## I. GENERAL DESCRIPTION OF THE OFFERING PROGRAMME

### 1. General description of the offering programme

BNP Paribas Emissions- und Handelsgesellschaft mbH (hereinafter referred to as the “**Issuer**”) issues warrants relating to indices, shares, currency exchange rates, metals, commodities, futures contracts and/or depository receipts (hereinafter referred to as the “**Warrants**”) following a resolution of its Board of Directors, respectively.

For this purpose, the Issuer has prepared and published this Base Prospectus. A detailed description of the Base Prospectus, in particular of its structure and functioning, is provided in section “III. GENERAL INFORMATION ON THE BASE PROSPECTUS” on page 48 *et seq.* of this Base Prospectus.

The Issuer has its registered office in Frankfurt am Main. Its business address is Senckenberganlage 19, 60325 Frankfurt am Main, Germany. The Issuer is a company with limited liability (*Gesellschaft mit beschränkter Haftung – GmbH*) incorporated under the laws of Germany. Further information about the Issuer is provided in section “V. INFORMATION ABOUT THE ISSUER” on page 64 *et seq.* of this Base Prospectus.

BNP Paribas S.A. of Paris, France, (hereinafter referred to as the “**Guarantor**” or “**BNPP**”) has provided an unconditional and irrevocable guarantee (hereinafter referred to as the “**Guarantee**”) for the due payment of all amounts to be paid under the Terms and Conditions of the Warrants if and as soon as the respective payment would be due under the Terms and Conditions of the Warrants. The Guarantor is a public limited liability company (*société anonyme*) incorporated in France under the laws of France and holds a banking licence; the address of its principal office is 16, boulevard des Italiens – 75009 Paris, France. Further information about the Guarantor and the Guarantee, respectively, is provided in section “VI. INFORMATION ABOUT THE GUARANTOR” on page 66 *et seq.* of this Base Prospectus and section “VII. DESCRIPTION OF THE GUARANTEE” on page 67 *et seq.* of this Base Prospectus.

### 2. General description of the Warrants described in this Base Prospectus

The securities described in this Base Prospectus are Warrants. This means that payments on the Warrants will depend on the performance of an index, a share, a currency exchange rate, a metal, a commodity, a futures contract and/or a depository receipt, or that of multiple indices, shares, currency exchange rates, metals, commodities, futures contracts and/or depository receipts (each an “**Underlying**”).

The level of the Redemption Amount is not known yet. It will be determined only during the term or upon exercise of the Warrants by the Warrant Holder, in the case of Warrants issued with an exercise right, or termination of the Warrants by the Issuer on the basis of the Underlying.

An essential characteristic of a Warrant is the so-called leverage effect: If the value of the Underlying (or the value of a component included in the Underlying, if applicable) changes, this may cause the value of the Warrant to change proportionally more than the change in value of the Underlying. The leverage effect of the Warrant can work both ways – i.e. not only to the investor’s advantage in the case of a favourable development but also to the investor’s disadvantage in the case of an unfavourable development of the price of the Underlying the Warrant is linked to. Therefore, it should be considered when purchasing a particular Warrant that the greater its leverage effect, the greater the risk of loss associated with it.

- Product 1: UNLIMITED TURBO Long/Short Warrants.

- Product 2: MINI Future Long/Short Warrants.
- Product 3: Call/Put Warrants.
- Product 4: Discount Call/Put Warrants.
- Product 5: Constant Leverage Long/Short Warrants (with unlimited term).
- Product 6: TURBO Long/Short Warrants.
- Product 7: Inline Warrants.

A more detailed description of the functioning of the Warrants is provided in section “VIII. INFORMATION ABOUT THE WARRANTS TO BE OFFERED” under no. 1 “Information about the Warrants” on page 71 *et seq.* of this Base Prospectus. Therefore, readers are advised to read the risk factors relating to the Issuer, the Guarantor and the Warrants set out in section “II. Risk factors” on page 10 *et seq.* of this Base Prospectus at the same time.

### **3. Further information about the Warrants and about their offering and trading**

If provided for in the applicable Final Terms, the Warrants are issued in the form of bearer bonds (*Inhaberschuldverschreibungen*) as defined in Sec. 793 of the German Civil Code (*Bürgerliches Gesetzbuch – BGB*) and constitute direct and non-subordinated liabilities of the Issuer in respect of which the Issuer has not provided collateral. Such Warrants may be drawn up in the form of a note (*Urkundenform*) or, in accordance with the German Electronic Securities Act (*Gesetz über elektronische Wertpapiere, "eWpG"*), in the form of electronic securities included in a central register (the "**Central Register Securities**"). In the case the Warrants are drawn up in the form of a note, the Warrants are evidenced by a permanent global bearer note. No Warrant Holder has the right to an individual note. In case of Warrants issued as electronic securities in accordance with the eWpG, the Central Register Securities shall be issued by registering them electronically in the central register maintained by the registrar and after depositing the relevant terms and conditions for the respective Warrant as a permanent electronic instrument with the registrar. The central register shall be maintained by a registrar acting in the capacity as a central depository for securities (*Wertpapiersammelbank*). The central depository for securities is registered as the bearer of the Warrants (*Inhaber* within the meaning of the eWpG) in the central register (collective safe custody entry - *Sammeleintragung*) and administers the Warrants as trustee for the benefit of the respective Warrant Holders (*Berechtigter* within the meaning of the eWpG). Central Register Securities registered via collective safe custody entry are legally deemed to be collective securities holdings. No Warrant Holder has the right to an individual registration in the central register. The Warrants shall be transferred as a co-ownership interest in the collective securities holding in accordance with the applicable regulations and statutory provisions of the respective Clearing System. The Issuer reserves the right to change the form of the Warrants over the course of their term (from a note to an electronic security and vice versa).

If provided for in the applicable Final Terms, the Warrants can also be issued in dematerialised bearer form and cleared through Euroclear France S. A., issued in registered form and cleared through Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V., issued in dematerialised form and cleared through Monte Titoli S.p.A., issued in dematerialised registered form and cleared through Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A., issued in dematerialised registered form and cleared through Euroclear Sweden AB or issued in uncertificated form and cleared through SIX SIS AG or issued in uncertificated form registered with a custodian under article 4 Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*) (the "**FISA**") not being a central securities depository.

The Warrants are intended to be publicly offered to private clients, professional clients and other eligible counterparties as investors in Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and The Netherlands, as further specified in the applicable Final Terms.

A request for admission of the Warrants to trading on a securities exchange in Belgium and/or Cyprus and/or Czech Republic and/or Denmark and/or Estonia and/or Finland and/or France and/or Germany and/or Greece and/or Hungary and/or Ireland and/or Italy and/or Latvia and/or Lithuania and/or Luxembourg and/or Malta and/or Norway and/or Poland and/or Portugal and/or Slovakia and/or Slovenia and/or Spain and/or Sweden and/or Switzerland and/or The Netherlands may be made, if provided for in the applicable Final Terms.

Further general information about the Warrants and about their offering and trading is provided in section "VIII. INFORMATION ABOUT THE WARRANTS TO BE OFFERED" on page 71 *et seq.* of this Base Prospectus.

#### **4. Using the Base Prospectus in Switzerland**

The Base Prospectus may be (i) registered in Switzerland with the reviewing body (*Prüfstelle*) SIX Exchange Regulation Ltd or another reviewing body approved by the Swiss Financial Market Supervisory Authority FINMA as a foreign prospectus that is also deemed to be approved in Switzerland pursuant to Article 54 para. 2 of the Swiss Federal Act on Financial Services ("**Financial Services Act**"; "**FinSA**") for inclusion on the list of approved prospectus pursuant to Article 64 para. 5 FinSA, (ii) deposited with this reviewing body and (iii) published pursuant to Article 64 FinSA.

In accordance with Article 36 para. 4 lit. b FinSA, the Issuer consents to the use of the Base Prospectus and the relevant Final Terms by any financial intermediary on the basis of and in accordance with the Base Prospectus and the relevant Final Terms.

**The Warrants do not constitute a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("CISA"). The Securities are neither subject to the authorisation nor to the supervision by the Swiss Financial Market Supervisory Authority FINMA and investors do not benefit from the specific investor protection provided under the CISA. Investors should be aware that they are exposed to the credit risk of the Issuer and the Guarantor respectively.**

## II. RISK FACTORS

The purchase of Warrants described in this Base Prospectus involves a number of risks.

The risk factors relating to the Issuer, the Guarantor and the Warrants are considered in the following sections (see section “A. Risk factors relating to the Issuer”, section “B. Risk factors relating to the Guarantor” and section “C. Risk factors relating to the Warrants”, respectively).

The risk factors are divided into categories and, if applicable, subcategories according to their nature, whereby the two most material risk factors are mentioned first in each category and subcategory. The other risk factors mentioned in a category or subcategory are not listed by their materiality. If no subcategory comprising at least two risk factors is listed under the classification level “Category”, this means that the one risk factor listed is the only material risk factor pursuant to the Issuer’s assessment.

The “Risk Factors” part comprises three sections A., B. and C., which are mere classification levels. Section C. contains categories 1. to 5. The classification level “Category” comprises either subcategories (denoted by letters) or, where another classification level “Subcategories” does not make sense because there is only one (isolated) material risk factor in relation to a subject matter, just the risk factors.

Where the risk factors are listed directly, the heading is printed in italics. Where subcategories are used, the headings of the subcategories are printed underlined and in non-italics. In this case, only the headings of the next level, i.e. of the “Risk factor” level, are printed in italics.

The assessment of materiality was made by the Issuer on the basis of the probability of their occurrence and the expected magnitude of their negative impact.

The assessment of materiality of the risk factors has been made as of the date of this Base Prospectus on the basis of the probability of their occurrence; the magnitude of the negative impact on the Issuer and the Warrants is described by reference to the magnitude of potential losses of the purchase price paid for the Warrants, plus any other costs associated with their purchase (hereinafter referred to as the “**Invested Capital**”) (including the risk of a total loss), any additional costs arising or the limitation of returns from the Warrants.

The probability of the occurrence of risks and the magnitude of the negative impact also depends on the Underlying, the relevant parameters of the Warrants set out in the applicable Final Terms and the circumstances existing as of the date of the relevant Final Terms.

If any one or more of the risks described below materialises, Warrant Holders may lose all or part of the Invested Capital, depending on the structure of the Warrants.

The risks described herebelow may materialise individually or in combination. They may also have mutually reinforcing effects.

### **A. RISK FACTORS RELATING TO THE ISSUER**

Factors which may affect the ability of BNP Paribas Emissions- und Handelsgesellschaft mbH to fulfil its obligations as Issuer of Warrants issued under this Base Prospectus are set out on pages 3 to 6 in section “**1 Risk Factors**” of the BaFin approved Registration Document of BNP Paribas Emissions- und Handelsgesellschaft mbH dated 10 June 2024 (the “**2024 Registration Document**”), if applicable as supplemented by any supplements thereto. Information from the said

document is incorporated by reference at this place into this Base Prospectus (a list setting out where the information incorporated by reference is included is provided in section “III. General information on the Base Prospectus, 6. Information incorporated by reference” of this Base Prospectus.).

## **B. RISK FACTORS RELATING TO THE GUARANTOR**

Factors which may affect the ability of BNP Paribas S.A. (“**BNPP**”) to fulfil its obligations as Guarantor under the guarantee, covering securities issued under this Base Prospectus, are set out on pages 4 to 20 in section “**1 Risk Factors**” of the BaFin approved Registration Document of BNPP of 22 October 2024, in the English language (the “**BNPP 2024 Registration Document**”), including, if applicable, any supplements thereto.

The risk factors on pages 4 to 20 of the BNPP 2024 Registration Document are incorporated by reference at this place into this Base Prospectus. A list setting out where the information incorporated by reference is included is provided in section “III. GENERAL INFORMATION ON THE BASE PROSPECTUS, 6. Information incorporated by reference” of this Base Prospectus.

## **C. RISK FACTORS RELATING TO THE WARRANTS**

### **1. Risks related to the rank and characteristics of the Warrants in the case of default of the Issuer and/or the Guarantor**

This category of risk factors describes the risk factors related to the rank and characteristics of the Warrants in the case of default of the Issuer and/or the Guarantor. “Risks related to the rank of the Warrants” and “Risks related to the Guarantee provided by BNP Paribas S.A.” are assessed to be the most important risks.

#### **a) Risks related to the rank of the Warrants**

As direct, unsecured and non-subordinated liabilities of the Issuer, the Warrants rank pari passu in right of payment with each other and with any other present and future unsecured and non-subordinated liabilities of the Issuer – including in the event of insolvency of the Issuer – to the exclusion of liabilities ranking senior by operation of mandatory law.

Therefore, the risk associated with these Warrants is higher for the Warrant Holders than that associated with securities ranking higher by operation of mandatory law.

#### **b) Risks related to the Guarantee provided by BNP Paribas S.A.**

BNP Paribas S.A., Paris, France, in its capacity as Guarantor has provided an unconditional and irrevocable Guarantee for the due payment of all amounts to be paid under the Terms and Conditions of the Warrants if and as soon as the respective payment would be due under the Terms and Conditions of the Warrants.

In the event that any amounts to be paid under the Warrants issued by the Issuer are not duly paid, the Warrant Holders may make claims on the Guarantor under the Guarantee. Therefore, given that the Warrants are guaranteed, the Warrant Holders (indirectly) bear also the insolvency risk of BNP Paribas S.A.

In the event that insolvency proceedings are initiated against the Guarantor, Warrant Holders are able to make their claims under the Guarantee only in accordance with the provisions of (French) insolvency law. In this case, Warrant Holders receive an amount of money determined on the basis of the amount of the insolvency quota obtained by the Guarantor. As a rule, this amount does not

even come close to the amount of Capital the Warrant Holder Invested to purchase the Warrants. If claims are made against the Guarantor under the Guarantee and the Guarantor becomes insolvent, this may even result in a total loss of the Invested Capital.

#### **c) Resolution measures and bail-in in relation to the Issuer**

Although the Issuer itself is not a CRR Credit Institution, it cannot be excluded that, as a subsidiary of the Guarantor, it is subject to statutory provisions under the German Act on the Recovery and Resolution of Credit Institutions (*Gesetz zur Sanierung und Abwicklung von Kreditinstituten – “SAG”*) that would allow the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht – “BaFin”*) in its capacity as the competent resolution authority to take resolution measures in relation to the Issuer. The term “CRR Credit Institution” is based on the abbreviation for the English title of the Capital Requirements Regulation (EU) No. 575/2013 and was introduced into Sec. 1 Para. 3d of the German Banking Act (*Kreditwesengesetz – KWG*) by the German CRD IV Implementing Act (*CRD IV-Umsetzungsgesetz*) of 28 August 2013, where it replaced the previous term “Deposit Bank” (*Einlagenkreditinstitut*).

If the provisions of the SAG are applicable, BaFin may determine in the cases specified by law that claims of the Warrant Holders under the Warrants be converted into shares in the Guarantor. In this case, Warrant Holders would bear the same risks as any shareholder of the Guarantor. As a rule, the price of the shares in the Guarantor will have dropped sharply in such a situation. Therefore, Warrant Holders are highly likely to suffer a loss in this case.

The Redemption Amount of the Warrants and any claims to interest under the Warrants may be reduced in whole or in part by an act of the competent resolution authority, i.e. reduced due to an administrative measure. Warrant Holders will then receive a reduced repayment or no repayment at all on the Invested Capital.

The resolution authority may also make changes to the Terms and Conditions of the Warrants. For example, it may change the date when the Warrants are redeemed. In this case, Warrant Holders receive the agreed payments under the Warrants later than originally agreed under the Terms and Conditions of the Warrants.

According to the provisions of the SAG, the conditions for resolution are met if the resolution authority finds that the continued existence of the Issuer is at risk.

If the resolution authority takes resolution measures, Warrant Holders bear the risk of losing their claims under the Warrants. This applies in particular to claims to payment of the Redemption Amount or other payments.

Resolution measures taken by the competent resolution authority against the Issuer may result in significant losses or in a total loss of Warrant Holders’ Invested Capital.

#### **d) Risk associated with resolution measures in relation to the Guarantor**

Since the Guarantor has provided a Guarantee for the due payment of all amounts to be paid under the Warrants issued by the Issuer, measures taken in France under French law in relation to BNP Paribas S.A. or the BNP-Paribas-Group according to the transposition of the European Recovery and Resolution Directive may have indirect adverse effects on the Warrants.

Warrant Holders face the risk that in the event of resolution measures under French law being ordered by the authorities, BNP Paribas S.A. may not be able to meet its obligations as Guarantor under the Warrants. If the continued existence of BNP Paribas S.A. is endangered, the French

*Autorité de Contrôle Prudentiel et de Résolution (“ACPR”)* in its capacity as the competent resolution authority may also order resolution measures to be taken in advance of insolvency proceedings.

In this context, the resolution authority has extensive powers to take action in relation to BNP Paribas S.A. which may have adverse effects on the Warrants of the Issuer. For example, if the continued existence of BNP Paribas S.A. is endangered, it cannot be excluded that any claims which may exist and are directed against BNP Paribas S.A. on the basis of the Guarantee will be written down to zero or converted into shares in BNP Paribas S.A. by the competent resolution authority.

In this case, investors who have invested in the Warrants issued by the Issuer bear the risk of income from the Warrants being limited. If the Issuer becomes temporarily or permanently insolvent, resolution measures taken by the competent resolution authority in relation to BNP Paribas S.A. may result in significant losses and even a total loss of investors’ Invested Capital.

**e) No deposit guarantee scheme or compensation fund**

There is no statutory or voluntary deposit guarantee or compensation fund scheme in place for liabilities of the Issuer under the Warrants.

The Warrants are not deposits such as, for example, credit balances in bank accounts (including fixed-term deposits or savings deposits), which is the most important reason why the Warrants are not covered under the deposit guarantee scheme. Since the Issuer is not a credit or financial services institution, the claims the investors have against the Issuer in connection with the Warrants are also not secured by a statutory or private compensation fund.

In other words, there is no protection in place for the liabilities to be paid by the Issuer under the Warrants, and, subject to the Guarantee provided by BNP Paribas S.A. as Guarantor, Warrant Holders face the risk of a total loss of their Invested Capital in the event that the Issuer becomes insolvent.

## 2. Risks relating to the redemption profile of the Warrants

This category of risk factors describes the risk factors relating to the redemption profile of the Warrants for each product.

For the purposes of this section “Risks relating to the redemption profile of the Warrants”, the term “Underlying” may also include the (relevant) Underlying assets and the (relevant) components comprised therein.

### (i) **Product 1: UNLIMITED TURBO Long/Short Warrants**

#### (a) UNLIMITED TURBO Long Warrants

With UNLIMITED TURBO Long Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Observation Price reaches or falls below the Relevant Strike during the Observation Period, there is a risk of the term being terminated immediately. In this case, the Warrants will expire and the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

Moreover, Warrant Holders will suffer a loss if the Reference Price exceeds the Relevant Strike on the Valuation Date and the Redemption Amount is lower than the purchase price the Warrant Holders paid for the Warrant.

If the Reference Price reaches or falls below the Relevant Strike on the Valuation Date, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect.

This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors’ Invested Capital.

UNLIMITED TURBO Long Warrants do not have a fixed Settlement Date.

For further information about the risks associated with the absence of a limitation of the term of the UNLIMITED TURBO Long Warrants, reference is made to sections “3. Risks relating to the Terms and Conditions of the Warrants”; “a) Risks associated with an unlimited term” and “b) Risks associated with a Minimum Exercise Number”.

#### (b) UNLIMITED TURBO Short Warrants

With UNLIMITED TURBO Short Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Observation Price reaches or exceeds the Relevant Strike during the Observation Period, there is a risk of the term being terminated immediately. In this case, the Warrants will expire and

the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

Moreover, Warrant Holders will suffer a loss if the Reference Price is lower than the Relevant Strike on the Valuation Date and the Redemption Amount is lower than the purchase price the Warrant Holders paid for the Warrant.

If the Reference Price reaches or exceeds the Relevant Strike on the Valuation Date, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect.

This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors' Invested Capital.

UNLIMITED TURBO Short Warrants do not have a fixed Settlement Date.

For further information about the risks associated with the absence of a limitation of the term of the UNLIMITED TURBO Short Warrants, reference is made to sections "3. Risks relating to the Terms and Conditions of the Warrants"; "a) Risks associated with an unlimited term" and "b) Risks associated with a Minimum Exercise Number".

**(ii) Product 2: MINI Future Long/Short Warrants**

**(a) MINI Future Long Warrants**

With MINI Future Long Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Observation Price reaches or falls below the Stop-Loss Barrier, there is a risk of the term being terminated immediately. In this case, the Redemption Amount is equal to the amount by which the Stop-Loss Reference Level exceeds the Relevant Strike, multiplied by the Ratio expressed as a decimal.

If the Stop-Loss Reference Level is lower than or equal to the Relevant Strike, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

Moreover, Warrant Holders will suffer a loss if the Reference Price exceeds the Relevant Strike and the Redemption Amount is lower than the purchase price the Warrant Holders paid for the Warrant.

If the Reference Price reaches or falls below the Relevant Strike on the Valuation Date, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect.

This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors' Invested Capital.

MINI Future Long Warrants do not have a fixed Settlement Date.

For further information about the risks associated with the absence of a limitation of the term of the MINI Future Long Warrants, reference is made to sections "3. Risks relating to the Terms and Conditions of the Warrants"; "a) Risks associated with an unlimited term" and "b) Risks associated with a Minimum Exercise Number".

(b) MINI Future Short Warrants

With MINI Future Short Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Observation Price reaches or exceeds the Stop-Loss Barrier, there is a risk of the term being terminated immediately. In this case, the Redemption Amount is equal to the amount by which the Stop-Loss Reference Level is lower than the Relevant Strike, multiplied by the Ratio expressed as a decimal.

If the Stop-Loss Reference Level is higher than or equal to the Relevant Strike, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

Moreover, Warrant Holders will suffer a loss if the Reference Price is lower than the Relevant Strike and the Redemption Amount is lower than the purchase price the Warrant Holders paid for the Warrant.

If the Reference Price reaches or exceeds the Relevant Strike, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect.

This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors' Invested Capital.

MINI Future Short Warrants do not have a fixed Settlement Date.

For further information about the risks associated with the absence of a limitation of the term of the MINI Future Short Warrants, reference is made to sections “3. Risks relating to the Terms and Conditions of the Warrants”; “a) Risks associated with an unlimited term” and “b) Risks associated with a Minimum Exercise Number”.

***(iii) Product 3: Call/Put Warrants***

***(a) Call Warrants***

With Call Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Reference Price exceeds the Strike on the Valuation Date, Warrant Holders will suffer a loss if the Redemption Amount is lower than the purchase price the Warrant Holders paid for the Warrant.

If the Reference Price reaches or falls below the Strike on the Valuation Date, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect. This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors' Invested Capital.

***(b) Put Warrants***

With Put Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Reference Price is lower than the Strike on the Valuation Date, Warrant Holders will suffer a loss if the Redemption Amount is lower than the purchase price the Warrant Holders paid for the Warrant.

If the Reference Price reaches or exceeds the Strike on the Valuation Date, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect. This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors' Invested Capital.

***(iv) Product 4: Discount Call/Put Warrants***

***(a) Discount Call Warrants***

With Discount Call Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Reference Price exceeds the Strike on the Valuation Date, Warrant Holders will suffer a loss if the Redemption Amount is lower than the purchase price the Warrant Holders paid for the Warrant.

If the Reference Price reaches or falls below the Strike on the Valuation Date, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

Furthermore, there is an upper limit on the Redemption Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect. This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors' Invested Capital.

#### (b) Discount Put Warrants

With Discount Put Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Reference Price is lower than the Strike on the Valuation Date, Warrant Holders will suffer a loss if the Redemption Amount is lower than the purchase price the Warrant Holders paid for the Warrant.

If the Reference Price reaches or exceeds the Strike on the Valuation Date, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

Furthermore, there is an upper limit on the Redemption Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect. This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors' Invested Capital.

#### **(v) Product 5: Constant Leverage Long/Short Warrants (with unlimited term)**

##### (a) Constant Leverage Long Warrants (with unlimited term)

#### **Risks associated with the Leverage Factor (leverage component)**

Constant Leverage Long Warrants (with unlimited term) reflect the leveraged purchase (known as long position) of the Underlying they are linked to by means of the Relevant Cash Value Long. The Relevant Cash Value Long is based on a leverage component which represents the Performance of the Underlying multiplied by the constant Leverage Factor. Constant Leverage Long Warrants (with unlimited term) not only allow investors to participate in the positive performance (i.e. price increases, generally) of the Underlying but investors also participate in the negative performance (i.e. price decreases, generally) of the Underlying, with price changes of the Underlying having a

disproportionately high impact on the value of the Constant Leverage Long Warrant (with unlimited term).

In this context, it should be noted that, in accordance with the Terms and Conditions of the Warrants, the daily Performance of the Underlying may be adjusted for dividends or other costs incurred in connection with dividends or otherwise (in particular in the case of indices, shares and securities representing shares (Depository Receipts)), or for Roll-Over Costs (in the case of futures contracts), which usually has a negative effect on the Performance of the Underlying and thus an additional negative effect on the Relevant Cash Value Long.

Given that the performance of a Constant Leverage Long Warrant (with unlimited term) is calculated for a period of more than one day on the basis of the daily Performance of the Underlying and the Financing Component amplified by the Leverage Factor, the performance of the Constant Leverage Long Warrant (with unlimited term) may differ significantly from the overall performance of the Underlying over the same period. Such differences may occur both when the price of the Underlying increases or decreases steadily and when the price of the Underlying fluctuates, potentially resulting in the fact that the performance of the Constant Leverage Long Warrant (with unlimited term) falls behind the Performance of the Underlying over the course of the same period. In particular, the Constant Leverage Long Warrant (with unlimited term) may lose value even if, at the end of this period, the Underlying reaches the level it amounted to at the beginning of this period.

If the relevant price of the Underlying moves in different directions after issuance of the Warrants (i.e. if price gains and losses alternate) and the price of the Underlying returns to the level it was at on the issue date of the Warrants, the leveraged Performance of the Underlying (understood as the value of the leverage component) to be taken into account when determining the Relevant Cash Value Long will at that point in time **not** be equal to its initial value (i.e. the leveraged opening price of the Underlying) but lower; depending on the effect of the repeated application of the constant leverage factor, it may even be significantly lower than its initial value.

If the relevant price of the Underlying decreases significantly, the value of the leverage component (subject to a Reset Event, if applicable) also decreases to a very low level and even potential price gains of the Underlying at a later point have only a minor effect on the recovery of the value of the Constant Leverage Long Warrants (with unlimited term) due to the constant leverage effect.

The risk of loss is essentially determined by the value of the Leverage Factor: **the higher the Leverage Factor the greater the risk.**

Depending on the Relevant Cash Value Long or on the Reference Price of the Underlying on the Valuation Date, the Redemption Amount may be substantially lower than the purchase price paid for a Constant Leverage Long Warrant (with unlimited term) and may go down to as low as **zero (0)**, in which case **NO** payment will be made. In this case, the Warrant does not yield any return but involves a risk of total loss of the Invested Capital or a loss corresponding to the entire purchase price paid for a Warrant (**total loss**).

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Constant Leverage Long Warrant including the transaction costs spent.

**In this context, it should be noted that the lower the Relevant Cash Value Long or the lower the Reference Price on the Valuation Date, the lower the Redemption Amount.**

For further information about the risks associated with the absence of a limitation of the term of the Constant Leverage Long Warrants (with unlimited term), reference is made to sections "3. Risks

relating to the Terms and Conditions of the Warrants”; “a) Risks associated with an unlimited term” and “b) Risks associated with a Minimum Exercise Number”.

***Risks associated with the Leverage Factor (leverage component) in the event of a Reset Event***

Another risk is associated with the leverage effect of a Reset Event of the Cash Value Long, i.e. if the Observation Price of the Underlying decreases very sharply between the determination of the relevant Reference Price on two consecutive Cash Value Calculation Dates or during such other period as is specified for this purpose in the Final Terms. If, in such case, the Reset Threshold specified in the Final Terms is reached or fallen short, this will result in a Reset Event of the Cash Value Long<sub>(t)</sub> on the relevant Cash Value Calculation Date<sub>(t)</sub> or with as of such other period as is specified for this purpose in the Final Terms. For this purpose, a Reset Price of the Underlying is determined which is then used as the new or adjusted price of the Underlying for the purpose of determining the adjusted Cash Value Long<sub>(t)</sub>. This price forms the basis for the further calculation of the Performance of the Underlying with respect to the relevant Cash Value Calculation Date<sub>(t)</sub> or such other period as is specified in the Final Terms for this purpose. If the price of the Underlying decreases sharply and steadily, this may result in two or more Reset Events taking place on a Cash Value Calculation Date. Due to the leverage component of the Constant Leverage Long Warrants (with unlimited term) relating to the Performance of the Underlying, an adverse adjustment of the Cash Value Long has a disproportionately high impact on the value of the Constant Leverage Long Warrants (with unlimited term). Moreover, despite the reset mechanism, a **risk of Warrant Holders suffering a total loss of their Invested Capital remains**.

Potential purchasers of the Warrants should also consider that the Reset Threshold may be reached or fallen below at any time, including outside local trading hours or outside the trading hours of the Calculation Agent or the Offeror.

***Risks associated with a Financing Component***

The performance of the Warrants is always adjusted for the (usually mathematically negative) Financing Component, resulting in the actual performance being lower. The purpose of the Financing Component is to cover the expenses of the Issuer and/or the Calculation Agent (e.g. the Hedging Cost) and it includes the Administration Fee. **Consequently, the Redemption Amount payable to investors is reduced by the Financing Component.** The Calculation Agent may adjust certain cost elements included in the Financing Component – specifically the Hedging Cost (amplified by the Leverage Factor), the Administration Fee (also amplified by the Leverage Factor) and the Interest Margin (amplified, if applicable) – within certain ranges. The range within which each cost element may lie is determined by the Calculation Agent upon issuance of the Warrant. The longer the Constant Leverage Long Warrants (with unlimited term) are held, the stronger can be the negative effect of the Financing Component and, depending on the actual amount of the cost element concerned, can result in a **substantial reduction of the Redemption Amount** or, in the extreme case even in a **total loss of the Invested Capital**.

(b) Constant Leverage Short Warrants (with unlimited term)

***Risks associated with the Leverage Factor (leverage component)***

Constant Leverage Short Warrants (with unlimited term) reflect the leveraged sale (known as short position) of the Underlying they are linked to by means of the Relevant Cash Value Short. The Relevant Cash Value Short is based on a leverage component which represents the Performance

of the Underlying multiplied by the negative of the constant Leverage Factor. In Constant Leverage Short Warrants (with unlimited term), a negative performance (i.e. price decreases, generally) of the Underlying generally has a favourable effect on the leverage component, while a positive performance (i.e. price increases, generally) of the Underlying generally has an unfavourable effect on the leverage component, with price changes of the Underlying having a disproportionately high impact on the value of the Constant Leverage Short Warrant (with unlimited term).

In this context, it should be noted that, in accordance with the Terms and Conditions of the Warrants, the daily Performance of the Underlying may be adjusted for dividends or other costs incurred in connection with dividends or otherwise (in particular in the case of indices, shares and securities representing shares (Depositary Receipts)), or for Roll-Over Costs (in the case of futures contracts), which usually has a negative effect on the Performance of the Underlying and thus an additional negative effect on the Relevant Cash Value Short.

Given that the performance of a Constant Leverage Short Warrant (with unlimited term) is calculated for a period of more than one day on the basis of the daily Performance of the Underlying and the Financing Component amplified by the Leverage Factor, the performance of the Constant Leverage Short Warrant (with unlimited term) may differ significantly from the overall performance of the Underlying over the same period. Such differences may occur both when the price of the Underlying decreases or increases steadily and when the price of the Underlying fluctuates, potentially resulting in the fact that the performance of the Constant Leverage Short Warrant (with unlimited term) is disadvantageous for the Warrant Holder in comparison to the Performance of the Underlying over the course of the same period of time. In particular, the Constant Leverage Short Warrant (with unlimited term) may lose value even if, at the end of this period, the Underlying reaches the level it amounted to at the beginning of this period.

If the relevant price of the Underlying moves in different directions after issuance of the Warrants (i.e. if price losses and gains alternate) and the price of the Underlying returns to the level it was at on the issue date of the Warrants, the leveraged Performance of the Underlying (understood as the value of the leverage component) to be taken into account when determining the Relevant Cash Value Short will at that point in time **not** be equal to its initial value (i.e. the leveraged opening price of the Underlying) but lower; depending on the effect of the repeated application of the constant leverage factor, it may even be significantly lower than its initial value.

If the relevant price of the Underlying increases significantly, the value of the leverage component (subject to a Reset Event, if applicable) also decreases to a very low level and even potential price losses of the Underlying at a later point have only a minor effect on the recovery of the value of the Constant Leverage Short Warrants (with unlimited term) due to the constant leverage effect.

The risk of loss is essentially determined by the value of the Leverage Factor: **the higher the Leverage Factor the greater the risk.**

Depending on the Relevant Cash Value Short or on the Reference Price of the Underlying on the Valuation Date, the Redemption Amount may be substantially lower than the purchase price paid for a Constant Leverage Short Warrant (with unlimited term) and may go down to as low as **zero (0)**, in which case **NO** payment will be made. In this case, the Warrant does not yield any return but involves a risk of total loss of the Invested Capital or a loss corresponding to the entire purchase price paid for a Warrant (**total loss**).

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Constant Leverage Short Warrant including the transaction costs spent.

**In this context, it should be noted that the lower the Relevant Cash Value Short or the higher the Reference Price on the Valuation Date, the lower the Redemption Amount.**

For further information about the risks associated with the absence of a limitation of the term of the Constant Leverage Short Warrants (with unlimited term), reference is made to sections “3. Risks relating to the Terms and Conditions of the Warrants”; “a) Risks associated with an unlimited term” and “b) Risks associated with a Minimum Exercise Number”.

