constitutes also an Adjustment Event in accordance with Product Condition 4 and the Calculation Agent makes an adjustment in accordance with Product Condition 4, the provisions relating to the Market Disruption [or the Emerging Market Disruption] shall not be applicable with respect to this event as of the effective date of the adjustment.

(b) **“Market Disruption Event”** means:

- (iii) Other Events. Any other event similar to any of the above which could make it impracticable or impossible for the Issuer to perform its obligations with respect to the Securities.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange or any Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or any Related

Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

The occurrence of any event which (A) generally makes it impossible to convert the currencies in the Relevant Currency Exchange Rate (if relevant) through customary legal channels for conducting such conversion in the principal financial centre of the Relevant Currency or (B) generally makes it impossible to deliver the Relevant Currency from accounts in the country of the principal financial centre of the Relevant Currency to accounts outside such country or the Relevant Currency between accounts in such country or to a party that is a non-resident of such country; or

If the delivery of the Share Amount is not practicable by reason of a Settlement Disruption Event, then in lieu of delivery of the Share Amount and notwithstanding any other provision hereof the Issuer may determine to satisfy its obligations with respect to the relevant Security by payment of the Disruption Cash Settlement Price not later than on the [third][•] Business Day following the date on which notice of such determination is given to the Securityholders in accordance with General Condition 3. No Securityholder or any other person shall be entitled to any payment (including but not limited to interest) with respect to a Security in the event of any delay in the delivery of the Share Amount relating thereto due to the occurrence of a Settlement Disruption Event and no liability with respect thereto shall attach to the Issuer.

4. ADJUSTMENTS

- (a) Following a declaration by the Share Company of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so (in this case an “**Adjustment Event**”), will:

- (ii) terminate the Securities by giving notice to the Securityholders in accordance with General Condition 3. If the Securities are to be terminated, the Issuer shall pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination (taking into account the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (including but not limited to any equity options or selling or otherwise realising any Shares or other instruments of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements) (the **“Termination Amount”**). The Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Early Termination Amount**”). The Early Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Early Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

In such circumstances the Issuer shall, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Hedging Disruption Termination Amount**”). The Issuer shall pay the Hedging Disruption Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder;
 - (ii) replace the Share by another share;
 - (iii) make any other adjustment to the Conditions in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event.

3. MARKET DISRUPTION [AND SETTLEMENT DISRUPTION]²⁹⁴

(a) [Market Disruption]²⁹⁵

If in the determination of the Calculation Agent a Market Disruption Event [or an Emerging Market Disruption Event] has occurred on the Valuation Date, then the Valuation Date shall be the first succeeding Trading Day on which the Calculation Agent determines that there is no Market Disruption Event [or no Emerging Market Disruption Event], unless the Calculation Agent determines that there is a Market Disruption Event [or an Emerging Market Disruption Event] occurring on each of the Relevant Number of Trading Days immediately following the original date which (but for the Market Disruption Event [or the Emerging Market Disruption Event]) would have been the Valuation Date. In that case (i) the last day of the Relevant Number of Trading Days shall be deemed to be the Valuation Date (regardless of the Market Disruption Event [or the Emerging Market Disruption Event]); and (ii) the Calculation Agent shall determine the Final Share Reference Price. If a Market Disruption Event [or an Emerging Market Disruption Event] constitutes also an Adjustment Event in accordance with Product Condition 4 and the Calculation Agent makes an adjustment in accordance with Product Condition 4, the provisions relating to the Market Disruption [or the Emerging Market Disruption] shall not be applicable with respect to this event as of the effective date of the adjustment.

 - (iii) Other Events. Any other event similar to any of the above which could make it impracticable or impossible for the Issuer to perform its obligations with respect to the Securities.

In any event, a limitation on the hours and number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of any relevant exchange or Related Exchange, but a limitation on trading imposed during the course of the day by reason of movements in price otherwise exceeding levels permitted by any relevant exchange or Related Exchange may, if so determined by the Calculation Agent, constitute a Market Disruption Event.

If the Securities are to be terminated, the Issuer shall pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination (taking into account the De-listing, Merger Event, Nationalisation or Insolvency, as the case may be) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (including but not limited to any equity options or selling or otherwise realising any Share or other instruments of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements) (the “**Termination**”).

In exercising such reasonable discretion, the Calculation Agent and the Issuer may (but are under no obligation to) take into account the adjustments made by any Related Exchange to options contracts or futures contracts or other derivatives contracts on the Shares traded on such Related Exchange. Furthermore, the occurrence of a Potential Adjustment Event, a De-listing, a Merger

In such circumstances the Issuer shall, however, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer in its reasonable discretion (*billiges Ermessen*) as the fair market value of the Security immediately prior to such termination (ignoring such illegality) less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Early Termination Amount**”). The Early Termination Amount shall be notified to the Securityholders by the Issuer in accordance with General Condition 3. The Issuer shall pay the Early Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder.

 - (iv) the general unavailability of: (A) market participants who will agree to enter into a Relevant Hedging Transaction; or (B) market participants who will so enter into a Relevant Hedging Transaction on commercially reasonable terms.

- (i) terminate the Securities. In such circumstances the Issuer shall, if and to the extent permitted by the Applicable Law, pay to each Securityholder with respect to each Security held by such Securityholder an amount determined by the Issuer as the fair market value of the Security immediately prior to such termination less the cost to the Issuer of unwinding any transaction entered into in order to hedge entirely or in part its obligations under the Securities (the “**Hedging Disruption Termination Amount**”). The Issuer shall pay the Hedging Disruption Termination Amount for each Security to the Clearing Agent for credit to the account of the Securityholder;
 - (ii) replace the relevant Share by another share;
 - (iii) make any other adjustment to the Conditions in order to maintain the theoretical value of the Securities after adjusting for the relevant Hedging Disruption Event.