***Risks associated with the Leverage Factor (leverage component) in the event of a Reset Event***

Another risk is associated with the leverage effect of a Reset Event of the Cash Value Short, i.e. if the Observation Price of the Underlying increases very sharply between the determination of the relevant Reference Price on two consecutive Cash Value Calculation Dates or during such other period as is specified for this purpose in the Final Terms. If, in such case, the Reset Threshold specified in the Final Terms for this purpose is reached or exceeded, this will result in a Reset Event of the Cash Value Short<sub>(t)</sub> on the relevant Cash Value Calculation Date<sub>(t)</sub> or as of such other period as is specified for this purpose in the Final Terms. For this purpose, a Reset Price of the Underlying is determined which is then used as the new or adjusted price of the Underlying for the purpose of determining the adjusted Cash Value Short<sub>(t)</sub>. This price forms the basis for the further calculation of the Performance of the Underlying with respect to the relevant Cash Value Calculation Date<sub>(t)</sub> or such other period as is specified in the Final Terms for this purpose. If the price of the Underlying increases sharply and steadily, this may result in two or more Reset Events taking place on a Cash Value Calculation Date. Due to the leverage component of the Constant Leverage Short Warrants (with unlimited term) relating to the Performance of the Underlying, an adverse adjustment of the Cash Value Short has a disproportionately high impact on the value of the Constant Leverage Short Warrants (with unlimited term). Moreover, despite the reset mechanism, **a risk of Warrant Holders suffering a total loss of their Invested Capital remains.**

Potential purchasers of the Warrants should also consider that the Reset Threshold may be reached or exceeded at any time, including outside local trading hours or outside the trading hours of the Calculation Agent or the Offeror.

***Risks associated with a Financing Component***

The performance of the Warrants is always adjusted for the (usually mathematically negative) Financing Component, resulting in the actual performance being lower. The purpose of the Financing Component is to cover the expenses of the Issuer and/or the Calculation Agent (e.g. the Hedging Cost) and it includes the Administration Fee. **Consequently, the Redemption Amount payable to investors is reduced by the Financing Component.** The Calculation Agent may adjust certain cost elements included in the Financing Component – specifically the Hedging Cost (amplified by the Leverage Factor), the Administration Fee (also amplified by the Leverage Factor) and the Interest Margin (amplified, if applicable) – within certain ranges. The range within which each cost element may lie is determined by the Calculation Agent upon issuance of the Warrant. The longer the Constant Leverage Short Warrants (with unlimited term) are held, the stronger can be the negative effect of the Financing Component and, depending on the actual amount of the cost element concerned, can result in a **substantial reduction of the Redemption Amount** or, in the extreme case even in a **total loss of the Invested Capital.**

***(vi) Product 6: TURBO Long/Short Warrants***

(a) TURBO Long Warrants

With TURBO Long Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Observation Price reaches or falls below the Knock-Out Barrier during the Observation Period, the Warrants will expire and the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the Reference Price exceeds the Strike on the Valuation Date, Warrant Holders will suffer a loss if the Redemption Amount is lower than the purchase price the Warrant Holders paid for the Warrant.

If the Reference Price reaches or falls below the Strike on the Valuation Date, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect.

This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors' Invested Capital.

(b) TURBO Short Warrants

With TURBO Short Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Observation Price reaches or exceeds the Knock-Out Barrier during the Observation Period, the Warrants will expire and the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the Reference Price is lower than the Strike on the Valuation Date, Warrant Holders will suffer a loss if the Redemption Amount is lower than the purchase price the Warrant Holders paid for the Warrant.

If the Reference Price reaches or exceeds the Strike on the Valuation Date, the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect.

This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors' Invested Capital.

**(vii) Product 7: Inline Warrants**

With Inline Warrants, investors bear the risk of an adverse performance of the Underlying.

If the Observation Price exceeds or, where provided for in the Final Terms, reaches or exceeds the Upper Barrier or falls below or, where provided for in the Final Terms, reaches or falls below the Lower Barrier (“**Knock-Out Event**”), there is a risk of the term being terminated immediately.

If a Knock-Out Event occurs during the Observation Period, the Warrants will expire and the Redemption Amount will be **zero (0)**, unless the Final Terms provide for a Minimum Amount, whereupon **NO** payment would be made (**total loss**).

If the Final Terms provide for payment of a Minimum Amount, the Redemption Amount will only be equal to that Minimum Amount.

If the price of the Underlying to which the Warrant relates changes, this may have a proportionately more adverse effect on the Warrants due to the leverage effect.

This may result in significant losses and, subject to any Minimum Amount provided for in the Final Terms, even in a total loss of investors' Invested Capital.

### **3. Risks relating to the Terms and Conditions of the Warrants**

This category of risk factors describes the risk factors relating to the Terms and Conditions of the Warrants.

#### **a) Risks associated with an unlimited term**

The risk factors “Exercise of the Warrants by the Warrant Holder” and “Ordinary termination by the Issuer” are assessed to be the most important risks in this subcategory.

##### ***Exercise of the Warrants by the Warrant Holder***

If the Warrants do not have a fixed Settlement Date and, consequently, do not have a fixed term, the Warrant Right of the Warrant Holders as represented by the Warrants must be exercised by the Warrant Holder on a specified Exercise Date according to the exercise procedure specified in the Terms and Conditions of the Warrants in order to assert the Warrant Right.

In accordance with the Terms and Conditions of the Warrants, the Warrant Holder will then be paid a Redemption Amount in the Settlement Currency. This amount depends mainly on the performance of the Underlying until the relevant Exercise Date. Even if the Warrant Holder has the right to exercise the Warrants on certain Exercise Dates, such dates may be unfavourable for the Warrant Holder. The Warrant Holder has to decide for itself whether and to what extent exercise of the Warrant leads to a disadvantage for the Warrant Holder. If the Warrant Holder exercises the Warrants at an unfavourable point in time or does not exercise them validly, this may give rise to additional costs for the Warrant Holder or result in the income from the Warrants being limited. If market conditions are unfavourable at the time of exercise, i.e. if the value of the Warrants has decreased compared to the price at which they were purchased, there is a risk of significant loss, or, in the worst case, even total loss of the Invested Capital.

The requirements to be met in order for the Warrant Right to be exercised properly by the Warrant Holder are included in the relevant Terms and Conditions of the Warrants, if applicable. If Warrant Holders do not meet the formal requirements for exercising Warrant Rights, they will not be able to validly exercise them.

Therefore, in the event that the exercise of Warrant Rights is not valid and the value of the Warrants has decreased between the point in time when they were intended to be exercised and the date of their actual exercise, there is also a risk of significant loss or, in the worst case, even total loss of the Invested Capital.

#### **Ordinary termination by the Issuer**

The Issuer shall have the right to terminate the Warrants by ordinary termination in compliance with the Terms and Conditions of the Warrants on an Ordinary Termination Date specified in the Terms and Conditions of the Warrants. In this case, the Warrant Holder receives an amount per Warrant equal to the Redemption Amount determined at the relevant Ordinary Termination Date and payable in the Settlement Currency. This amount depends mainly on the performance of the Underlying until the relevant Ordinary Termination Date. Under the Terms and Conditions of the Warrants, the Issuer may even have a daily right to terminate the Warrants. Investors cannot rely on being able to hold the Warrants for an unlimited time and participate in the performance of the Underlying. Therefore, the Warrants may represent only rights that are limited in time, e.g. in the event of ordinary termination by the Issuer. There is no certainty that it will be possible to compensate potential price losses by a subsequent increase in value of the Warrant before the Warrant is terminated by the Issuer by ordinary termination.

In the event that the Issuer terminates the Warrants by ordinary termination, the Warrant Holder has no influence on the applicable Ordinary Termination Date, which may be unsuitable for the Warrant Holder. If market conditions are unfavourable at the time of ordinary termination, i.e. if the value of the Warrants has decreased compared to the price at which they were purchased, there is a risk of significant loss, or, in the worst case, even total loss of the Invested Capital.

#### **b) Risks associated with a Minimum Number to be exercised**

The Final Terms may stipulate that, in the case of Warrants issued with an exercise right, the exercise right may only be exercised with respect to a specified number of Warrants (the “**Minimum Number**”). Therefore, Warrant Holders who do not have the required Minimum Number of Warrants either have to sell their Warrants or purchase additional Warrants (with transaction costs being incurred in either case). However, a sale of the Warrants requires that market participants are found who are willing to purchase the Warrants at a corresponding price. If no such market participants who are willing to purchase are found, the value of the Warrants cannot be realised.

If the conditions for exercise described in the Terms and Conditions of the Warrants are not met in due time before the relevant exercise date, the Exercise Notice will be null and void and exercise will only be possible again on the next exercise date provided for under the Terms and Conditions of the Warrants for the respective Warrants.

If the Underlying develops in any adverse way in the period until the next exercise date provided for, this may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

#### **c) Market Disruptions**

The Calculation Agent or the Issuer may determine that a Market Disruption in relation to the Underlying has occurred or is continuing. This determination is made on the basis of parameters specified in the Terms and Conditions of the Warrants. The Calculation Agent or the Issuer will exercise their reasonable discretion (Secs. 317 and 315, respectively, of the German Civil Code

(*Bürgerliches Gesetzbuch – BGB*) in determining that a Market Disruption has occurred or is continuing. In doing so, they are not bound by actions taken or assessments made by third parties.

If a Market Disruption occurs, the determination of the relevant price of the Warrant (e.g. of the Reference Price) may be delayed as a result of that. Moreover, a Market Disruption may result in the Calculation Agent or the Issuer will exercise their reasonable discretion (Secs. 317 and 315, respectively, of the *BGB*) in determining the price or the occurrence of certain events in relation to the Warrants. In this context, the Calculation Agent or the Issuer will also take into account all other market conditions. Payment of the respective amount to be paid may be delayed as a result of this. Moreover, it is possible that determinations made by the Calculation Agent may turn out to be incorrect at a later point. This may have an adverse effect on the value of the Warrants.

Market Disruptions may thus affect the value of the Warrants and delay payment of the respective amount to be paid. This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

#### **d) Adjustments, termination risk, reinvestment risk**

The risk factors “Adjustment Events” and “Exercise of Issuer’s extraordinary termination right” are assessed to be the most important risk factors in this subcategory.

In the event that adjustment measures are taken in accordance with the Terms and Conditions of the Warrants, it cannot be excluded that the adjustment measures made on the basis of the assessments turn out to be incorrect at a later point and the adjustment measure turns out to be disadvantageous for the Warrant Holder later on.

Examples of such Adjustment Events include delisting or cessation of existence of the Underlying, changes in law or tax events. In the event that the Terms and Conditions of the Warrants are adjusted, the Warrants are continued, however, there is a risk of an adjustment measure subsequently turning out to be incorrect or insufficient. As a result, the Warrant Holder may be in an economically weaker position than before the adjustment measure.

#### **Adjustment Events**

If an Adjustment Event or Potential Adjustment Event has occurred, the Issuer may either adjust the Terms and Conditions of the Warrants or replace the Underlying by a Successor Underlying or, if applicable, determine a Successor Reference Source. Such an Adjustment Event or Potential Adjustment Event may be caused by an event that has a material effect on the Underlying.

In this context, investors should take into account in particular that the Warrants issued under this Base Prospectus may be linked, *inter alia*, to the performance of share, commodity or foreign currency indices or other indices. Moreover, by taking into account the financing component pursuant to the Terms and Conditions of the Warrants, reference interest rates, such as the London Interbank Offered Rate (LIBOR), the Euro Interbank Offered Rate (EURIBOR), the Sterling Overnight Index Average (SONIA), the Secured Overnight Financing Rate (SOFR), the Swiss Average Rate Overnight (SARON), the Tokyo Overnight Average Rate (TONAR) or other reference interest rates may be used in determining the Redemption Amount of the Warrants issued under this Base Prospectus. These reference rates are hereinafter also referred to as “**Benchmarks**”. Some of these Benchmarks are the subject of recent national, international and other supervisory requirements and proposals for reform such as the Principles for Financial Benchmarks published by the International Organization of Securities Commissions (*IOSCO*) in July 2013, and of regulations such as the EU Benchmark Regulation, which has been largely applied since 1 January

2018 (see risk factor “Risks associated with effects of regulation and Benchmark reform” under category “5. Risks associated with the Underlying”).

This regulation or these reforms may result in particular in the formula and the way in which the Benchmark has been calculated up to now or the composition of the Benchmark being changed in order to comply with the provisions of the EU Benchmark Regulation to the effect that, according to the determination of the Calculation Agent, the Benchmark can no longer be compared with the previous Benchmark, or the Benchmark concerned is even set by an administrator and thus can no longer be used as Underlying. These events may constitute an Adjustment Event or Potential Adjustment Event in respect of the Warrants issued under this Base Prospectus which are linked to Benchmarks and may give the Issuer the right to adjust the Terms and Conditions of the Warrants or to replace the Underlying with a Successor Underlying.

Moreover, the Issuer may have the right in the event of an Adjustment Event or Potential Adjustment Event to terminate the Warrants by extraordinary termination. In the event of an extraordinary termination, the Termination Amount is equal to a market price determined by the Calculation Agent at its reasonable discretion, which may also be lower than the purchase price or, in the case of Constant Leverage Warrants, lower than the Initial Cash Value Long (in the case of Constant Leverage Long Warrants (with unlimited term)) or the Initial Cash Value Short (in the case of Constant Leverage Short Warrants (with unlimited term)) and, in the extreme case may be as low as **zero (0)**, which means that the investor may suffer a **total loss** of its Invested Capital.

Such adjustment, replacement or termination may have a negative effect on the Warrants because it may cause the value of the Warrants to decrease. For example, a Successor Underlying may perform worse than the original Underlying was expected to. This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

#### ***Exercise of Issuer’s extraordinary termination right***

In the event of **extraordinary** termination of the Warrants by the Issuer as provided for in the Terms and Conditions of the Warrants, the Issuer shall pay the Warrant Holder an amount per Warrant yet to be determined. This amount will be determined by the Calculation Agent at its reasonable discretion (Sec. 317 *BGB*) as the reasonable market price of the Warrant immediately before the event giving rise to the termination right in accordance with the Terms and Conditions of the Warrants. Valuation risks may arise in this context in connection with determining the Termination Amount.

In determining a reasonable market price, the Calculation Agent may take into account all factors, including any adjustments to futures or option contracts for the Underlying, without, however, being bound by actions taken or assessments made by third parties, in particular actions taken or assessments made by the Futures Exchange, if applicable.

Due to the fact that the Calculation Agent may consider market factors it deems relevant in its decision-making without being bound by any actions taken or assessments made by third parties, it cannot be excluded that the market price of the Warrant determined by the Calculation Agent at its reasonable discretion (Sec. 317 *BGB*) as reasonable, and thus the Termination Amount, may differ from any market price determined by a third party for similar options or Warrants linked to the Underlying.

Accordingly, the Termination Amount may differ from any market price determined by a third party for similar options or securities linked to the Underlying. This may result in the income from the

Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

**Reinvestment risk**

Both in the event of ordinary or extraordinary termination of the Warrants by the Issuer and in the event that the Warrants are exercised by the Warrant Holder itself, the Warrant Holder shall bear the reinvestment risk because it is possible that the amount paid out by the Issuer, if applicable, can only be reinvested on market terms less favourable than those prevailing when the Warrant terminated or exercised was purchased.

This is, in any case, a significant risk in the case of the products that have an open-end structure (i.e. no limit on their term) and there is therefore no clearly defined investment horizon on the product side.

The Warrant Holder bears the risk of its expectations of an increase in value through an alternative investment possibly not materialising and the income from the Warrants being limited.

**e) Currency exchange risks associated with the Warrants**

If the claim represented by the Warrants is calculated on the basis of a foreign currency, monetary unit or unit of account or the value of the Underlying or, if applicable, of any of the components of the Underlying is determined in such a foreign currency, monetary unit or unit of account (as is often the case with foreign Underlyings), the risk of loss depends not only on the performance of the Underlying (or of individual components of the Underlying) but also on unfavourable developments of the value of the foreign currency, monetary unit or unit of account. Fluctuations of currency exchange rates may be less obvious risks than those associated with the payoff profile and are therefore of particular relevance. Such developments of currency exchange rates may increase the risk of loss due to the fact that

- (a) the level of the Redemption Amount to be potentially received decreases proportionately if the currency exchange rate develops unfavourably, and/or
- (b) the value of the Warrants purchased decreases proportionately.
- (c) Warrant Holders bear the risk that currency exchange rate fluctuations between the currency in which payments under the Warrants are made and the Warrant Holder's home currency, which is mainly relevant for the Warrant Holder's other economic and financial circumstances, may be disadvantageous for the Warrant Holder. This applies in particular if an emerging market currency is involved. The risk factor under "Risks associated with underlyings governed by the laws of emerging market jurisdictions" under category "5. Risks associated with the Underlying" applies analogously in this context. Warrant Holders should note that currency exchange rates are subject to large fluctuations and are determined by the supply of and demand for currencies in the foreign exchange markets.

If the Final Terms provide for quanto conversion, the amount concerned is converted into the Settlement Currency without reference to the exchange rate between the currency of the Underlying and the Settlement Currency. Although the conversion into the Settlement Currency is made without reference to the exchange rate between the currency of the Underlying and the Settlement Currency and there is therefore no conversion risk, the relative interest rate difference between the current interest rate for the currency of the Underlying and the current interest rate for the Settlement Currency may have an adverse effect on the price of the Warrants at hand.

This may result in the income of the Warrant Holder being limited and, in the event of a very negative development of the exchange rate, even in significant losses for the Warrant Holder.

**f) Risks associated with determinations by the Calculation Agent and/or the Issuer**

Discretionary powers of the Calculation Agent and/or the Issuer may have an adverse effect on the value of the Warrants.

The Terms and Conditions of the Warrants stipulate that the Calculation Agent and/or the Issuer have certain discretionary powers when making decisions relating to the Warrants. For example, discretionary powers play a role

- in establishing a Market Disruption and/or establishing whether a Market Disruption is significant;
- in making adjustments to the Terms and Conditions of the Warrants;
- in determining the extraordinary Termination Amount.

The Calculation Agent and the Issuer make such determinations at their reasonable discretion (Sec. 317 or 315 *BGB*, respectively). Moreover, Warrant Holders must consider that a determination made by the Calculation Agent may have an adverse effect on the value of the Warrants. If this is the case, the adverse effect of such a determination by the Calculation Agent also affects the amounts payable under the Warrants.

Discretionary acts outside the control of the Warrant Holder may therefore result in the income from the Warrants being limited and, in the extreme case, even in significant losses.

#### **4. Risks relating to investing in, holding and disposing of the Warrants**

This category of risk factors describes the risk factors relating to investing in, holding and disposing of the Warrants.

##### **a) Market price risks**

Market price risks arise in particular from the fact that the structure of the Warrants is such that their price is dependent on the Underlying. The repayment of the Warrants depends on how a certain Underlying develops and, consequently, the development of the price of the Warrants during their term is also highly dependent on the expected and actual development of the Underlying. Depending on the nature of the Underlying, its performance depends on a number of influencing factors such as the actual and expected economic development of individual companies, industries, regions, commodity markets, other procurement and sales markets, the level of interest and prices in capital markets, development of price levels and exchange rates, the political situation or the consequences of health risks from pandemics like coronavirus.

The coronavirus pandemic still prevailing at the date of this Base Prospectus and the military conflict between Russia and Ukraine, which has been ongoing since February 2022, and the related geopolitical tensions may exacerbate market price risks relating to the relevant Underlying. The European Securities and Markets Authority (“**ESMA**”) continues to conclude in the context of its regular risk assessment that risks remain overall at a high or very high level. ESMA last confirmed its expectation on 29 August 2024 in connection with the publication of the ESMA Trends, Risks and Vulnerabilities report – Risk Monitor (TRV Risk Monitor report) No. 2, 2024 that the markets are very sensitive to economic developments, including shifts in interest rate expectations, to deteriorating credit risk and to political and electoral developments. There remains a high risk of corrections in a context of fragile market liquidity, in equity and in other markets, and ongoing concerns relating to real estate exposures.

If adverse effects on the repayment of the Warrants are to be expected due to the development of the Underlying, this will have an adverse effect on the market price of the Warrants. The market price of the Warrants may be lower during the course of their term than their initial issue price or the purchase price that was paid for them or, in the case of Constant Leverage Warrants, lower than the Initial Cash Value Long (in the case of Constant Leverage Long Warrants (with unlimited term)) or the Initial Cash Value Short (in the case of Constant Leverage Short Warrants (with unlimited term)), and if the Warrants are sold or otherwise disposed of before the end of the term, the sale proceeds obtained may be lower than the Invested Capital. Market price risks may therefore result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

##### **b) Risks relating to a secondary market for the Warrants**

The risk factors “Non-development of a liquid secondary market” and “Non-maintenance of a secondary market” are assessed to be the most important risk factors in this subcategory.

##### ***Non-development of a liquid secondary market***

Warrant Holders do not receive any payments prior to redemption of the Warrants and can therefore obtain revenue prior to redemption of the Warrants only by selling the Warrants on the secondary market or by exercising their Warrant Rights, in the case of Warrants issued with an exercise right.

The Issuer intends to provide bid and ask prices for the Warrants of an issue quoted by a company affiliated with it on a regular basis under normal market conditions.

The Warrants to be issued under this Prospectus may also be included in the open market of one or more stock exchange(s) specified in the Final Terms, or be the object of a request for admission to trading on the regulated market or equivalent markets.

However, it cannot be foreseen whether and to what extent a secondary market for the Warrants will develop and how liquid this market will be, or whether the Warrants will actually be traded on such a secondary market.

If a liquid secondary market for the Warrants does not develop, this can therefore result in the income from the Warrants being limited, and in significant losses if the Warrants perform negatively between the intended date of sale and the date of actual redemption of the Warrants.

#### ***Non-maintenance of a secondary market***

The Issuer does not warrant the level, the manner of determination or permanent availability of secondary market prices. The Issuer does not assume any obligation towards (potential) investors to provide permanent bid and ask prices for the Warrants or to maintain this activity for the entire term of the Warrants. It is not ensured that the Warrants can be purchased or sold or otherwise disposed of at a particular time during their term.

In the event that the Warrants are included in any open market or admitted to trading in a regulated market or other equivalent markets, the Issuer also does not warrant that the inclusion in trading will be maintained throughout the term of the Warrants. The last day on which the Warrants are traded on the stock exchange is expected to be one or two trading day(s) before the Valuation Date.

If a secondary market for the Warrants is not maintained, this can result in the income from the Warrants being limited, and in significant losses if the Warrants perform negatively between the intended date of sale and the date of actual redemption of the Warrants.

#### ***Risks associated with price determination on the secondary market***

Moreover, it is not clear at what price the Warrants would be traded on such a secondary market, or whether rules would restrict their purchase and sale and thus their tradability.

It is not ensured that the Warrants can be purchased or sold or otherwise disposed of at a particular time or at a particular price during their term. Delays during the price determination may occur, for example, as a result of Market Disruptions or system problems. In the case of Constant Leverage Warrants, trading in the Warrants is suspended in particular in the event that a Reset Event pursuant to the Terms and Conditions of the Warrants occurs, with the suspension usually continuing until the Reset Price is determined.

Moreover, the value of a Warrant that can be realised on a secondary market may be significantly lower than the actual value of the Warrant. Among other things, it cannot be excluded that a transaction fee may be charged on the sale of a Warrant.

The Issuer or any company of BNP Paribas Group may purchase Warrants on the open market or through an individual contract at any time, thereby restricting trade on the secondary market or making it more difficult, and thus potentially influencing the price of individual Warrants. The Issuer will not inform Warrant Holders about any such purchase or sale. Warrant Holders must form their

own picture of the performance of the Warrants and other events which may have an impact on the development of their price.

Risks associated with price determination on the secondary market can result in the income from the Warrants being limited, and in significant losses if the Warrants perform negatively between the intended date of sale and the date of actual redemption of the Warrants.

**c) Transfer in respect of uncertificated securities registered with an Intermediary other than SIX SIS AG**

Prospective investors should be aware that Warrants that are registered with an Intermediary other than SIX SIS AG will not be registered with SIX SIS AG or any other central securities depository. As a consequence, they are not transferable except to transferee(s) that have a securities account with either the Intermediary or another securities intermediary maintaining securities account(s) (directly or indirectly) with the Intermediary. This limitation on the transferability of such Securities may have a negative effect on the liquidity and value of such Securities.

**d) Risks from potential conflicts of interest**

The Issuer, the Offeror BNP Paribas Financial Markets S.N.C and the Guarantor as well as companies affiliated with them may pursue interests that conflict with Warrant Holders' interests. This may occur in connection with the Underlying, the performance of further transactions, business relationships with the issuer of the Underlying or the performance of other functions. The risk factors "Information relating to the Underlying" and "Further transactions" are assessed to be the most important risk factors in this subcategory.

***Information relating to the Underlying***

The Issuer, the Offeror and the Guarantor as well as companies affiliated with them may have or obtain material non-public information about the Underlying. The Issuer, the Offeror and the Guarantor as well as companies affiliated with them have no obligation to disclose such information to the Warrant Holders. Warrant Holders may therefore make wrong decisions in relation to the Warrants due to missing, incomplete or inaccurate information about the Underlying.

Lack of information about the Underlying may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

These business relationships may result in the income from the Warrants being limited and, in the extreme case, even in significant losses.

***Further transactions***

The Offeror and the Guarantor as well as the companies affiliated with them operate on the international and German securities exchange, credit derivatives and commodities markets on a daily basis. Therefore, they may enter into transactions relating directly or indirectly to the Warrants – whether for their own account or for the account of customers. Moreover, the Offeror and the Guarantor as well as companies affiliated with them may enter into transactions in the respective Underlying. Transactions of this kind may have an adverse effect on the performance of the Underlying. They may thus also have an adverse effect on the value and/or the tradability of the Warrants. It should be noted in this context that the Offeror, the Guarantor as well as companies affiliated with them may pursue economic interests that conflict with Warrant Holders' interests.

The value of the Warrants may also be affected by the termination of these hedge transactions or any part thereof.

The Offeror and the Guarantor as well as companies affiliated with them may purchase and sell Warrants for their own account or for the account of third parties. The Issuer and the Guarantor as well as companies affiliated with them may also issue further Warrants. These transactions may reduce the value of the Warrants. The introduction of further competing products into the market may also affect the value of the Warrants.

Further transactions of this kind may result in the income from the Warrants being limited and, in the extreme case, even in significant losses.

### ***Business relationships***

The Issuer, the Offeror and the Guarantor as well as companies affiliated with them may have a business relationship with the issuer of the respective Underlying. Such a business relationship may be characterised, for example, by advisory and trading activities. The Issuer, the Offeror and the Guarantor as well as companies affiliated with them may take such action in this context as they deem appropriate to defend their own interests arising from this business relationship. In doing so, the Issuer, the Offeror and the Guarantor as well as companies affiliated with them do not necessarily have to take appropriate account of the effects this has on the Warrants and Warrant Holders. This may give rise to a conflict of interest on the part of the Issuer and/or the Offeror and/or the Guarantor and/or the companies affiliated with them. The Issuer, the Offeror and the Guarantor as well as companies affiliated with them may carry out transactions and enter into or be a party to transactions which have an influence on the value of the Underlying. This kind of business relationships with the issuer of the Underlying may have an adverse effect on the Warrants. These business relationships may result in the income from the Warrants being limited and, in the extreme case, even in significant losses.

### ***Price determination by the Guarantor or companies affiliated with it***

As part of their market making activities, the Offeror, the Guarantor or any company affiliated with them in their capacity as market maker (hereinafter referred to as the “**Market Maker**”) have a decisive role in determining the price of the Warrants. The prices quoted by the Market Maker will not always correspond to the prices that would have developed in liquid trading on a stock exchange.

As part of the market making process, some costs are deducted over the term of the Warrants when the price of the Warrants is determined. However, this is not always done evenly over the term of the Warrants. Costs may be deducted from the fair value of the Warrants in full at an early point to be determined by the Market Maker. The prices quoted by the Market Maker may therefore differ significantly from the fair value or the price of the Warrants to be expected from an economic perspective. Furthermore, the Market Maker may change the method based on which it determines the quoted prices at any time. For example, it may enlarge or reduce the spread between bid and offer prices.

Moreover, the Offeror, the Guarantor or any company affiliated with them may also act as market maker for the Underlying. Market making may have a significant influence on the price of the Underlying and, consequently, also on the value of the Warrants.

Pricing on the secondary market may also be influenced by other factors. These include dividends or other distributions paid or expected to be paid on the Underlying.

Conflicts of interest regarding the pricing by the Offeror, the Guarantor or companies affiliated with them may result in additional costs for the Warrant Holder, or in the income from the Warrants being limited and, in the extreme case, even in significant losses.

#### **e) Risks in terminating hedge transactions of the Issuer or Offeror**

The termination of hedge transactions the Issuer entered into when issuing the Warrants may adversely affect payments to be made under the Warrants.

The Issuer may hedge against the financial risks associated with the issuance of the Warrants directly or indirectly, e.g. via the Offeror, at its own discretion (so-called “hedging transactions”). If the Warrants are redeemed/repaid or terminated by the Issuer, this results in such hedging transactions being terminated, too. The number of hedging transactions to be terminated as aforesaid depends on the number of Warrants to be redeemed. If a large number of hedging transactions is terminated, this may have an influence on the price of the Underlying and thus on the Redemption Amount.

Example: The Issuer sells a Warrant the redemption/repayment of which depends on the price of a specific share. The Issuer hedges its future payment obligations under the Warrant by purchasing the share concerned (hedging transaction). Before maturity, the Issuer sells the share on the stock exchange (termination of the hedging transaction). The sale takes place on the Valuation Date of the Warrants. If a large number of shares is sold because a large number of Warrants becomes mature, their sale may push the stock exchange price of the share down. However, the Redemption Amount for the Warrants depends on the stock exchange price of the share on the Valuation Date. Therefore, the termination of the hedging transaction may have an adverse effect on the level of the Redemption Amount for the Warrants. This may result in the income from the Warrants being limited and, in the extreme case, even in significant losses.

#### **f) Risks relating to taxation**

The risk factors “Change in tax treatment of the Warrants“ and “US foreign account tax compliance withholding” are assessed to be the most important risks in this subcategory.

##### ***Change in tax treatment of the Warrants***

Given that, to this date, there exists only a small number of judgments of the highest court instances or clear orders of the fiscal authorities regarding investment instruments like the present Warrants in the Federal Republic of Germany, it cannot be excluded that the fiscal authorities may consider a tax treatment to be applicable that could not be foreseen at the time the Warrants were issued. In addition to this estimation risk, it cannot be excluded that the tax treatment may change due to future or retrospective changes in German tax law. These estimation risks and risks of tax law changes also exist with respect to all other jurisdictions concerned. A risk of tax law changes exists also in those other jurisdictions.

Such tax law changes may have adverse consequences for Warrant Holders. For example, the Warrants may be less liquid, or the amounts payable to Warrant Holders may be lower than what they expected due to tax law changes.

Changes in the tax treatment of the Warrants may therefore result in the income from the Warrants being limited and, in the extreme case, even in significant losses.

### ***US foreign account tax compliance withholding***

In implementing the foreign account tax compliance provisions of the US Hiring Incentives to Restore Employment Act 2010 (“**FATCA**”), tax withholdings of 30% may apply to all or any of the payments to be made by the Issuer and companies affiliated with it on the Warrants. The Warrants are held in custody by the Clearing System in global form, which makes withholding from payments to the Clearing System unlikely. However, FATCA may also be applicable to the downstream chain of payments.

If an amount in respect of US withholding tax were to be deducted or withheld from interest, principal or other payments on the Warrants due to FATCA, neither the Issuer nor any paying agent nor any other person would, pursuant to the Terms and Conditions of the Warrants, be required to pay additional amounts to investors as a result of the deduction or withholding of such tax. As a result, investors may receive less interest or principal than expected.

Such a withholding of tax may result in the income of the Warrant Holder being limited and, in the extreme case, even in significant losses.

### ***Risks relating to withholding of US withholding tax***

Section 871(m) of the US Internal Revenue Code and the regulations promulgated thereunder impose a tax withholding (of up to 30% depending on the applicability of double taxation treaties) with respect to certain financial instruments (e.g. Warrants linked to US equities or US indices as Underlying) to the extent that payments (or deemed payments) on such financial instruments are contingent upon or determined by reference to US-source dividends.

Therefore, the risk involved for Warrant Holders in Warrants linked to US equities or US indices as Underlying is that payments on the Warrants may be subject to US withholding tax under section 871(m) of the US Internal Revenue Code.

Furthermore, there is a risk that section 871(m) must also be applied to Warrants that were originally not subject to the tax withholding. This may be the case in particular if the economic characters of the Warrants change to the effect that the Warrants end up being subject to tax and the Issuer continues to issue and sell the Warrants concerned.

If an amount is deducted or withheld from interest, principal or other payments on the Warrants due to section 871(m), neither the Issuer nor any paying agent nor any other person would, pursuant to the Terms and Conditions of the Warrants, be required to pay additional amounts to the Warrant Holders as a result of the deduction or withholding of such tax. As a result, Warrant Holders may receive less interest or principal than expected.

Even if the beneficiary is subject to a reduced tax rate with respect to a payment under a double taxation treaty, an amount too high may be withheld and the beneficial owner may not be able to receive a refund. In this case, the Issuer will not be able to help with the double taxation treaty or with any refund claims thereunder.

Such a withholding of tax or non-receipt of a refund may result in the income of the Warrant Holder being limited and, in the extreme case, even in significant losses.

### ***Risks in connection with the Tax Haven Defence Act***

The German Tax Haven Defence Act (*Steuerparadise-Abwehrgesetz*), which is applicable in relation to withholding tax measures since 1 January 2022, regulates a withholding tax with respect to income

from financing relationships earned by persons (including legal entities, associations of persons and estates) who are resident in non-cooperative tax jurisdictions. It has not yet been conclusively determined whether and under what conditions such withholding by the Issuer is required with respect to payments under the Warrants. The 2022 German Annual Tax Act (*Jahressteuergesetz* 2022) provides that bearer bonds evidenced by a permanent global bearer note and held in collective safe custody with a central depository and comparable debt instruments tradable on a recognized stock exchange within the meaning of Sec. 138 para. 2 sentence 1 No. 3 letter b) sentence 2 of the German Fiscal Code (*Abgabenordnung*) do not qualify as financing relationships. To the extent that securities under this Base Prospectus do not meet the aforementioned requirements for non-qualification as a financing relationship, a withholding of tax cannot be excluded.

Such a withholding of tax or non-receipt of a refund may result in the income of the Warrant Holder being limited and, in the extreme case, even in significant losses for the Warrant Holder resident in non-cooperative tax jurisdictions.

**g) Specific risks associated with the involvement of a depository or registrar**

If provided for in the applicable Final Terms, the Warrants may be securitised and issued in the form of a note (*Urkundenform*) or issued in the form of Central Register Securities (*Zentralregisterwertpapiere*). Global notes are held in custody and maintained by the depository. Individual notes are not issued. Central Register Securities are registered in the name of the relevant clearing system acting as central depository for securities (*Wertpapiersammelbank*). The relevant central depository for securities is registered as the bearer of the Central Register Securities (collective safe custody entry - *Sammeleintragung*). Individual entries in the central register will not be made. The depository will maintain the records relating to the rights arising from the global note and the registrar will maintain the central register for the Central Register Securities in accordance with the statutory requirements. Warrant Holders may assert their claims against the depository or the respective clearing system only in accordance with its regulations as well as the statutory provisions.

The Issuer will provide its payment obligations arising from the Warrants with debt-discharging effect to the depository or the registrar for purposes of transfer to their respective account or custody account holders. Thus, in the event of a default by these entities, no further payment will be made to the Warrant Holders. Warrant Holders rely on the procedures of the depository or the registrar, as the case may be, to receive payments due on the Warrant.

In the event that the depository or the registrar fails to or is delayed in making payments under the Warrants, Warrant Holders are subject to the risk of late payments or loss of principal. The insolvency of the depository or the registrar may result in the income of the Warrant Holder being limited or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

**h) Risk in the case of a redemption of the Warrants in a different currency than the currency of the Warrant Holder's account**

Warrant Holders bear a currency risk if the Warrant Holder's account is held in a currency different from the Settlement Currency of the Warrant.

A currency risk exists if the account of the Warrant Holder to which the Redemption Amount or any other amount owed is paid is managed in a currency different from the Settlement Currency of the Warrant as in this case the relevant Redemption Amount or any other amount owed under the Warrants requires conversion into the currency of the Warrant Holder's account. If the exchange

rate used for this conversion is unfavourable for the Warrant Holder, the amount transferred is reduced accordingly.

This may result in the income of the Warrant Holder being limited and, in the event of a very negative development of the exchange rate, even in significant losses for the Warrant Holder.

## **5. Risks associated with the Underlying**

For the purposes of this section “Risks associated with the Underlying”, the term “Underlying” may also include the (relevant) Underlying assets and the (relevant) components comprised therein.

This category of risk factors describes the risk factors relating to an Underlying in general and specifically in relation to certain specific Underlyings.

### **a) Risks characteristic of all Underlyings**

The risk factors “Dependence on the development of the price of the Underlying” and “Risks associated with underlyings governed by the laws of emerging market jurisdictions” are assessed to be the most important risks in this subcategory.

#### ***Dependence on the development of the price of the Underlying***

The Issuer’s selection of the Underlying is not necessarily based on its assessment of the future performance of the selected Underlying.

Changes in the price of the Underlying and thus of the Warrants may occur as a consequence of companies of the BNP Paribas Group entering into hedging transactions or other transactions in the Underlying or based on the Underlying or, if applicable, on the assets included in the Underlying. This may have an adverse effect on the amounts to be paid under the Warrants. Depending on the number of Warrants terminated or exercised or to be redeemed, as applicable, and of the hedging transactions to be terminated in turn for that, and depending on the market situation and liquidity situation existing at the relevant point in time, this may have an adverse effect on the Underlying and thus also on the amounts to be paid under the Warrants. In the case of Constant Leverage Warrants, it should be noted in this context that the Leverage Factor also has an impact on the size of the positions in the Underlying in respect of which the hedge transactions must be entered into.

It should be noted that if the price of the Underlying the Warrant is linked to changes, this may result in the Redemption Amount, depending on the development of the price of the Underlying, potentially being significantly lower than the purchase price paid for the Warrant and, as a result, the Warrant Holder suffering a significant loss of its Invested Capital.

In the case of an UNLIMITED TURBO Warrant, a TURBO Warrant or an Inline Warrant, price changes may result in a Knock-Out Event in certain circumstances.

In the case of a MINI Future Warrant, price changes may result in a Stop-Loss Event in certain circumstances.

In the case of a Constant Leverage Warrant, further risks arise from the multiplication of the Performance of the Underlying by the Leverage Factor. For example, it should be noted that if the price of the Underlying the Constant Leverage Warrant is linked to changes, this may result in the Redemption Amount, depending on the Performance of the Underlying, and taking into account the Leverage Factor and the Financing Component, potentially being significantly lower than the purchase price paid for the Constant Leverage Warrant and, as a result, the Warrant Holder suffering a significant loss in relation to the purchase price paid for the Warrant. Moreover, due to

the Leverage Factor, price changes of the Underlying have a disproportionately high impact on the value of the Warrant. The risk of loss is essentially determined by the value of the Leverage Factor: **the higher the Leverage Factor the greater the risk.**

An essential characteristic of a Warrant is the so-called leverage effect: If the value of the Underlying (or the value of a component included in the Underlying, if applicable) changes, this may cause the value of the Warrant to change proportionally more than the change in value of the Underlying. Therefore, there are higher risks of loss associated with the Warrant than with other investments. Therefore, it should be considered when purchasing a particular Warrant that the greater its leverage effect, the greater the risk of loss associated with it.

There may be an extended period of time specified in the Terms and Conditions of the Warrants between the Valuation Date and the Settlement Date for payment of the Redemption Amount. The Warrant Holders no longer participate in any price changes of the Underlying during this period.

The development of the price of the Warrants depends highly on the expected and actual performance of the Underlying. Depending on the nature of the Underlying, the performance of the Underlying is influenced by a number of factors, including:

- the actual and expected economic development of individual companies, industries, regions, commodity markets, other procurement and sales markets,
- the level of interest and prices in capital markets,
- the development of price levels and exchange rates and
- the political situation.

The reference to an Underlying is associated with risks that may have an adverse effect on the value of the Warrants.

If the Underlying performs negatively, this may result in the income of the Warrant Holder being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

#### ***Risks associated with underlyings governed by the laws of emerging market jurisdictions***

An Underlying may be governed by the laws of the jurisdiction of an emerging or developing country. An investment in Warrants linked to such an Underlying is therefore associated with additional legal, political and economic risks, including the risk of currency depreciation, compared to an investment in an Underlying that is not subject to the jurisdiction of an emerging or developing country.

Emerging and developing countries are exposed to significant legal, economic and political risks that may be greater than those in, for example, EU Member States or other industrial countries. Therefore, investments related to emerging or development countries involve not only the general risks associated with the investment in the respective Underlying but also additional risk factors. These include the unstable political or economic situation, increased inflation and increased currency risks. The instability of these countries may be caused, *inter alia*, by authoritarian governments or military involvement in political and economic decision-making, including changes or attempted changes in governments through extra-constitutional means, popular unrest associated with demands for improved political, economic and social conditions, hostile relations with neighbouring countries or ethnic, religious or racial conflicts. Political or economic instability

may affect the trust of investors, which again may have an adverse effect on the currency exchange rates and prices of securities or other assets in those countries.

Moreover, there may be less publicly available information about Underlyings that are subject to the laws of emerging or developing countries than what is normally made available to Warrant Holders. Transparency requirements, accounting, auditing or financial reporting and regulatory standards are in many respects less stringent than the standards in industrial countries. Although the market volume of some financial markets in emerging economies is growing overall, their trading volume is significantly lower than that of developed markets, and the securities of many companies are less liquid and their prices are subject to greater fluctuations than securities of similar companies in developed markets.

All of the aforementioned factors may have an adverse influence on the Warrants. Moreover, if provided for in the relevant Final Terms, each of these adverse impacts may also give rise to what is referred to as an Emerging Country Market Disruption pursuant to the Terms and Conditions of the Warrants and may thus affect the value of the Warrants and delay payment of the respective amount to be paid. This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

#### ***Risks associated with effects of regulation and Benchmark reform***

The Euro Interbank Offered Rate (“**EURIBOR**”), the London Interbank Offered Rate (“**LIBOR**”), the Sterling Overnight Index Average (“**SONIA**”), the Secured Overnight Financing Rate (“**SOFR**”), the Swiss Average Rate Overnight (“**SARON**”), the Tokyo Overnight Average Rate (“**TONAR**”) and indices, including (but not limited to) indices composed of interest rates, shares, commodities, commodity indices, exchange traded products, currency exchange rates, funds and combinations of these types of indices may be regarded as “Benchmarks” which are the subject of recent national, international and other supervisory requirements and proposals for reform.

The most important international regulatory initiatives associated with the benchmark reform include the Principles for Financial Benchmarks published by the International Organization of Securities Commissions (IOSCO) in July 2013 (the “**IOSCO Principles**”) and Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No. 596/2014 (the “**EU Benchmark Regulation**”). The objective of the IOSCO Principles is to create an overarching framework of principles for Benchmarks used in financial markets, including (*inter alia*) for control and accountability and for the quality, integrity and transparency of benchmark development and determination and the methods used. A review published by IOSCO in February 2015 about the extent of the voluntary market adoption of the IOSCO Principles found that significant but uneven progress had been made on implementing the IOSCO Principles. However, given that the financial Benchmarks industry is in a state of change, further steps may need to be taken by IOSCO in the future.

The EU Benchmark Regulation was published in the Official Journal of the EU on 29 June 2016. Most provisions of the EU Benchmark Regulation have been in effect since 1 January 2018, except for some provisions (mostly relating to critical Benchmarks) that have applied since 30 June 2016. The EU Benchmark Regulation applies to the provision of Benchmarks, contribution of input data to a Benchmark and the use of a Benchmark within the European Union. Among other things, it requires that administrators of Benchmarks must be authorised or registered (or, if they are based

outside the EU, must be subject to an equivalence regime or otherwise recognised or endorsed) and meet comprehensive requirements in relation to the administration of Benchmarks. Furthermore, it prevents a certain use of Benchmarks provided by administrators who are not authorised/registered (or, if they are based outside the EU, not recognised as equivalent or endorsed ) by supervised entities in the EU. The EU Benchmark Regulation has a broad scope of application and applies not only to Benchmarks designated as critical such as the EURIBOR but also to many other indices (including “proprietary” indices) that are used, for example, to determine the amount to be paid or the value or performance of certain financial instruments for which a request for admission to trading on a trading venue has been made or which are traded on a trading venue (EU – regulated market, EU multilateral trading facility (“**MTF**”), EU organised trading facility (“**OTF**”)) or via a systematic internaliser.

The EU Benchmark Regulation could have a significant impact on Warrants that are linked to a Benchmark as defined in the EU Benchmark Regulation, including any of the following circumstances:

- Subject to any applicable transitional provisions, an index which is a “Benchmark” cannot be used by a supervised entity in a certain manner if the administrator of the Benchmark or (if the Benchmark is provided by administrators based outside the EU) the Benchmark is not entered in ESMA’s register of Administrators/Benchmarks authorised under the EU Benchmark Regulation, or has been removed from this register (e.g. if the administrator does not obtain or retain the authorisation or registration under the EU Benchmark Regulation or, if the administrator is based in a non-EU jurisdiction, does not obtain or retain recognition or endorsement and the administrator or Benchmark is not recognised as equivalent);
- The methodology or other terms of the Benchmark could be changed in order to comply with the provisions of the EU Benchmark Regulation; and
- The contingency plans laid down in the Terms and Conditions of the Warrants may apply or, if a Potential Adjustment Event is specified as applying in the applicable Final Terms, the Calculation Agent may change the terms of the Warrants in the event that the Benchmark materially changes or ceases to be provided, in order to comply with the provisions of the EU Benchmark Regulation (see “Potential Adjustment Event” below).

Any of the above changes or any other consequential changes to a Benchmark as a result of international, national or other reforms, initiatives or investigations or the general increased regulatory scrutiny of Benchmarks could potentially have an adverse effect on the relevant Benchmark or have other unforeseen consequences, including, without limitation, that such changes could:

- affect the level of the published rate or the level of the Benchmark, which in turn may have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level;
- increase the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with such regulations or requirements;
- discourage market participants from continuing to administer or contribute to certain Benchmarks;
- trigger changes in the rules or methodologies used in certain Benchmarks;
- lead to the disappearance of certain Benchmarks (or certain currencies or tenors of Benchmarks); or

- have other adverse effects or unforeseen consequences.

Any such consequences could have a material adverse effect on the value of and yield from any Warrants and/or could lead to the Warrants being de-listed, adjusted or redeemed early following the occurrence of a Potential Adjustment Event, subject to the discretionary decision of the Calculation Agent or for other reasons, depending on the particular Benchmark and the applicable Terms and Conditions of the Warrants.

This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

**b) Risks associated with shares (or other equity securities (e.g. profit participation certificates)) as Underlying**

If the Underlying is a share or other equity security (e.g. a profit participation certificate) (hereinafter referred to as the “Share”), the following risks associated specifically with Shares as the Underlying should be observed. The risk factors “Specific risks associated with the development of the price of Shares” and “Risks similar to those associated with direct investment in Shares” are assessed to be the most important risks in this subcategory.

***Specific risks associated with the development of the price of Shares***

The development of the price of a Share used as Underlying depends on the performance of the company issuing the Shares. However, the price of a Share may also be subject to fluctuation or adverse changes in value independent of the assets and liabilities, financial position, liquidity and profit or loss of the company issuing the Shares. In particular, it may be influenced by the general state of the economy and stock market sentiment.

This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

***Risks similar to those associated with direct investment in Shares***

The development of the market price of Warrants with a Share as Underlying depends on the development of the price the Share. The development of the price of a Share may be subject to factors like the dividend or distribution policy, financial prospects, market position, corporate actions, shareholder structure and risk situation of the issuer of the Share, short selling activities, low market liquidity as well as political influences. Accordingly, an investment in a Warrant with a Share as Underlying may be subject to similar risks as a direct investment in Shares.

The development of the price of the Share may be subject to factors outside the Issuer’s sphere of influence, such as the risk of the relevant company becoming illiquid, or insolvency proceedings or similar proceedings under the laws applicable to the company being opened over the company’s assets or similar events taking place with regard to the company, which may result in a total loss of the Invested Capital for the Warrant Holder, or the risk of the share price being subject to great fluctuation.

In addition, the performance of the Shares depends particularly on the development of the capital markets, which in turn are influenced by the global situation and the specific economic and political environment. Shares in companies with low or average market capitalisation may be subject to even higher risks (e.g. with regard to volatility or insolvency) than Shares in larger companies. Furthermore, shares in companies with low market capitalisation may be extremely illiquid due to

smaller trading volumes. Shares in companies having their seat or exerting their relevant operations in countries with a high legal uncertainty are subject to additional risks, such as the risk of governmental measures being taken or nationalisation taking place. This may result in the partial or total loss of the Share's value.

This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

### ***Currency risks***

If the investments of the company whose Shares are used as Underlying are denominated in a currency other than the currency in which the value of the Shares is calculated, additional correlation risks may arise. These correlation risks concern the degree of dependency of the development of exchange rates of such Foreign Currency to the currency in which the value of the Share is calculated. Such risks can also not be excluded by potential hedging transactions of a stock corporation.

This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

### ***Issuer's conflicts of interest with regard to the Share***

It is possible that the Issuer or the companies affiliated with it hold Shares in the company which has issued the Underlying, which may result in conflicts of interest. The Issuer and the companies affiliated with it may also decide not to hold the Underlying or not to enter into any derivative contracts linked to the Share. Neither the Issuer nor the companies affiliated with it are limited in selling, pledging or otherwise transferring rights, claims and holdings regarding the Underlying or derivative contracts linked to the Underlying solely based on the fact that the Warrants were issued.

This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

### **c) Risks associated with indices as Underlying**

The risk factors "Risk of changes in the calculation of the index" and "Non-consideration of payments of dividends or other distributions if price indices are used as Underlying" are assessed to be the most important risks in this subcategory.

#### ***Risk of changes in the calculation of the index***

If the Underlying is an index, the rules of the index are subject to change by the sponsor of the index. In this case, the Issuer has no influence on any such changes.

If, as indicated in the applicable Final Terms, an index is provided by a legal entity or a natural person acting in association with, or on behalf of, the Issuer, the rules of the index (including the methodology of the index for the selection and the re-balancing of the Index Components and the description of Market Disruptions and adjustment rules) are based on predetermined and objective criteria and, as a result of that, any influence of the Issuer is excluded.

Provisions for calculating the rates of the index are specified by the sponsor of the index in the set of rules governing the index. Therefore, the Issuer has no influence on the calculation of the rates by the sponsor of the index or on potential changes to the set of rules that may have an influence on the calculation of the rates. Moreover, investors should consider that the official rates of the

index calculated by the sponsor of the index during the applicable stock exchange trading hours may differ, possibly significantly, from potential pre or post market rates of the index and from prices of futures or option contracts linked to the index.

Therefore, if an index is used as an Underlying, no guarantee can be given that the calculation methods used will not be modified or changed in a manner that may (adversely) affect payments to the Warrant Holders.

The sponsor of the index or the person responsible for the composition of the index and the Issuer may become subject to new legislative requirements during the term of the Warrants regarding the publication and use of an index which may make it necessary for the sponsor of the index or the person responsible for the composition of the index to become authorised or registered and for the index to be changed in order to comply with the statutory requirements. In this context, it cannot be excluded that an index may be changed in substance, is no longer updated or can no longer be used, in particular if it is not authorised or registered or its authorisation or registration subsequently ceases to apply (see also the subsection entitled “Risks associated with effects of regulation and Benchmark reform” above). In these cases, it should be noted that it is at the discretion of the Issuer to make adjustments to the Terms and Conditions of the Warrants or, if applicable, to terminate the Warrants by extraordinary termination.

This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

***Non-consideration of payments of dividends or other distributions if price indices are used as Underlying***

If the Underlying is a price index, it should be noted that, unlike what is the case with performance indices, distributions of dividend on the shares included in the Underlying do not result in an increase of the level of the Underlying. Therefore, investors do not benefit from dividends or other distributions on the shares included in a price index.

This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

***Risks relating to payments of dividends and other distributions in the event that performance indices are used as Underlying***

If the Underlying is a performance index, it should be noted that, unlike what is the case with price indices, payments of dividends or other distributions in the shares included in the index are taken into account in determining the level of the index. Accordingly, there is a risk that a limit, barrier or threshold relevant under the Terms and Conditions of the Warrants may be breached solely by taking such payments of Dividend or other distributions into account in determining the rate of the index.

This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

***Special political risks in connection with indices as Underlying***

Indices as underlyings may be subject to special political risks, in particular depending on their geographical focus. In connection with political developments, there is the risk that a certain index in a first step is or cannot be calculated temporarily, for a longer period of time or permanently. In a

second step, there is the risk of a temporary or permanent suspension of an index. This may even result in the Issuer being entitled to an extraordinary termination in accordance with the terms and conditions of the Warrants for reasons which do not simultaneously constitute a market disruption. This may result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

**d) Risks associated with futures contracts as Underlying**

If the Underlying is a futures contract on shares (or other equity securities (e.g. profit participation certificates)), indices, currency exchange rates or depositary receipts, potential investors should take the risks specified in the subsections entitled “Shares (or other equity securities (e.g. profit participation certificates))”, “Indices”, “Currency exchange rates” and “Depositary Receipts”, respectively, duly into account.

“Risks associated with a Roll-Over” and “Special risks associated with futures contracts on metals and commodities” are assessed to be the most important risks in this subcategory.

***Risks associated with a Roll-Over***

If the Underlying consists of futures contracts and the Terms and Conditions of the Warrants provide for a so-called Roll-Over, the following risks may arise in connection with the Roll-Over:

At a point in time specified in the Terms and Conditions of the Warrants, the Underlying is replaced by another futures contract with a later Expiry Date. Although the replacing futures contract has the same specifications (except for the term) as the Underlying being replaced, price deviations may occur that have an adverse effect on the value of the Warrants and may thus result in a loss on the investor’s investment in the Warrants.

If the Calculation Agent determines that a futures contract having the same contract specifications and terms as the Underlying to be replaced does not exist at the time of the Roll-Over, the Issuer has the right either (i) to replace the Underlying by a successor futures contract which, in the opinion of the Calculation Agent, has similar contract specifications and terms as the Underlying and/or to adjust the Terms and Conditions of the Warrants or (ii) to terminate the Warrants by extraordinary termination. In the context of such a change, it cannot be excluded that price losses of the Warrants (up to a total loss of the Invested Capital) may occur, or it may not be possible to realise future price gains of the Warrants due to an early termination.

Risks associated with a Roll-Over may therefore result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

***Special risks associated with futures contracts on metals and commodities***

Futures contracts on metals and commodities are associated with special risks typical of the Underlying.

An investment in a Warrant with a futures contract on a metal or commodity is subject to similar risks as a direct investment in the commodity(ies) or metal(s) concerned. Most commodities (e.g. oil, gas, wheat, corn) and metals (e.g. gold, silver) are traded on specialised exchanges and directly among market participants “over the counter” (in the OTC market). Investments in commodities and metals – and thus also investment in futures on commodities and metals – are associated with greater risks than investments in bonds, currencies or Shares because prices in this investment category are subject to greater fluctuation (known as volatility) because commodities and metals

are sometimes also traded for speculative purposes and this investment category may be less liquid than, for example, shares traded in stock markets.

Commodity and metal prices are influenced by factors including, but not limited to: supply and demand; financial speculation; production bottlenecks; supply shortages; small number of market participants; production in emerging markets (political unrest, economic crises); political risks (war, terror); adverse weather conditions; natural disasters.

A number of companies or countries active in the production of commodities and metals have formed organisations or cartels in order to regulate supply and thus prices. On the other hand, trade in commodities and metals is subject to regulatory provisions or market rules the application of which may also adversely affect the development of prices of the commodities and metals concerned.

Many commodity and metal markets are not particularly liquid and able to react quickly and in a sufficient scope to changes in the supply and demand situation. In the event of low liquidity, speculative investments by a small number of market participants may cause price distortions.

Metals are often produced in emerging markets and in demand from industrial countries. Often, however, the political and economic situation in emerging markets is less stable than in industrial countries. They are more susceptible to the risk associated with swift political changes and economic downturn. Political crises may shake the confidence of investors which, in turn, may affect the prices of commodities. Military or other conflicts may change the supply and demand patterns of certain metals. Moreover, industrial countries may impose embargos on exported or imported metals and services, which may have a direct or indirect impact on the price of the metal.

Special risks associated with futures on metals and commodities may result in the return on Warrants being limited, or in significant losses or, in the extreme case even in a total loss of the Invested Capital.

#### **e) Risks associated with currency exchange rates as Underlying**

If the Underlying is a currency exchange rate, the following risks associated specifically with currency exchange rates as Underlying should be observed.

Warrants with a currency exchange rate as Underlying are linked to one or more specified currency(ies). Payments depend on the development of the underlying currency(ies) and may be significantly lower than the amount the Warrant Holder originally invested. An investment in Warrants with a currency exchange rate as Underlying may be subject to similar market risks as a direct investment in the underlying currency(ies) concerned. This applies in particular if the currency concerned is an emerging market currency. Potential investors should therefore be familiar with currencies as an asset class. Further statutory restrictions on free exchange may have an adverse effect on the value of the Warrants.

It should be noted that currency exchange rates as Underlying are traded 24 hours a day across the time zones of Australia, Asia, Europe and America. Potential purchasers of the Warrants should therefore consider that a relevant limit, barrier or threshold pursuant to the Terms and Conditions of the Warrants may be reached, exceeded or fallen below at any time, including outside local trading hours or the trading hours of the Calculation Agent or the Offeror.

Risks associated with currency exchange rates as Underlying may therefore result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

#### **f) Risks associated with Depositary Receipts as Underlying**

If the Underlying is an American Depositary Receipt, Global Depositary Receipt or Ordinary Depositary Receipt (hereinafter referred to as “**Depositary Receipts**”), the following risks associated specifically with Depositary Receipts as Underlying should be observed.

American Depositary Receipts are securities issued in the United States of America by a depositary bank (Depositary) representing one or more shares of stock held in the country of domicile of the issuer of the underlying shares outside the USA.

Global Depositary Receipts are securities representing one or more shares of stock held in the country of domicile of the issuer of the underlying shares. Global Depositary Receipts are commonly offered to the public or issued outside the United States of America.

Ordinary Depositary Receipts are securities representing one or more shares of (ordinary) stock held in the country of domicile of the issuer of the underlying shares. Ordinary Depositary Receipts are offered to the public or issued in particular in the Netherlands.

Each Depositary Receipt represents one or more shares or a fraction of the warrant of a foreign stock corporation.

In the case of the Depositary Receipts, the legal owner of the underlying shares is the depositary bank which is at the same time the issue agent of the Depositary Receipts. Depending on the jurisdiction under which the Depositary Receipts were issued and on which jurisdiction governs the Custodian Agreement, it cannot be excluded that the holder of the Depositary Receipts will not be recognised under the applicable jurisdiction as the actual beneficial owner of the underlying shares. In particular in the event that the depositary bank (Depositary) becomes insolvent or enforcement actions are taken against it, it is possible that a restriction will be imposed on dispositions over the shares underlying the Depositary Receipts, or that the value of these shares will be realised through enforcement against the depositary bank (Depositary). If this is the case, the holder of the Depositary Receipt loses its rights in the underlying shares as represented by the Depositary Receipt. The Depositary Receipt as Underlying of the Warrants and thus also the Warrants linked to the Depositary Receipt concerned thereby become worthless.

As a result, investors carry a risk of default of both the depositary bank and the issuers of the shares underlying the Depositary Receipts. Investors should therefore also observe the risk factors associated with Shares as Underlying.

Risks associated with Depositary Receipts as Underlying may therefore result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

#### **g) Risks associated with metals and commodities as Underlying**

An investment in a Warrant with a commodity or metal as Underlying is subject to similar risks as a direct investment in the commodity(ies) or metal(s) concerned. Most commodities (e.g. oil, gas, wheat, corn) and metals (e.g. gold, silver) are traded on specialised exchanges and directly among market participants “over the counter” (in the OTC market). Investments in commodities and metals are associated with greater risks than investments in bonds, currencies or shares because prices in this investment category are subject to greater fluctuation (known as volatility) because commodities and metals are sometimes also traded for speculative purposes and this investment category may be less liquid than, for example, shares traded in stock markets.

Commodity and metal prices are influenced by factors including, but not limited to: supply and demand; financial speculation; production bottlenecks; supply shortages; small number of market participants; production in emerging markets (political unrest, economic crises); political risks (war, terror); adverse weather conditions; natural disasters.

It should be noted that metals or commodities used as Underlying are traded 24 hours a day across the time zones of Australia, Asia, Europe and America. Potential purchasers of the Warrants should therefore consider that a relevant limit, barrier or threshold pursuant to the Terms and Conditions of the Warrants may be reached, exceeded or fallen below at any time, including outside local trading hours or the trading hours of the Calculation Agent or the Offeror.

A number of companies or countries active in the production of commodities and metals have formed organisations or cartels in order to regulate supply and thus prices. On the other hand, trade in commodities and metals is subject to regulatory provisions or market rules the application of which may also adversely affect the development of prices of the commodities and metals concerned.

Many commodity and metal markets are not particularly liquid and able to react quickly and in a sufficient scope to changes in the supply and demand situation. In the event of low liquidity, speculative investments by a small number of market participants may cause price distortions.

Metals and commodities are often produced in emerging markets and in demand from industrial countries. Often, however, the political and economic situation in emerging markets is less stable than in industrial countries. They are more susceptible to the risk associated with swift political changes and economic downturn. Political crises may shake the confidence of investors which, in turn, may affect the prices of goods. Military or other conflicts may change the supply and demand patterns of certain metals and commodities. Moreover, industrial countries may impose embargos on exported or imported metals, commodities and services, which may have a direct or indirect impact on the price of the metal being used as Underlying of the Warrants. In particular, the Russian invasion of Ukraine and the ongoing military confrontation as of the date of this Base Prospectus as well as the reaction of the international community have had, are having and could continue to have a significant impact on the prices of metals or commodities (such as oil, gas and agricultural products).

Risks associated with metals and commodities as Underlying may therefore result in the income from the Warrants being limited, or in significant losses or, in the extreme case, even in a total loss of the Invested Capital.

### III. GENERAL INFORMATION ON THE BASE PROSPECTUS

#### 1. Form of the Base Prospectus and publication

This document constitutes a Base Prospectus for the purposes of Article 2(s) and Article 8 of Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 (the “**Prospectus Regulation**”). The Prospectus Regulation sets out the content of the Prospectus to be published when Warrants are offered to the public or admitted to trading on a regulated market.

This Base Prospectus will cease to be valid on 24 October 2025. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

The Warrants are bearer bonds (*Inhaberschuldverschreibungen*) as defined in Sec. 793 of the German Civil Code (*Bürgerliches Gesetzbuch – BGB*).

Final Terms for the Warrants will be prepared in each case to lay down information that cannot be determined until the respective date of issue of the Warrants under this Base Prospectus.

This Base Prospectus must be read together with

- the registration document of the Issuer dated 10 June 2024 (the “**2024 Registration Document**”), the information in which is incorporated by reference into this Base Prospectus,
- the Supplement No. 1 of 8 October 2024 to the 2024 Registration Document, the information in which is incorporated by reference into this Base Prospectus,
- the registration document of BNP Paribas S.A. dated 22 October 2024 (the “**BNPP 2024 Registration Document**”), the information in which is incorporated by reference into this Base Prospectus,
- any further supplements to this Base Prospectus, the 2024 Registration Document and the BNPP 2024 Registration Document, respectively,
- all other documents the information in which is incorporated by reference in this Base Prospectus (see section “III. GENERAL INFORMATION ON THE BASE PROSPECTUS, 6. Information incorporated by reference” into this Base Prospectus), and
- the respective Final Terms prepared in connection with the Warrants.

This Base Prospectus including any supplements and the respective Final Terms will be kept available in printed form for free distribution to the public. They will be available free of charge from the Issuer at Senckenberganlage 19, 60325 Frankfurt am Main, Germany or for download from the website <https://warrants.bnpparibas.com/baseprospectus> and additionally under <https://www.bnpparibasmarkets.nl/prospectus/> (for investors in The Netherlands) and/or <https://www.bnpparibasmarkets.be/prospectus/> (for investors in Belgium) and/or <https://www.produitsdeourse.bnpparibas.fr/prospectus/> (for investors in France)."

## 2. Approval of the Base Prospectus and notification

The Issuer hereby declares that

- a) this Base Prospectus has been approved by the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht – “BaFin”*) in its capacity as competent authority under Regulation (EU) 2017/1129,
- b) BaFin only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by Regulation (EU) 2017/1129,
- c) such approval should not be considered an endorsement of the quality of the securities that are the subject of this Base Prospectus, and

The Warrants are intended to be publicly offered to private clients, professional clients and other eligible counterparties as investors in Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and The Netherlands, as further specified in the applicable Final Terms. In case of a public offer of the Warrants in any of these offer countries, the Base Prospectus will be notified to the competent authority in the respective Member state and/or in the case of Switzerland (i) registered in Switzerland with the reviewing body (*Prüfstelle*) SIX Exchange Regulation Ltd or another reviewing body approved by the Swiss Financial Market Supervisory Authority FINMA as a foreign prospectus that is also deemed to be approved in Switzerland pursuant to Article 54 para. 2 of the Swiss Federal Act on Financial Services ("**Financial Services Act**"; "**FinSA**") for inclusion on the list of approved prospectus pursuant to Article 64 para. 5 FinSA, (ii) deposited with this reviewing body and (iii) published pursuant to Article 64 FinSA.

## 3. Responsibility statement

The following persons assume responsibility for the information contained in this Base Prospectus in accordance with Article 11(1) Sentence 2 of the Prospectus Regulation:

the Issuer BNP Paribas Emissions- und Handelsgesellschaft mbH (with registered office at Senckenberganlage 19, 60325 Frankfurt am Main, Germany, LEI: 549300TS3U4JKMR1B479 and entered in the commercial register of the Local Court (*Amtsgericht – AG*) of Frankfurt am Main under company registration number HRB 35628), the Guarantor BNP Paribas S.A. (with registered office at 16, boulevard des Italiens in 75009 Paris, France, LEI: R0MUWSFPU8MPRO8K5P83 and registered at the registry court R.C.S. Paris under company registration number 662 042 449) and the offeror BNP Paribas Financial Markets S.N.C. (with registered office at 20 boulevard des Italiens, 75009 Paris, France, LEI: 6EWKU0FGVX5QQJHFGT48) (hereinafter referred to as the "**Offeror**").

The persons responsible for drawing up this Base Prospectus declare that, to the best of their knowledge, the information contained in the Base Prospectus is in accordance with the facts and that the Base Prospectus makes no omission likely to affect its import.

In connection with the issuance, sale and offer of the Warrants, no person is authorised to disseminate any information or make any statements that are not contained in this Base Prospectus. The Issuer, the Guarantor and the Offeror of the Warrants accept no responsibility of

any kind for information from third parties that is not included in this Base Prospectus. Neither this Base Prospectus nor any other information provided in connection with the Warrants should be regarded as a recommendation by the Issuer, the Guarantor or the Offeror to purchase the Warrants. This also applies to any other information about the Warrants.

The information contained in the Base Prospectus relates to the date of the Base Prospectus and may be incorrect and/or incomplete as a result of changes that have occurred subsequently. The Issuer will publish significant new factors, material mistakes or material inaccuracies relating to the information contained in this Base Prospectus in accordance with Article 23(1) and/or 2a of the Prospectus Regulation. Publication will be made in a supplement to this Base Prospectus.

#### **4. Increase of issue size of Warrants, continuation of initiated public offer of Warrants and admission to trading of already issued Warrants**

Under this Base Prospectus, the Issuer may

- issue new Warrants,
- continue a previous public offer of Warrants already issued under a previous base prospectus
- increase the issue size of Warrants already issued and/or
- apply for admission of Warrants to trading on a regulated or other equivalent market.

For warrants which were first offered to the public and/or admitted to trading on a regulated or other equivalent market on the basis of the Base Prospectus dated 24 October 2022 or the Base Prospectus dated 24 October 2023 (each a "**Previous Base Prospectus**" and collectively the "**Previous Base Prospectuses**"), the Terms and Conditions of the Warrants in this Base Prospectus shall be replaced by the Terms and Conditions of the Warrants contained in the Previous Base Prospectuses under the following circumstances,

- (i) the number and thus the issue size of the Warrants issued under the Previous Base Prospectuses is increased after the expiry of the validity of the Previous Base Prospectus (increase);
- (ii) the admission of the Warrants issued under the Previous Base Prospectuses to trading on a regulated or other equivalent market is applied for after the expiry of the Previous Base Prospectuses (listing); or
- (iii) the public offer of the Warrants issued under the relevant Previous Base Prospectus is continued after the expiry of the validity period of the Previous Base Prospectus (continuation of the public offer).

For this purpose, the Terms and Conditions of the Warrants contained in the Previous Base Prospectuses are incorporated by reference as an integral part into this Base Prospectus in section "XII. TERMS AND CONDITIONS OF THE WARRANTS" of this Base Prospectus (see section "III. GENERAL INFORMATION RELATING TO THE BASE Prospectus, 6. Information Incorporated by Reference" of this Base Prospectus).

Only for the purposes of the requirements in Article 8(11) of the Prospectus Regulation, the Form of Final Terms contained in the Previous Base Prospectuses is incorporated by reference into this Base Prospectus in section "XV. FORM OF FINAL TERMS INCORPORATED BY REFERENCE IN

THIS BASE PROSPECTUS" (see section "III. GENERAL INFORMATION RELATING TO THE BASE PROSPECTUS, 6. Information Incorporated by Reference" of this Base Prospectus).

**5. Third party information**

The Issuer confirms that where information in the Base Prospectus has been sourced from third parties, such information has been accurately reproduced and that as far as the Issuer is aware and is able to ascertain from the information published by that third party, no facts have been omitted which would render the reproduced information inaccurate or misleading. The source of such information is provided immediately after the information.

In addition, reference is made in the respective Final Terms to third party websites with respect to information relating to the Underlying. These websites may be used as a source of information for the description of the Underlying and as information about the development of the price of the Underlying. The Issuer gives no guarantee of the correctness of the content and completeness of the data presented on these third-party websites.

#### IV. CONSENT TO THE USE OF THE PROSPECTUS

Each financial intermediary is authorised to use this Prospectus for the duration of its validity pursuant to Article 12(1) of the Prospectus Regulation for the purposes of subsequent resale or final placement of the Warrants. The Issuer grants its consent with respect to the subsequent resale or final placement of the Warrants within the offer period set out in the applicable Final Terms and in the offer countries specified in the applicable Final Terms (i.e. the Member State(s) for which use of the Prospectus by the authorised offeror(s) is permitted and Switzerland, in case that an offer to the public in Switzerland is intended) by all financial intermediaries. Subsequent resale or final placement as aforesaid is subject to the condition that the Prospectus is still valid according to Article 12(1) of the Prospectus Regulation or that the offer of the Warrants continues on the basis of a succeeding Prospectus that is approved before the validity of the previous Prospectus ends. The Issuer assumes liability for the content of the Prospectus also with respect to such subsequent resale or final placement of the relevant Warrants.

This Prospectus may be delivered to potential investors only together with all supplements published before the respective date of such delivery. All supplements to the Prospectus will be available for download in electronic format from the Issuer's website <https://warrants.bnpparibas.com/baseprospectus> and additionally under <https://www.bnpparibasmarkets.nl/prospectus/> (for investors in The Netherlands) and/or <https://www.bnpparibasmarkets.be/prospectus/> (for investors in Belgium) and/or <https://www.produitsdebourse.bnpparibas.fr/prospectus/> (for investors in France).

In using the Prospectus, each financial intermediary shall ensure that it observes all applicable laws and regulations of the relevant jurisdictions.

**Each financial intermediary who makes an offer shall inform investors upon submission of the offer about the terms of the offer in respect of the Warrants.**

**Any financial intermediary using this Prospectus shall state on its website that it uses the Prospectus in accordance with this consent and the conditions attached to the consent.**

## VI. INFORMATION ABOUT THE GUARANTOR

BNP Paribas S.A. has its registered office at 16, boulevard des Italiens, 75009 Paris, France and is registered at the registry court R.C.S. Paris under company registration number 662 042 449. Its LEI is R0MUWSFPU8MPRO8K5P83.

The description and the financial information of BNP Paribas S.A. as guarantor (hereinafter referred to as the “**Guarantor**” or “**BNPP**”, BNPP together with the companies affiliated with it also referred to as the “**BNP Paribas Group**”) for the purpose of this Base Prospectus are incorporated by reference at this place into this Base Prospectus.

A list setting out where information incorporated by reference is included is provided in section “III. GENERAL INFORMATION ON THE BASE PROSPECTUS, 6. Information incorporated by reference, c) Information incorporated by reference regarding the Guarantor” above.

## VII. DESCRIPTION OF THE GUARANTEE

BNP Paribas S.A. of Paris, France, (hereinafter referred to as the “**Guarantor**” or “**BNPP**”, BNPP together with the companies affiliated with it also referred to as the “**BNP Paribas Group**”) has provided an unconditional and irrevocable guarantee (hereinafter referred to as the “**Guarantee**”) for the due payment of all amounts to be paid under the Terms and Conditions of the Warrants if and as soon as the respective payment would be due under the Terms and Conditions of the Warrants. This Guarantee constitutes a direct, non-subordinated liability of the Guarantor.

This Guarantee covers in respect of the Warrants which are the subject of this Base Prospectus dated 24 October 2024:

- (i) Warrants issued for the first time under this Base Prospectus on the basis of the Terms and Conditions of the Warrants set out on pages 97 *et seqq.* of this Base Prospectus, and
- (ii) Warrants issued under the Base Prospectus dated 24 October 2022 and the Base Prospectus dated 24 October 2023 (each a “**Previous Base Prospectus**”) and/or on the basis of the Terms and Conditions of the Warrants contained therein; and for which
  - (a) the number of Warrants issued under the relevant Previous Base Prospectus is increased after the expiry of the relevant Previous Base Prospectus under this Base Prospectus dated 24 October 2024 (increase),
  - (b) the admission of Warrants issued under the relevant Previous Base Prospectus to trading on a regulated or other equivalent market is applied for after the expiry of the validity of the relevant Previous Base Prospectus under this Base Prospectus dated 24 October 2024 (listing), or,
  - (c) the public offer of the Warrants issued under the relevant Previous Base Prospectus is continued after the expiry of the validity period of the relevant Previous Base Prospectus under this Base Prospectus dated 24 October 2024 (continuation of the public offer)

(the “**Previous Warrants**”). For the purposes of any increase, listing or continuation of the public offer of Previous Warrants, the Terms and Conditions of the Warrants as contained in Section XII. of this Base Prospectus will be replaced by the Terms and Conditions of the Warrants contained in the relevant Previous Base Prospectus; see also section “IX. TERMS AND CONDITIONS OF THE OFFER, 9. Increases, renewed admission to trading of Warrants already issued and continuation of the public offering of Warrants” on page 92 of this Base Prospectus.

The relevant applicable Terms and Conditions of the Previous Warrants do not contain any reference to the Guarantee or BNPP as Guarantor, as the case may be. They are exclusively contractually guaranteed. This is effected by the separate contractual assumption of the unconditional and irrevocable guarantee for the due payment of all amounts payable under the Terms and Conditions of the Warrants to the extent and as soon as the corresponding payment would be due under the Terms and Conditions of the Warrants.

A copy of the Guarantee provided by BNPP is available in printed form free of charge during normal business hours on all workdays (excluding Saturdays and statutory holidays) at the registered office of BNP Paribas Emissions- und Handelsgesellschaft mbH as Issuer (Senckenberganlage 19, 60325 Frankfurt am Main, Germany) and BNP Paribas S.A. Niederlassung Deutschland (German branch), as Paying Agent (Senckenberganlage 19, 60325 Frankfurt am Main, Germany). In addition, the

Guarantee is available for download from the website <https://warrants.bnpparibas.com/baseprospectus> and additionally under <https://www.bnpparibasmarkets.nl/prospectus/> (for investors in The Netherlands) and/or <https://www.bnpparibasmarkets.be/prospectus/> (for investors in Belgium) and/or <https://www.produitsdebourse.bnpparibas.fr/prospectus/> (for investors in France).

### **Binding English version of the Guarantee**

**THIS GUARANTEE** is made on 18 July 2017 between BNP Paribas S.A. ("**BNPP**" or the "**Guarantor**") and BNP Paribas Emissions- und Handelsgesellschaft mbH, Frankfurt am Main, Germany, ("**EHG**" or the "**Issuer**") in favour of the holders for the time being of the Certificates (as defined below) (each a "**Holder**").

WHEREAS:

- (A) EHG has issued and will issue notes, warrants and certificates (together the "**Certificates**") on the basis of several base prospectuses approved in the past or to be approved in the future by the Federal Financial Services Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht – "BaFin"*).
- (B) The Guarantor has agreed to guarantee the obligations of the Issuer in respect of the Certificates. For the avoidance of doubt, this Guarantee does not constitute a guarantee upon first demand (*Garantie auf erstes Anfordern*).
- (C) Any reference in this Guarantee to any obligation or sums or amounts payable under or in respect of the Certificates by the Issuer shall be construed to refer to (if applicable) in the event of a bail-in of BNPP, such obligations, sums and/or amounts as reduced by reference to, and in the same proportion as, any such reduction or modification applied to liabilities of BNPP following the application of a bail-in of BNPP by any relevant authority (including in a situation where the Guarantee itself is not the subject of such bail-in).

### **1. Guarantee**

Subject as provided below, BNPP unconditionally and irrevocably guarantees in case of

- (a) Cash Settled Certificates, by way of an independent payment obligation (*selbständiges Zahlungsversprechen*) to each Holder from time to time by way of continuing guarantee the due and punctual payment of the Cash Settlement Amount; and
- (b) Physical Delivery Certificates, by way of an independent obligation (*selbständiges Garantieverprechen*) to each Holder from time to time by way of continuing guarantee the due and punctual delivery of the Physical Delivery Entitlement **provided that** notwithstanding the Issuer's obligation and/or option right to deliver Physical Delivery Entitlement to the Holders of such Physical Delivery Certificates in accordance with the respective Conditions, in any case the Guarantor will have the right to elect not to deliver such Physical Delivery Entitlement and, *in lieu* of such obligation and/or option right, to make cash payment in respect of each such Physical Delivery Certificate of an amount equal to the Guaranteed Cash Settlement Amount

in each case **provided that** the Guaranteed Obligations are due and payable and a payment demand has been made to the Issuer and the Guarantor pursuant to Clause 6.

For the purposes of this Guarantee:

“**Cash Settled Certificates**” mean certificates providing in the applicable Conditions settlement by way of cash payment.

“**Conditions**” mean the relevant final terms and conditions (*Anleihebedingungen*) of the Certificates.

“**Guaranteed Cash Settlement Amount**” means, in respect of Physical Delivery Certificates, an amount determined by the Guarantor acting in good faith and in a commercially reasonable manner equal to either (i) the Cash Settlement Amount that would have been payable upon redemption of such Physical Delivery Certificates calculated pursuant to the terms of the relevant Conditions, or (ii) the fair market value of such Physical Delivery Entitlement less, the costs of unwinding any underlying related hedging arrangements unless such costs are specified as not being applicable in the Conditions.

“**Guaranteed Obligations**” mean

- (a) in case of Cash Settled Certificates, all amounts due (*fällig*) and payable in cash in the respective cash settlement currency (“**Cash Settlement Amount**”); and/or
- (b) in case of Physical Delivery Certificates, all rights due (*fällig*) to receive physical entitlement and/or delivery of securities of any kind (“**Physical Delivery Entitlement**”)

by the Issuer according to, in each case, the relevant Conditions to the Holders of the relevant Certificates.

“**Physical Delivery Certificates**” mean Certificates providing in the applicable Conditions settlement by way of physical delivery.

## 2. Liability of BNPP and EHG

BNPP as Guarantor hereby acknowledges, absolutely and without right to claim the benefit of any legal circumstances amounting to an exemption from liability or a Guarantor's defence, that it is bound by the obligations specified herein. Accordingly, BNPP acknowledges that it will not be released from its liability, nor will its liability be reduced, at any time, by extension or grace periods regarding payment or performance, any waiver or any consent granted to EHG or to any other person, or by the failure of any execution proceedings brought against EHG or any other person.

Furthermore, BNPP acknowledges that (1) it will not be relieved of its obligations in the event that EHG's obligations become void for reasons relating to EHG's capacity, limitation of powers or lack thereof (including any lack of authority of persons having entered into contracts in the name, or on behalf, of EHG), (2) its obligations under this Guarantee will remain valid and in full effect notwithstanding the dissolution, merger, takeover or reorganisation of EHG, as well as the opening of insolvency proceedings, or any other proceedings similar to receivership or liquidation proceedings, in respect of EHG and (3) it will not avail itself of any subrogation rights in respect of the Holders' rights and that it will take no steps to enforce any rights or demands against EHG, so long as any amounts remain due; or any obligation remains unperformed, under the Certificates.

No Holder will be required to proceed against or enforce any other rights or security or claim payment from any person before claiming from the Guarantor under this Guarantee.

## 3. BNPP's continuing liability

BNPP's obligations under this Guarantee will remain valid and in full effect until no Guaranteed Obligations remain payable under any Certificates

#### **4. EHG repayment**

If a payment received by, or to the order of, any Holder is declared null and void under any rule relating to insolvency proceedings, or any other procedure similar to the receivership or liquidation of EHG, such payment will not reduce BNPP's obligations in respect of any relevant Guaranteed Obligations and this Guarantee will continue to apply in respect of any relevant Guaranteed Obligations as if such payment or obligation had always been due from EHG.

#### **5. Conditions binding**

BNPP declares that (i) it has full knowledge of the provisions of the Conditions, (ii) it will comply with them and (iii) it will be bound by them.

#### **6. Demand on BNPP**

Any demand hereunder shall be given in writing specifying the relevant Guaranteed Obligations addressed to BNPP served at its office at **CIB Legal, 3 Rue Taitbout, 75009 Paris, France**. A demand so made shall be deemed to have been duly made two Paris Business Days (as used herein, "**Paris Business Day**" means a day (other than a Saturday or Sunday) on which banks are open for business in Paris) after the day it was served or if it was served on a day that was not a Paris Business Day or after 5.30 p.m. (Paris time) on any day, the demand shall be deemed to be duly made five Paris Business Days after the Paris Business Day immediately following such day.

#### **7. Status**

This Guarantee is an unsubordinated and unsecured obligation of BNPP and will rank *pari passu* with all its other present and future unsubordinated and unsecured obligations subject to such exceptions as may from time to time be mandatory under French law.

#### **8. Contract for the benefit of third parties**

This Guarantee and all undertakings herein constitute a contract for the benefit of third parties (*echter Vertrag zugunsten Dritter*), i.e. for the benefit of the Holders. They entitle each such Holder to require performance of the obligations undertaken herein directly from BNPP as Guarantor and to enforce such obligations directly against the Guarantor.

EHG which accepted this Guarantee in its capacity as Issuer of the Certificates does not act in a relationship of agency or trust, a fiduciary or any other similar capacity for the Holders.

#### **9. Governing law**

This Guarantee, both as to form and content, and the rights arising therefrom, including any non-contractual rights are governed by and shall be construed in accordance with the laws of the Federal Republic of Germany.

#### **10. Jurisdiction**

The non-exclusive place of jurisdiction (*nicht-ausschließlicher Gerichtsstand*) for any action or other legal proceedings arising out of or in connection with the Guarantee shall be the competent courts in Frankfurt am Main. The place of performance shall be Frankfurt am Main.

## VIII. INFORMATION ABOUT THE WARRANTS TO BE OFFERED

### 1. Information about the Warrants

For the purposes of this section “Information about the Warrants to be offered”, the term “Underlying” also includes the respective underlying assets and the assets included (in each of them).

#### a) **General information**

If provided for in the applicable Final Terms, the Warrants are issued in the form of bearer bonds (*Inhaberschuldverschreibungen*) as defined in Sec. 793 of the German Civil Code (*Bürgerliches Gesetzbuch – BGB*) and constitute direct and non-subordinated liabilities of the Issuer in respect of which the Issuer has not provided collateral.

The Warrants may be drawn up in the form of a note (*Urkundenform*) or, in accordance with the German Electronic Securities Act (*Gesetz über elektronische Wertpapiere, "eWpG"*), in the form of electronic securities included in a central register (the "**Central Register Securities**").

In the case the Warrants are drawn up in the form of a note, the Warrants are evidenced by a permanent global bearer note. No Warrant Holder has the right to an individual note.

In case of Warrants issued as electronic securities in accordance with the eWpG, the Central Register Securities shall be issued by registering them electronically in the central register maintained by the registrar and after depositing the relevant terms and conditions for the respective Warrant as a permanent electronic instrument with the registrar. The central register shall be maintained by a registrar acting in the capacity as a central depository for securities (*Wertpapiersammelbank*). The central depository for securities is registered as the bearer of the Warrants (*Inhaber* within the meaning of the eWpG) in the central register (collective safe custody entry - *Sammeleintragung*) and administers the Warrants as trustee for the benefit of the respective Warrant Holders (*Berechtigter* within the meaning of the eWpG). Central Register Securities registered via collective safe custody entry are legally deemed to be collective securities holdings. No Warrant Holder has the right to an individual registration in the central register.

The Warrants shall be transferred as a co-ownership interest in the collective securities holding in accordance with the applicable regulations and statutory provisions of the respective Clearing System.

The Issuer reserves the right to change the form of the Warrants over the course of their term (from a note to an electronic security and vice versa).

If provided for in the applicable Final Terms, the Warrants can also be issued in dematerialised bearer form and cleared through Euroclear France S. A., issued in registered form and cleared through Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V., issued in dematerialised form and cleared through Monte Titoli S.p.A., issued in dematerialised registered form and cleared through Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A., issued in dematerialised registered form and cleared through Euroclear Sweden AB or issued in uncertificated form and cleared through SIX SIS AG. Warrants can also be issued in uncertificated form registered with a custodian under article 4 Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*) (the "**FISA**") not being a central securities depository.

This Base Prospectus has been submitted to BaFin in its capacity as competent authority in the Federal Republic of Germany according to Article 31(1) sentence 1 of the Prospectus Regulation in conjunction with Sec. 17 of the German Securities Prospectus Act (*Wertpapierprospektgesetz – "WpPG"*) (as amended) for approval. Following its approval, this Base Prospectus may also be

notified to the competent authority in Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden and The Netherlands. The Base Prospectus may also be (i) registered in Switzerland with the reviewing body (*Prüfstelle*) SIX Exchange Regulation Ltd or another reviewing body approved by the Swiss Financial Market Supervisory Authority FINMA as a foreign prospectus that is also deemed to be approved in Switzerland pursuant to Article 54 para. 2 of the Swiss Federal Act on Financial Services ("**Financial Services Act**"; "**FinSA**") for inclusion on the list of approved prospectus pursuant to Article 64 para. 5 FinSA, (ii) deposited with this reviewing body and (iii) published pursuant to Article 64 FinSA.

The Warrants to be issued under this Base Prospectus are particularly risky investment instruments which combine features of futures transactions with those of leveraged products.

**b) Ranking**

As direct, unsecured and non-subordinated liabilities of the Issuer, the Warrants rank *pari passu* in right of payment with each other and with any other present and future unsecured and non-subordinated liabilities of the Issuer – including in the event of insolvency of the Issuer – to the exclusion of liabilities ranking senior by operation of mandatory law. There is a general risk that the Issuer may not be able to meet its liabilities under the Warrants or any part thereof.

**Subject to the Guarantee provided by BNP Paribas S.A. as Guarantor, insolvency of the Issuer may result in a total loss of the Capital Invested in a Warrant of the Issuer.**

**c) Rating**

The Warrants described in this Base Prospectus will not be rated.

**d) Reference Price**

The Reference Price of each Warrant is the price on the Valuation Date at which the Warrant is exercised.

**e) General information about the Redemption Amount potentially to be paid under the Warrants**

With respect to the Warrants offered under this Base Prospectus, the Warrant Holder is entitled (pursuant to the Terms and Conditions of the Warrants and in particular subject to extraordinary or, if provided for, ordinary termination of the Warrants) to be paid the Redemption Amount in the Settlement Currency depending on how the Underlying to which they are linked develops. The Redemption Amount may also be lower than the purchase price paid for the Warrant.

The effect known as "leverage effect" is one of the essential characteristics of a Warrant: If the value of the Underlying (or the value of a component included in the Underlying, if applicable) changes, this may cause the value of the Warrant to change proportionally more than the change in value of the Underlying. The leverage effect of the Warrant can work both ways – i.e. not only to the investor's advantage in the case of a favourable development but also to the investor's disadvantage in the case of an unfavourable development of the price of the Underlying the Warrant is linked to. Therefore, it should be considered when purchasing a particular Warrant that the greater its leverage effect, the greater the risk of loss associated with it.

**f) Information specific to each product about the Redemption Amount potentially to be paid under the Warrants**

**(j) Product 1: UNLIMITED TURBO Long/Short Warrants**

**(a) UNLIMITED TURBO Long Warrants**

UNLIMITED TURBO Long Warrants have an unlimited term, subject to the occurrence of a Knock-Out Event, a termination by the Issuer or an exercise by the Warrant Holder.

After the Valuation Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount depending on the development of the price of the Underlying the Warrant is linked to and of the Relevant Strike. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

Subject to the occurrence of a Knock-Out Event, the Redemption Amount is equal to the difference between the Reference Price and the Relevant Strike, multiplied by the Ratio expressed as a decimal.

It should be noted in this context that the Relevant Strike constituting the decisive factor in the calculation of the Redemption Amount is adjusted at the intervals specified in the Terms and Conditions of the Warrants and taking into account the Reference Rate and the Financing Spread and, in the event that a futures contract is used as Underlying, taking into account the Roll-Over Adjustment Rate, in the event that a Share is used as Underlying taking into account the relevant payments of Dividend on the Share, and also in the event that a price index is used as Underlying taking into account any payments of Dividend on the shares included in the index or any Dividend Cost Rate for such payments of Dividend.

If on any day during the Observation Period on which there is no Market Disruption (including the day when the Reference Price is determined) the Observation Price reaches or falls below the Relevant Strike, the Redemption Amount will be **zero (0)**, unless a Minimum Amount is specified in the Final Terms, and **NO** payment will be made. If a Minimum Amount per Warrant is specified, the Redemption Amount will be equal to the amount specified in the Final Terms.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

**(b) UNLIMITED TURBO Short Warrants**

UNLIMITED TURBO Short Warrants have an unlimited term, subject to the occurrence of a Knock-Out Event, a termination by the Issuer or an exercise by the Warrant Holder.

After the Valuation Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount depending on the development of the price of the Underlying the Warrant is linked to and of the Relevant Strike. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

Subject to the occurrence of a Knock-Out Event, the Redemption Amount is equal to the difference between the Relevant Strike and the Reference Price, multiplied by the Ratio expressed as a decimal.

It should be noted in this context that the Relevant Strike constituting the decisive factor in the calculation of the Redemption Amount is adjusted at the intervals specified in the Terms and

Conditions of the Warrants and taking into account the Reference Rate and the Financing Spread and, in the event that a futures contract is used as Underlying, taking into account the Roll-Over Adjustment Rate, in the event that a Share is used as Underlying taking into account the relevant payments of Dividend on the Share, and also in the event that a price index is used as Underlying, if applicable taking into account any Cost Rate.

If on any day during the Observation Period on which there is no Market Disruption (including the day when the Reference Price is determined) the Observation Price reaches or exceeds the Relevant Strike, the Redemption Amount will be **zero (0)**, unless a Minimum Amount is specified in the Final Terms, and **NO** payment will be made. If a Minimum Amount per Warrant is specified, the Redemption Amount will be equal to the amount specified in the Final Terms.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

## ***(ii) Product 2: MINI Future Long/Short Warrants***

### ***(a) MINI Future Long Warrants***

MINI Future Long Warrants have an unlimited term, subject to the occurrence of a Stop-Loss Event, a termination by the Issuer or an exercise by the Warrant Holder.

After the Valuation Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount depending on the development of the price of the Underlying the Warrant is linked to and of the Relevant Strike. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

### **Redemption Amount**

Subject to the occurrence of a Stop-Loss Event, the Redemption Amount is equal to the difference between the Reference Price and the Relevant Strike, multiplied by the Ratio expressed as a decimal.

It should be noted in this context that the Relevant Strike constituting the decisive factor in the calculation of the Redemption Amount is adjusted at the intervals specified in the Terms and Conditions of the Warrants and taking into account the Reference Rate and the Financing Spread and, in the event that a futures contract is used as Underlying, taking into account the Roll-Over Adjustment Rate, in the event that a Share is used as Underlying taking into account the relevant payments of Dividend on the Share, and also in the event that a price index is used as Underlying taking account any payments of Dividend on the shares included in the index or any Dividend Cost Rate for such payments of Dividend.

### **Redemption Amount in case of a Stop-Loss Event**

If on any day during the Observation Period on which there is no Market Disruption (including the day when the Reference Price is determined) the Observation Price reaches or falls below the Stop-Loss Barrier (a specified price threshold), thereby triggering a Stop-Loss Event, the Warrants shall be deemed automatically exercised and the day on which the Stop-Loss Event occurred, at the latest, however, the day on which the Stop-Loss Reference Level was determined, shall at the same time be deemed the Valuation Date. In this case (irrespective of whether an Exercise Notice

has been given and of whether the Warrants tendered for exercise have been delivered), the Redemption Amount shall be equal to the amount calculated as the difference between the Stop-Loss Reference Level and the Relevant Strike, multiplied by the Ratio expressed as a decimal.

Consequently, if a Stop-Loss Event occurs, the payment of the Redemption Amount depends on whether the Stop-Loss Reference Level then determined by the Calculation Agent is higher than the Relevant Strike. If the Stop-Loss Reference Level is equal to or lower than the Relevant Strike, the Redemption Amount will be **zero (0)**, unless a Minimum Amount is specified in the Final Terms, and **NO** payment will be made. If a Minimum Amount per Warrant is specified, the Redemption Amount will be equal to the amount specified in the Final Terms.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

(b) MINI Future Short Warrants

MINI Future Short Warrants have an unlimited term, subject to the occurrence of a Stop-Loss Event, a termination by the Issuer or an exercise by the Warrant Holder.

After the Valuation Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount depending on the development of the price of the Underlying the Warrant is linked to and of the Relevant Strike. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

**Redemption Amount**

Subject to the occurrence of a Stop-Loss Event, the Redemption Amount is equal to the difference between the Relevant Strike and the Reference Price, multiplied by the Ratio expressed as a decimal.

It should be noted in this context that the Relevant Strike constituting the decisive factor in the calculation of the Redemption Amount is adjusted at the intervals specified in the Terms and Conditions of the Warrants and taking into account the Reference Rate and the Financing Spread and, in the event that a futures contract is used as Underlying, taking into account the Roll-Over Adjustment Rate, in the event that a Share is used as Underlying taking into account the relevant payments of Dividend on the Share, and also in the event that a price index is used as Underlying, if applicable taking into account any Cost Rate, if specified in the Terms and Conditions of the Warrants.

**Redemption Amount in case of a Stop-Loss Event**

If on any day during the Observation Period on which there is no Market Disruption (including the day when the Reference Price is determined) the Observation Price reaches or exceeds the Stop-Loss Barrier (a specified price threshold), thereby triggering a Stop-Loss Event, the Warrants shall be deemed automatically exercised and the day on which the Stop-Loss Event occurred, at the latest, however, the day on which the Stop-Loss Reference Level was determined, shall at the same time be deemed the Valuation Date. In this case (irrespective of whether an Exercise Notice has been given and of whether the Warrants tendered for exercise have been delivered), the Redemption Amount shall be equal to the amount calculated as the difference between the

Relevant Strike and the Stop-Loss Reference Level, multiplied by the Ratio expressed as a decimal.

Consequently, if a Stop-Loss Event occurs, the payment of the Redemption Amount depends on whether the Stop-Loss Reference Level then determined by the Calculation Agent is lower than the Relevant Strike. If the Stop-Loss Reference Level is equal to or higher than the Relevant Strike, the Redemption Amount will be **zero (0)**, unless a Minimum Amount is specified in the Final Terms, and **NO** payment will be made. If a Minimum Amount per Warrant is specified, the Redemption Amount will be equal to the amount specified in the Final Terms.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

### **(iii) Product 3: Call/Put Warrants**

#### **(a) Call Warrants**

Call Warrants have a fixed term. If the Warrants have an European exercise style, the Warrant Rights will automatically be deemed exercised on the Valuation Date and cannot be exercised by the Warrant Holder on any other day during the term. If the Warrants have an American exercise style, Warrant Rights can be exercised by the Warrant Holders during the Exercise Period. The Warrant Rights which have not been exercised by the last day of the Exercise Period will automatically be deemed exercised on the Valuation Date.

After the Valuation Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount, depending on the development of the price of the Underlying the Warrant is linked to, equal to the amount by which the Reference Price exceeds the Strike, multiplied by the Ratio expressed as a decimal. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

If the amount thus calculated is zero or a negative value, the Redemption Amount will be equal to the amount specified in the Final Terms if a Minimum Amount per Warrant is specified or, if such a Minimum Amount is not specified in the Final Terms, the Redemption Amount will be **zero (0)** and **NO** payment will be made.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

#### **(b) Put Warrants**

Put Warrants have a fixed term. If the Warrants have an European exercise style, the Warrant Rights will automatically be deemed exercised on the Valuation Date and cannot be exercised by the Warrant Holder on any other day during the term. If the Warrants have an American exercise style, Warrant Rights can be exercised by the Warrant Holders during the Exercise Period. The Warrant Rights which have not been exercised by the last day of the Exercise Period will automatically be deemed exercised on the Valuation Date.

After the Valuation Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount, depending on the development of the price of the Underlying the Warrant is linked to, equal to the amount by which the Reference Price falls below the Strike, multiplied by the Ratio expressed as a decimal. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

If the amount thus calculated is zero or a negative value, the Redemption Amount will be equal to the amount specified in the Final Terms if a Minimum Amount per Warrant is specified or, if such a Minimum Amount is not specified in the Final Terms, the Redemption Amount will be **zero (0)** and **NO** payment will be made.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

**(iv) Product 4: Discount Call/Put Warrants**

**(a) Discount Call Warrants**

Discount Call Warrants have a fixed term.

After the Valuation Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount depending on the development of the price of the Underlying the Warrant is linked to. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

The Redemption Amount payable shall be determined as follows:

- a) If the Reference Price is higher than the Maximum Price, the Issuer shall, after the Valuation Date, pay a Redemption Amount per Warrant equal to the difference between the Maximum Price and the Strike, multiplied by the Ratio expressed as a decimal. The Maximum Price is a predetermined value up to which a Warrant Holder participates in upward movements of the price of the Underlying.
- b) If the Reference Price is lower than or equal to the Maximum Price but higher than the Strike, the Issuer shall, after the Valuation Date, pay a Redemption Amount per Warrant equal to the difference between the Reference Price and the Strike, multiplied by the Ratio expressed as a decimal.
- c) If the Reference Price is lower than or equal to the Strike, the Redemption Amount will be **zero (0)**, unless a Minimum Amount is specified in the Final Terms, and **NO** payment will be made. If a Minimum Amount per Warrant is specified, the Redemption Amount will be equal to the amount specified in the Final Terms.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

**(b) Discount Put Warrants**

Discount Put Warrants have a fixed term.

After the Valuation Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount depending on the development of the price of the Underlying the Warrant is linked to. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

The Redemption Amount payable shall be determined as follows:

- a) If the Reference Price is lower than the Minimum Price, the Issuer shall, after the Valuation Date, pay a Redemption Amount per Warrant equal to the difference between the Strike and the Minimum Price, multiplied by the Ratio expressed as a decimal. The Minimum Price is a predetermined value down to which a Warrant Holder participates in downward movements of the price of the Underlying.
- b) If the Reference Price is higher than or equal to the Minimum Price but lower than the Strike, the Issuer shall, after the Valuation Date, pay a Redemption Amount per Warrant equal to the difference between the Strike and the Reference Price, multiplied by the Ratio expressed as a decimal.
- c) If the Reference Price is higher than or equal to the Strike, the Redemption Amount will be **zero (0)**, unless a Minimum Amount is specified in the Final Terms, and **NO** payment will be made. If a Minimum Amount per Warrant is specified, the Redemption Amount will be equal to the amount specified in the Final Terms.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

**(v) Product 5: Constant Leverage Long/Short Warrants (with unlimited term)**

**(a) Constant Leverage Long Warrants (with unlimited term)**

The Constant Leverage Long Warrants (with unlimited term) do not have a fixed Settlement Date and, consequently, do not have a fixed term. Therefore, the Warrant Right of the Warrant Holders as represented by the Warrants must either be terminated by the Issuer by ordinary termination according to the Terms and Conditions of the Warrants with effect from an Ordinary Termination Date or be exercised by the Warrant Holder according to the exercise procedure specified in the Terms and Conditions of the Warrants on a specified Exercise Date in order to assert the Warrant Right.

After ordinary termination of the Warrants by the Issuer with effect from an Ordinary Termination Date, or after exercise by the Warrant Holder on an Exercise Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder the Redemption Amount in the Settlement Currency and depending on the development of the Underlying the Warrant is linked to after the relevant Valuation Date. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

Constant Leverage Long Warrants (with unlimited term) reflect the leveraged purchase (known as Long Position) of the Underlying they are linked to by means of the Relevant Cash Value Long. The Relevant Cash Value Long is based on a leverage component which represents the Performance of the Underlying multiplied by the constant Leverage Factor.

### **Redemption Amount**

The Redemption Amount is equal to the Relevant Cash Value Long, i.e. subject to conversion into the Settlement Currency according to the Terms and Conditions of the Warrants, equal to the Cash Value Long, which is determined from the Determination Date onwards, subject to any Cash Value Long Calculation Disruption, on each Cash Value Calculation Date (the “**Cash Value Long<sub>(t)</sub>**”) as at the relevant Exercise Date or the Ordinary Termination Date and accordingly, subject to any Reset Event of the Cash Value Long (as described below), to the Cash Value Long on the immediately preceding Cash Value Calculation Date (the “**Cash Value Long<sub>(t-1)</sub>**”) multiplied by the sum of (i) 1 (in words: one) and (ii) the product of (A) the Leverage Factor and (B) the Performance of the Underlying, the overall result being increased by the (usually mathematically negative) Financing Component on the Cash Value Calculation Date<sub>(t)</sub>. In determining the Performance of the Underlying, amounts stated in the Terms and Conditions of the Warrants, if any, will be taken into account with respect to an Underlying, specifically in the case of price indices, shares and securities representing shares (Depositary Receipts) as Underlying any payments of dividend or, in the case of performance indices, if applicable other costs incurred in connection with the taxation of dividends and, in the case of futures contracts as Underlying, the Roll-Over Costs incurred upon a Roll-over.

The value of the Constant Leverage Long Warrants (with unlimited term) will in each case be adjusted for the Financing Component. The purpose of the Financing Component is to cover the expenses of the Issuer and/or of the Calculation Agent. As will be explained below, the elements of the Financing Component are the Leverage Factor, the Reference Rate, the Interest Margin, the Hedging Cost and the Administration Fee.

The Leverage Factor is the constant Leverage Factor allocated to the Constant Leverage Long Warrant (with unlimited term).

The Reference Rate taking into account the Interest Margin is equal to the financing costs of the Issuer or of the Calculation Agent for the position in the Underlying amplified by the Leverage Factor. For this purpose, the capital employed by the investor will be taken into account in the position to be financed.

The purpose of the Interest Margin can be, *inter alia*, to compensate differences between the interest rates achievable by the Issuer or the Calculation Agent and market interest rates.

The Hedging Costs include the costs of the Issuer or of the Calculation Agent for maintaining the position in the Underlying amplified by the Leverage Factor, the daily transaction costs for maintaining this position and the costs incurring for the purchase of hedging instruments.

The Administration Fee covers the costs of the Issuer and/or of the Calculation Agent for structuring, market making and settlement of the Warrants and also includes the margin of the Calculation Agent.

Given that the Hedging Cost and the Administration Fee and, if applicable, the Interest Margin relate to the position in the Underlying leveraged depending on the Leverage Factor, these costs are the higher the greater the Leverage Factor is.

Overall the Financing Component is, as a rule, mathematically negative. Therefore, the value of the Constant Leverage Long Warrants (with unlimited term) is, as a rule, reduced by the Financing Component.

### **Explanatory description of the leverage effect**

The Leverage Factor defines the lever by which the Constant Leverage Long Warrant (with unlimited term) reflects the daily changes in the Underlying.

The value of a Constant Leverage Long Warrant (with unlimited term) with a Leverage Factor of 4 – before consideration of the (usually mathematically negative) Financing Component – will increase by 20% if the price of the Underlying increases by 5%. Conversely, the value of this Constant Leverage Long Warrant (with unlimited term) – before consideration of the (usually mathematically negative) Financing Component – will decrease by 20% if the price of the Underlying decreases by 5%.

It should be noted, however, that this explanatory description of the leverage is a simplified description. In reality, the daily change in the Underlying is adjusted according to the Terms and Conditions of the Warrants for dividends, other costs incurred in connection with dividends or otherwise or Roll-Over Costs, depending on the type of Underlying. This has not been taken into account in the explanatory description of the leverage effect provided above.

**However, due to the inclusion of the Financing Component, the actual performance will be lower.**

#### ***Reset Event of the Cash Value Long***

Another special feature of Constant Leverage Long Warrants (with unlimited term) arises if the Observation Price of the Underlying decreases very sharply between the determination of the relevant Reference Price on two consecutive Cash Value Calculation Dates or during such other period as is specified for this purpose in the Final Terms. If the Reset Threshold specified in the Final Terms for this purpose is reached or fallen short of in such a case, this will result in a Reset Event of the Cash Value Long<sub>(t)</sub> on the relevant Cash Value Calculation Date<sub>(t)</sub>.

For this purpose, a Reset Price of the Underlying is determined which is then used as the new or adjusted price of the Underlying for the purpose of determining the adjusted Cash Value Long<sub>(t)</sub>. This price forms the basis for the further calculation of the Performance of the Underlying with respect to the relevant Cash Value Calculation Date<sub>(t)</sub> or such other period as is specified in the Final Terms for this purpose. If the price of the Underlying decreases sharply and steadily, this may result in two or more Reset Events taking place on a Cash Value Calculation Date. However, despite this reset mechanism, the possibility of **Warrant Holders suffering a total loss of their Invested Capital cannot be completely excluded.**

#### ***Total loss***

If the Redemption Amount is **zero (0)** and the Final Terms do not provide for a Minimum Amount, the Warrant Holder will suffer a **total loss** of its Invested Capital.

#### **(b) Constant Leverage Short Warrants (with unlimited term)**

The Constant Leverage Short Warrants (with unlimited term) do not have a fixed Settlement Date and, consequently, do not have a fixed term. Therefore, the Warrant Right of the Warrant Holders as represented by the Warrants must either be terminated by the Issuer by ordinary termination according to the Terms and Conditions of the Warrants with effect from an Ordinary Termination Date or be exercised by the Warrant Holder according to the exercise procedure specified in the Terms and Conditions of the Warrants on a specified Exercise Date in order to assert the Warrant Right.

After ordinary termination of the Warrants by the Issuer with effect from an Ordinary Termination Date, or after exercise by the Warrant Holder on an Exercise Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder the

Redemption Amount in the Settlement Currency and depending on the development of the Underlying the Warrant is linked to after the relevant Valuation Date. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

Constant Leverage Short Warrants (with unlimited term) reflect the leveraged sale (known as Short Position) of the Underlying they are linked to by means of the Relevant Cash Value Short. The Relevant Cash Value Short is based on a leverage component which represents the Performance of the Underlying multiplied by the negative of the constant Leverage Factor.

### ***Redemption Amount***

The Redemption Amount is equal to the Relevant Cash Value Short, i.e. subject to conversion into the Settlement Currency according to the Terms and Conditions of the Warrants, equal to the Cash Value Short, which is determined from the Determination Date onwards, subject to any Cash Value Short Calculation Disruption, on each Cash Value Calculation Date (the “**Cash Value Short<sub>(t)</sub>**”) as at the relevant Exercise Date or from the Ordinary Termination Date and accordingly, subject to any Reset Event of the Cash Value Short (as described below), to the Cash Value Short on the immediately preceding Cash Value Calculation Date (the “**Cash Value Short<sub>(t-1)</sub>**”) multiplied by the difference of (i) 1 (in words: one) and (ii) the product of (A) the Leverage Factor and (B) the Performance of the Underlying, the overall result being increased by the (usually mathematically negative) Financing Component on the Cash Value Calculation Date<sub>(t)</sub>. In determining the Performance of the Underlying, amounts stated in the Terms and Conditions of the Warrants, if any, will be taken into account with respect to an Underlying, specifically in the case of price indices, shares and securities representing shares (Depository Receipts) as Underlying any payments of dividend or, in the case of performance indices, if applicable other costs incurred in connection with dividends and, in the case of futures contracts as Underlying, the Roll-Over Costs incurred upon a Roll-over.

The value of the Constant Leverage Short Warrants (with unlimited term) will in each case be adjusted for the Financing Component. The purpose of the Financing Component is to cover the expenses of the Issuer and/or of the Calculation Agent. As will be explained below, the elements of the Financing Component are the Leverage Factor, the Reference Rate, the Interest Margin, the Hedging Cost and the Administration Fee.

The Leverage Factor is the constant Leverage Factor allocated to the Constant Leverage Short Warrant (with unlimited term).

The Reference Rate taking into account the Interest Margin is equal to the (usually positive) financing result of the Short position in the Underlying amplified by the Leverage Factor. For this purpose, the capital employed by the investor will be taken into account in the financing result.

The purpose of the Interest Margin can be, *inter alia*, to compensate differences between the interest rates achievable by the Issuer or the Calculation Agent and market interest rates.

The Hedging Costs include the costs of the Issuer or of the Calculation Agent for maintaining the position in the Underlying amplified by the Leverage Factor, the daily transaction costs for maintaining this position and the costs incurring for the purchase of hedging instruments.

The Administration Fee covers the costs of the Issuer and/or of the Calculation Agent for structuring, market making and settlement of the Warrants and also includes the margin of the Calculation Agent.

Given that the Hedging Cost and the Administration Fee and, if applicable, the Interest Margin relate to the position in the Underlying leveraged depending on the Leverage Factor, these costs are the higher the greater the Leverage Factor is.

Overall the Financing Component is, as a rule, mathematically negative. Therefore, the value of the Constant Leverage Short Warrants (with unlimited term) is, as a rule, reduced by the Financing Component.

#### ***Explanatory description of the leverage effect***

The Leverage Factor defines the lever by which the Constant Leverage Short Warrant (with unlimited term) reflects the daily changes in the Underlying.

The value of a Constant Leverage Short Warrant (with unlimited term) with a Leverage Factor of 4 – before consideration of the (usually mathematically negative) Financing Component – will increase by 20% if the price of the Underlying decreases by 5%. Conversely, the value of this Constant Leverage Short Warrant (with unlimited term) – before consideration of the (usually mathematically negative) Financing Component – will decrease by 20% if the price of the Underlying increases by 5%.

It should be noted, however, that this explanatory description of the leverage is a simplified description. In reality, the daily change in the Underlying is adjusted according to the Terms and Conditions of the Warrants for dividends, other costs incurred in connection with dividends or otherwise or Roll-Over Costs, depending on the type of Underlying. This has not been taken into account in the explanatory description of the leverage effect provided above.

**However, due to the inclusion of the Financing Component, the actual performance will be lower.**

#### ***Reset Event of the Cash Value Short***

Another special feature of Constant Leverage Short Warrants (with unlimited term) arises if the Observation Price of the Underlying increases very sharply between the determination of the relevant Reference Price on two consecutive Cash Value Calculation Dates or during such other period as is specified for this purpose in the Final Terms. If the Reset Threshold specified in the Final Terms for this purpose is reached or exceeded in such a case, this will result in a Reset Event of the Cash Value Short<sub>(t)</sub> on the relevant Cash Value Calculation Date<sub>(t)</sub>.

For this purpose, a Reset Price of the Underlying is determined which is then used as the new or adjusted price of the Underlying for the purpose of determining the adjusted Cash Value Short<sub>(t)</sub>. This price forms the basis for the further calculation of the Performance of the Underlying with respect to the relevant Cash Value Calculation Date<sub>(t)</sub> or such other period as is specified in the Final Terms for this purpose. If the price of the Underlying increases sharply and steadily, this may result in two or more Reset Events taking place on a Cash Value Calculation Date. However, despite this reset mechanism, the possibility of **Warrant Holders suffering a total loss of their Invested Capital cannot be completely excluded.**

#### ***Total loss***

If the Redemption Amount is **zero (0)** and the Final Terms do not provide for a Minimum Amount, the Warrant Holder will suffer a **total loss** of its Invested Capital.

#### ***(vi) Product 6: TURBO Long/Short Warrants***

(a) TURBO Long Warrants

TURBO Long Warrants have a fixed term.

After the Valuation Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount depending on the development of the price of the Underlying the Warrant is linked to, equal to the difference between the Reference Price and the Strike, multiplied by the Ratio expressed as a decimal, provided that the Observation Price does not at any time during the Observation Period reaches or falls below the Knock-Out Barrier specified in the Terms and Conditions of the Warrants. The Knock-Out Barrier is the barrier which is decisive for the occurrence of the Knock-Out Event. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

Otherwise or if the difference thus calculated is zero or a negative value, the Redemption Amount will be **zero (0)**, unless a Minimum Amount is specified in the Final Terms, and **NO** payment will be made. If a Minimum Amount per Warrant is specified, the Redemption Amount will be equal to the amount specified in the Final Terms.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

**(b) TURBO Short Warrants**

TURBO Short Warrants have a fixed term.

After the Valuation Date, the Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount depending on the development of the price of the Underlying the Warrant is linked to, equal to the difference between the Strike and the Reference Price, multiplied by the Ratio expressed as a decimal, provided that the Observation Price does not at any time during the Observation Period reaches or exceeds the Knock-Out Barrier specified in the Terms and Conditions of the Warrants. The Knock-Out Barrier is the barrier which is decisive for the occurrence of the Knock-Out Event. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

Otherwise or if the difference thus calculated is zero or a negative value, the Redemption Amount will be **zero (0)**, unless a Minimum Amount is specified in the Final Terms, and **NO** payment will be made. If a Minimum Amount per Warrant is specified, the Redemption Amount will be equal to the amount specified in the Final Terms.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

**(vii) Product 7: Inline Warrants**

Inline Warrants have a fixed term.

The Issuer shall have an obligation under the Terms and Conditions of the Warrants to pay the Warrant Holder a Redemption Amount equal to a predetermined amount in the Settlement Currency provided that no Knock-Out Event has occurred. A Knock-Out Event occurs if the Observation Price either exceeds or, where provided for in the Final Terms, reaches or exceeds the Upper Barrier or

falls below or, where provided for in the Final Terms, reaches or falls below the Lower Barrier. The conversion from another currency into the Settlement Currency will be made according to the provisions of the Terms and Conditions of the Warrants.

Upon the occurrence of a Knock-Out Event, the Warrants will expire and the Redemption Amount will be **zero (0)**, unless a Minimum Amount is specified in the Final Terms, and **NO** payment will be made. If a Minimum Amount per Warrant is specified, the Redemption Amount will be equal to the amount specified in the Final Terms.

If the Redemption Amount is **zero (0)**, the Warrant Holder will suffer a **total loss**.

If the Redemption Amount is equal to a Minimum Amount, the Warrant Holder will suffer a loss that may come close to the total purchase price paid for a Warrant including the transaction costs spent.

#### **g) Further information relating to the Warrants**

##### *Potential restrictions on the free transferability of the Warrants*

The Warrants are freely transferable and not subject to any restrictions in this regard.

##### *Warrant Holders' rights and obligations*

The rights and obligations of Warrant Holders are governed only by the Terms and Conditions of the Warrants.

##### *Yield*

Since the Warrants do not have a fixed interest rate, it is not possible to predict the yield.

#### **2. Dependence of tax treatment of income (if any) from the Warrants**

The tax laws of the investor's Member State and of the Federal Republic of Germany as the Issuer's Member State of incorporation may have an impact on the income received from the Warrants.

#### **3. Information about the Underlying**

The Warrants may be linked to the performance of indices, shares (including other equity securities (e.g. profit participation certificates)), currency exchange rates, metals, commodities, futures contracts, and/or depositary receipts.

The Underlying to which the Warrants are linked is shown in the table in the Terms and Conditions of the Warrants (§ 1). However, the provisions of § 3 ("Adjustments of the Terms and Conditions of the Warrants"), which allow the Underlying to be substituted under certain conditions, remain reserved.

If an Index is used as Underlying or basket component, the index will in no circumstances be composed by the Issuer or a legal entity forming part of the BNP Paribas Group.

Information about the Underlying or the components of the relevant Underlying, or information about where further information about them can be found is provided in the Final Terms.

If an index used as Underlying is provided by a legal entity or a natural person acting in association with, or on behalf of, the Issuer, all rules of the index and all information about its performance will be available free of charge for download from the website of the Issuer or the provider of the index;

in addition, the applicable Final Terms may include a description of the index. The rules of such indices (including the methodology of the index for the selection and the re-balancing of the Index Components and the description of Market Disruptions and adjustment rules) are based on predetermined and objective criteria.

In the event that a “Benchmark” as defined in the Regulation of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the “**EU Benchmark Regulation**”) is used, the applicable Final Terms clear and prominent information stating whether or not the Benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (“**ESMA**”) pursuant to Article 36 of the EU Benchmark Regulation. To the extent applicable to the relevant Underlying, this information will be included in the applicable Final Terms in the table entitled “Further information” under “Statement pursuant to Article 29(2) of the EU Benchmark Regulation”. Transitional provisions in the EU Benchmark Regulation may have the result that the administrator of a particular Benchmark does not appear in the register at the date of the applicable Final Terms. The register or the registration status of any Benchmark kept as a public record by ESMA and the Issuer does not intend to update the applicable Final Terms to reflect the registration or any change in the registration status of the relevant administrator.

## IX. TERMS AND CONDITIONS OF THE OFFER

### 1. Conditions, offer statistics, expected timetable and action required for the subscription process

The Warrants will be offered by BNP Paribas Financial Markets S.N.C. of Paris, France, during the period specified in the Final Terms to interested investors who may purchase the Warrants via banks and public savings banks (*Sparkassen*) or through other distribution channels.

The terms and conditions of the offer, the initial issue price, the issuance currency, the securities identification numbers (ISIN etc.), the issue size of the Warrants, the issue date and, if necessary, a description of the manner in which the results of the offer are made public, information about dealers, if applicable the potential subscription process (including information about any minimum and/or maximum amount of subscription) and the process for notification of the amount allotted and indication whether dealing in the Warrants may begin before notification is received in respect of the Warrant or the particular series of Warrants are set out in the applicable Final Terms.

After the initial issue price, the selling price will be determined by BNP Paribas Financial Markets S.N.C. on an ongoing basis.

The final Reference Price of each Warrant is the price and/or level of the Underlying determined on the Valuation Date. The Warrants shall be deemed exercised on the Valuation Date. It should be noted that, if provided for in the Final Terms, the Warrants can be exercised by the Warrant Holders, subject to the occurrence of a Stop-Loss Event (if relevant) and/or a Knock-Out Event (if relevant) and subject to a termination of the Warrants by the Issuer.

The Issuer reserves the right to increase the issue size of the Warrants.

The applicable laws of the countries where the Warrants are to be offered or sold or the offer documents are to be distributed must be taken into account in connection with the offering and selling of the Warrants or distribution of offer documents for the Warrants.

### 2. Issue price; pricing of the Warrants and factors influencing the pricing of the Warrants

The issue price or the bid and ask prices for the Warrants are determined by BNP Paribas Financial Markets S.N.C. on the basis of internal pricing models of BNP Paribas Group and taking into account various relevant factors, including the price of the Underlying, futures contracts and/or options contracts linked to the Underlying, the current interest rate, dividends to be expected and other criteria specific to each product.

In addition, the issue price may include an offering premium to cover the commissions for the Issuer or other incidental costs incurring in connection with the issue and hedging of the relevant Warrants.

The issue price is specified in the applicable Final Terms and any further prices for the Warrants will be determined by BNP Paribas Financial Markets S.N.C. at its reasonable discretion by reference to the market conditions. The Final Terms also specify the amount of the costs and taxes included in the issue price of the Warrants to the extent known to the Issuer, which shall be charged to investors.

These prices may include a margin which, if applicable, covers the costs *inter alia* of structuring the product, risk hedging of the Issuer or Offeror and of distribution. In particular, sales commissions are usually paid as well. These costs reduce the income from the Warrants accordingly.

Therefore, the prices quoted by BNP Paribas Financial Markets S.N.C. may differ from the actuarial value of the Warrants or the price to be expected from an economic standpoint that would have developed at the relevant time in a liquid market in which various market participants acting independently of one another quote prices. Furthermore, BNP Paribas Financial Markets S.N.C. may change the method based on which it determines the quoted prices at its reasonable discretion at any time, e.g. by changing its pricing models or using other pricing models.

Apart from the issue prices referred to above and/or the selling prices, respectively, the Issuer or Offeror will not charge any other costs to the purchaser upon its purchase of the Warrants. However, banks or public savings banks (*Sparkassen*), the house bank or other distribution channels of the securities concerned or the relevant securities exchange may charge other costs and taxes about which neither the Issuer nor the Offeror can say anything.

Any costs and expenses a Warrant Holder may incur with respect to an indirect purchase of the Warrants (e.g. via direct banks or a securities exchange) are outside the control of the Issuer. The purchaser of the Warrants shall enquire with the parties concerned for the amount of such costs and expenses.

### **3. Delivery of the Warrants**

The Warrants are not delivered as securities in definitive form.

The Warrants shall be delivered by the value date or issue date by being deposited with the respective Clearing System. If the Warrants are purchased after the value date/issue date, they shall be delivered according to applicable local market usage.

### **4. Paying Agent and Clearing System**

BNP Paribas S.A. Niederlassung Deutschland (German branch), Senckenberganlage 19, 60325 Frankfurt am Main, Germany, is the Principal Paying Agent. For Warrants deposited or cleared through a Clearing System other than the Clearstream Banking AG, Frankfurt, an Additional Paying Agent for the respective Clearing System may be appointed in accordance with Part B, § 8 of the Terms and Conditions of the Warrants (General Conditions).

In case of Warrants deposited with Clearstream Banking AG that are issued in the form of a note (*Urkundenform*), the Warrants are represented by a permanent global bearer note (the "**Global Bearer Note**"). The Global Bearer Note will be deposited with Clearstream Banking AG, Frankfurt. The Warrants are transferable as co-ownership interests. In case of Warrants issued as electronic securities in accordance with the eWpG, the Central Register Securities shall be issued by registering them electronically in the central register maintained by the Registrar (the "**Central Register**") after depositing the relevant terms and conditions of the respective Warrant as a permanent electronic instrument with the Registrar. The Central Register shall be maintained by a Registrar acting in the capacity of a securities clearing and deposit bank. The securities clearing and deposit bank is registered as the bearer of the Warrants (*Inhaber* within the meaning of the eWpG) in the Central Register (collective safe custody entry - *Sammeleintragung*) and administers the Warrants as trustee for the benefit of the respective Warrant Holders (*Berechtigter* within the meaning of the eWpG). Central Register Securities registered via collective safe custody entry are legally deemed to be collective securities holdings. No Warrant Holder has the right to an individual registration in the Central Register. The Warrants shall be transferred as a co-ownership interest in the collective securities holding in accordance with the applicable regulations and statutory provisions of the respective Clearing System. The Issuer reserves the right to change the form of the Warrants over the course of their term (from a note to an electronic security and vice versa).

In case of Warrants cleared through Euroclear France S. A. the Warrants will be issued in dematerialised bearer form (*au porteur*). Title to the Warrants will be evidenced by book entries (*inscription en compte*) in compliance with Articles L. 211-3 et seq. and R. 211-1 et seq. of the French Monetary and Financial Code (*Code monétaire et financier*).

In case of Warrants cleared through Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V. (“**Euroclear Netherlands**”) the Warrants will be issued in registered form and will be deposited with Euroclear Netherlands. The Warrant Holders shall receive co-ownership participations in or rights with respect to the registered Warrants which are transferable in accordance with the Dutch Securities Giro Act (*Wet giraal effectenverkeer*) and the rules and regulations of Euroclear Netherlands.

In case of Warrants which shall be cleared through Monte Titoli S.p.A. the Warrants will be issued in dematerialised book-entry form pursuant to the Italian Legislative Decree No. 58 of 24 February 1998, as amended and supplemented from time to time (the “**Italian Financial Services Act**”) and the relevant implementing regulations and are registered in the books of Monte Titoli S.p.A. The transfer of the Warrants operates by way of registration on the relevant accounts opened with Monte Titoli S.p.S. by any intermediary adhering, directly or indirectly, to Monte Titoli S.p.A.

In case of Warrants cleared through Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A. (“**IBERCLEAR**”) the Warrants will be registered with IBERCLEAR and will be represented by book entries in accordance with Article 6 of the Spanish Restated Securities Market Act approved by the Royal Decree Law 4/2015, of 23 October (the “**SMA**”). Transfers of the Warrants shall be made in accordance with and governed by the SMA and the rules and procedures of IBERCLEAR.

In case of Warrants cleared through Euroclear Sweden AB the Warrants will be issued in dematerialised form and will only be evidenced by book entries in the register of Euroclear Sweden AB for registration of securities and settlement of securities transactions in accordance with Chapter 4 of the Swedish Financial Instruments Accounts Act (Sw. lag (1998:1479) *om kontoföring av finansiella instrument*) to the effect that there will be no certificated securities. Transfers of Warrants and other registration measures shall be made in accordance with the Swedish Financial Instruments Accounts Act (1998:1479), the regulations, rules and operating procedures applicable to and/or issued by Euroclear Sweden AB.

In case of Warrants cleared through SIX SIS AG the Warrants will be issued in uncertificated form as uncertificated securities (*Wertrechte*) in accordance with Article 973c of the Swiss Code of Obligations. As long as the Warrants are considered to be intermediated securities (*Bucheffekten*), they are transferrable only by entry of the transferred Warrants into a securities account (*Effektenkonto*) of the transferee.

## **5. Potential investors**

The Warrants may be offered to private clients, professional clients and other eligible counterparties.

The restrictions described in section “IX. TERMS AND CONDITIONS OF THE OFFER, 8. Selling restrictions” of this Base Prospectus shall be taken into account in this context.

It is also stated and published in the Final Terms in which country the Warrants will be offered and whether the Warrants will be offered on the markets of two or more states at the same time and, if applicable, which tranche is reserved for certain markets. The offer country/countries for a Public

Offer of the Warrants may be Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden and/or The Netherlands. The Final Terms will also specify in case that an offer to the public is intended in Switzerland. If a particular tranche is reserved to any of these markets, this will also be stated and published in the Final Terms.

*As regards offers in Lithuania, investors should note that the Warrants are not issued by a Lithuanian issuer and there is no trustee appointed for the purposes of the Law on the Protection of Interests of Owners of Bonds issued by Public and Private Companies of the Republic of Lithuania (in Lithuanian – Lietuvos Respublikos akcinių bendrovių ir uždarujų akcinių bendrovių obligacijų savininkų interesų gynimo įstatymas). As such, there are no entity having rights and obligations established in the above mentioned law, including in relation to protection of the interests of Warrant Holders in Lithuania including in relation to convening any meetings of the Warrant Holders in Lithuania.*

## **6. Placement and underwriting**

On or after the respective issue date of the Warrants, the Warrants will be underwritten by BNP Paribas Financial Markets S.N.C., 20 boulevard des Italiens, 75009 Paris, France (LEI: 6EWKU0FGVX5QQJHFGT48) or by BNP Paribas S.A. (LEI: R0MUWSFPU8MPRO8K5P83), if applicable acting through its London branch (BNP Paribas S.A., London Branch, 10 Harewood Avenue, London NW1 6AA, United Kingdom) or any other branch (as specified in the applicable Final Terms) and offered by BNP Paribas Financial Markets S.N.C.

BNP Paribas S.A. is a financial institution based in France. BNP Paribas Financial Markets S.N.C. is a credit and investment institution under French law (*établissements de crédit et d'investissement* pursuant to Articles L516-1 to L516-2 of the *Code monétaire et financier*) based in France and forming part of the BNP Paribas Group.

## **7. Non-issue of the Warrants**

The Issuer reserves the right to refrain from issuing the Warrants without giving reasons.

## **8. Selling restrictions**

The distribution of this Prospectus may be subject to restrictions in certain countries, as may the offering of the Warrants. The Issuer does not warrant that this Prospectus may be lawfully distributed, or that the Warrants may be lawfully offered, in compliance with any applicable registration or other requirements in any jurisdiction or any applicable exceptions and does not accept any responsibility for ensuring that distribution of the Prospectus or offering the Warrants will be possible in the future.

Apart from publishing and filing the Prospectus in the Federal Republic of Germany, the Issuer has not taken and will not take any action which is intended to permit a public offer of the Warrants or possession of the Warrants or the distribution of offer documents for the Warrants in any jurisdiction where action for that purpose is required.

The only exception from this is the public offer of the Warrants in Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, The Netherlands. In case of a public offer of the Warrants in any of these offer countries, the approval of the Prospectus will be notified to the *Financial Services and Markets Authority* (FSMA) in Belgium, the *Cyprus Securities and Exchange Commission* (CySEC) in Cyprus, the *Czech National Bank*

(CNB) in Czech Republic, the *Finanstilsynet* in Denmark, the *Finantsinspeksioon* (FSA) in Estonia, the *Finanssivalvonta* (FIN-FSA) in Finland, the *Autorité des Marchés Financiers* (AMF) in France, the *Hellenic Capital Market Commission* (HCMC) in Greece, the *Central Bank of Hungary (Magyar Nemzeti Bank)* (MNB) in Hungary, the *Central Bank of Ireland* in Ireland, the *Commissione Nazionale per le Società e la Borsa* (CONSOB) in Italy, the *Financial and Capital Market Commission* (Finanšu un Kapitāla Tirgus Komisija - FKTK) in Latvia, the *Bank of Lithuania* (Lietuvos bankas - LB) in Lithuania, the *Commission de Surveillance du Secteur Financier* (CSSF) in Luxembourg, the *Malta Financial Services Authority* (MFSA) in Malta, the *Finanstilsynet - Financial Supervisory Authority* in Norway, the *Komisja Nadzoru Finansowego* (KNF) in Poland, the *Comissão do Mercado de Valores Mobiliários* (CMVM) in Portugal, the *National Bank of Slovakia* (NBS) in Slovakia, the *Securities Market Agency* (A-TVP) in Slovenia, the *Comisión Nacional del Mercado de Valores* (CNMV) in Spain, *Finansinspektionen* (FI) in Sweden and the *Autoriteit Financiële Markten* (AFM) in the Netherlands in accordance with Article 25 of the Prospectus Regulation, and the approved Prospectus is thus valid for the public offer of the Warrants in Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, The Netherlands. Furthermore, in order to offer the Warrants to the public in Switzerland, the Prospectus may be (i) registered in Switzerland with the reviewing body (*Prüfstelle*) SIX Exchange Regulation Ltd or another reviewing body approved by the Swiss Financial Market Supervisory Authority FINMA as a foreign prospectus that is also deemed to be approved in Switzerland pursuant to Article 54 para. 2 of the Swiss Federal Act on Financial Services ("**Financial Services Act**"; "**FinSA**") for inclusion on the list of approved prospectus pursuant to Article 64 para. 5 FinSA, (ii) deposited with this reviewing body and (iii) published pursuant to Article 64 FinSA (see also in section "*Switzerland*" below).

Accordingly, the Warrants may not be offered or sold, directly or indirectly, and neither the Prospectus nor any advertisement or other sales materials may be distributed or published in any jurisdiction except in Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and The Netherlands unless in compliance with applicable laws and regulations. Persons who are in possession of this Prospectus must inform themselves about and observe any applicable restrictions.

No person is authorised in connection with the issuance and sale of the Warrants to give any information or to make any representations other than those contained in this Prospectus. This Prospectus is not an offer and may not be used for the purposes of an offer or invitation to third parties to make an offer if such an offer or invitation is prohibited by applicable laws or is unlawful for the recipient of the offer or invitation. A special permit allowing for the Warrants to be offered or the Prospectus to be distributed in a jurisdiction where a permit is required has not been obtained, except in Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden and The Netherlands.

#### *Public Offer of the Warrants within the European Economic Areas*

To ensure compliance with the applicable laws and regulations in the distribution of the Warrants as described above, all purchasers of the Warrants undertake and agree that they will not at any time offer the Warrants to the public in any member state of the European Economic Area ("**EEA**"), unless the respective offer of the Warrants complies with the following provisions. A Public Offer of the Warrants may be made to the public in a member state of the EEA

- (a) after the day of publication of the Base Prospectus approved by the competent authority of that member state or in any other member state and notified to the competent authority of that member state, provided that
  - (i) the Base Prospectus has been supplemented by the Final Terms providing for an offer subject to the obligation to publish a prospectus (non-exempt offer), in accordance with the Prospectus Regulation,
  - (ii) the non-exempt offer is only made in the period whose beginning and end are specified in the Base Prospectus or in the Final Terms, and
  - (iii) the Issuer has consented in writing to their use for the purposes of the non-exempt offer,
- (b) at any time to persons who are qualified investors within the meaning of the Prospectus Regulation,
- (c) at any time in any member state to fewer than 150 natural persons or legal entities per member state (who are not qualified investors within the meaning of the Prospectus Regulation), or
- (d) at any time under any of the other circumstances specified in Article 1(4) of the Prospectus Regulation.

None of the offers falling under lit. (b) to (d) above may require the Issuer or the Offeror to publish a prospectus in accordance with Article 6 of the Prospectus Regulation or a supplement to a Prospectus in accordance with Article 23 of the Prospectus Regulation.

For the purposes of these selling restrictions, the term “**Public Offer of the Warrants**”, when used in relation to Warrants in a member state, means a communication to the public in any form and by any means, presenting sufficient information on the terms of the offer and the Warrants to be offered to enable an investor to decide to purchase or subscribe for those Warrants. The term “**Prospectus Regulation**” means Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, as amended.

#### *Belgium*

**To the extent applicable, the Issuer undertakes to comply with Book VI of the Belgian Code of Economic Law in respect of the Warrants offered to the public in Belgium. For this purpose, an offer of Warrants to the public has the meaning set forth in Article 2(d) of the Prospectus Regulation.**

In addition, any offeror of Warrants will be required to represent and agree that it will not offer for sale, sell or market Warrants to any person qualifying as a consumer within the meaning of Article I.1.2 of the Belgian Code of Economic Law, as amended from time to time, unless such offer, sale or marketing is made in compliance with this Code and its implementing regulations.

#### *Switzerland*

The Warrants must not be offered in Switzerland and each offeror of Warrants represents and agrees that it has not made and will not make an offer of the Securities to the public in Switzerland, except that the Warrants may be offered and an offeror may make an offer of the Securities to the public in Switzerland

- (a) if the relevant Final Terms in respect of any Warrants specify Switzerland as an offer country, in the period beginning and ending on the dates specified in the relevant Final Terms and consent has been granted to its use for the purpose of such offer to the public in accordance with Article 36 para. 4 FinSA and Article 45 Financial Services Ordinance ("**FinSO**"), or
- (b) in any circumstances falling within the exemptions listed in Article 36 para. 1 FinSA,

provided that no offer of Warrants referred to in (b) above shall require the Issuer or any offeror to publish a prospectus pursuant to Article 35 FinSA. For the purposes of this provision, the expression "**offer to the public**" refers to the respective definitions in Article 3 lit. g and h FinSA and as further detailed in the FinSO.

#### *United States of America*

The Warrants have not been and will not be registered under the United States Securities Act of 1933 as amended (the "**Securities Act**"), nor has or will trading in the Warrants be approved by the United States Commodity Futures Trading Commission ("**CFTC**") in accordance with the United States Commodity Exchange Act (the "**Commodity Exchange Act**"). The Warrants or interests in them may not be offered, sold, resold, delivered or traded at any time, whether directly or indirectly, in the United States or to or for the account of US Persons. Warrants may not be exercised or repaid by or for the benefit of a US Person or a person in the United States. For the purposes of this provision "United States" means the United States of America (including the States and the District of Columbia), its territories, possessions and other areas subject to its jurisdiction. Pursuant to 17 CFR § 4.7 of the CFTC's regulations "US Person" means in this context (i) any natural person resident in the United States, (ii) any corporation, partnership or other entity created in or under the laws of the United States or any political subdivision thereof or headquartered in the United States, (iii) any estate or trust falling within the federal income tax jurisdiction of the United States regardless of the source of their income, (iv) any trust if a United States court is able to exercise primary supervision over its administration and one or more US trustees have the authority to control all of the substantial decisions of the trust, (v) an employee pension scheme for the employees, officers or principals of a corporation, partnership or other entity within the meaning of (ii), (vi) an entity organised for the purpose of generating principally passive income, 10 percent or more of the interests in which are held by persons described in (i) to (v) above if such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements from Part 4 of the CFTC's regulations by virtue of its participants being non-US Persons, or (vii) any other "US Person" as such term may be defined in Regulation S under the Securities Act or in regulations adopted under the Commodity Exchange Act.

#### **9. Increases of issue size, renewed admission to trading of Warrants already issued and continuation of the public offering of Warrants**

With respect to Warrants offered for the first time on the basis of a Previous Base Prospectus, the Terms and Conditions of the Warrants as contained in Section XII. of this Base Prospectus shall be replaced by the Terms and Conditions of the Warrants contained in the relevant Previous Base Prospectus,

- (i) if the number of Warrants issued under the relevant Previous Base Prospectus is increased after the expiration of the Previous Base Prospectus (increase); or

- (ii) if admission of the Warrants issued under the relevant Previous Base Prospectus to trading on a regulated or other equivalent market is applied for after the expiry of the validity of the Previous Base Prospectus (listing), or
- (iii) if the public offer of the Warrants issued under the relevant Previous Base Prospectus is continued after the expiry of the validity period of the Previous Base Prospectus (continuation of the public offer).

For this purpose, the Terms and Conditions of the Warrants contained in the Previous Base Prospectuses in the respective section "XII. TERMS AND CONDITIONS OF THE WARRANTS" are incorporated by reference as an integral part into this Base Prospectus (see section "III. GENERAL INFORMATION ON THE BASE PROSPECTUS, 6. Information Incorporated by Reference").

Furthermore, all Warrants issued under the Previous Base Prospectus dated 24 October 2022 and whose public offer was continued under the Previous Base Prospectus dated 24 October 2023 or issued under the Previous Base Prospectus dated 24 October 2023 and for which the public offer is to be continued under this Base Prospectus are identified by their ISIN in the section "XVI. Continued Offers" on pages 237 *et seq.* of this Base Prospectus.

The Terms and Conditions of the Warrants referred to in section "XVI. Continued Offers" on pages 237 *et seq.* of this Base Prospectus are published on the Issuer's website <https://warrants.bnpparibas.com/warrants> and additionally under <https://www.bnpparibasmarkets.nl/> (for investors in The Netherlands) and/or <https://www.bnpparibasmarkets.be/> (for investors in Belgium) and/or <https://www.produitsdebourg.bnpparibas.fr/> (for investors in France) and can be accessed by entering the relevant securities identification number.

Previous Base Prospectuses are available on the Issuer's website at <https://warrants.bnpparibas.com/baseprospectus> under the "Warrants" tab and additionally under <https://www.bnpparibasmarkets.nl/prospectus/> (for investors in The Netherlands) and/or <https://www.bnpparibasmarkets.be/prospectus/> (for investors in Belgium) and/or <https://www.produitsdebourg.bnpparibas.fr/prospectus/> (for investors in France).

## **X. ADMISSION TO TRADING AND TRADING RULES**

The Warrants may be included in the open market of the stock exchange(s) specified in the Final Terms, e.g. in the open market of the Frankfurt Stock Exchange and/or Stuttgart Stock Exchange, or be the object of a request for admission to trading on the regulated market or equivalent markets, e.g. listed on the regulated market of the Frankfurt Stock Exchange, Stuttgart Stock Exchange and/or Luxembourg Stock Exchange, or on the Euro MTF market (Multilateral Trading Facility) of the Luxembourg Stock Exchange, on the Euronext Access Paris, on the Multilateral Trading Facility of securitised derivatives financial instruments organised and managed by Borsa Italiana S.p.A. (the "**SeDeX MTF**") or on the Nordic MTF. Even if an application for inclusion or admission to trading is filed, no assurances can be given that such application will be granted.

There may also be Warrants issued that are not admitted to trading or listed on any regulated market or equivalent market. The Issuer does not have a legal obligation with regard to the inclusion of the Warrants in trading or maintaining such a listing (if any) of the Warrants throughout the term of the Warrants. Warrants may be suspended from trading and/or delisted at any time in accordance with applicable rules and regulations of the relevant stock exchange (s).

The applicable Final Terms of the Warrants will specify whether and from when (at the earliest) the relevant Warrants are or are to be admitted to trading or listed. If the Warrants are (or are to be) admitted to trading or listed, the relevant stock exchange(s) and/or multilateral trading facilities will be specified. If applicable, the Final Terms will also specify all the regulated or equivalent markets on which, to the knowledge of the Issuer warrants of the same class of securities as those to be offered or admitted to trading are already admitted to trading.

Under normal market conditions, BNP Paribas Financial Markets S.N.C., 20 boulevard des Italiens, 75009 Paris, France, will regularly quote bid and ask prices for an issue of Warrants. However, it does not have any legal obligation with respect to the amount, making or permanent availability of such prices. In particular, in the case of Constant Leverage Warrants, trading is suspended in the event that a Reset Event pursuant to the Terms and Conditions of the Warrants occurs, with the suspension usually continuing until the Reset Price is determined.

## XI. ADDITIONAL INFORMATION

### 1. Resolutions, authorisations and approvals by virtue of which the Warrants are created

The decision to issue the Warrants is in each case taken by the management of the Issuer.

The issuance of the Guarantee by BNPP does not require authorisation or approval.

### 2. Publication of information

The Issuer does not intend to publish post-issuance information other than what it is required to publish under the Terms and Conditions of the Warrants, or information that goes beyond clarification of the terms in the relevant Final Terms of this Prospectus. Such mandatory disclosures will be made pursuant to § 9 (Notices) of Part B of the Terms and Conditions of the Warrants (General Conditions). An exception from this is the public notice of the termination of the control and profit transfer agreement between the Issuer and BNP Paribas S.A., which will be published in a official national stock exchange gazette and via the Clearing System.

In the case of MINI Future Warrants and UNLIMITED TURBO Warrants, the respective current Relevant Strike of the Warrant pursuant to § 1 of the Terms and Conditions of the Warrants is also available, subject to technical or other disruptions, under <https://warrants.bnpparibas.com/knockouts> and additionally under <https://www.bnpparibasmarkets.nl/> (for investors in The Netherlands) and/or <https://www.bnpparibasmarkets.be/> (for investors in Belgium) and/or <https://www.produitsdebourse.bnpparibas.fr/> (for investors in France) (by entering the securities identification number of the Warrant).

### 3. Interest and conflicts of interest of natural persons and legal entities involved in the issue/offer

The Offeror BNP Paribas Financial Markets S.N.C. may enter into transactions relating to the Warrants from time to time, either for its own account or for the account of a customer. BNP Paribas Financial Markets S.N.C.'s interest in such transactions may conflict with the interest it has in its capacity as Offeror.

If, as indicated in the Final Terms, BNP Paribas Financial Markets S.N.C. is a counterparty to hedge transactions relating to obligations of the Issuer under the Warrants (hereinafter referred to as a “**Counterparty**”), this may give rise to conflicts of interest between BNP Paribas Financial Markets S.N.C. and the investors regarding (i) its duties as Calculation Agent in determining the prices of the Warrants and other determinations associated therewith and (ii) its functions as Offeror and Counterparty.

If, as indicated in the Final Terms, BNP Paribas S.A., if applicable acting through its London branch or any other branch (as indicated in the applicable Final Terms), is a counterparty to hedge transactions relating to obligations of the Issuer under the Warrants, this may give rise to conflicts of interest between BNP Paribas S.A. (if applicable, acting through its London branch or any other branch) and the investors regarding (i) its duties as Calculation Agent in determining the prices of the Warrants and other determinations associated therewith and (ii) its functions as Counterparty.

Further conflicts of interest may also result from the fact that BNP Paribas S.A. acts as Paying Agent through its German branch.

In addition, BNP Paribas Financial Markets S.N.C. or BNP Paribas S.A., respectively (if applicable, acting through its London branch or any other branch) may exercise a capacity other than that of Offeror (in the case of BNP Paribas Financial Markets S.N.C.), Paying Agent (if applicable, acting through its German branch), Calculation Agent and Counterparty in relation to the Warrants, e.g. as Paying Agent and Administration Agent and/or, if applicable, Reference Source.

**4. Reasons for the offer and use of proceeds**

The primary aim of the offer is to further the objective of making profit. Unless otherwise stipulated in the Final Terms, the Issuer will use the net proceeds from the issue exclusively to hedge the liabilities it has under the Warrants towards Warrant Holders.

The estimated total costs of the issue/the offer of the Warrants and the estimated net proceeds, as far as they can be quantified, will be published in the Final Terms.

## XII. TERMS AND CONDITIONS OF THE WARRANTS

[In the case of an increase or a continuation of the public offer of Warrants issued under the Base Prospectus dated 24 October 2022 or the Base Prospectus dated 24 October 2023 of BNP Paribas Emissions- und Handelsgesellschaft mbH, the relevant Terms and Conditions of the Warrants contained in the 2022 Terms and Conditions of the Warrants or the 2023 Terms and Conditions of the Warrants which are incorporated by reference into this Base Prospectus are applicable (a list setting out where the information incorporated by reference is included is provided in section "III. GENERAL INFORMATION ON THE BASE PROSPECTUS, 6. Information incorporated by reference a) Information incorporated by reference regarding the Terms and Conditions of the Warrants and the Form of Final Terms".]

***The Terms and Conditions of the Warrants for Products 1 to 7 set out below should be read in conjunction with "Annex A – Definitions".***

*The definitions set forth in § 1 of the Product Specific Conditions will be completed in the Final Terms for each product by the appropriate wording provided in "Annex A – Definitions" for each definition or as appropriate for the issuance parameters of the respective product. Some definitions may be included in the Terms and Conditions of the Warrants more than once if necessary.*

The Issuer reserves the right to replace securities issued by means of a note pursuant to § 6 (3) eWpG by Central Register Securities of the same content.]

## § 1

### Warrant Right, Definitions

- (1) BNP Paribas Emissions- und Handelsgesellschaft mbH, Frankfurt am Main (the “**Issuer**”) grants each Warrant Holder (as defined in § 5 of Part B of the Terms and Conditions of the Warrants (General Conditions)) of a[n] [●] [UNLIMITED TURBO Long Warrant] [and/or] [a[n]] [UNLIMITED TURBO Short Warrant] (each a “**Warrant**” and collectively the “**Warrants**”) linked to the underlying (the “**Underlying**”) specified in the table at the end of this § 1 the right (the “**Warrant Right**”) to claim payment from the Issuer, in accordance with these Terms and Conditions of the Warrants of the Redemption Amount, in [●] [the settlement currency allocated to the Warrant in the table at the end of § 1] (the “**Settlement Currency**”), as specified in para. (2) [and para. (3)] below, pursuant to § 1 of these Terms and Conditions of the Warrants and § 7 of Part B of the Terms and Conditions of the Warrants (General Conditions).

***[The following provision applies in the case of an UNLIMITED TURBO Long Warrant:***

- (2) Subject to the occurrence of a Knock-Out Event and to the provisions of para. [(3)][(4)], the Redemption Amount (the “**Redemption Amount**”) in the case of an **UNLIMITED TURBO Long Warrant** is equal to the difference between the Reference Price and the Relevant Strike, determined in the Reference Currency, multiplied by the Ratio expressed as a decimal (the “**Relevant Amount**”):

$$\text{Relevant Amount} = (\text{Reference Price} - \text{Relevant Strike}) \times (\text{R})$$

The Redemption Amount thus calculated is then Commercially Rounded to the [●] decimal place. If the Reference Currency is not the same as the Settlement Currency, the Relevant Amount will be converted into the Settlement Currency in accordance with § 1 para. [(6)][(7)].

***[The following provision applies if no Minimum Amount is paid:***

If the Relevant Amount thus calculated is zero or a negative value, the Warrants will expire and become worthless. In this case, no payment will be made to Warrant Holders.]

***[The following provision applies if a Minimum Amount is paid:***

If the Relevant Amount thus calculated is zero or a negative value, the Redemption Amount will be only [●] per Warrant (the “**Minimum Amount**”). If a Warrant Holder holds more than one Warrant, the aggregate of the Minimum Amounts thus calculated will be Commercially Rounded to the [●] decimal place.]

***[The following provision applies in the case of an UNLIMITED TURBO Short Warrant:***

[(2)][(3)] Subject to the occurrence of a Knock-Out Event and to the provisions of para. [(3)][(4)], the Redemption Amount (the “**Redemption Amount**”) in the case of an **UNLIMITED TURBO Short Warrant** is equal to the difference between the Relevant Strike and the Reference Price, determined in the Reference Currency, multiplied by the Ratio expressed as a decimal (the “**Relevant Amount**”):

$$\text{Relevant Amount} = (\text{Relevant Strike} - \text{Reference Price}) \times (\text{R})$$

The Redemption Amount thus calculated is then Commercially Rounded to the [●] decimal place. If the Reference Currency is not the same as the Settlement Currency, the Relevant Amount will be converted into the Settlement Currency in accordance with § 1 para. [(6)][(7)].]

***[The following provision applies if no Minimum Amount is paid:***

If the Relevant Amount thus calculated is zero or a negative value, the Warrants will expire and become worthless. In this case, no payment will be made to Warrant Holders.]

***[The following provision applies if a Minimum Amount is paid:***

If the Relevant Amount thus calculated is zero or a negative value, the Redemption Amount will be only [●] per Warrant (the “**Minimum Amount**”). If a Warrant Holder holds more than one Warrant, the aggregate of the Minimum Amounts thus calculated will be Commercially Rounded to the [●] decimal place.]]

***[The following provision applies if no Minimum Amount is paid:***

[(3)][(4)] If a Knock-Out Event occurs during the Observation Period, the Warrants will expire and become worthless. In this case, no payment will be made to Warrant Holders.]

***[The following provision applies if a Minimum Amount is paid:***

[(3)][(4)] If a Knock-Out Event occurs during the Observation Period, the Warrants will expire and the Redemption Amount will only be equal to the Minimum Amount. If a Warrant Holder holds more than one Warrant, the aggregate of the Minimum Amounts thus calculated will be Commercially Rounded to the [●] decimal place.]]

[(4)][(5)] The Issuer will pay the Redemption Amount per Warrant to each Warrant Holder at the latest on the Settlement Date.

[(6)][(7)] The following currency conversion provisions apply if the Reference Currency is not the same as the Settlement Currency.

***[The following provision applies in the case of non-quanto conversion.]***

[The Reference Currency will be converted into the Settlement Currency at the currency exchange rate set on [or in relation to] the Valuation Date by [Bloomberg] [•] for that day and published on [Reuters page] [Refinitiv page] [[Bloomberg page] [BFIX]] [•] [at [•] hrs ([•] local time) (the "**Conversion Time**")]. [If an updated currency exchange rate [for the relevant Conversion Time] is not yet available on the aforementioned screen page [on] [in relation to] the Valuation Date, the conversion will be made on the basis of the last previous displayed exchange rate; however, if this is due to a technical problem that is not just temporary and resolved promptly, the conversion for the purposes of this provision will be made on the basis of the current relevant currency exchange rate displayed on [Reuters page [•]] [Refinitiv page] [•]] [Bloomberg page [bloomberg.com/markets/currencies/fx-fixings] [•]] [webpage [•]].]

[If such an exchange rate is no longer published as aforesaid but on another screen page chosen by the Calculation Agent at its reasonable discretion (Sec. 317 *BGB*) (the "**Replacement Page**"), the currency exchange rate published on the Replacement Page shall be relevant and applicable for the conversion of the Reference Currency into the Settlement Currency. The Issuer will publish the Replacement Page in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions) without undue delay.]

[If the calculation of a currency exchange rate or its publication in the manner described above is permanently discontinued, the [Issuer][Calculation Agent] will [at its reasonable discretion (Sec. 317 BGB)][ and taking into account common market practice] set another rate to be used as currency exchange rate without undue delay by means of a notice according to § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions).]

[For the conversion of the Reference Currency into the Settlement Currency, the Calculation Agent will [set the currency exchange rate to be used at its reasonable discretion (Sec. 317 BGB) and taking into account common market practice] [refer to the exchange rate actually traded on the *International Interbank Spot Market* [at the time of determination of the Reference Price] [as a basis] [refer to the exchange rate [set by [•] and] [published on [•]] [at [•] hours] [at the time of determination of the Reference Price]] [as a basis] and make the conversion on the basis of this currency exchange rate.] [•]]

**§ 2**  
**Exercise of Warrant Rights**

**The following provision applies if no Minimum Amount is paid:**

- (1) (a) The Warrants will be deemed automatically exercised and become worthless as soon as a Knock-Out Event occurs. In this case, no payment will be made to Warrant Holders.]

**The following provision applies if a Minimum Amount is paid:**

- (1) (a) The Warrants will be deemed automatically exercised as soon as a Knock-Out Event occurs. In this case, the Redemption Amount will only be equal to the Minimum Amount according to § 1 para. [(3)][(4)].]

- (b) Warrant Rights may only be exercised for at least [●] Warrant[s] or an integral multiple thereof (the “**Minimum Number**”). At the latest by [10:00] [●] hrs [Frankfurt am Main local time][●] two Bank Business Days before the Exercise Date, the Warrant Holder shall:

- (i) submit a[n] [written and] unconditional declaration [in text form] with all necessary information according to para. (1)(c) below (the “**Exercise Notice**”) to the Paying Agent (in accordance with § 8 of Part B of the Terms and Conditions of the Warrants (General Conditions)), such notice to be sent [by fax to number [+49 (0) 69 15205277] [●]] [and/or] [by email to [frankfurt.gct.operations@bnpparibas.com][●]] [●]; and
- (ii) deliver the Warrants to the Issuer via the account [of the Paying Agent] [●] by transferring the Warrants to the account [of the Paying Agent] [●] with the [Clearing System] [Intermediary] [●] (account no. [7259] [●]).

Valid exercise of the Warrant Right by the Warrant Holder is subject to the condition subsequent of a Knock-Out Event occurring on or before the determination of the Reference Price on the Exercise Date: In other words, if a Knock-Out Event occurs after exercise according to this § 2 para. (1)(b), this will result in the exercise subsequently becoming invalid and § 2 para. (1)(a) applying instead.

- (c) The Exercise Notice must include:
- (i) the name and address of the exercising Warrant Holder,
- (ii) the type (WKN or ISIN) and number of the Warrants for which the Warrant Right is being exercised, and
- (iii) the details of a bank account in the Settlement Currency to which the Redemption Amount is to be transferred.

The Exercise Notice is binding and irrevocable. It will take effect when the Exercise Notice has been received and the Warrants have been received by the Paying Agent in due time. If the Warrants to which the Exercise Notice relates are not delivered, or not delivered in time, to the Paying Agent in accordance with para. (1)(b), the Exercise

Notice shall be null and void. The Bank Business Day on which the conditions for exercise referred to above are first met with respect to the Warrant Rights exercised by [10:00] [●] hrs [Frankfurt am Main local time] [●] inclusive shall be deemed the Valuation Date for the purposes of § 1.

If, notwithstanding para. (1)(b), the number of Warrant Rights exercised is not equal to or a multiple of the Minimum Number, the exercise shall be effective only for the next smaller number of Warrants that is divisible by the Minimum Number into integer numbers without remainder. The same shall apply *mutatis mutandis* if the number of Warrants referred to in the Exercise Notice is different from the number of Warrants transferred to the Paying Agent. In both cases, the surplus Warrants shall be transferred back to the Warrant Holder at its risk and expense.

- (2) The Issuer shall have the right to terminate the Warrants in their entirety and not in part, to expire on [●], or at the earliest on [●] (the “**Termination Date**”), by giving notice of ordinary termination. Termination by the Issuer shall be published [●] [at the latest two Bank Business Days] before the Termination Date in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions).

The Valuation Date shall in this case be the Termination Date, provided that the point in time on the basis of which the Termination Date is determined shall be when the Reference Price concerned is determined (subject to a Knock-Out Event and extraordinary termination pursuant to § 3). The Redemption Amount payable to Warrant Holders in the event of ordinary termination shall then be determined according to the provisions of § 1 para. [(2)][and][(3)] (including the reference to para. [(3)][(4)][(6)][(7)]).

A notice of termination already given shall become ineffective if a Knock-Out Event occurs on or before the relevant Termination Date.]

[The Issuer reserves the right to replace Warrants issued by means of a note pursuant to § 6 (3) eWpG by electronic securities of the same content and registered in a central register within the meaning of § 4 (2) eWpG (the “**Central Register Securities**”). The Issuer reserves the right to replace Central Register Securities pursuant to § 6 (2) eWpG by securities of the same content issued by means of a note.]

[The Issuer reserves the right to replace Warrants issued as electronic securities registered in a central register within the meaning of § 4 (2) eWpG (the “**Central Register Securities**”) by securities of the same content issued by means of a note pursuant to § 6 (2) eWpG. The Issuer reserves the right to replace securities issued by means of a note pursuant to § 6 (3) eWpG by Central Register Securities of the same content.]

### § 1

#### **Warrant Right, Definitions**

- (1) BNP Paribas Emissions- und Handelsgesellschaft mbH, Frankfurt am Main (the “**Issuer**”) grants each Warrant Holder (as defined in § 5 of Part B of the Terms and Conditions of the Warrants (General Conditions)) of a[n] [●] [MINI Future Long Warrant] [and/or] [a] [MINI Future Short Warrant] (each a “**Warrant**” and collectively the “**Warrants**”) linked to the underlying (the “**Underlying**”) specified in the table at the end of this § 1 the right (the “**Warrant Right**”) to claim payment from the Issuer, in accordance with these Terms and Conditions of the Warrants of the Redemption Amount, in [●] [the settlement currency allocated to the Warrant in the table at the end of § 1] (the “**Settlement Currency**”), as specified in para. (2) [and para. (4)] below, pursuant to § 1 of these Terms and Conditions of the Warrants and § 7 of Part B of the Terms and Conditions of the Warrants (General Conditions).

***[The following provision applies in the case of a MINI Future Long Warrant:***

- (2) Subject to the occurrence of a Stop-Loss Event and to the provisions of para. (3), the Redemption Amount (the “**Redemption Amount**”) in the case of a **MINI Future Long Warrant** is equal to the difference between the Reference Price and the Relevant Strike, determined in the Reference Currency, multiplied by the Ratio expressed as a decimal (the “**Relevant Amount**”):

$$\text{Relevant Amount} = (\text{Reference Price} - \text{Relevant Strike}) \times (\text{R})$$

The Redemption Amount thus calculated is then Commercially Rounded to the [●] decimal place. If the Reference Currency is not the same as the Settlement Currency, the Relevant Amount will be converted into the Settlement Currency in accordance with § 1 para. [(6)][(8)].

***[The following provision applies if no Minimum Amount is paid:***

If the Relevant Amount thus calculated is zero or a negative value, the Warrants will expire and become worthless. In this case, no payment will be made to Warrant Holders.]

***[The following provision applies if a Minimum Amount is paid:***

If the Relevant Amount thus calculated is zero or a negative value, the Redemption Amount will be only [●] per Warrant (the “**Minimum Amount**”). If a Warrant Holder holds more than one Warrant, the aggregate of the Minimum Amounts thus calculated will be Commercially Rounded to the [●] decimal place.]

- (3) If on any day during the Observation Period (including the day when the Reference Price is determined) the Observation Price reaches or falls below the Stop-Loss Barrier, thereby triggering a Stop-Loss Event, the Warrants shall automatically be deemed exercised and the day on which the Stop-Loss Event occurred, at the latest, however, the day on which the Stop-Loss Reference Level was determined, shall at the same time be deemed the Valuation Date. In this case (irrespective of whether or not an Exercise Notice as defined in § 2 has been given), the Redemption Amount shall then be determined exclusively as follows:

$$\text{Redemption Amount} = (\text{Stop-Loss Reference Level} - \text{Relevant Strike}) \times (\text{R})$$

The Redemption Amount thus calculated is then Commercially Rounded to the [●] decimal place. If the Reference Currency is not the same as the Settlement Currency, the Relevant Amount will be converted into the Settlement Currency in accordance with § 1 para. [(6)][(8)].

***[The following provision applies if no Minimum Amount is paid:]***

The Redemption Amount may be zero if the Stop-Loss Reference Level is lower than or equal to the Relevant Strike. The Redemption Amount can never be negative; a negative calculated value results in a Redemption Amount of zero. In this case, the Warrants will expire and become worthless, and no payment will be made to Warrant Holders.]

***[The following provision applies if a Minimum Amount is paid:]***

The Redemption Amount may be only equal to the Minimum Amount if the Stop-Loss Reference Level is lower than or equal to the Relevant Strike. If a Warrant Holder holds more than one Warrant, the aggregate of the Minimum Amounts thus calculated will be Commercially Rounded to the [●] decimal place.]

***[The following provision applies in the case of a MINI Future Short Warrant:]***

[(2)][(4)] Subject to the occurrence of a Stop-Loss Event and to the provisions of para. [(3)][(5)], the Redemption Amount (the “**Redemption Amount**”) in the case of a **MINI Future Short Warrant** is equal to the difference between the Relevant Strike and the Reference Price, determined in the Reference Currency, multiplied by the Ratio expressed as a decimal (the “**Relevant Amount**”):

$$\text{Relevant Amount} = (\text{Relevant Strike} - \text{Reference Price}) \times (\text{R})$$

The Redemption Amount thus calculated is then Commercially Rounded to the [●] decimal place. If the Reference Currency is not the same as the Settlement Currency, the Relevant Amount will be converted into the Settlement Currency in accordance with § 1 para. [(6)][(8)].]

***[The following provision applies if no Minimum Amount is paid:]***

If the Relevant Amount thus calculated is zero or a negative value, the Warrants will expire and become worthless. In this case, no payment will be made to Warrant Holders.]

***[The following provision applies if a Minimum Amount is paid:]***

If the Relevant Amount thus calculated is zero or a negative value, the Redemption Amount will be only [●] per Warrant (the “**Minimum Amount**”). If a Warrant Holder holds more than one Warrant, the aggregate of the Minimum Amounts thus calculated will be Commercially Rounded to the [●] decimal place.]

[(3)][(5)] If on any day during the Observation Period (including the day when the Reference Price is determined) the Observation Price reaches or exceeds the Stop-Loss Barrier, thereby triggering a Stop-Loss Event, the Warrants shall automatically be deemed exercised and the day on which the Stop-Loss Event occurred, at the latest, however, the day on which the Stop-Loss Reference Level was determined, shall at the same time be deemed the Valuation Date. In this case (irrespective of whether or not an Exercise Notice as defined in § 2 has been given), the Redemption Amount shall then be determined exclusively as follows:

$$\text{Redemption Amount} = (\text{Relevant Strike} - \text{Stop-Loss Reference Level}) \times (\text{R})$$

The Redemption Amount thus calculated is then Commercially Rounded to the [●] decimal place. If the Reference Currency is not the same as the Settlement Currency, the Relevant Amount will be converted into the Settlement Currency in accordance with § 1 para. [(6)][(8)].]

***[The following provision applies if no Minimum Amount is paid:***

The Redemption Amount may be zero if the Stop-Loss Reference Level is higher than or equal to the Relevant Strike. The Redemption Amount can never be negative; a negative calculated value results in a Redemption Amount of zero. In this case, the Warrants will expire and become worthless, and no payment will be made to Warrant Holders.]

***[The following provision applies if a Minimum Amount is paid:***

The Redemption Amount may be only equal to the Minimum Amount if the Stop-Loss Reference Level is higher than or equal to the Relevant Strike. If a Warrant Holder holds more than one Warrant, the aggregate of the Minimum Amounts thus calculated will be Commercially Rounded to the [●] decimal place.]]

[(4)][(6)] The Issuer will pay the Redemption Amount per Warrant to each Warrant Holder at the latest on the Settlement Date.

#### **§ 1**

#### **Warrant Right, Definitions**

- (1) BNP Paribas Emissions- und Handelsgesellschaft mbH, Frankfurt am Main (the “**Issuer**”) grants each Warrant Holder (as defined in § 5 of Part B of the Terms and Conditions of the

Warrants (General Conditions)) of a [●] [Call Warrant] [and/or] [a] [Put Warrant] (each a “Warrant” and collectively the “Warrants”) linked to the underlying (the “Underlying”) specified in the table at the end of this § 1 the right (the “Warrant Right”) to claim payment from the Issuer, in accordance with these Terms and Conditions of the Warrants of the Redemption Amount, in [●] [the settlement currency allocated to the Warrant in the table at the end of § 1] (the “Settlement Currency”), as specified in para. (2) [and para. (3)] below, pursuant to § 1 of these Terms and Conditions of the Warrants and § 7 of Part B of the Terms and Conditions of the Warrants (General Conditions).]

***[The following provision applies in the case of a Call Warrant:]***

- (2) The Redemption Amount (the “Redemption Amount”) in the case of a **Call** Warrant is equal to the difference by which the Reference Price **exceeds** the Strike, determined in the Reference Currency, multiplied by the Ratio expressed as a decimal (the “Relevant Amount”):

$$\text{Relevant Amount} = (\text{Reference Price} - \text{Strike}) \times (\text{R})$$

The Redemption Amount thus calculated is then Commercially Rounded to the [●] decimal place. If the Reference Currency is not the same as the Settlement Currency, the Relevant Amount will be converted into the Settlement Currency in accordance with § 1 para. [(5)][(6)].

***[The following provision applies if no Minimum Amount is paid:]***

If the Relevant Amount thus calculated is zero or a negative value, the Warrants will expire and become worthless. In this case, no payment will be made to Warrant Holders.]

***[The following provision applies if a Minimum Amount is paid:]***

If the Relevant Amount thus calculated is zero or a negative value, the Redemption Amount will be only [●] per Warrant (the “Minimum Amount”). If a Warrant Holder holds more than one Warrant, the aggregate of the Minimum Amounts thus calculated will be Commercially Rounded to the [●] decimal place.]]

***[The following provision applies in the case of a Put Warrant:]***

- [(2)][(3)] The Redemption Amount (the “Redemption Amount”) in the case of a **Put** Warrant is equal to the difference by which the Reference Price **falls below** the Strike, determined in the Reference Currency, multiplied by the Ratio expressed as a decimal (the “Relevant Amount”):

$$\text{Relevant Amount} = (\text{Strike} - \text{Reference Price}) \times (\text{R})$$

The Redemption Amount thus calculated is then Commercially Rounded to the [●] decimal place. If the Reference Currency is not the same as the Settlement Currency, the Relevant Amount will be converted into the Settlement Currency in accordance with § 1 para. [(5)][(6)].

**§ 2**  
**Exercise of Warrant Rights**

***The following provision applies in the case of “European exercise style”:***

Subject to any other provisions of these Terms and Conditions of the Warrants, the Warrant Rights shall be deemed exercised in accordance with the provisions of § 1 on the Valuation Date without any further conditions having to be met and shall lapse upon payment of the Redemption Amount (if the Redemption Amount is positive; otherwise they shall lapse without replacement and become worthless at the end of the day concerned).]

***The following provision applies in the case of “American exercise style”:***

- (1) Warrant Rights may only be exercised for at least [●] Warrant[s] or an integral multiple thereof (the “**Minimum Number**”). Before the end of the exercise period allocated to the Warrant in the table at the end of § 1 (the “**Exercise Period**”), the Warrant Holder must
  - (a) submit a[n] [written and] unconditional declaration [in text form] with all necessary information according to para. (2) below (the “**Exercise Notice**”) to the Paying Agent (in accordance with § 8 of Part B of the Terms and Conditions of the Warrants (General Conditions)), such notice to be sent [by fax to number [+49 (0) 69 15205277] [●]] [and/or] [by email to [frankfurt.gct.operations@bnpparibas.com]] [●]] [●]; and
  - (b) deliver the Warrants to the Issuer via the account [of the Paying Agent] [●] by transferring the Warrants to the account [of the Paying Agent] [●] with the [Clearing System] [Intermediary] [●] (account no. [7259] [●]).

Subject to a Market Disruption as defined in § 4, Warrant Rights which have not been exercised by the last day of the Exercise Period shall be deemed automatically exercised on that day without any further conditions having to be met or, if that day is not a Trading Day, on the following Trading Day and shall lapse upon payment of the Redemption Amount (if the Redemption Amount is positive; otherwise they shall lapse without replacement and become worthless at the end of the day concerned).

- (2) The Exercise Notice must include:
  - (a) the name and address of the exercising Warrant Holder,
  - (b) the type (WKN or ISIN) and number of the Warrants for which the Warrant Right is being exercised, and
  - (c) the details of a bank account in the Settlement Currency to which the Redemption Amount is to be transferred.

The Exercise Notice is binding and irrevocable. It will take effect if the Exercise Notice has been received before the end of the Exercise Period and the Warrants have been received by the Paying Agent in due time. If the Warrants to which the Exercise Notice relates are not delivered, or not delivered in time, to the Paying Agent in accordance with para. (1)(b), the Exercise Notice shall be null and void.

The Bank Business Day during the Exercise Period on which the conditions for exercise referred to above are first met with respect to the Warrant Rights exercised by [10:00] [●] hrs ([Frankfurt am Main local time] [●]) inclusive shall be deemed the Valuation Date for the purposes of § 1. [[If the Reference Price is regularly determined before [10:00] [●] hrs ([Frankfurt am Main][●] local time) on a Trading Day, the Valuation Date shall be

the Bank Business Day following the day on which the Warrant Right is deemed validly exercised according to § 2, unless the day on which the Warrant Right is deemed validly exercised according to § 2 falls on the last day of the Exercise Period. In this case, the Valuation Date shall be the last day of the Exercise Period.] [●]

- (3) If, notwithstanding para. (1), the number of Warrant Rights exercised is not equal to or a multiple of the Minimum Number, the exercise shall be effective only for the next smaller number of Warrants that is divisible by the Minimum Number into integer numbers without remainder. The same shall apply *mutatis mutandis* if the number of Warrants referred to in the Exercise Notice is different from the number of Warrants transferred to the Paying Agent. In both cases, the surplus Warrants shall be transferred back to the Warrant Holder at its risk and expense.]]

### § 1

#### **Warrant Right, Definitions**

- (1) BNP Paribas Emissions- und Handelsgesellschaft mbH, Frankfurt am Main (the “**Issuer**”) grants each Warrant Holder (as defined in § 5 of Part B of the Terms and Conditions of the

Warrants (General Conditions)) of a [●] [Discount Call Warrant] [and/or] [a] [Discount Put Warrant] (each a “**Warrant**” and collectively the “**Warrants**”) linked to the underlying (the “**Underlying**”) specified in the table at the end of this § 1 the right (the “**Warrant Right**”) to claim payment from the Issuer, in accordance with these Terms and Conditions of the Warrants of the Redemption Amount, in [●] [the settlement currency allocated to the Warrant in the table at the end of § 1] (the “**Settlement Currency**”), as specified in para. ***[The following provision applies in the case of a Discount Call Warrant:***

- (2) The Redemption Amount (the “**Redemption Amount**”) in the case of a **Discount Call Warrant** is equal to the difference determined in the Reference Currency as follows, multiplied by the Ratio expressed as a decimal (the “**Relevant Amount**”):
- (a) If the Reference Price is higher than the Maximum Price, the Issuer shall, on the Valuation Date, determine a Redemption Amount per Warrant equal to the difference between the Maximum Price and the Strike, multiplied by the Ratio expressed as a decimal:

$$\text{Relevant Amount} = (\text{Maximum Price} - \text{Strike}) \times (\text{R})$$

- (b) If the Reference Price is lower than or equal to the Maximum Price but higher than the Strike, the Issuer shall, on the Valuation Date, determine a Redemption Amount per Warrant equal to the difference between the Reference Price and the Strike, multiplied by the Ratio expressed as a decimal:

$$\text{Relevant Amount} = (\text{Reference Price} - \text{Strike}) \times (\text{R})$$

The Redemption Amount thus calculated is then Commercially Rounded to the [●] decimal place. If the Reference Currency is not the same as the Settlement Currency, the Relevant Amount will be converted into the Settlement Currency in accordance with § 1 para. [(5)][(6)].

### § 1

#### **Warrant Right, Definitions**

- (1) BNP Paribas Emissions- und Handelsgesellschaft mbH, Frankfurt am Main (the “**Issuer**”) grants each Warrant Holder (as defined in § 5 of Part B of the Terms and Conditions of the

Warrants (General Conditions)) of a [Constant Leverage Long Warrant] [(with unlimited term)] [and/or] [a] [Constant Leverage Short Warrant] (with unlimited term) (each a “**Warrant**” and collectively the “**Warrants**”) linked to the underlying (the “**Underlying**”) specified in the table at the end of this § 1 the right (the “**Warrant Right**”) to claim payment from the Issuer, in accordance with these Terms and Conditions of the Warrants of the Redemption Amount as specified in para. (2) below, pursuant to § 1 of these Terms and Conditions of the Warrants and § 7 of Part B of the Terms and Conditions of the Warrants (General Conditions). For this purpose, the Warrant Holder shall send an Exercise Notice pursuant to § 2 para. (2) below to [the Paying Agent] [●] [by][to][on] [●] [of each calendar month] [of each year][, for the first time by [●,] (each an)[the] “**Exercise Date**”). Payments will be made in [●] [the settlement currency allocated to the Warrant in the table at the end of § 1] (the “**Settlement Currency**”).

(2) **[For Constant Leverage Long Warrants:]**

**[For Constant Leverage Long Warrants:]**

The redemption amount (“**Redemption Amount**”) is the relevant Cash Value Long determined in the Reference Currency (the “**Relevant Cash Value Long**”), which will be converted [, if applicable,] into the Settlement Currency in accordance with § 1 para. (5) [if the Reference Currency is not the same as the Settlement Currency]].

- (a) Subject to a Cash Value Long Calculation Disruption [and subject to [an Emerging Country Market Disruption] or a Market Disruption within the meaning of § 4], the Relevant Cash Value Long is equal to the Cash Value Long, which is determined from the Determination Date onwards [(exclusively)] on each Cash Value Calculation Date [as at the Cash Value Calculation Time] (the “**Cash Value Long<sub>(t)</sub>**”), as at the relevant Exercise Date or the Ordinary Termination Date, and accordingly, subject to any Reset Event of the Cash Value Long as described in para. (3) and subject to the following subparagraph (b), to the Cash Value Long on the immediately preceding Cash Value Calculation Date (the “**Cash Value Long<sub>(t-1)</sub>**”) multiplied by the sum of (i) 1 (in words: one) and (ii) the product of (A) the Leverage Factor and (B) the Performance of the Underlying on the Cash Value Calculation Date<sub>(t)</sub>, the overall result being increased by the (usually mathematically negative) Financing Component on the Cash Value Calculation Date<sub>(t)</sub>. The Cash Value Long<sub>(t)</sub> is at least equal to [0.5][●]% of the Cash Value Long<sub>(t-1)</sub>:

$$\text{Cash Value Long}_{(t)} = \max[\text{Cash Value Long}_{(t-1)} * (1 + \text{Leverage Factor} * \text{Performance of the Underlying}_{(t)}) + \text{Financing Component}_{(t)}; [0.5][\bullet] \% * \text{Cash Value Long}_{(t-1)}]$$

wherein the Cash Value Long on the Determination Date in the Reference Currency is equal to [**insert amount:** ●] [the Initial Cash Value Long] [●].

- (b) If at least one Reset Event of the Cash Value Long<sub>(t)</sub> pursuant to para. (3) has taken place [between [two [Cash Value Calculation Dates] [Trading Days] [Cash Value Calculation Times]] [the Cash Value Calculation Time<sub>(t-1)</sub> and the Cash Value Calculation Time<sub>(t)</sub>] [during the Observation Period] [on the [Cash Value Calculation Date<sub>(t)</sub>][Trading Day<sub>(t)</sub>]], the following provisions shall apply for the calculation of the Cash Value Long<sub>(t)</sub> as at the Cash Value Calculation Time<sub>(t)</sub> on the [Cash Value Calculation Date<sub>(t)</sub>][Trading Day<sub>(t)</sub>] referred to in subparagraph (a) above:
- i. The “Financing Component<sub>(t)</sub>” is 0 (in words: zero).

- ii. “Cash Value Long<sub>(t-1)</sub>” is replaced by “Cash Value Long<sub>(t)</sub><sup>(adjusted)</sup>” of the last Reset Event relating to the [Observation Period][Cash Value Calculation Date<sub>(t)</sub>][Trading Day<sub>(t)</sub>].
- iii. In the “Performance of the Underlying<sub>(t)</sub>” provision, “Reference Price<sub>(t-1)</sub>” is replaced by the Reset Price as last determined. [
- iv. In the “Performance of the Underlying<sub>(t)</sub>” provision, [“Div<sub>(t)</sub>”] [“DIVK<sub>(t)</sub>”] is 0 (in words: zero).] [
- v. In the “Performance of the Underlying<sub>(t)</sub>” provision, “Roll-Over Costs<sub>(t-1)</sub>” is 0 (in words: zero).]

[The Redemption Amount] [Any amount thus calculated] is then Commercially Rounded to the [●] decimal place.

In the event that a Cash Value Long Calculation Disruption has occurred, the Calculation Agent may, at its reasonable discretion (Sec. 317 *BGB*) either suspend the determination of the Relevant Cash Value Long or of the Cash Value Long or determine the Relevant Cash Value Long on the basis of the then prevailing market practice taking into account the estimated Performance of the Underlying under the then prevailing market conditions.

If the determination of the Relevant Cash Value Long is suspended on a Valuation Date due to a Cash Value Long Calculation Disruption, the affected Valuation Date will be postponed to the following Trading Day on which no Cash Value Long Calculation Disruption exists, and the Settlement Date will be adjusted accordingly, if applicable. Should, in such case, after the end of the original date, the Cash Value Calculation Date be postponed by more Trading Days than permitted by the definition of the term “Valuation Date” in § 1 and the Cash Value Long Calculation Disruption continue to exist on that day, that day shall be deemed the relevant Cash Value Calculation Date. In this case, the Calculation Agent will determine the Relevant Cash Value Long on the basis of the then prevailing market practice and taking into account the estimated Performance of the Underlying under the then prevailing market conditions.

**[The following provision applies if no Minimum Amount is paid:]**

- (c) If the Relevant Cash Value Long is zero (0), the Redemption Amount will be **zero (0)** and no Redemption Amount shall be paid. The Warrant shall expire worthless.]

**[The following provision applies if a Minimum Amount is paid:]**

- (c) If the Relevant Cash Value Long is zero (0), the Redemption Amount will only be [●] per Warrant (the “**Minimum Amount**”). If a Warrant Holder holds more than one Warrant, the aggregate of the Minimum Amounts thus calculated will be Commercially Rounded to the [●] decimal place.]

The Issuer will pay the Redemption Amount to the Warrant Holder at the latest on the Settlement Date.]

**[For Constant Leverage Short Warrants:]**

**[For Constant Leverage Short Warrants:]**

The redemption amount (“**Redemption Amount**”) is the relevant Cash Value Short

determined in the Reference Currency (the “**Relevant Cash Value Short**”), which will be converted [ , if applicable,] into the Settlement Currency in accordance with § 1 para. (5) [if the Reference Currency is not the same as the Settlement Currency].

- (a) Subject to a Cash Value Short Calculation Disruption [and subject to [an Emerging Country Market Disruption] or a Market Disruption within the meaning of § 4], the Relevant Cash Value Short is equal to the Cash Value Short, which is determined from the Determination Date onwards [(exclusively)] on each Cash Value Calculation Date [as at the Cash Value Calculation Time] (the “**Cash Value Short<sub>(t)</sub>**”), as at the relevant Exercise Date or the Ordinary Termination Date, and accordingly, subject to any Reset Event of the Cash Value Short as described in para. (3) and subject to the following subparagraph (b), to the Cash Value Short on the immediately preceding Cash Value Calculation Date (the “**Cash Value Short<sub>(t-1)</sub>**”) multiplied by the difference of (i) 1 (in words: one) and (ii) the product of (A) the Leverage Factor and (B) the Performance of the Underlying on the Cash Value Calculation Date<sub>(t)</sub>, the overall result being increased by the (usually mathematically negative) Financing Component on the Cash Value Calculation Date<sub>(t)</sub>. The Cash Value Short<sub>(t)</sub> is at least equal to [0.5][●]% of the Cash Value Short<sub>(t-1)</sub>:

**Cash Value Short<sub>(t)</sub> = max[Cash Value Short<sub>(t-1)</sub> \* (1 – Leverage Factor \* Performance of the Underlying<sub>(t)</sub>) + Financing Component<sub>(t)</sub>; [0.5][●] % \* Cash Value Short<sub>(t-1)</sub>]**

wherein the Cash Value Short on the Determination Date in the Reference Currency is equal to [insert amount: ●] [the Initial Cash Value Short] [●].

- (b) If at least one Reset Event of the Cash Value Short<sub>(t)</sub> pursuant to para. (3) has taken place [between [two [Cash Value Calculation Dates] [Trading Days] [Cash Value Calculation Times]] [the Cash Value Calculation Time<sub>(t-1)</sub> and the Cash Value Calculation Time<sub>(t)</sub>] [during the Observation Period] [on the [Cash Value Calculation Date<sub>(t)</sub>][Trading Day<sub>(t)</sub>]], the following provisions shall apply for the calculation of the Cash Value Short<sub>(t)</sub> as at the Cash Value Calculation Time<sub>(t)</sub> on the [Cash Value Calculation Date<sub>(t)</sub>][Trading Day<sub>(t)</sub>] referred to in subparagraph (a) above:
- i. The “Financing Component<sub>(t)</sub>” is 0 (in words: zero).
  - ii. “Cash Value Short<sub>(t-1)</sub>” is replaced by “Cash Value Short<sub>(t)(adjusted)</sub>” of the last Reset Event relating to the [Observation Period][Cash Value Calculation Date<sub>(t)</sub>][Trading Day<sub>(t)</sub>].
  - iii. In the “Performance of the Underlying<sub>(t)</sub>” provision, “Reference Price<sub>(t-1)</sub>” is replaced by the Reset Price as last determined. [
  - iv. In the “Performance of the Underlying<sub>(t)</sub>” provision, [“Div<sub>(t)</sub>”] [“DIVK<sub>(t)</sub>”] is 0 (in words: zero).] [
  - v. In the “Performance of the Underlying<sub>(t)</sub>” provision, “Roll-Over Costs<sub>(t-1)</sub>” is 0 (in words: zero).]

[The Redemption Amount] [Any amount thus calculated] is then Commercially Rounded to the [●] decimal place.

In the event that a Cash Value Short Calculation Disruption has occurred, the Calculation Agent may, at its reasonable discretion (Sec. 317 BGB) either suspend the determination of the Relevant Cash Value Short or of the Cash Value Short or determine the Relevant Cash Value Short or the Cash Value Short on the basis of the then prevailing market practice

taking into account the estimated Performance of the Underlying under the then prevailing market conditions.

If the determination of the Relevant Cash Value Short is suspended on a Valuation Date due to a Cash Value Short Calculation Disruption, the affected Valuation Date will be postponed to the following Trading Day on which no Cash Value Short Calculation Disruption exists, and the Settlement Date will be adjusted accordingly, if applicable. Should, in such case, after the end of the original date, the Cash Value Calculation Date be postponed by more Trading Days than permitted by the definition of the term “Valuation Date” in § 1 and the Cash Value Short Calculation Disruption continue to exist on that day, that day shall be deemed the relevant Cash Value Calculation Date. In this case, the Calculation Agent will determine the Relevant Cash Value Short on the basis of the then prevailing market practice and taking into account the estimated Performance of the Underlying under the then prevailing market conditions.

**[The following provision applies if no Minimum Amount is paid:**

- (c) If the Relevant Cash Value Short is zero (0), the Redemption Amount will be **zero (0)** and no Redemption Amount shall be paid. The Warrant shall expire worthless.]

**§ 2**  
**Exercise of Warrant Rights**

- (1) The Warrant Rights must be exercised by means of an Exercise Notice of the Warrant Holder in accordance with the provisions of para. (2). The Warrants expire after valid exercise in accordance with the provisions of para. (2) and upon payment of the amounts owed under the Warrants exercised.
- (2) To require exercise of the Warrants with effect from an Exercise Date, the Warrant Holder shall do the following at the latest by [●] (in words: [●]) Bank Business Day before [[●] hrs ([●] hrs local time)] [●] on that Exercise Date:
  - (a) submit a[n] [written and] unconditional declaration [in text form] with all necessary information (the “**Exercise Notice**”) to [the Paying Agent (§ 8 of Part B of the Terms and Conditions of the Warrants (General Conditions)), such notice to be sent [by fax to number [●]] [and/or] [by email to [frankfurt.gct.operations@bnpparibas.com] [●]] [●]; and
  - (b) deliver the Warrants to the Issuer via the account [of the Paying Agent] [●] by transferring the Warrants to the account [of the Paying Agent] [●] with the [Clearing System] [Intermediary] (account no. [●]).

The Exercise Notice must include:

- (a) the name and address of the exercising Warrant Holder,
- (b) the name (WKN or ISIN) and number of the Warrants for which the Warrant Right is to be exercised, and
- (c) the details of a bank account in the Settlement Currency to which the Redemption Amount is to be transferred.

The Exercise Notice is binding and irrevocable. It will take effect when the following conditions are met. [The Exercise Notice becomes null and void if it is received later than [[●] hrs ([●] local time)] [●] on [●] (in words: [●]) Bank Business Day before the Exercise Date.] If the Warrants to which the Exercise Notice relates are not delivered, or not delivered in time, to [the Paying Agent] [●], the Exercise Notice shall [also] be null and void.

**[For a Minimum Exercise Number insert:** The Warrant Right can only be exercised for [●] (in words: [●]) Warrants (the “**Minimum Exercise Number**”) [or an integral multiple thereof] [and/or, beyond that, for an integral number of Warrants]. If the number of Warrants exercised is not equal to the Minimum Exercise Number [or an integral multiple thereof] [and/or, beyond that, an integer number of Warrants], the Warrant Right [shall be deemed not validly exercised] [only for the next smaller number of Warrants that is divisible by the Minimum Exercise Number into integer numbers without remainder]. The same shall apply *mutatis mutandis* if the number of Warrants referred to in the Exercise Notice is different from the number of Warrants transferred to [the Paying Agent] [●]. In both cases, the [surplus] Warrants shall be transferred back to the Warrant Holder at its risk and expense.]

Upon exercise of the Warrants on the relevant Exercise Date, all rights under the Warrants exercised expire.

- (3) The Issuer shall have the right, but no obligation, to terminate the Warrants in their entirety, but not in parts, by ordinary termination by means of a notice according to § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions) with effect from an Ordinary

Termination Date, [observing a notice period of [•]], at the earliest with effect from [•.] and to redeem them. In the event that the Warrants are terminated, the Issuer shall[, subject to [an Emerging Country Market Disruption] [or] a Market Disruption within the meaning of § 4,] pay each Warrant Holder an amount per Warrant equal to the Redemption Amount specified in § 1 para. (2) and determined as at the Ordinary Termination Date.

The provisions on the Redemption Amount specified in these Terms and Conditions of the Warrants shall apply *mutatis mutandis* to this amount.

***[The following provision applies in the case of a TURBO Short Warrant:***

- [(2)][(4)] Subject to the occurrence of a Knock-Out Event and to the provisions of para. [(3)][(5)], the Redemption Amount (the “**Redemption Amount**”) in the case of a **TURBO Short Warrant** is equal to the difference between the Strike and the Reference Price, determined in the Reference Currency, multiplied by the Ratio expressed as a decimal (the “**Relevant Amount**”):

$$\text{Relevant Amount} = (\text{Strike} - \text{Reference Price}) \times (R)$$

The Redemption Amount thus calculated is then Commercially Rounded to the [●] decimal place. If the Reference Currency is not the same as the Settlement Currency, the Relevant Amount will be converted into the Settlement Currency in accordance with § 1 para. [(6)][(8)].

***[The following provision applies if no Minimum Amount is paid:***

- [(3)][(5)] If the Reference Price is higher than or equal to the Strike, the Redemption Amount will be zero (0) and no Redemption Amount shall be paid. The Warrant shall expire worthless.]

***[The following provision applies if a Minimum Amount is paid:***

- [(3)][(5)] If the Reference Price is higher than or equal to the Strike, the Redemption Amount will be only [●] per Warrant (the “**Minimum Amount**”). If a Warrant Holder holds more than one Warrant, the aggregate of the Minimum Amounts thus calculated will be Commercially Rounded to the [●] decimal place.]

***[The following provision applies if no Minimum Amount is paid:***

- [(4)][(6)] If a Knock-Out Event occurs during the Observation Period, the Warrants will expire and become worthless. In this case, no payment will be made to Warrant Holders.]

***[The following provision applies if a Minimum Amount is paid:***

- [(4)][(6)] If a Knock-Out Event occurs during the Observation Period, the Warrants will expire and the Redemption Amount will only be equal to [●] per Warrant (the “**Minimum Amount**”). ## **§ 2**

### **Exercise of Warrant Rights**

Subject to any other provisions of these Terms and Conditions of the Warrants, the Warrant Rights shall be deemed exercised in accordance with the provisions of § 1 [on the Valuation Date][●] without any further conditions having to be met and shall lapse upon payment of the Redemption Amount (if the Redemption Amount is positive; otherwise they shall lapse without replacement and become worthless at the end of the day concerned).

**Part A, Section II (Underlying Specific Conditions):**

**§ 3**

**Adjustments, extraordinary termination**

**The following provision applies if an index is used as Underlying:**

- (1) If the Underlying is no longer calculated and published by the Reference Source but by another person, company or institution that the Calculation Agent considers suitable (the “**Successor Reference Source**”), the applicable price shall be calculated, if applicable, on the basis of the index calculated and published by the Successor Reference Source. Any reference to the Reference Source contained in these Terms and Conditions of the Warrants shall, where the context allows, be deemed a reference to the Successor Reference Source.
- (2) If the Underlying is at any time cancelled and/or replaced with another index which, as determined by the Calculation Agent, is calculated and composed according to the same or a comparable formula and manner as the previous Underlying, the latter index shall serve as the basis for calculating the Redemption Amount (the “**Successor Underlying**”). The Successor Underlying and the date on which it first becomes applicable shall be published in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions) without undue delay. Any reference to the Underlying contained in these Terms and Conditions of the Warrants shall then, where the context allows, be deemed a reference to the Successor Underlying.
- (3) If
  - (a) the Underlying is permanently cancelled or temporarily suspended,

  - (c) the Underlying is replaced by the [Reference Source] [and/or [●]] with an index that, as determined by the Calculation Agent, is no longer comparable with respect to its method of calculation or composition with the previous Underlying,
  - (d) the [Reference Source] [and/or [●]], as determined by the Calculation Agent, is not in a position to calculate the Underlying, except for reasons that at the same time constitute a Market Disruption as defined in § 4, or
  - (e) events other than those described above occur [for which the Issuer is not accountable] which, in the opinion of the Issuer and the Calculation Agent at their reasonable discretion, are comparable to those events in terms of their economic effects and may have an influence on the calculated value of the Underlying,

(each an “**Adjustment Event**”) and provided that the Warrants have not been terminated in accordance with para. (4), the Issuer shall adjust the Terms and Conditions of the Warrants in such a way that the Warrant Holders are, insofar as possible, put in the same economic position they were in prior to the implementation of the measures and/or the occurrence of the events described in para. (3). For the purposes of calculating the relevant price of the Underlying the Calculation Agent shall use the calculation method used by the Reference

Source immediately prior to the change in, or cancellation of, the Underlying and, moreover, only on the basis of the Index Components underlying the Underlying immediately prior to its change or cancellation, except with respect to changes relating to the calculation to determine the Underlying which had already been provided for in the event of a change in the composition of the Index Components. The Issuer shall publish any continuation of the calculation of the index in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions) without undue delay.]

***The following provision applies if a futures contract is used as Underlying:***

- (1) If the price of the Underlying is no longer calculated and published by the Reference Source but by another person, company or institution that the Calculation Agent considers suitable (the “**Successor Reference Source**”), the applicable price shall be calculated, if applicable, on the basis of the price calculated and published by the Successor Reference Source. Any reference to the Reference Source contained in these Terms and Conditions of the Warrants shall, where the context allows, be deemed a reference to the Successor Reference Source. Any Successor Reference Source for the Underlying shall be published in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions) without undue delay.
- (2) If
  - (a) the listing of the Underlying or trading in the Underlying is cancelled without a replacement,
  - (b) the formula and the manner of the previous calculation or the trading terms and conditions or contract specifications of the Underlying are changed by the Reference Source [and/or [●]] in such a way that, as determined by the Calculation Agent, the Underlying is no longer comparable with the previous Underlying,
  - (c) the Underlying is replaced by the Reference Source [and/or [●]] with a value that, as determined by the Calculation Agent, is no longer comparable with respect to its method of calculation, trading terms and conditions or contract specifications, with the previous Underlying,
  - (d) the Reference Source is not in a position to calculate the Underlying, except for reasons that at the same time constitute a Market Disruption as defined in § 4,
  - (e) at the time of a Roll-Over under which the Underlying is replaced by another futures contract (if such a Roll-Over is intended to take place during the term of the Warrants), there exists no Underlying, in the opinion of the Calculation Agent, whose principal contract specifications match those of the Underlying to be replaced but whose Expiry Date is further in the future, or
  - (f) events other than those described above occur [for which the Issuer is not accountable] which, in the opinion of the Issuer and the Calculation Agent at their reasonable discretion, are comparable to those events in terms of their economic effects and may have an influence on the calculated value of the Underlying,

(each an “**Adjustment Event**”) and provided that the Warrants have not been terminated in accordance with para. (3), the Issuer shall replace the respective Underlying by a Successor Underlying which, in the opinion of the Calculation Agent, has similar contract specifications to those of the respective Underlying (the “**Successor Underlying**”) and/or adjust the Terms

and Conditions of the Warrants in such a way that the Warrant Holders are, insofar as possible, put in the same economic position they were in prior to the implementation of the measures described in this para. (2). In the event that the respective Underlying is replaced, any reference to the Underlying contained in these Terms and Conditions of the Warrants shall then, where the context allows, be deemed a reference to the Successor Underlying. The Issuer shall pay the Termination Amount in accordance with § 7 of Part B of the Terms and Conditions of the Warrants (General Conditions).]

***[The following provision applies if a share or American Depositary Receipt or Global Depositary Receipt or Ordinary Depositary Receipt is used as Underlying:***

- (1) If a Potential Adjustment Event as described in para. (2) occurs, the Issuer may, at its reasonable discretion (Sec. 315 *BGB*), adjust the Terms and Conditions of the Warrants in such a way that the Warrant Holders are, insofar as possible, put in the same economic position they were in prior to the implementation of the measures described in para. (2). In doing so, the Issuer may also, at its reasonable discretion (Sec. 315 *BGB*), adjust the Terms and Conditions of the Warrants in the same way in which corresponding adjustments are made on the Futures Exchange with respect to traded futures or option contracts on the Underlying, or would be made if corresponding futures or option contracts on the Underlying are or were traded on the exchange. The adjustments may also relate to the replacement of the Underlying with a share basket in connection with the securities referred to in para. (2).
- (2) **“Potential Adjustment Event”** in relation to [a share] [and/or] [an American Depositary Receipt] [and] [or] [a [Global] Depositary Receipt] [and] [or] [an Ordinary Depositary Receipt] as Underlying means:
  - (i) a share split, consolidation of shares or conversion of classes of shares (unless a **“Merger Event”** has occurred) or a free distribution or allocation of shares to the shareholders of the company that issued the Underlying (the **“Company”**), whether as a result of resolutions declaring a dividend or for other reasons;
  - (ii) the granting of additional securities to the shareholders of the Company which allow them to receive payments and/or dividends or proceeds of liquidation of the Company in proportion to the shares held by them; the granting to the shareholders of the Company of additional share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction; or the granting of other securities, rights or options or assets to the shareholders of the Company, in any case for payment (in cash or in other consideration) at less than the prevailing market price, which is deemed to be relevant by the Calculation Agent;
  - (iii) any extraordinary dividend that is not a dividend distributed as part of the regular schedule of dividend payments;
  - (iv) a call to pay capital contributions in respect of shares that are not fully paid;
  - (v) a repurchase of the shares by the Company whether out of profits or capital and irrespective whether the consideration for such repurchase is cash, securities or otherwise;
  - (vi) a corporate action taken by the Company as a defence against a hostile takeover with the result that the theoretical intrinsic value of the share is reduced;
  - (vii) or any other measure [for which the Issuer is not accountable] that dilutes or enhances the theoretical intrinsic value of the share.
- (3) If an Adjustment Event according to para. (4) occurs, the Issuer may at its reasonable discretion (Sec. 315 *BGB*):
  - (i) adjust the Terms and Conditions of the Warrants in such a way that the Warrant Holders are, insofar as possible, put in the same economic position they were in prior to the implementation of the measures described in para. (4). The adjustments may also relate to the replacement of the Underlying with a share basket in connection with the securities referred to in para. (4), with shares in a stock corporation newly formed

as a result of the spin-off or with shares in a stock corporation absorbing the spun-off division, with the number of shares being adjusted in each case. The Issuer may also, at its reasonable discretion (Sec. 315 *BGB*), adjust the Terms and Conditions of the Warrants in the same way in which corresponding adjustments are made on the Futures Exchange with respect to traded futures or option contracts on the Underlying, or would be made if corresponding futures or option contracts on the Underlying are traded on the exchange; or

- (ii) terminate the Warrants early by means of a notice according to § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions), stating the Termination Amount defined herebelow. In the event of termination, the Issuer shall (instead of making the payments that would otherwise have to be made under the Warrants) pay each Warrant Holder an amount per Warrant (the “**Termination Amount**”) determined by the Calculation Agent at its reasonable discretion (Sec. 317 *BGB*) to be the appropriate market price of the Warrant immediately prior to the event giving rise to the right to terminate [if relevant, including in view of compliance with local law requirements in the offer country, insert potential additional parameters and/or components that will be taken into account when determining the Termination Amount; and which will also take into account [●]].

The Issuer shall transfer the Termination Amount within four Bank Business Days after the date of the notice according to § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions) to the Clearing System or its successor in order for the Clearing System or its successor to forward these monies to the Warrant Holders. The Issuer shall pay the Termination Amount in accordance with § 7 of Part B of the Terms and Conditions of the Warrants (General Conditions).

- (4) “**Adjustment Event**” in relation to the Underlying means:
  - (i) a delisting, which is deemed to be the case within the meaning of these Terms and Conditions of the Warrants [(unless a Merger Event has occurred or a tender offer has been made) ]if the Reference Source announces that, in accordance with the applicable regulations of the Reference Source, the Underlying is or will no longer be listed, traded or publicly quoted at the Reference Source and the Underlying is not immediately re-listed, re-traded or re-quoted on another exchange or trading system located in the same jurisdiction as the original Reference Source (or, if the original Reference Source is located in the European Union, in a Member State of the European Union);
  - (ii) a nationalisation, which is deemed to be the case within the meaning of these Terms and Conditions of the Warrants if all the shares or assets of the Company are nationalised, expropriated or transferred in a comparable manner to a government agency, public authority or other state body;
  - (iii) that either (A) a request has been made for the opening of insolvency proceedings or equivalent proceedings under the law applicable to the Company with respect to the assets of the Company, or (B) voluntary or involuntary liquidation, insolvency, winding-up or similar proceedings affecting the Company have been opened under the law applicable to the Company, or (C) the Company has been liquidated, become insolvent or wound up, or a similar event has occurred with respect to the Company under the law applicable to it;

- (iv) a takeover offer, which is deemed to have been made within the meaning of these Terms and Conditions of the Warrants if an offer for takeover, purchase, exchange or any other offer has been received, the result of which is or would be that one person acquires or receives, or would acquire or receive, more than 10% und less than 100% of the shares in the Company, whether by way of conversion or by other means, or acquires or would acquire a corresponding right. Whether a takeover offer has been made will be determined by the Calculation Agent at its reasonable discretion (Sec. 317 *BGB*) on the basis of notifications by government or other relevant bodies or on the basis of other information considered to be relevant by the Calculation Agent;
- (v) a valid completion of a takeover offer, i.e. an announcement by the offeror that a takeover offer has irrevocably come into effect;
- (vi) a **“Merger Event”**, which is deemed to have occurred if in relation to [a share][and/or][an American Depositary Receipt][and/or][a [Global] Depositary Receipt][and/or][an Ordinary Depositary Receipt] as Underlying
  - a. a reclassification or change in the content of the Underlying has occurred with the result that all the shares in the Company are transferred to a particular person has taken place or an irrevocable obligation to make such a transfer exists;
  - b. a consolidation, amalgamation or merger of the Company with another company has occurred (unless the Company is the continuing entity and the amalgamation does not result in a reclassification or change in the content of the shares);
  - c. a takeover offer of any kind has been made, which is deemed to be the case within the meaning of these Terms and Conditions of the Warrants if an offer for takeover, purchase, exchange or any other offer from a person has been received to acquire or receive 100% of the shares in the Company with the result that all the shares in the Company (except for those already held or controlled by that person) are transferred to that person or an irrevocable obligation to make such a transfer exists;
  - d. a consolidation, amalgamation or merger of the Company or of one of its subsidiaries with another company has occurred and the continuing entity is the Company and this does not result in a reclassification of shares or change in the content of the Underlying, but results in the shares of the Company prior to this event (except for those held or controlled by the other company) representing less than 50% of the shares in the Company immediately after the occurrence of the event[.];

**The following provision applies in addition if an American Depositary Receipt or Global Depositary Receipt or Ordinary Depositary Receipt is used as Underlying:**

The following additional provisions apply to [American Depositary Receipts] [and] [or] [Global Depositary Receipts] [and] [or] [Ordinary Depositary Receipts]:

- (vii) Changes or additions to the Custodian Agreement;
- (viii) If the Custodian Agreement is terminated, all references to the Underlying shall, from the termination date onwards, be deemed replaced by the respective Underlying Share or the Underlying of the Company concerned. In this case, the Issuer and the

Calculation Agent shall, at their reasonable discretion, make such adjustments as they consider appropriate and determine the record date for such replacement/adjustment.]

[(vii)][(ix)] The rules set out above shall apply *mutatis mutandis* to events other than those described above [for which the Issuer is not accountable] which, in the opinion of the Issuer and the Calculation Agent at their reasonable discretion, are comparable to those events in terms of their economic effects and may have an influence on the calculated value of the [share] [or the shares] [Underlying Share or the Underlying of the company concerned].]

**[The following provision applies if other equity security (e.g. a profit participation certificate) is used as Underlying:**

[(vii)][(viii)][(ix)][(x)] The provisions of paras. (1) to (4) relating to other equity securities and the issuing Company shall apply *mutatis mutandis* to Underlyings other than those described above, such as other equity securities (e.g. profit participation certificates).]

**[The following provision applies in all cases:]**

- [•] Calculations, decisions and determinations according to the foregoing paragraphs shall be made by the Calculation Agent (§ 8 of Part B of the Terms and Conditions of the Warrants (General Conditions)) on behalf of the Issuer and shall be binding for all parties involved, except in cases of manifest error. All adjustments and the date on which they take effect shall be published without undue delay in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions).

**[If the Underlying is a Benchmark as defined in Regulation (EU) 2016/1011 of the European Parliament and of the Council, insert the following:**

- [(•)] The Underlying is a Benchmark as defined in Regulation (EU) 2016/1011 of the European Parliament and of the Council (the “**Benchmark Regulation**”). Therefore, the following additional provisions shall apply:

If the Underlying (the “**Benchmark**”), as determined by the Calculation Agent, can no longer be used due to statutory or authority requirements, in particular

- (i) upon occurrence of a “**Non-Approval Event**”: if any approval, registration, recognition, endorsement, equivalence decision or any authorisation of a Benchmark or its administrator has not and will not be granted, the Benchmark or its administrator is not and will not be included in the register according to Art. 36 Benchmark Regulation or the Benchmark or its administrator does not meet statutory or regulatory requirements relating to the Warrants, the Issuer, the Calculation Agent or the Benchmark;

a Non-Approval Event shall not be deemed to have occurred if the Benchmark or its administrator is not or will not be included in a register because its approval, registration, recognition, endorsement, an equivalence decision or an authorisation is suspended if, at the time of suspension, the continued provision and use of the Benchmark in relation to the Warrants is permitted under applicable laws and regulations during the suspension;

- (ii) upon occurrence of a “**Rejection Event**”: if the relevant competent authority or any other relevant official body rejects or denies, or will reject or deny, a necessary

application for approval, registration, recognition, endorsement, an equivalence decision, authorisation or inclusion in the register according to Art. 36 Benchmark Regulation with respect to the Warrants, the Benchmark or its administrator which are required under all laws and regulations applicable to the Issuer, the Calculation Agent or any other unit to comply with the obligations relating to the Warrants, or

- (iii) upon occurrence of a “**Suspension or Withdrawal Event**”: if the relevant competent authority or any other relevant official body suspends or withdraws, or will suspend or withdraw, any approval, registration, recognition, endorsement, equivalence decision or authorisation of the Benchmark or its administrator which are required under all laws and obligations applicable to the Issuer, the Calculation Agent or any other unit to comply with the obligations relating to the Warrants, or the Benchmark or its administrator are not included in a register according to Art. 36 of the Benchmark Regulation, or its inclusion has been withdrawn, if inclusion in this register is or will be required under the respective applicable law in order to comply with the obligations of the Issuer, the Calculation Agent or any other unit relating to the Warrants;

a Suspension or Withdrawal Event shall not be deemed to have occurred if any approval, registration, recognition, endorsement, equivalence decision or authorisation is suspended or withdrawn, or the inclusion in an official register is withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Benchmark in relation to the Warrants is permitted under applicable laws and regulations during such suspension or withdrawal;

(each a “**Potential Adjustment Event**”), the provisions [of para. [●]] [of paras. [●]] shall apply *mutatis mutandis* to an adjustment or Adjustment Event. In particular, the Issuer or the Calculation Agent, respectively, can determine [a Successor Underlying] [and/or] [a Successor Reference Source] or adjust the Warrants or terminate them by extraordinary termination.]

#### § 4

##### Market Disruptions

- (1) **[insert in the case of Warrants other than Constant Leverage Warrants, if relevant:** [(a)] [In deviation from para. (1)(b), if] [If], in the opinion of the Calculation Agent, a Market Disruption as defined in para. (2) has occurred at the time of determination of the relevant price, the relevant date shall be postponed to the following Trading Day on which no Market Disruption is present anymore. If the Valuation Date is postponed, the Settlement Date shall be adjusted accordingly.
- [(b) If a Market Disruption has occurred during the Observation Period, the Calculation Agent may, at its reasonable discretion (Sec. 317 *BGB*), as long as such Market Disruption continues, either suspend the determination of the [Knock-Out Event] [Stop-Loss Event] [Observation Price] or use a replacement price of the Underlying (instead of the Observation Price) in determining whether a [Knock-Out Event] [Stop-Loss Event] has occurred.]

**[insert in the case of Constant Leverage Warrants, if relevant:**

- (1) If, in the opinion of the Calculation Agent, **[in the case of an Emerging Country Market Disruption, insert, if applicable:** an Emerging Country Market Disruption (as defined in § 1 para. (4)) or] a Market Disruption as defined in para. (3) has occurred at the time of determination of the relevant price, the following shall apply subject to the last paragraph of this § 4:
- (a) either the Calculation Agent shall, at its reasonable discretion (Sec. 317 BGB), determine the point in time at which the relevant price is determined and a replacement price of the Underlying as the relevant price on the basis of the then prevailing market practice, taking into account the then prevailing market conditions[, provided that the Warrants have been terminated by ordinary termination in accordance with § 2 para. (3)], or
  - (b) the relevant date shall be postponed to the following Trading Day on which no **[in the case of an Emerging Country Market Disruption, insert, if applicable:** Emerging Country Market Disruption or] Market Disruption is present anymore. If the [relevant] Valuation Date is postponed, the Settlement Date shall be adjusted accordingly.
- (2) If a Market Disruption has occurred during the Observation Period, the Calculation Agent may, at its reasonable discretion (Sec. 317 BGB) as long as such Market Disruption continues, either suspend the determination of the Observation Price or use a replacement price of the Underlying as the Observation Price that is to be determined by the Calculation Agent on the basis of the then prevailing market practice, taking into account the then prevailing market conditions.]

**[The following provision applies if an index is used as Underlying:**

**[(2)][(3)] “Market Disruption” means:**

- (a) the suspension or material restriction of trading (i) in the Index Components contained in the Underlying on the Index Exchange, provided that such Index Components represent at least 20% of the market capitalisation of all Index Components included in the Underlying or (ii) in futures or option contracts linked to the Underlying on the Futures Exchange,
- (b) an event that interrupts or impairs the ability of market participants (i) to carry out transactions in Index Components representing at least 20% of the market capitalisation of all Index Components, or to obtain market prices for such Index Components, or (ii) to carry out transactions in futures or option contracts linked to the Underlying on the Futures Exchange [,][or]
- (c) that the Index Exchange in respect of Index Components representing at least 20% of the market capitalisation of all Index Components or the Futures Exchange closes before its normal close of trading. This shall not apply if the Index Exchange or Futures Exchange announces the close of trading at least one hour prior to the actual close of trading or, if earlier, prior to the latest time for submitting orders to the Index Exchange or Futures Exchange for execution at the valuation time on the relevant Trading Day[.] [or]

[(d) if [the performance of the index deviates from the performance of the futures or option contracts linked to the index that serve as hedging instruments by [more than] [●].] [●]]

[(3)][(4)] In deviation from para. (1) [(a)], if the Valuation Date has been postponed by a number of Trading Days greater than that specified in the definition of the term “Valuation Date” in § 1 following the end of the original day and the Market Disruption still continues on that day, that day shall be deemed the Valuation Date. The price of the Underlying used for the purpose of determining the relevant price shall then be the price determined by the Calculation Agent on the basis of the manner and method of calculation of the Underlying that applied immediately before the Market Disruption occurred. In this context, the Calculation Agent shall value the Index Components at the price defined on the Index Exchange for the time of determination on the date originally appointed and not on the postponed date. If the Market Disruption is based on the fact that a Market Disruption has occurred in relation to an individual Index Component, the Calculation Agent shall determine the price of the relevant Index Component at its reasonable discretion (Sec. 317 BGB).]

***[The following provision applies if a share or American Depositary Receipt or Global Depositary Receipt or Ordinary Depositary Receipt is used as Underlying.]***

[(2)][(3)] **“Market Disruption”** means:

- (a) the suspension or material restriction of trading (i) in the Underlying at the Reference Source or (ii) in futures or option contracts linked to the Underlying on the Futures Exchange;
- (b) an event that interrupts or impairs the ability of market participants (i) to carry out transactions in the Underlying at the Reference Source, or to obtain a market price for the Underlying at the Reference Source, or (ii) to carry out transactions in futures or option contracts linked to the Underlying on the Futures Exchange or to obtain a market price for such futures or option contracts in the Futures Exchange; or
- (c) that the Reference Source closes before its normal close of trading. This shall not apply if the Reference Source announces the close of trading at least one hour prior to the actual close of trading or, if earlier, prior to the latest time for submitting orders to the Reference Source for execution at the valuation time on the relevant Trading Day.

[(3)] In deviation from para. (1) [(a)], if the Valuation Date has been postponed by a number of Trading Days greater than that specified in the definition of the term “Valuation Date” in § 1 following the end of the original day and the Market Disruption still continues on that day, that day shall be deemed the Valuation Date. The price of the Underlying used for the purpose of determining the relevant price shall then be the price determined by the Calculation Agent at its reasonable discretion (Sec. 317 BGB), taking into account the market conditions existing on the date originally appointed and not on the postponed date.]]

***[The following provision applies if a metal or commodity is used as Underlying.]***

[(2)][(3)] **“Market Disruption”** means:

- (a) the suspension or material restriction of trading in or establishing/determining prices of the Underlying at the Reference Source, or

- (b) the suspension or material restriction of trading in a futures or option contract linked to the Underlying on a Futures Exchange where futures or option contracts linked to the Underlying are traded, or
- (c) a material change in the method of determining prices or in the trading terms and conditions relating to the Underlying on the relevant market (e.g. in the nature, quantity or trading currency of the Underlying).

[(3)][(4)] In deviation from para. (1) [(a)], if the Valuation Date has been postponed by a number of Trading Days greater than that specified in the definition of the term “Valuation Date” in § 1 following the end of the original day and the Market Disruption still continues on that day, that day shall be deemed the Valuation Date. The price of the Underlying used for the purpose of determining the relevant price shall then be the price determined by the Calculation Agent on the basis of the manner and method of calculation of the Underlying that applied immediately before the Market Disruption occurred; the price of the Underlying shall be determined by the Issuer at reasonable discretion (Sec. 317 BGB).]

## **Part B: General Conditions**

### **§ 5**

#### **Form of the Warrants, collective safekeeping, minimum trading size, transferability**

***In case of Warrants deposited with Clearstream Banking AG, Frankfurt (global bearer note) the following applies:***

- (1) The Warrants are represented by a permanent global bearer note (the “**Global Bearer Note**”). The note bears the signatures of two authorised representatives of the Issuer. Warrants in physical form will not be issued. The holder of the Warrant (the “**Warrant Holder**”) shall have no right to be issued with the Warrant in physical form.

- (2) The Global Bearer Note has been deposited with the Clearing System. The Warrants are transferable as co-ownership interests.
- (3) For the purposes of transactions in securities by book entry, the Warrants shall be transferable only in units of one Warrant or an integral multiple thereof.
- (4) Warrants may be transferred individually in each case and traded in a minimum quantity of one Warrant or an integral multiple thereof.
- (5) The Issuer reserves the right to replace these Warrants issued by means of a note pursuant to § 6 (3) of the German Electronic Securities Act (Gesetz über elektronische Wertpapiere, “eWpG”) by electronic securities of the same content and registered in a central register within the meaning of § 4 (2) eWpG (the “**Central Register Securities**”). In this case, the Issuer shall be entitled to adjust the provisions in the Terms and Conditions of the Warrants which provide for securitisation by means of a note or require securitisation by means of a note to the amended form. Such amended form - including the amendments to the Terms and Conditions of the Warrants required for this purpose - shall be announced in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions).

***In case of Warrants issued as electronic securities in accordance with the German Electronic Securities Act (Gesetz über elektronische Wertpapiere) the following applies:***

- (1) The Warrants set out the Bearer and constitute electronic securities collectively registered in a Central Register within the meaning of § 4 (2) of the German Electronic Securities Act (Gesetz über elektronische Wertpapiere, “eWpG”) (the “**Central Register Securities**”).
- (2) The Warrants shall be registered in the Central Register maintained by the Registrar as central securities depository (the “**Clearing System**”) in collective safe custody entry with the central securities depository registered as Bearer (*Inhaber* within the meaning of the eWpG) of the Warrants. Prior to registration, the Terms and Conditions of the Warrants shall be deposited with the Registrar by or on behalf of the Issuer. The holder of a Warrant (*Berechtigter* within the meaning of the eWpG) (the “**Warrant Holder**”) shall have no right to individual registration in the Central Register.
- (3) The Warrants shall be registered for settlement in the book-entry securities account with the Registrar. Warrant Holders as beneficiaries of a co-ownership interest in the collective securities deposit pursuant to § 3 (2) and § 9 (1) eWpG may transfer their co-ownership interests in accordance with the applicable provisions and rules of the Registrar and the applicable law.
- (4) Pursuant to § 9 (2) eWpG, the Bearer shall hold the Securities as trustee for the benefit of the Warrant Holders without being a beneficiary itself (§ 9 (2) sentence 1 eWpG). The Warrants shall remain registered in the Central Register until all obligations of the Issuer arising from the Warrants have been fulfilled or until they are removed from the Central Register for another reason, e.g. in the case of an exchange for a securities note upon repurchase and cancellation.
- (5) The Issuer reserves the right to replace these Central Register Securities pursuant to § 6 (2) eWpG with securities of identical content in the form of a note. In this case, the Issuer shall be entitled to adjust the provisions in the Terms and Conditions of the Warrants which provide for the electronic form or require an electronic form, to the amended form. Such amended form - including the amendments to the Terms and Conditions of the Warrants required for this purpose - shall be announced in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions).

***In case of Warrants cleared through Euroclear France (dematerialised bearer form) the following applies:***

- (1) The Warrants will be issued in dematerialised bearer form (*au porteur*). Title to the Warrants will be evidenced by book entries (*inscription en compte*) in compliance with Articles L. 211-3 et seq. and R. 211-1 et seq. of the French Monetary and Financial Code (*Code monétaire et financier*). No physical document of title (including *certificats représentatifs* pursuant to Article R. 211-7 of the French Monetary and Financial Code) will be issued in respect of the Warrants.
- (2) Transfers of the Warrants and other registration measures shall be made in accordance with the French Monetary and Financial Code, the regulations, rules and operating procedures applicable to and/or issued by the Clearing System. Title to Warrants cleared through the Clearing System shall pass upon, and transfer of such Warrants may only be effected through, registration of the transfer in the accounts of the Warrant Account Holders (as defined below)
- (3) The term “**Warrant Holder**” in these Terms and Conditions refers to any person holding Warrants through a financial intermediary entitled to hold accounts directly or indirectly with the Clearing System on behalf of its customers (the “**Warrant Account Holder**”) or, in the case of a Warrant Account Holder acting for its own account, such Warrant Account Holder.
- (4) Warrants may be transferred individually in each case and traded in a minimum quantity of one Warrant or an integral multiple thereof.

***In case of Warrants cleared through Euroclear Netherlands (registered form) the following applies:***

- (1) The Warrants will be issued in registered form and will be deposited with the Clearing System.
- (2) Definitive Warrants will not be issued. The right of the holder of a Warrant (the “**Warrant Holder**”) to delivery of definitive Warrants is excluded. The Warrant Holders shall receive co-ownership participations in or rights with respect to the registered Warrants which are transferable in accordance with the Dutch Securities Giro Act (*Wet giraal effectenverkeer*) and the rules and regulations of the Clearing System.
- (3) Warrants may be transferred individually in each case and traded in a minimum quantity of one Warrant or an integral multiple thereof.

***In case of Warrants cleared through Monte Titoli (dematerialised form) the following applies:***

- (1) The Warrants will be issued in dematerialised book-entry form pursuant to the Italian Legislative Decree No. 58 of 24 February 1998, as amended and supplemented from time to time (the “Italian Financial Services Act”) and the relevant implementing regulations and are registered in the books of the Clearing System. No physical document of title will be issued to represent the Warrants.
- (2) The transfer of the Warrants operates by way of registration on the relevant accounts opened with the Clearing System by any intermediary adhering, directly or indirectly, to the Clearing System (the “**Warrant Account Holder**”). As a consequence, the subject who from time to time is the owner of the account held with a Warrant Account Holder will be considered as the

legitimate owner of the Warrants (the **“Warrant Holder”**) and will be authorised to exercise all rights related to them. For such purposes, where necessary, the Warrant Holder may ask the Warrant Account Holder to issue certifications or release communications in accordance with articles 83-quinquies and 83-novies, paragraph 1, letter b), of the Italian Financial Services Act.

- (3) Warrants may be transferred individually in each case and traded in a minimum quantity of one Warrant or an integral multiple thereof.

***In case of Warrants cleared through IBERCLEAR (dematerialised registered form) the following applies:***

- (1) The Warrants will be registered with the Clearing System and will be represented by book entries in accordance with Article 6 of the Spanish Restated Securities Market Act approved by the Royal Decree Law 4/2015, of 23 October (the **“SMA”**). No physical document of title will be issued in respect of the Warrants.
- (2) Transfers of the Warrants shall be made in accordance with and governed by the SMA and the rules and procedures of Clearing System.
- (3) The term **“Warrant Holder”** refers to any person holding Warrants through a financial intermediary entitled to hold accounts with the Clearing System on behalf of its customers (the **“Warrant Account Holder”**) or, in the case of a Warrant Account Holder acting for its own account, such Warrant Account Holder.
- (4) Warrants may be transferred individually in each case and traded in a minimum quantity of one Warrant or an integral multiple thereof.

***In case of Warrants cleared through Euroclear Sweden (dematerialised registered form) the following applies:***

- (1) The Warrants will be issued in dematerialised form and will only be evidenced by book entries in the register of the Clearing System for registration of securities and settlement of securities transactions in accordance with Chapter 4 of the Swedish Financial Instruments Accounts Act (Sw. lag (1998:1479) *om kontoföring av finansiella instrument*) to the effect that there will be no certificated securities.
- (2) Registration requests relating to the Warrants shall be directed to an account operator.
- (3) Transfers of Warrants and other registration measures shall be made in accordance with the Swedish Financial Instruments Accounts Act (1998:1479), the regulations, rules and operating procedures applicable to and/or issued by the Clearing System. The Issuer is entitled to receive from the Clearing System, at its request, a transcript of the register for the Warrants.
- (4) **“Warrant Holder”** means any person that is registered in a book-entry account managed by the account operator as holder of a Warrant. For nominee registered Warrants the authorised custodial nominee account holder shall be considered to be the Warrant Holder.
- (5) Warrants may be transferred individually in each case and traded in a minimum quantity of one Warrant or an integral multiple thereof.

***In case of Warrants cleared through SIX SIS AG or registered with any other eligible custodian (uncertificated form) the following applies:***

- (1) The Warrants will be issued in uncertificated form as uncertificated securities (*Wertrechte*) in accordance with Article 973c of the Swiss Code of Obligations. The uncertificated securities (*Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtbuch*). Such uncertificated securities will then be entered into the main register (*Hauptregister*) of the Clearing System SIX SIS AG or any other eligible entity, including but not limited to BNP Paribas, Paris, Zurich Branch, acting as custodian (*Verwahrungsstelle*) as defined in article 4 of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*) (the “**FISA**”), each an “**Intermediary**”).
- (2) Once the uncertificated securities are registered in the main register (*Hauptregister*) of the Intermediary and are credited to the securities account(s) (*Effektenkonto/Effektenkonten*) of one or more participants or account holders, as the case may be, of the Intermediary, the Warrants will constitute intermediated securities (*Bucheffekten*) in accordance with the provisions of the FISA. None of the Issuer, nor any holder of the Warrants (the “**Warrant Holder**”), nor any third party shall at any time have the right to effect or demand the conversion of the uncertificated securities (*Wertrechte*) into, or the delivery of, a global security (*Globalurkunde*) or definitive securities (*Wertpapiere*).
- (3) As long as the Warrants are considered to be intermediated securities (*Bucheffekten*), they are transferrable only by entry of the transferred Warrants into a securities account (*Effektenkonto*) the transferee. None of the Issuer, nor any Warrant Holder, nor any third party shall at any time have the right to effect or demand the conversion of the uncertificated securities (*Wertrechte*) into, or the delivery of, a global security (*Globalurkunde*) or definitive securities (*Wertpapiere*).
- (4) Warrants may be transferred individually in each case and traded in a minimum quantity of one Warrant or an integral multiple thereof.

## **§ 6**

### **Status, Guarantee**

- (1) The Warrants constitute direct and non-subordinate liabilities of the Issuer in respect of which the Issuer has not provided collateral. The Warrants rank *pari passu* in right of payment with each other and with any other present and future unsecured and non-subordinated liabilities of the Issuer, to the exclusion of liabilities ranking senior by operation of mandatory law.
- (2) BNP Paribas S.A. of 16 boulevard des Italiens, 75009 Paris, France, (hereinafter referred to as the “**Guarantor**”) has provided an unconditional and irrevocable guarantee (hereinafter referred to as the “**Guarantee**”) for the due payment of all amounts to be paid under the Terms and Conditions of the Warrants if and as soon as the respective payment would be due under the Terms and Conditions of the Warrants. This Guarantee constitutes a direct, non-subordinated liability of the Guarantor.

## **§ 7**

### **Payments**

- (1) All payments to be made under the Warrants in accordance with the Terms and Conditions of the Warrants shall be made by the Issuer or the Guarantor, as the case may be, via the Paying Agent by means of bank transfer to the Clearing System, or Intermediary, as the case may be, or its successor to forward these monies to the Warrant Holders. By making payment to or for the benefit of the Clearing System, or Intermediary, as the case may be, or its successor, the Issuer or the Guarantor, respectively, shall be released from its payment obligation.
- (2) If the Settlement Currency is replaced by another or new currency, such new currency shall become the Settlement Currency of the Warrants.
- (3) All taxes, fees or other levies incurred in connection with a payment shall be borne and paid by the Warrant Holder. The Issuer, the Guarantor and/or the Paying Agent shall have the right to withhold from the amount due, and pay, any taxes or levies to be borne and paid by the Warrant Holder in accordance with the foregoing sentence. Neither the Issuer nor the Guarantor shall have an obligation to make additional payments to the Warrant Holders to compensate for any such amounts withheld.

## § 8

### Calculation Agent, Paying Agent

- (1) BNP Paribas Financial Markets S.N.C., 20 boulevard des Italiens, 75009 Paris, France, BNP Paribas S.A., 16 boulevard des Italiens, 75009 Paris, France, or BNP Paribas S.A., London Branch, 10 Harewood Avenue, London NW1 6AA, United Kingdom, or any other branch of BNP Paribas S.A. may act as calculation agent (the “**Calculation Agent**”), in which case the Calculation Agent for the respective security shall be determined in Part A, § 1 (Product Specific Conditions) of the Final Terms. BNP Paribas S.A. Niederlassung Deutschland (German branch), Senckenberganlage 19, 60325 Frankfurt am Main, Germany, is the Principal Paying Agent (the “**Principal Paying Agent**”). For Warrants deposited or cleared through a Clearing System other the Clearstream Banking AG Frankfurt, or registered with an Intermediary, the additional paying agent (the “**Additional Paying Agent**”, the Additional Paying Agent together with the Principal Paying Agent, each a “**Paying Agent**”) for the respective Clearing System, or Intermediary, as the case may be, shall be determined in Part A, § 1 (Product Specific Conditions) of the Final Terms. The Issuer shall have the right to replace the Calculation Agent and the Paying Agent at any time with another bank or financial institution that, in the case of the Paying Agent, has its headquarters or a branch in a Member State of the European Union, to appoint one or more additional Calculation Agents or Paying Agents and to revoke their appointment. Any such replacement, appointment and revocation shall be published in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions) without undue delay.
- (2) Calculations, decisions and determinations according to the Terms and Conditions of the Warrants shall be made by the Calculation Agent on behalf of the Issuer with the care and diligence of a prudent businessman and shall be binding for all parties involved, except in cases of manifest error. Calculations and amounts shall be rounded by the Calculation Agent at its reasonable discretion (Sec. 315 BGB).
- (3) The Calculation Agent and the Paying Agent shall each have the right to resign from their appointment at any time. The resignation shall take effect only when another bank or financial

institution has been appointed as Calculation Agent or Paying Agent, respectively, that, in the case of the Paying Agent, has its headquarters or a branch in the Federal Republic of Germany. Any resignation and appointment shall be published in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions) without undue delay.

- (4) The Calculation Agent and the Paying Agent shall act only as vicarious agents (*Erfüllungsgehilfen*) of the Issuer. The Calculation Agent and the Paying Agent are exempt from the restrictions of Sec. 181 *BGB* and any restrictions of a similar nature under the applicable laws of other countries.

## **§ 9 Notices**

Notices relating to the Warrants shall be published on the Website for Notices as specified Part A, § 1 (Product Specific Conditions) of the Final Terms (or another website communicated by the Issuer with at least six weeks advance notice in accordance with these provisions) and become effective vis-à-vis the Warrant Holders through such publication unless the notice provides for a later effective date. In addition, where permitted, notices shall be communicated via the Clearing System, if applicable. If the Warrants are admitted to trading on the regulated market of a securities exchange, notices shall be given in accordance with the requirements of the authorities competent for that securities exchange. In the event that a notice is communicated via the Clearing System, the notice shall be deemed received by Warrant Holders on the third (3<sup>rd</sup>) day after the day the notice was given to the Clearing System. For the avoidance of doubt, any notice published on the Website for Notices which has become effective shall prevail over the notice via the Clearing System.

## **§ 10 Increase of Issue Size, Repurchase**

- (1) The Issuer shall have the right to issue additional Warrants with the same features at any time such that they are consolidated with the existing Warrants, form a single issue together with them and increase their number. In the event of such an increase of issue size, the term “Warrants” shall also include such additional Warrants issued in addition to those already existing. Any such increases shall be published in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions).
- (2) During the term of the Warrants, the Issuer shall have the right at any time to repurchase Warrants on the stock exchange or by means of off-exchange transactions at any price via a company affiliated with it. The Issuer shall not have an obligation to inform the Warrant Holders of this fact. The repurchased Warrants may be cancelled, held, resold or used by the Issuer in some other way.

## **§ 11 Miscellaneous**

- (1) The form and content of the Warrants and all rights and obligations arising from them shall be determined in all respects in accordance with the laws of the Federal Republic of Germany except for § 5 of Part B of the Terms and Conditions of the Warrants (General Conditions) which shall be governed by, and shall be construed in accordance with the laws of the jurisdiction in which the Clearing System or Intermediary, as the case may be, is located, in case of Warrants deposited or cleared through a Clearing System other than Clearstream Banking AG, Frankfurt, or in case of Warrants registered with an Intermediary.
- (2) To the extent permitted by law, the place of performance shall be Frankfurt am Main and the courts of Frankfurt am Main shall have jurisdiction to adjudicate any disputes arising from or in relation to the Warrants. However, the Warrant Holders may nevertheless assert their claims before all other competent courts. The Issuer hereby submits to the jurisdiction of the courts competent according to this paragraph.

## Annex A Definitions

This Annex A includes definitions which, in accordance with the provisions of the Product Specific Conditions in Part A and in this Annex A, are to be included at the places indicated in § 1 of the Terms and Conditions of the Warrants, or can be included optionally or depending on the issuance parameters of the Warrants. “Reference Rate (‘RR’)”:

**If an index, share, American Depositary Receipt, Global Depositary Receipt, Ordinary Depositary Receipt, metal or commodity is used as Underlying and in the case of Warrants other than Constant Leverage Warrants:**

means, with respect to the respective determination of the Relevant Strike<sub>new</sub> the Reference Rate allocated to the Underlying in the table at the end of § 1 as currently published on the [Reuters page] [Refinitiv page] [website] [●] listed in the table below under “Reference Rate/[Reuters page] [Refinitiv page] [website] [●]”.

In the event that the Reference Rate in relation to an Adjustment Date is determined and published multiple times in the future, the Calculation Agent shall determine at its reasonable discretion (Sec. 317 BGB) which of those Reference Rates is to be relevant and applicable in the future and where it will be published; the Issuer shall publish this decision in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions).

In the event that

- (a) a change occurs in the determination of the Reference Rate or in the determining body [(Determination Agent)] that has or may have an influence on the level of the Reference Rate,
- (b) the Reference Rate is cancelled without a replacement,
- (c) [the [respective] Reference Source] [Determination Agent] [determining body] [●] is unable to calculate the Reference Rate, or
- (d) the Reference Rate can no longer be used due to statutory requirements,

the Calculation Agent shall, at its reasonable discretion (Sec. 317 BGB), replace the Reference Rate with the Reference Rate then prevailing in the market. The new Reference Rate shall be published by the Issuer in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions).]

**If a currency exchange rate is used as Underlying:**

means, with respect to the respective determination of the Relevant Strike<sub>new</sub> and in each case with respect to the relevant Adjustment Date, the difference between the Reference Rate 1 allocated (to the Underlying in the table at the end of § 1) as published on [●][the respective [Reuters page] [Refinitiv page] [website] [●] 1] and Reference Rate 2 as published on [●][the respective [Reuters page] [Refinitiv page] [website] [●] 2]. The

respective [Reuters page] [Refinitiv page] [●] is allocated to the respective Reference Rate in the table at the end of § 1.

The Reference Rate shall only be recalculated if both Reference Rates for the respective Adjustment Date are determined and published. If this is not the case, the Reference Rate determined for the purpose of determining the respective Relevant Strike<sup>(Preceding)</sup> shall be used for the current calculation.

In the event that a Reference Rate in relation to an Adjustment Date is determined and published multiple times in the future, the Calculation Agent shall determine at its reasonable discretion (Sec. 317 *BGB*) which of those Reference Rates is to be relevant and applicable in the future for the calculation of the Reference Rate and where it will be published for the purpose of determining the Reference Rate; the Issuer shall publish this decision in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions).

In the event that

- (a) a change occurs in the determination of at least one of the Reference Rates or in the determining body [(Determination Agent)] that has or may have an influence on the level of the respective Reference Rate,
- (b) at least one of the Reference Rates is cancelled without a replacement,
- (c) [the [respective] Reference Source] [Determination Agent] [determining body] [●] is unable to calculate the respective Reference Rate, or
- (d) at least one of the Reference Rates can no longer be used due to statutory requirements,

the Calculation Agent shall, at its reasonable discretion (Sec. 317 *BGB*), replace the [respective] Reference Rate with the [respective] Reference Rate then prevailing in the market. The [respective] new Reference Rate shall be published by the Issuer in accordance with § 9 of Part B of the Terms and Conditions of the Warrants (General Conditions).]

## **XV. FORM OF FINAL TERMS INCORPORATED BY REFERENCE IN THIS BASE PROSPECTUS**

In accordance with Article 8(11) of the Prospectus Regulation, the Issuer may, under the Base Prospectus, continue the public offer of Securities started under a Previous Base Prospectus after the expiry of the validity of the Previous Base Prospectus. Only for the purposes of the requirements in Article 8(11) of the Prospectus Regulation, the Form of Final Terms contained in the Previous Base Prospectuses mentioned below is hereby incorporated by reference into this Base Prospectus:

- the Form of the Final Terms contained on pages 212 to 223 of the Base Prospectus dated 24 October 2023 for the issue of new Warrants, continuation of the public offer and increase of the issue size of previously issued Warrants linked to indices, shares, currency exchange rates, metals, commodities, futures contracts and/or depositary receipts of BNP Paribas Emissions- und Handelsgesellschaft mbH.
- the Form of the Final Terms contained on pages 199 to 209 of the Base Prospectus dated 24 October 2022 for the issue of new Warrants and increase of the issue size of previously issued Warrants linked to indices, shares, currency exchange rates, metals, commodities, futures contracts and/or depositary receipts of BNP Paribas Emissions- und Handelsgesellschaft mbH.

The relevant Form of Final Terms should be read exclusively against the background of the continuation of the public offer of Warrants issued under the relevant Previous Base Prospectus. However, these Form of Final Terms will not be used for the preparation of new Final Terms under the Base Prospectus.

A list setting out where the information incorporated by reference is included is also provided in section "III. GENERAL INFORMATION ON THE BASE PROSPECTUS, 6. Information incorporated by reference a) Information incorporated by reference regarding the Terms and Conditions of the Warrants and the Form of Final Terms" above.

## **XVI. CONTINUED OFFERS**

The public offer of the Warrants with the following International Securities Identification Number ("**ISIN**") which were already issued under the Base Prospectus dated 24 October 2022 and whose public offer was continued under the Previous Base Prospectus dated 24 October 2023 or issued under the Base Prospectus dated 24 October 2023 (each a "**Previous Base Prospectus**") may be continued under this Base Prospectus after the expiry of the validity period of the Previous Base Prospectus:
